Project Location: Manila Humboldt
City *County*

Project Description (Proposed actions, location, and/or consequences).

A Coastal Development Permit to allow trail work and native plant restoration in accordance with the HCNC Restoration and Management Plan on an area of approximately 97 acres. Specific activities would include establishment of a trailhead and a "No Parking" sign. Public access would allow pedestrians, dog walking, and horseback riding on designated trails during daylight hours only. An existing "private property" sign and metal gate at the proposed trailhead would be removed and replaced with a new fence designed to allow pedestrian and horse access while blocking access to motorized vehicles.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources - There are six mitigation measures related to Biological Resources which require avoidance of wetlands and special status plant species during restoration activities and during maintenance and construction of trails.

Cultural Resources - There is one mitigation measure related to Cultural Resources which requires establishment of a protocol for inadvertent discovery of cultural or archaeological resources.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Proximity to wetlands and special status plant species.

Provide a list of the responsible or trustee agencies for the project.
