Project Title: Agreement between Mojave Water Agency and Zone 7 Water Agency for Transfer of Table A Water 2022

Project Location – Specific: Mojave Water Agency (“MWA”) is a State Water Project (“SWP”) contractor located in San Bernardino County. The Alameda County Flood Control and Water Conservation District – Zone 7 (“Zone 7 Water Agency” or “Zone 7”) is a SWP contractor located in Alameda County. The California Department of Water Resources (“DWR”) is headquartered in Sacramento, California. The SWP includes facilities located throughout the State of California.

Project Location – County: San Bernardino and Alameda Counties.

Description of Nature, Purpose, and Beneficiaries of Project: Zone 7 and MWA are SWP Contractors that receive imported water deliveries from the SWP. MWA and Zone 7 each have water supply contracts with DWR for water from the SWP. Given the 2022 SWP allocation of only 5%, Zone 7 is anticipating the need of additional surface water in 2022 to meet its projected demands. Under this agreement, MWA shall make available and Zone 7 shall take delivery of up to 1,500 AF of MWA’s Table A water in 2022. Water will be delivered using existing SWP facilities, and in a manner similar to other deliveries from the SWP.

Name of Public Agency Approving and Carrying Out Project: The agreement for the transfer will be signed by Zone 7 and MWA, and the water transfer is subject to approval by the Department of Water Resources.
