Project Description: (please use a separate page if necessary)

The proposed project involves the development of 88 low density single family residential dwelling units. The proposed project would result in on-site infrastructure improvements, including new local residential streets and new and relocated utilities. The proposed project would include ROW dedications and street improvements, including the build out of Seminole Avenue and frontage improvements on Morrison Street, including curb, gutter, and sidewalks. Construction is proposed to begin in February 2023 and continue through February 2025.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
