RE: SCH#2022060548

I was requested to review the proposed State Route 74 Lake Elsinore Median Buffer and Widen Shoulders project. The California Highway Patrol's (CHP) interest in commenting relates to the construction phase of the project. The proposed construction will require the complete closure of State Route 74 on numerous occasions, including 55 hour full closures. The construction phase will have a significant impact on traffic and require extensive traffic control measures. If additional information is needed, please contact Sergeant Baer at (951) 506-2000.

N. W. BAER, Sergeant

Good afternoon,

I am following up to see if an impact was determined for SCH # 2022060548, which was due to the Lead Agency on 07/25/2022.

If there was no impact to the Temecula Area, you can reply to this e-mail as directed in the EIR Response Checklist. If there was an impact determined, and you reported directly to the Lead Agency with a cc to the state.clearinghouse@opr.ca.gov, please forward a copy of your response to EIR@chp.ca.gov and myself.

Thank you,

Subject: Environmental Document Review – SCH # 2022060548 – Due to Lead Agency by 7/25/2022

Good afternoon,

Special Projects Section (SPS) recently received the referenced Notice of Environmental Impact document from the State Clearinghouse (SCH) outlined in the following Web site:

[State Route 74 Lake Elsinore Median Buffer and Widen Shoulders \(ca.gov\)](#)

Due to the project's geographical proximity, please use the attached checklist to assess its potential impact to local operations and public safety. **If impact is determined**, responses should be e-mailed directly to the Lead Agency with cc to SCH and myself. **If there is no impact**, please do not include SCH or the Lead Agency in your response.

For more information on the EIR review process, please check out:  [Commanders EIR Training.pdf](#).

Please feel free to e-mail me if you have any questions.

Thank you,
