

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Huer Huero Bridge and Roundabout

Lead Agency: City of Paso Robles

Contact Name: Warren Frace

Email: wfrace@prcity.com

Phone Number: 805-237-3970

Project Location: Paso Robles

City

San Luis Obispo

County

Project Description (Proposed actions, location, and/or consequences).

The City of el Paso de Robles proposes to construct vehicular routes and multi-use paths that reduce traffic on Highway 46 near Airport Road. The New Airport Road extension and bridge over Huer Huero Creek will connect businesses and residences south and west of the creek with the Paso Robles Airport, businesses, and residences north and east of the creek. The Project consists of three main components located within a Project area of approximately 13.3 acres: (1) the New Airport Road extension and bridge across Huer Huero Creek, (2) realignment of a portion of Airport Road and a new roundabout intersection with New Airport Road, and (3) a Class I trail extending from Union Road in front of Barney Schwartz Park to the Cava Robles RV Resort.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Aesthetics - the project is near a city gateway, state highway eligible for designation as a State Scenic Highway, and city Open Space Viewshed; proposed mitigation includes oak tree planting above that required by the oak tree protection ordinance.

Air Quality - fugitive dust mitigation, construction equipment mitigation

Biological Resources - implementation of a Habitat Mitigation and Monitoring Plan, worker education, oak tree protection and replanting, avoidance, pre-construction surveys, and San Joaquin kit fox habitat mitigation, and permanent trail signage

Cultural Resources / Tribal Cultural Resources - worker education, and monitoring by a qualified archaeologist

Geology - grading limitations and erosion control measures

Hazards - implementation of a Spill Prevention and Countermeasure Plan

Hydrology and Water Quality - road improvements will have impact on a jurisdictional feature; proposed mitigation includes implementation of a Stormwater Pollution Prevention Plan, Erosion and Sediment Control Plan, and Dewatering and Diversion Plan; minimization of dry channel crossings

Noise - limitation of construction hours and reduction of construction activity noise

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Increasing traffic on Highway 46E has been a concern of Caltrans.

Provide a list of the responsible or trustee agencies for the project.
