Project Description: (please use a separate page if necessary)

The District is proposing improvements to the JAMS campus based on the 2020 Campus Master Plan (Proposed Project). The purpose of the Proposed Project is to implement campus modernization efforts needed to align with the District's educational specifications. Overall, the Proposed Project would occur over four phases and would result in demolition of one existing building, construction of one new building, and renovation/reuse of six existing buildings over an approximate span of 10 to 15 years. Phase 1, which is currently funded, would include upgrading the existing library and courtyard. Subsequent phases would be constructed as funding becomes available and would include constructing a new Science, Technology, Engineering, Art, and Math (STEAM) building; creating a defined space for the 6th grade cohort; modernizing the 8th grade courtyard; installing new hardscaping and landscaping within the central quad; and renovating the existing cafeteria.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
