Project Title: Stormwater Pipelines Project

Project Location: Citywide

City/County: San Diego/San Diego

Description of Previous Action/Project: The Citywide Pipeline Projects Mitigated Negative Declaration (MND) Number (No.) 255100 (Citywide MND) and a mitigation monitoring and reporting program was adopted by the Council of the City of San Diego (City) on November 30, 2011, per Resolution No. R-307122. The Citywide MND analyzed potential environmental impacts resulting from the construction of four near-term and outlined environmental parameters for which subsequent long-term water and sewer pipeline alignments would be required to show consistency with the MND. The analysis in the Citywide MND identified potential environmental impacts on Historical Resources (Archaeology and the Built Environment), Paleontological Resources, and Land Use (Multiple Species Conservation Plan (MSCP) - Multi-Habitat Planning Area (MHPA). With the implementation of a project-specific mitigation monitoring and reporting program, impacts were identified to be less than significant.

Description of Current Project: The general repair, replacement, realignment, rehabilitation, relocation, point repair, new trenching, trenchless construction, and abandonment of stormwater pipeline facilities. Additional improvements associated with the stormwater pipeline alignments would include: curb ramps, stormwater pipe connections, manholes, cleanouts, inlets, curb/gutter, sidewalk or other repairs, ancillary components (e.g. retaining and headwalls, temporary storm drain bypass systems, dissipators; outfalls, riprap/structural appurtenances at the outfall, catch or detention basins, biofiltration or desilt basins, shoring, and utility relocation), new pavement/slurry, the removal and/or replacement of street trees and street lights. The construction footprint for a typical stormwater pipeline project, including staging areas and other areas (such as access) would be located within the City of San Diego (City) public right of way and/or within public easements and may include planned pipeline construction within private easements from the public right of way to the service connection. Easement vacations could be required for those portions of the stormwater pipeline alignments that would be abandoned. Additionally, construction and maintenance of these stormwater pipelines would require various discretionary actions and approval by the City. Future discretionary actions that would facilitate the construction and maintenance of existing and subsequent long-term stormwater pipelines could include but are not limited to, right-of-entry permits or similar authorizations, contracts and/or task orders related to future construction and

maintenance activities, site-specific technical assessments, easement grantings and vacations, funding for preliminary engineering, design, and planning activities, and Mayoral or City Council authorization for the use and funding of City forces for construction activities. Five near-term stormwater pipeline alignments (6576 Parkside Avenue Storm Drain Replacement SWD [PRJ-0707058], Willow Street at Zola Street Storm Drain SWD [PRJ-1107752], 6100 Block Rancho Mission Road Storm Drain SWD [PRJ-1108649], Campus Point Drive Storm Drain SWD [PRJ-1123276], and Van Dyke Place at Van Dyke Avenue Storm Drain SWD [PRJ-1122165]) as well as subsequent long-term stormwater pipeline projects are the subject of the analysis herein. LEGAL DESCRIPTION: Citywide.

Project Applicant: Tracy J. Thompson, City of San Diego Stormwater Department, 9370 Chesapeake Drive, Suite 100 MS 1900, San Diego CA, 92123, (619) 527-5419.

Determination: This is to advise that the Stormwater Department of the City of San Diego on February 20, 2025 approved the above-described project and made the following determinations:

- 1. The project in its approved form will, will not, have a significant effect on the environment.
- 2. An Addendum to a Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.

Record of project approval may be examined at the City of San Diego Development Services Department, located at 1222 First Avenue, San Diego, CA 92101.

- 3. Mitigation measures were, were not, made a condition of the approval of the project; and a mitigation, monitoring and reporting program was, was not, adopted for the project.
- 4. (EIR only) Findings were, were not, made pursuant to CEQA Guidelines Section 15091.
- 5. (EIR only) A Statement of Overriding Considerations was, was not, adopted for this project.

It is hereby certified that the final environmental document including comments and responses, if any, is available to the public on the City's CEQA webpage at <https://www.sandiego.gov/ceqa/final>.
