NOTICE OF INTENT TO ADOPT MITIGATED NEGATIVE DECLARATION

Notice is hereby given that the City of Lincoln has prepared an Initial Study (IS) of environmental effects and intends to adopt a Mitigated Negative Declaration (MND) and Mitigation Monitoring/Reporting Plan (MMRP) for the Lincoln Regional Airport Runway Reconstruction project. The City of Lincoln is the Lead Agency for this project under the California Environmental Quality Act (CEQA).

The project proposes to reconstruct Runway 15-33, which extends 6,001 feet, by removing existing asphalt, recompacting the aggregate base, and adding new aggregate base and asphalt. It also proposes to regrade the runway safety areas (RSA) surrounding Runway 15-33, replace two Precision Approach Path Indicators (PAPIs) and an existing Medium Intensity Approach Lighting System with Runway Alignment Indicator Lights (MALSR), and removing a small rise adjacent to the runway.

The IS/MND analyzes the potential environmental effects of the project in the environmental issue areas specified in the State CEQA Guidelines. Based on this analysis, the Public Review Draft IS/MND finds that the project will not involve any significant environmental effects, provided that the mitigation measures described in the IS/MND are implemented. The project proponent has agreed to the mitigation measures, and these measures are included in a MMRP to be adopted by the City of Lincoln in conjunction with the IS/MND and approval of the project.

Copies of the IS/MND are available for public review at the City of Lincoln Engineering Department (3rd Floor) at the address shown above, Lincoln Regional Airport 1480 Flightline Drive, Lincoln, and at the City's website:

<https://www.lincolnca.gov/en/business-and-development/economic-development.aspx>

The City will accept public and agency comments on the IS/MND during a 30-day review period that will begin on June 23, 2022 and end on July 22, 2022. Comments may be submitted by mail or e-mail to the City at the address shown below :
