Present Land Use/Zoning/General Plan Designation:

Citywide, all land use categories and zones

Project Description: *(please use a separate page if necessary)*

The project is the Climate Adaptation and Safety Element (CASE) of the City's General Plan. The CASE updates and replaces the existing Safety Element, which was adopted in 2012. The CASE would serve as the City's Safety Element, which is a required element of a general plan under State law. The CASE describes the major hazards present in the city, and where appropriate explains how climate change exacerbates hazards. The types of hazards discussed are: flooding, extreme heat, fire, earthquakes and other geological hazards, hazardous materials, electromagnetic fields, and city operations and emergency services. It then sets forth goals describing a future in which the City's physical, natural, and social systems are resilient to and provide protection from these hazards.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X". If you have already sent your document to the agency please denote that with an "S".
