Project Description (Proposed actions, location, and/or consequences).

The proposed Project would include development of a one-story, 408,997 SF warehouse building on the 18.16-acre site. The proposed warehouse building would have a building footprint of 402,997 SF and a mezzanine of 6,000 SF. The building would include 54 loading dock doors along the north side of the Project site and 57 trailer stalls opposite of the loading dock doors on the south side of the Project site. Additionally, the building would provide 213 vehicle parking stalls with 7 electric vehicle/clean air/carpool spaces. The proposed building would result in an FAR of 0.52. Additional improvements would include landscaping, sidewalks, utility connections, implementation of stormwater facilities, and pavement of parking areas and driveways.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Please refer to "Mesa Linda Significance and Mitigation Measures" attachment.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
