**Present Land Use/Zoning/General Plan Designation:**Present Use: Vacant with radio towers; Zoning: General Industrial; GP: Industrial Corridor**Project Description:** (please use a separate page if necessary)

The project consists of a Major Site Plan Review due to the size of the parcel and Conditional Use Permit Application due to the size of the proposed warehouse/distribution use. The proposed project will consist of the development of a 219,656 square foot industrial shell building and related site improvements on a primarily vacant site with the exception of four existing radio towers and associated radio transmitter building located on the site. The existing radio towers would be relocated on top of the new building, upon its construction, in roughly the same location and at the same height from grade as existing.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
 If you have already sent your document to the agency please denote that with an "S".
