

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Initial Study Application No. 7878; Unclassified Conditional Use Permit Application No. 3681

Lead Agency: County of Fresno

Contact Name: Ejaz Ahmad

Email: eahmad@fresnocountyca.gov Phone Number: 559-600-4204

Project Location: Fresno Fresno  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

Allow continued surface mining operation (granite quarry) with facilities approved by CUP No. 2928 for an additional 50 years to January 18, 2071, on two contiguous parcels totaling 142 acres in the AL-40 (Limited Agricultural, 40-acre minimum parcel size) Zone District. The project site is located on the southeast side of Tollhouse Road (State Route 168) at its intersection with Newmark Road approximately 10 miles northeast of the City of Clovis (APN: 150-141-33 & 35) (14147 Tollhouse Road) (Sup. Dist. 1).

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

AESTHETICS: D. Would the project create a new source of substantial light or glare which would adversely affect day or nighttime views in the area? The proposed uses may result in the creation of new sources of light and glare in the area. However, the proposed mitigation measure to hood and direct lighting away from adjacent properties and public right-of-ways would reduce impacts to a less than significant.

BIOLOGICAL RESOURCES: A. B. Would the project have adverse effect on any species identified as a candidate, sensitive, or special-status species or on any riparian habitat identified in local or regional plans, policies, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? The project may impact California tiger salamander. However, implementation of the proposed mitigation measure requiring protocol-level surveys would reduce impacts to less than significant.

CULTURAL RESOURCES: A. B. C. Would the project cause a substantial adverse change in the significance of a historical/archeological resources or disturb any human remains? The project site is in an area that has a moderate degree of archeological sensitivity. However, implementation of the proposed mitigation measure requiring an archeologist to assess discovery of any cultural resources would reduce impacts to less than significant.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known controversies

Provide a list of the responsible or trustee agencies for the project.

None other than the lead agency (Fresno County)
