Project Title: Peters Shorezone Protective Structure (Lake Alteration Agreement EPIMS Notification No. PLA-31159-R2)

Project Location: The project is located at Lake Tahoe, in the County of Placer, State of California; Latitude 39.184764° North, Longitude 120.101308° West, 3220 Edgewater Drive, Tahoe City, CA, 96145.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement EPIMS Notification Number PLA-31159-R2, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Stephen Peters.

The project is limited to the following:

- 1) Placement of a native stone shoreline revetment for protection of an existing municipal sewer main present on site.
- 2) Removal of failing, existing bank and bluff stabilization within the project site.
- 3) Installation of a new bank and bluff stabilization, rockery structure using natural stone and including established stone planting pockets for planting of native vegetation.

A variety of earthmoving equipment, including an excavator, a front-end loader, at least one dump truck, a street sweeping vehicle and a mechanical mini-conveyor belt system will do most of the earthmoving work within the site. Access to the site/staging will occur from the road front of the site for removal of excavated soils and from the lakeward side of the project site for delivery of the excavator and placement of all boulders and construction related stones.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

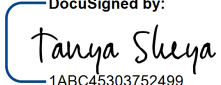

Person or Public Agency Carrying out Project: Stephen Peters

Exempt Status:

- Categorical Exemption. Type – Class (2, 4); California Code of Regulations, title 14, sections (15301, 15304)

Reasons why project is exempt: Class 2 because the project consists of replacement of an existing structure (pier). Class 4 because the project consists of a minor alteration of land which does not involve the removal of healthy, mature, scenic trees.
