**Re. Desert Peak Energy Peak, Case 5.1543-CUP  
Notice of Completion (5/5/2022)  
Initial Study/Mitigated Negative Declaration – April 2022**

The Desert Peak Energy Center Case No. 5.1543-CUP Notice of Completion (NOC) and Initial Study/Mitigated Negative Declaration (IS/MND) were posted on the Office of Planning & Research's (OPR) State Clearinghouse (SCH) website for public review on May 5, 2022. Subsequent to posting, certain minor errors were identified in the NOC and the IS/MND. An Errata which identifies those minor changes that are incorporated into the publicly circulated documents and are shown using strikeout for text that is removed and underline for text that is added.

These minor changes do not change the environmental analysis or conclusions contained in the IS/MND. The text changes shown in the attached document correct typographical errors in the IS/MND, while the technical reports added are versions that inadvertently were omitted from the posted IS/MND, but which are consistent with the analysis in the IS/MND. Thus, the minor changes presented in this erratum do not represent substantial revisions that would require recirculation of the environmental document, as described in State CEQA Guidelines Section 15073.5. Specifically, the revisions do not result in new significant environmental impacts, do not constitute significant new information, and do not alter the conclusions of the environmental analysis or effectiveness of the mitigation measures.

Please feel free to contact me directly at [Edward.robertson@palmspringsca.gov](mailto:Edward.robertson@palmspringsca.gov) for any additional questions regarding this matter.

Sincerely,

Edward Robertson  
Principal City Planner
