SCHOOLS WITHIN 2 MILES OF PROJECT SITE: Berkeley Highschool, The Berkeley School, Berkeley Independent Study, Berkeley Little School, Berkeley Technology Academy, Black Pine Circle School, The Crowden School, Fusion Academy, Garden Day Montessori School, Longfellow Middle School, Magnolia Children’s School, Malcolm X Middle School, Marin Elementary School, Ocean View Elementary, Oxford Elementary School, Rosa Parks Elementary, Ruth Acty Elementary School, Shu Ren Elementary School, Walden Center and School, Washington Elementary School.

PROJECT DESCRIPTION: The project would demolish the existing 9,000-square-foot, one-story building on the project site and construct a six-story, mixed-use building. The proposed building has the following characteristics:

- Six stories (69 feet 6 inches) in height;
- A total of 123 dwelling units and three live/work units (including six loft-style units) and three live-work units;
- A total of 82,824 square feet of gross floor area (including a density bonus);
- A parking garage with 50 vehicle parking spaces;
- A secure, ground-floor bicycle storage room with long-term parking for 64 bicycles and short-term parking for eight bicycles; and
- A total of 6,319 square feet of open space.

The three live-work units and six loft-style dwelling units would be at the ground floor, with the live-work units fronting on San Pablo Avenue and the loft-style units facing the back of the lot and George Florence Park to the west. Each of the live-work units would have a mezzanine for exclusively residential space (Figure III-4). The ground floor would also include a community room, lounge, mail room, trash room, parking garage, and bicycle storage room. Floors two through five would be comprised of 117 dwelling units, consisting of 36 studios, 76 one-bedroom units, and five two-bedroom units. The building’s massing would step down from six stories at the front facing San Pablo Avenue to four stories at the rear towards the west. West-facing rooftop gardens would be accessed via the fourth and sixth floors. The project also features a common open space area at the podium level (level 2) facing west, toward the rear of the property. Automobile access to and from the parking garage would be provided via a driveway at the northeast corner of the building on San Pablo Avenue.

Pursuant to State Density Bonus law, the inclusion of 10 very-low-income (VLI) units entitles a project to a density bonus of 32.5%, or 31 units (added to the 95-unit base project, for a final project of 126 units), waivers to building height and floor-to-area ratio development standards, and a concession to reduce the vehicle parking requirement.
