**Project Description**

The California Department of Transportation proposes a culvert replacement project at two locations, state route (SR) 108 at post mile (PM) 7.0 and interstate route (I) 5 at post mile 18.3, in Stanislaus County. At SR-108, PM 7.0, a new inlet and culvert will be placed. A flared end section will be installed at the outlet, and existing cross culvert left in place. At I-5, PM 18.3, the down drain will be replaced. Additionally, the existing HMA apron at the down drain inlet will be replaced. The eroded slope will be backfilled. To prevent the failure of the shoulders and traveled lanes, this project is necessary to prevent further damage to the embankment and potential embankment loss due to flooding.
