 MARK A. LUNN
 Ventura County Clerk and Recorder
 By: Lizzeth Tellez, Deputy

The 2022 AQMP is a comprehensive policy document that presents a combined local and state clean air strategy based on reactive organic gases (ROG) and nitrogen oxides (NOx) emissions to bring Ventura County into attainment of the 2015 federal 8-hour ozone standard as mandated by the federal Clean Air Act. The 2022 AQMP does not include or propose any components, measures, actions, or regulations that would adversely impact environmental resources. The 2022 AQMP is expected to benefit air quality in Ventura County by further improving air quality, +

This is to advise that the Ventura County APCD has approved the above
 Lead Agency or Responsible Agency)

described project on December 13, 2022 and has made the following determinations regarding the above
 (date)
 described project.

1. The project will will not] have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was was not] adopted for this project.
5. A statement of Overriding Considerations was was not] adopted for this project.
6. Findings were were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

Ventura, CA 93003

CEQA Lead Agency: Ventura County Air Pollution Control District

Project Title: 2022 Air Quality Management Plan

CEQA Document Type: Negative Declaration

State Clearinghouse Number/local agency ID number: 2022080714

Project Location: All of Ventura County, CA

Brief Project Description: The 2022 AQMP is a comprehensive policy document that presents a combined local and state clean air strategy based on concurrent reactive organic gases (ROG) and nitrogen oxides (NOx) emission reductions to bring Ventura County into attainment of the 2015 federal 8-hour ozone standard as mandated by the federal Clean Air Act. ROG and NOx emitted by both anthropogenic and natural sources react in the atmosphere to produce photochemical smog, of which ozone is the principal constituent.

Ventura County continues to make great progress towards meeting federal clean air standards for ozone by a steady decades-long decrease in countywide ozone levels. In 1990, Ventura County had 18 days over the now revoked federal 1-hour ozone standard. However, by 2003 there were only two days over that standard, and none in 2004 and 2005. The previous Ventura County AQMP, prepared in 2016, projected attainment of the 2008 federal 8-hour ozone standard by 2020. The United States Environmental Protection Agency (EPA) published a notice of proposed rulemaking on July 14, 2022, determining that Ventura County has attained that standard by its July 20, 2021 attainment date. This progress is expected to continue under the 2022 AQMP for the 2015 federal ozone standard.

The 2022 AQMP does not include or propose any components, measures, actions, projects, or regulations that would adversely impact biological resources in the county. Biological resources of many types are sensitive to air pollution, especially photochemical air pollutants such as ozone. Therefore, the 2022 AQMP is expected to benefit wildlife in Ventura County by further improving air quality, atmospheric visibility, and overall health.

Determination: Based on a review of the project as proposed, the Department of Fish and Wildlife has determined that for purposes of the assessment of CEQA filing fees (Fish & G. Code, § 711.4, subd. (c)) the project has no effect on fish, wildlife or their habitat and the project as described does not require payment of a CEQA filing fee. This determination does not in any way imply that the project is exempt from CEQA and does not determine the significance of any potential project effects evaluated pursuant to CEQA.

Please retain this original determination for your records. Local lead agencies are required to file two copies of this determination with the county clerk at the time of filing the Notice of Determination (NOD) after the project is approved. State lead agencies are required to file two copies of this determination with the Governor's Office of Planning and Research (i.e., State Clearinghouse) at the time of filing the NOD. If you do not file a copy of this determination as appropriate with the county clerk or State Clearinghouse at the time of filing the NOD, the appropriate CEQA filing fee will be due and payable.

Without a valid CEQA Filing Fee No Effect Determination form or proof of fee payment, the project will not be operative, vested, or final and any local permits issued for the project will be invalid, pursuant to Fish and Game Code section 711.4, subdivision (c)(3).
