Subject: City of West Hollywood 8228-8240, The Harper Project (SCH 2022090073) - CGS comments
Date: Monday, September 19, 2022 4:05:59 PM

Hello Antonio Castillo,

The California Geological Survey (CGS) has received the Notice of Preparation of a Draft Environmental Impact Report (DEIR) for the proposed "8228-8240 Sunset, The Harper Project" in the City of West Hollywood. This email conveys the following recommendations from CGS concerning geologic issues related to the project area:

1. Fault Hazards

The project area is located within an earthquake zone of required investigation (ZORI) for surface fault rupture mapped by CGS. The DEIR and supporting documents should address this hazard as it relates to the design of the proposed structures. Additional information is available at the links below:
