PROPOSAL: Various changes to existing land use designations to facilitate future higher density residential development as required by the adopted Kern County Housing Element. Proposed actions include amendments to existing General and Specific Plan map code designations and changes to existing zone classifications.

APPLICANT: Kern County Planning and Natural Resources Department (PP22002)

PROJECT SIZE: 447.23 acres

LOCATION: Countywide

PROJECT ANALYSIS: The project before your Board today includes a series of proposed Staff initiated changes to various land use designations on 56 parcels throughout unincorporated Kern County. The proposed project includes necessary actions that would establish land uses suitable for future high-density residential development projects. At this time, the proposed project does not include any proposed development. This proposal only includes changes in land use designations to facilitate future residential developmental ranging from apartment complexes to other owner-occupied higher density development projects.

The requested actions will implement the strategic goals of the adopted Kern County Housing Element, statewide housing inventory requirements and the Department's efforts to plan for and preserve adequate housing for all income segments based on the most recent Regional Housing Needs Allocation (RHNA).

Background

Housing Element Update 2015-2023

On April 26, 2016, your Board adopted the County of Kern Housing Element Update 2015-2023 (Resolution No. 2021-075) as a part of the Kern County General Plan and the Metropolitan Bakersfield General Plan.

The Housing Element of the General Plan has two (2) purposes:

1. To provide an assessment of both current and future housing needs, and constraints in meeting these needs; and
2. To provide a strategy that establishes housing goals, policies, and programs.

The Housing Element represents Kern County's long-term commitment to developing and improving housing with specific goals for the short-term 2015–2023 period. This element identifies strategies and programs that focus on:

1. Preserving and improving housing and neighborhoods;
2. Providing adequate housing sites;
3. Assisting in the provision of affordable housing;
4. Removing governmental and other constraints to housing investment; and
5. Promoting fair and equal housing opportunities.

According to the Regional Housing Needs Allocation (RHNA) prepared by Kern Council of Governments (Kern COG) and presented in the Housing Element (2015-2023), Kern County has a total projected need over the five-(5-)year planning cycle of 21,583 dwelling units. As part of the adopted Housing Element, the County committed to identifying an additional 33.57 acres of R-3 zoned land to meet its 4th cycle housing needs and an additional 180.57 acres of R-3 zoned land to meet its 5th cycle housing needs. Today's actions are necessary to ensure ongoing compliance with State housing laws.

The following language is directly from the California Department of Housing and Community Development website:

Since 1969, California has required that all local governments (cities and counties) adequately plan to meet the housing needs of everyone in the community. California's local governments meet this requirement by adopting housing plans as part of their "general plan" (also required by the state). General plans serve as the local government's blueprint" for how the city and/or county will grow and develop and include seven elements; land use, transportation, conservation, noise, open space, safety, and housing.

California's housing-element law acknowledges that in order for the private market to adequately address the housing needs and demand of Californians, local governments must adopt plans and regulatory systems that provided opportunities for (and do not unduly constrain), housing development. As a result, housing policy in California rests largely on the effective implementation of local general plans and, in particular, local housing elements.
