Office of Planning and Research
1400 Tenth Street, Room 121
Sacramento, CA 95814

PROJECT NUMBER: 651025
PROJECT TITLE: Sewer Group 843

STATE CLEARINGHOUSE NUMBER: 2011091045

DESCRIPTION OF PREVIOUS ACTION: The City of San Diego previously prepared a Mitigated Negative Declaration for the Citywide Pipelines project (Project No. 255100). The Mitigated Negative Declaration was certified by the City of San Diego City Council on November 30, 2011, Resolution No. 30712.

DESCRIPTION OF SUBSEQUENT ACTION: City of San Diego Development Services Department approval of Addendum to Mitigated Negative Declaration No. 255100 in association with a Public Project Assessment for the Sewer Group 843 project.

PROJECT LOCATION: The project is located within public right-of-way along portions of Hensley Street between Commercial Street and 28th Street, an unnamed alley south of Everett Avenue north of Franklin Avenue from Commercial Street and Sampson Street, an unnamed alley south Clay Avenue and north of Franklin Avenue from 28th Street to 30th Street, an unnamed alley south of Franklin Avenue and north of Ocean View Boulevard from Dewey Street to 29th Street, an unnamed alley south of Ocean View Boulevard an north of Harrison avenue from Evan Street and 28th Street, 28th Street from Valley Place to Ocean View Boulevard, 28th Street from Sicard Street to Marcy Avenue, an unnamed alley south of Julian Avenue and north of Kearney Avenue from Evan Street to Sicard Street, Sicard Street from the afore mentioned alley to Kearney Avenue, and along Kearny Avenue from Sicard Street to an unnamed alley south of Logan Avenue.

PROJECT DESCRIPTION: The scope of work proposes to rehabilitate approximately 523 linear-feet (LF) and replace approximately 10,551 LF of 6- and 8-inch diameter sewer mains with new 6-, 8-, 10-, and 12-inch diameter PVC sewer mains; and relocate approximately 374 LF of 8-inch diameter water main. Approximately 442 LF of new sewer main would be added and 601 LF of sewer main would be abandoned. The project also includes the installation of curb ramps, laterals, cleanouts, rehabilitation of existing manholes, installation of new manholes, and street resurfacing throughout the project area.

Construction methods will include:

1. **Open Trench:** The open trench method of construction will be used for replacement and new installation of pipeline. Trenches are typically 3-5 feet wide and are dug with excavators and similar large construction equipment.
2. **Abandonment:** Pipeline abandonment activities will have minimum surface/subsurface disturbance at both ends of the mains.
3. **Trenchless:** The trenchless method of construction will be used for replacement and new installation of pipeline, approximately 623 LF will be replaced using this method.

The Sewer Group 843 project is part of the City of San Diego's on-going Sewer Main and Water Main Replacement Program. The existing sewer and water mains are old and are nearing the end of their service life. Construction of the project will reduce maintenance requirements, correct hydraulic deficiencies, improve reliability and accessibility, and bring the sewer and water main systems up to current design standards.

The project would comply with the requirements described in the *Standard Specifications for Public Works Construction*, and California Department of Transportation's *Manual of Traffic Controls for Construction and Maintenance Work Zones*. A traffic controls plan would be prepared and implemented in accordance with the *City of San Diego Standard Drawings Manual of Traffic Control for Construction and Maintenance Work Zones*. Best Management Practices will be required and specified within the approved Water Pollution Control Plan for erosion control and storm drain inlet protection.

PROJECT APPLICANT: Carmen Romo-Diego, City of San Diego Engineering and Capital Projects Department, 525 B Street, San Diego, California 92101 (619) 533-3667.

This is to advise that the City of San Diego Development Services Department on February 1, 2021 approved the above-described project and made the following determinations:

1. The project in its approved form ____ will, X will not, have a significant effect on the environment.
2. ____ An Environmental Impact Report was prepared for this project and certified pursuant to the provisions of CEQA.
____ A (Mitigated) Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
X An Addendum to Negative Declaration / Mitigated Negative Declaration / Environmental Impact Report No. ____ was prepared for this project pursuant to the provisions of CEQA.

Record of project approval may be examined at the address above.

3. Mitigation measures X were, ____ were not, made a condition of the approval of the project; and a mitigation monitoring and reporting program X was, ____ was not, adopted for the project.
4. (EIR only) Findings ____ were, ____ were not, made pursuant to CEQA Guidelines Section 15091.
5. (EIR only) A Statement of Overriding Considerations ____ was, ____ was not, adopted for this project.

It is hereby certified that the final environmental report, including comments and responses, is available to the general public at the office of the Development Services Department, 1222 First Avenue, San Diego, CA 92101.
