

**WEST VALLEY WATER DISTRICT
NOTICE OF DETERMINATION**

CLERK OF THE
BOARD OF SUPERVISORS
2022 OCT 11 PM 1:11

To: **Office of Planning & Research**
State Clearinghouse
1400 Tenth Street
Sacramento, CA 95814

From: **West Valley Water District**
855 W Baseline Road
Rialto, CA 92376

and

San Bernardino County
Clerk of the Board of Supervisors
385 N. Arrowhead Avenue, 2nd Floor
San Bernardino, CA 92415

Subject: Filing of Notice of Determination in compliance with Section 21108 or 21152 of the Public Resources Code.

18-inch Transmission Main Installation Project

Project Title

<u>2022070521</u>	<u>Ms. Rosa M. Gutierrez</u>	<u>(909) 644-0592</u>	<u>rgutierrez@wwwd.org</u>
State Clearinghouse Number	Lead Agency Contact Person	Telephone Number	Email Address

Project Location

The project will occur within the northern portion of the West Valley Water District (WVWD or District) within an easement between Lytle Creek Road to the north and Citrus Avenue to the south traversing under the Interstate-15 (I-15) Freeway within Unincorporated San Bernardino County and the City of Fontana. The project is located within the USGS Topo 7.5-minute map for Devore, CA, and is located in Section 18, Township 1 North and Range 5 West. The approximate GPS coordinates of the project area are 34.171502°, -117.453627°.

Project Description

The District's service area includes Pressure Zone 7, which is north of Pressure Zone 6 in WVWD's North System. Storage in this area is provided by District Reservoirs (R7-1, R7-2, R7-3, and R7-4) located on Lytle Creek Road. There is currently no source of supply within Pressure Zone 7, as water is boosted from the Lower Pressure Zones (4, 5, and 6) to serve that area. As such, the District is proposing a new 650 LF 18-inch transmission main to facilitate supply to accommodate the increase in development that is projected to occur in Pressure Zone 7.

WVWD proposes to install approximately 650 linear feet (LF) of 18-inch transmission main within Pressure Zone 7. The proposed transmission main will connect to an existing 18-inch transmission main at Lytle Creek Road and bore under the Ontario I-15 freeway and terminate at Citrus Avenue in an unimproved area. Approximately 250 LF of 18-inch diameter pipe will be trenched in the unimproved area. The proposed pits for the jack and bore will be approximately 40 feet in length and 20 feet in width and will be located outside the Caltrans right-of-way. The pipeline that will traverse under the I-15 includes trenchless installation of approximately 325 LF of 18-inch diameter carrier pipe in a 30-inch diameter casing under the I-15 Freeway to connect to segments at either side of the freeway. The segments of pipeline will be installed mostly within undisturbed areas between Lytle Creek Road and Citrus Avenue.

This is to advise that the West Valley Water District has approved the above described project on Lead Agency Responsible Agency

10/06/2022 and has made the following determination regarding the above described project:
