

MEMORANDUM

DATE: January 11, 2022
TO: State Clearinghouse
FROM: Eric Lee, Senior Planner
SUBJECT: Errata for Davis Communicare Expansion Project Initial Study/Mitigated Negative Declaration (SCH 2022110186)

Attached is an errata sheet that provides additional clarifying information for the Initial Study/Mitigated Negative Declaration (IS/MND) prepared for the Davis Communicare Expansion Project (SCH 2022110186).

Comments were received during the 30-day public comment period that ended on December 19, 2022. The comments did not alter the analysis or conclusions of the IS/MND. However, a comment from the California Department of Fish and Wildlife suggested that additional information be provided describing the Avoidance and Minimization Measures (AMMs) from the Yolo County HCP/NCCP that were identified in the IS/MND as applicable to the project. The AMMs were identified but did include the actual language. The revisions in this errata sheet provide the language of the applicable AMMs.

The revisions below have been made to provide additional information and clarity regarding the Yolo Habitat Conservation Plan/Natural Conservation Community Plan (HCP/NCCP) requirements applicable to the proposed project.

The revisions to the IS/MND reflected in this errata sheet do not affect the adequacy of the previous environmental analysis contained in the IS/MND. Because the changes presented below would not result in any new significant impacts or a substantial increase in the severity of an environmental impact identified in the IS/MND, recirculation of the IS/MND is not required.
