SUBJECT: Notice of Determination in Compliance with Section 21152 of the Public Resources Code

State Clearinghouse No. (if submitted to State Clearinghouse): (2022080253)

Project Title: Interstate 880 Innovation Bridge and Trail Project (PWC8907)

Project Applicant: City of Fremont

Project Location (include county): Approximately 0.4 miles north of the I-880/Mission Boulevard/W. Warren Avenue interchange

Project Description: The City of Fremont (City) proposes the I-880 Innovation Bridge and Trail Project ("Project"), located within the Warm Springs/South Fremont Innovation District (WSI District). The proposed Project would increase overall mobility within the WSI by providing a bicycle and pedestrian facility between the Bayside Industrial Community Plan Area located west of I-880 and the WSI District and the BART station located east of I-880. The Project includes an approximately 850-foot overcrossing bridge over I-880 (Post Mile 2.61/2.9). The Project represents the southernmost segment of the East Bay Greenway (EBGW) regional trail and consists of the following elements:

- At-grade Class I multi-use trail for approximately 3,300 feet along the west side of Kato Road south of the intersection of Industrial Drive to the eastern approach ramp for the I-880 overcrossing bridge and approximately 540 feet between the western approach ramp and Fremont Boulevard.
- I-880 overcrossing bridge would be approximately 850 feet in length with approach ramps totaling approximately 625 feet (310 feet for the eastern approach ramp and 315 for the western approach ramp). The bridge concept features an architecturally prominent single-tower cable-stayed structure with a 200-foot-tall pylon that accentuate the drastic curvature of the main span immediately west of Landing Parkway. The area next to the pylon would include a pathway and staircase, low shrubbery, lighting, irrigation, and signage.
- A raised cycle track would be installed along the eastern side of Fremont Boulevard connecting to the Fremont Boulevard/Industrial Drive intersection from the south.

The I-880 overcrossing would consist mostly of an aerial structure located between the existing I880/Fremont Boulevard interchange and the I-880/Mission Boulevard/W. Warren Avenue interchange. Caltrans' overhead signs and one bridge column would be constructed within Caltrans right of way (ROW).

Portions of the proposed Project site are within existing public ROW and a segment of Kato Road that is private. Near Agua Caliente Creek, the proposed trail would be adjacent to the Alameda County Flood Control and Water Conservation District (ACFCWCD) Agua Caliente Creek maintenance road. Permanent aerial easements would be needed for the bridge improvements above the ACFCWCD ROW. There are two portions of the trail that require a permanent easement or ROW agreement with private property owners. One of these locations is along Kato Road, and the other location is between Landing Parkway and Fremont Boulevard.

PROJECT APPLICANT CONTACT:

City of Fremont Engineering Department (Attn: Mirabel Aguilar, Project Manager)
39550 Liberty Street, P.O. Box 5006
Fremont, CA 94538
