Project Title: Interstate 880 East Creek Slough Scour Mitigation Project (04-2J760) (Lake or Streambed Alteration Agreement No. EPIMS-ALA-26300-R3)

Project Location (include county): The Project is located at the East Creek Slough Bridge (Bridge No. 33-0143) on Interstate 880 (I-880) at post mile (PM) 27.23 in the City of Oakland, Alameda County, in the State of California.

Project Description: The Project is limited to the East Creek Slough Mitigation Project (Project) to address tidal scour at East Creek Slough Bridge (Bridge No. 33-0143) on Interstate 880 (I-880) at post mile (PM) 27.23. The Project will address the undermining and scour of the East Creek Slough Bridge at approach slabs for Abutments 1 and 5. The Project will include the following elements: a creek diversion system to keep the work area dry, installation of high-density polyurethane (HDPE) plastic lumber to the face of the abutments to retain the soil and structural backfill, installation of rock slope protection (RSP) to prevent scouring, installation of structural backfill (injection of lightweight cellular concrete and polyurethane foam) to fill the voids under the abutments, and replacement of the existing northbound and southbound concrete approach slabs with new concrete approach slabs.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

Person or Public Agency Carrying Out Project: California Department of Transportation, District 4, Melissa Coppola, 111 Grand Avenue, Oakland, CA 94610

Exempt Status:

- Statutory Exemption. State code number
- Categorical Exemption. Type – Class 01; California Code of Regulations, title 14, section 15301

Reasons why project is exempt: This Project involves the repair and maintenance of an existing public facility involving a negligible or no expansion of the former use prior to construction.
