

# Memorandum

**Date** : 5/31/2022

**To** : State Clearinghouse

**From** : Department of Parks and Recreation

**Subject** : Change of Project Title for SCH #2022050528

Gilbane Building Company requested a Right of Entry permit from the Department of Parks and Recreation to install an overhead crane on Parks property for a renovation project. Gilbane is a project manager for the renovation project of the Old Natural Resources Building in Sacramento. The Notice of Exemption (SCH #2022050528) for the permit was filed for Gilbane since they made the request, however Turner Construction Company needs to get the permit since they are installing the crane.

The project was titled "Issue Right of Entry Permit to the Gilbane Building Company" in the submitted and published Notice of Exemption (SCH #2022050528). The title should read "Issue Right of Entry to Turner Construction Company." None of the project scope or purpose would change.
