Exempt Status: (check one):

Categorical Exemption. State type and section number: §15303(e)

Reasons why project is exempt:

Evidence: The project would construct an accessory building for personal purposes, permissible in the site's zoning district when considered under a special plan review permit (administrative minor use permit) as requested by this application. The proposed structure constitutes a smaller extent of change than the examples specified and granted CEQA exemption in the aforementioned State CEQA Guidelines section. The site has not been identified as having environmental properties requiring special attention, and the project would be subject to conditions of approval addressing better environmental practices. More intensive use of the structure beyond personal purposes would potentially require further discretionary review by the County.
