

Appendix E

Cultural Resources Literature Search

The cultural resources literature search report for the Gilroy Data Center Draft Environmental Impact Report was prepared by Holman & Associates on December 8, 2020. The report contains a CEQA-level literature search on the project site, recorded search results, results from conducted archaeological field surveys, and provides a summary and recommendations regarding archaeological resources on and near the project site.

The search report has been withheld pursuant to Government Code Section 6254, Sections 6254(l) and 6254(k). The search report is available on a case by case basis via request to the City of Gilroy.
