Project Number: 1085033

State Clearinghouse Number: 2011091045

Project Title: Public Project Sewer & AC Water Group 697A Easement Vacation 2924 F Street Easement Vacation

Project Location: 2924 F Street, San Diego, California, 92102 (Assessor's Parcel Number: 539-592-2100)

Project Description: A request for an easement vacation to vacate an existing sewer easement located in a private residential property located at 2924 F Street. The sewer utility easement vacation is for the abandonment of a 114 linear feet 10-inch PVC sewer main on a 15-foot easement within the privately owned lot. The existing lot has previously been graded and developed with a residential dwelling. The sewer easement no longer has a present or prospective use because the sewer facilities were aligned within the paved right-of-way on F Street and 29th Street. The easement area is designated Residential-Medium per the Greater Golden Hill Community Plan Area and zoned RM-2-5. The project site is within the Airport Overlay Zone (San Diego International Airport), ALUCP Airport Influence Areas Review Area 1 (San Diego International Airport), ALUCP Noise Contours (San Diego International Airport), and the FAA Part 77 Noticing Area (San Diego International Airport). Additionally, the project is in the Complete Communities Housing Solutions (FAR Tier 3), the Complete Communities Mobility Choices (Mobility Zone 2), Communities of Concern, the Transit Priority Area, and the Affordable Housing Parking Demand. Council District 3. (LEGAL DESCRIPTION: Portion of Parcel 1 in the City of San Diego, County of San Diego, State of California, according to the Parcel Map thereof No. 13658, filed in the said Office of the County Recorder on February 1, 1985. Assessor's Parcel Number: 539-592-2100.)

A Citywide Pipelines Projects Mitigated Negative Declaration (MND) No. 255100 was prepared by the City of San Diego's Development Services Department (DSD) and certified by the City Council November 30, 2011 (Resolution No. 307122; SCH No. 2011091045). The Citywide Pipelines Projects MND provided for the inclusion of subsequent pipeline projects that were located within the public right-of-way and would not result in any direct impacts to sensitive biological resources. The Citywide Pipelines Project MND No. 255100 concluded that pipeline projects located within the public right-of-way and city easements could result in significant environmental impacts related to archaeological resources and paleontological resources and a Mitigation Monitoring and Reporting Program (MMRP) was prepared.

An Addendum to Mitigated Negative Declaration No. 255100 was prepared by the City of San Diego Public Engineering and Capital Projects Department, Right of Way Division for the AC Water & Sewer Group 697A project (Project No. 541055). The AC Water & Sewer Group 697A project consisted of pipelines and easement changes within 28th Street, 29th Street, G Street, F Street, Market Street, a portion of Highway 94, alleys and the intersections of K Street, Island Avenue, Treat Street, 27th Street and E Street. Relevant to the currently proposed actions, the AC Water & Sewer Group 697A Addendum project description stated "the existing abandoned sewer pipe easement on private property off F Street, North of Highway 94, would require an easement vacation." The MMRP for the MND was adopted for the subsequent addendum.

Pursuant to Public Resources Code Section 21166 and CEQA guidelines 15162, the City has determined that: (1) there is substantial evidence that none of the conditions requiring preparation of a subsequent Negative Declaration/Mitigated Negative Declaration exist, and (2) the City will rely on the previous environmental document, which adequately addresses this project.

The proposed project would, or would not introduce additional impacts or increase the severity of impacts beyond those already analyzed in the MND.

Project Applicant: City of San Diego- Engineering & Capital Projects, Robert Valadez, 525 B St San Diego CA 92101, and (619) 533-7422

This is to advise that City Staff of the City of San Diego on July 27, 2023 approved the above described project and made the following determinations:

- (1) No Substantial changes are proposed in the project which will require major revisions of the previous MND due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; and,
- (2) No Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous MND due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or,
- (3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous MND was certified, shows any of the following:
 - a. The project will have one or more significant effects not discussed in the previous MND;
 - b. Significant effects previously examined will be substantially more severe than shown in the previous MND;
 - c. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
 - d. Mitigation measures or alternatives which are considerably different from those analyzed in the previous MND would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

It is hereby certified that the final environmental report, including comments and responses, is available to the public at the office of the Development Services Department, 1222 First Avenue, San Diego, CA 92101.

PROJECT NUMBER: 541055/WBS No. B-15207.02.06

STATE CLEARINGHOUSE NUMBER: 2011091045

PROJECT TITLE: AC Water and Sewer Group Job 697A

DESCRIPTION OF PREVIOUS ACTION: The City of San Diego previously prepared a Mitigated Negative Declaration for the Citywide Pipelines project (Project No. 255100). The Mitigated Negative Declaration was certified by the City of San Diego City Council on November 30, 2011, Resolution No. 30712.

DESCRIPTION OF SUBSEQUENT ACTION: City of San Diego Development Services Department approval of Addendum to Mitigated Negative Declaration No. 255100 in association with a Public Project Assessment for the AC Water and Sewer Group Job 697A project.

PROJECT LOCATION: The AC Water & Sewer Group 697A project is located within the Golden Hill and Southwestern San Diego Community Planning Areas (Council Districts 3 & 8). The project would affect the following streets: 28th Street, 29th Street, G Street, F Street, Market Street, a portion of Highway 94, alleys, and the intersections of K Street, Island Avenue, Treat Street, 27th Street and E Street. All work would be located within developed areas (City's right-of-way, easements, and Caltrans right-of-way).

PROJECT DESCRIPTION: The proposed scope of work would include replacement, rehabilitation, tunneling, and installation (i.e. via new alignment) of a total of 4,072 linear feet (LF) of sewer mains and 3,375 LF of water mains. Approximately 1,535 LF of existing 6- and 8-inch vitrified clay (VC) and concrete pipes (CP) would be "replaced-in-place" in the same trench alignment at the same depth with new 8-, 10- and 12-inch polyvinyl chloride (PVC) piping; 546 LF of existing 6- and 10-inch VC sewer pipes would be replaced via a pipe bursting method, and 239 LF of existing 6- and 8-inch VC sewer pipes would be rehabilitated; 788 LF of new 8- and 10-inch PVC sewer piping would be installed via trenching in new alignments at depths ranging from 8-17 feet. In addition, 888 LF of new 15" and 16" diameter sewer pipe would be installed via tunneling technology. Sewer upgrades will increase overall pipe strength, sewer flow and decrease the chances of sewer main back-ups and/or pipe breaks. Portions of the project spanning underneath the CA-94 Freeway at 28th Street and another segment of pipeline spanning through the CA-94 Freeway via tunneling technology at south/southeast of 29th Street will require an Encroachment Permit through Caltrans.

In addition, approximately 3,089 linear feet (LF) of existing 8- and 12-inch asbestos cement (AC) water pipe would be "replaced-in-place" with new 8- and 12-inch PVC piping, and 305 LF of new 12-inch PVC water pipelines would be installed within new alignments at depths ranging from 3-6 feet via tunneling technology. Water upgrades will reduce future water main breaks and need for routine maintenance.

The project would also include the abandonment of 1949.42 linear feet (LF) of existing sewer mains in the right-of way and throughout a portion of Highway 94. Furthermore, the project will include the abandonment of 6 associated manholes in the right-of-way. The existing abandoned sewer pipe easement on private property off F Street, north of Highway 94, would require an easement vacation. Two new utility easements will be acquired for the new proposed sewer mains. A 328 LF section of existing AC water main will also be abandoned in the right-of-way.

Staging areas will occur within the public right-of-way and developed areas, and impacts to sensitive biological resources will be avoided through sensitive biological resource protection measures as detailed within the construction plans.

The project would also include the following improvements: installation and replacement of curb ramps, sewer laterals, water services, manholes, cleanouts, fire hydrants, valves, trench resurfacing, slurry and pavement resurfacing. The AC Water & Sewer Group 697A project is part of the City of San Diego's on-going Sewer Main and Water Main Replacement Program (Citywide Pipelines Project MND No. 255100).

PROJECT APPLICANT: Elham Lotfi, Project Manager, City of San Diego Public Works Department, Right of Way Division. 525 B Street, Suite 750, San Diego, CA 92101. Contact: (619) 533-5212.

This is to advise that the City of San Diego Development Services Department on June 15, 2017 approved the above described project and made the following determinations:

1. The project in its approved form ___ will, X will not, have a significant effect on the environment.
2. ___ An Environmental Impact Report was prepared for this project and certified pursuant to the provisions of CEQA.
___ A (Mitigated) Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
X An Addendum to Mitigated Negative Declaration No. 255100 was prepared for this project pursuant to the provisions of CEQA.

Record of project approval may be examined at the address above.

3. Mitigation measures X were, ___ were not, made a condition of the approval of the project; and a mitigation monitoring and reporting program X was, ___ was not, adopted for the project.
4. (EIR only) Findings ___ were, ___ were not, made pursuant to CEQA Guidelines Section 15091.
5. (EIR only) A Statement of Overriding Considerations ___ was, ___ was not, adopted for this project.

It is hereby certified that the final environmental report, including comments and responses, is available to the general public at the office of the Development Services Department, 1222 First Avenue, San Diego, CA 92101.

Project Title: CITYWIDE PIPELINE PROJECTS - 2011

Project Location: Pipeline projects would be located in any community planning area within the City of San Diego.

Project Description: COUNCIL APPROVAL to allow for the replacement, rehabilitation, relocation, point repair, new trenching, trenchless construction, and abandonment of water and/or sewer pipeline alignments and associated improvements such as curb ramps, sewer lateral connections, water service connections, manholes, new pavement/slurry, the removal and/or replacement of street trees and the removal and/or replacement of street lights. This environmental document covers the analysis for four (4) near-term pipeline projects (Harbor Drive Pipeline, Water Group 949, Water Group 914, and Sewer/Water Group 732), as well as any subsequent future pipeline projects. The construction footprint for a typical pipeline project, including staging areas and other areas (such as access) would be located within the City of San Diego Public Right-of-Way (PROW) and/or within public easements and may include planned pipeline construction within private easements from the PROW to the service connection. A signed agreement between the City and the property owner would be required for work conducted on private property. Project types that would be included in the analysis contained herein would consist of sewer and water group jobs, trunk sewers, large diameter water pipeline projects, new and/or replacement manholes, new/or replacement fire hydrants, and other necessary appurtenances. All associated equipment would be staged within the existing PROW adjacent to the work areas. The near-term and future projects covered in the document would not impact Sensitive Biological Resources or Environmentally Sensitive Lands (ESL) as defined in the Land Development Code and would not encroach into the City's Multi-Habitat Planning Area (MHPA).

Project Applicant: City of San Diego, Public Works Department/Engineering and Capital Projects, 600 B. Street, MS 908A, San Diego, CA, 92101, Contact: Allison Sherwood, Senior Planner, 619-533-7531 and the Public Utilities Department -Water and Wastewater Division, 9192 Topaz Way, MS 901A, San Diego, CA 92123, Contact: Dirk Smith, Project Assistant, 858-614-5722.

This is to advise that the City of San Diego City Council on NOV 15 2011 approved the above described project and made the following determinations:

1. The project in its approved form will not have a significant effect on the environment.
2. A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.

Record of project approval may be examined at the address above.

3. Mitigation measures were made a condition of the approval of the project.

307122

It is hereby certified that the final environmental report, including comments and responses, is available to the general public at the office of the Entitlements Division, Fifth Floor, Development Services Department, 1222 First Avenue, San Diego, CA 92101.
