Present Land Use/Zoning/General Plan Designation:

Agricultural

Project Description: *(please use a separate page if necessary)*

This project involves the construction of a new groundwater well on the premises of the Dr. Joe Waidhofer Drinking Water Treatment Plant (WTP). The construction involves drilling a well approximately 460 feet deep, with an estimated production rate of 3,000 GPM. The project also includes constructing a 10x18 foot concrete slab. The well will serve as a dry year supplemental supply of raw water to the WTP. The discharge of this well will be into the North Raw Water Reservoir and all water pumped will be treated prior to delivery to the Urban Contractors distribution systems.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
