RE: Phase I Environmental Site Assessment Report

Subject Site Location: 1055 San Leandro Avenue & 1020 Terra Bella Avenue, Mountain View, California 94043

CREsurveys, LTD. Project No. 19-4587

Enclosed with this letter are copies of the Phase I Environmental Site Assessment Report completed by *CREsurveys, LTD.* for the site referenced above. As you will note in the report, our conclusions regarding the environmental condition of the site are summarized in the *Executive Summary*.

Please don't hesitate to contact us should you have any questions regarding the environmental assessment, or if we can be of additional assistance. We look forward to working with you again in the future.

Sincerely,

A handwritten signature in black ink, appearing to read 'John Krusinski', is written over a light gray horizontal line.

John Krusinski, Environmental Professional

PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT

Site: 1055 San Leandro Avenue & 1020 Terra Bella Avenue Mountain View, California 94043

PROJECT NO. 19-4587

BY

CREsurveys, LTD.

(330) 777-0502

THIS REPORT WAS PREPARED FOR THE SOLE USE AND BENEFIT OF OUR CLIENT, , AND IS BASED, IN PART, UPON DOCUMENTS, WRITINGS, AND INFORMATION OWNED AND POSSESSED BY OUR CLIENT. NEITHER THIS REPORT, NOR ANY OF THE INFORMATION CONTAINED HEREIN, SHALL BE USED OR RELIED UPON FOR ANY PURPOSE BY ANY PERSON OR ENTITY OTHER THAN OUR CLIENT. ALL STANDARD TERMS, CONDITIONS, AND LIMITATIONS BY *CREsurveys, LTD.* APPLY AT ALL TIMES FOR THIS REPORT AND ALL REPORTS ISSUED BY *CREsurveys, LTD.*

EXECUTIVE SUMMARY

This report presents the results of the Phase I Environmental Site Assessment conducted by **CREsurveys, LTD.** at 1055 San Leandro Avenue & 1020 Terra Bella Avenue, Mountain View, California 94043 (see Appendix A: Maps). The Phase I assessment was undertaken at the request of in accordance with **CREsurveys, LTD.**'s Standard Terms and Conditions, as outlined in **CREsurveys, LTD.**'s Letter of Intent/Authorization for Project No. **19-4587**. The findings and conclusions of this investigation are based upon a review of historic site-use activities, contact with and records from governmental regulatory agencies, regulatory database searches, as well as a site reconnaissance and interviews with the client, site personnel, and possibly others who may have knowledge of various aspects of the subject site.

At the time of this assessment, the site consisted of approximately 4.27 acres of developed land. The building on-site is a Public Storage. The buildings are one story, concrete slab on grade foundation, masonry exteriors, with steel roofs. The parking lot is approximately 110,000 square feet of asphalt with eight parking spaces. The property is accessed from one driveway from Terra Bella Avenue to the south as well as gated entrances from San Rafael Avenue to the east and Linda Vista Avenue to the west. Site signage includes building mounted signage. Landscaping on-site consists of small trees, bushes and shrubs, and maintained lawns.

Information gathered in the course of this assessment indicates that the subject site is currently owned by Saratoga Equities, Inc..

The principal findings of **CREsurveys, LTD.**'s Phase I Environmental Site Assessment for this site are as follows:

The subject site is currently affected by:

- No recognized environmental conditions (REC);
- No *de minimis* conditions, historical recognized environmental conditions (HREC), or controlled recognized environmental conditions (CREC).
- Given the findings and conclusions of **CREsurveys, LTD.**'s Phase I Environmental Site Assessment, further investigation is not recommended at this time.
- **CREsurveys, LTD.** has performed this Phase I Environmental Site Assessment of the subject site in conformance with the scope and limitations of the Environmental Protection Agency, Standards and Practices for All Appropriate Inquiries, 40 CFR Part 312 and the standard practice set forth in the American Society for Testing and Materials

(ASTM) Designation: E1527-05 and E1527-13, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process." Any exceptions to, or deletions from, these practices are described in Section 1.4 of this report.

- This assessment has revealed no evidence of recognized environmental conditions in connection with the property.

SECTION 1.0
INTRODUCTION

1.1 SUMMARY OF FINDINGS

Based on the findings of this Phase I Environmental Site Assessment, *CREsurveys, LTD.* has identified no recognized environmental conditions:

RECOGNIZED ENVIRONMENTAL CONDITION(S)		
Condition #	Location	Description of Condition
None	N/A	No evidence of recognized environmental conditions was found during this investigation.

Note: Descriptions of conditions are given again in further detail in Section 6.0, Conclusions and Recommendations, along with recommendations as to how to address the conditions and the estimated costs of completing any recommended next-step action. *CREsurveys, LTD.* classifies a recognized environmental condition, per the ASTM Standard E 1527-13 definition, as the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property due to any release to the environment; under conditions indicative of a release to the environment; or under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not recognized environmental conditions.

Based on the findings of this Phase I Environmental Site Assessment, *CREsurveys, LTD.* has identified the following *de minimis* conditions, historical recognized environmental conditions, and/or controlled recognized environmental conditions:

DE MINIMIS CONDITIONS, HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS, OR CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS			
Condition #	Location	Description of Condition	Condition
None		The subject site does not appear to be at risk from a <i>de minimis</i> condition, historical recognized environmental condition, or controlled recognized environmental condition.	N/A

Note: Descriptions of conditions are given again in further detail in Section 6.0, Conclusions and Recommendations, along with recommendations as to how to address the conditions. *CREsurveys, LTD.* classifies an environmental condition as a *de minimis* as a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* conditions are not recognized environmental conditions nor controlled recognized environmental conditions. *De minimis* conditions may appear to pose no immediate threat to the subject site, to have a negligible monetary/physical impact on the subject site, and/or to require no immediate action or additional investigation given the current knowledge of site conditions. However, such conditions with time, groundwater movement, demolition or other disturbances, or sometimes with the acquisition of further information, may come to pose a long-term, immediate, or chronic environmental risk. *CREsurveys, LTD.* classifies a historical recognized environmental condition (HREC) as a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls. An HREC is limited to include only past releases that have been addressed to unrestricted residential use. *CREsurveys, LTD.* classifies a Controlled Recognized Environmental Condition (CREC) as a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable agency, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

1.2 SITE DESCRIPTION

SITE FACTS	
Report Date:	November 2, 2019
Date of Site Reconnaissance:	11/01/2019

SITE FACTS	
Areas/Units that were inaccessible to the <i>CREsurveys, LTD.</i> field assessor:	None
Were enough (units/offices/buildings/acres) inspected to ensure that the inspection was homogenous?	Yes
Did the field assessor notice any unusual odors on or from the subject site or adjoining sites during the site reconnaissance?	No
ERIS Database Report Date:	10/24/2019
ERIS Historical Aerial Photographs Date:	10/24/2019
ERIS Historical Topographic Date:	10/24/2019
ERIS Historical City Directories Date:	10/29/2019
ERIS Historical Maps Date:	10/24/2019
Current Owner(s):	Saratoga Equities, Inc.
Current/Proposed Use:	Public Storage
Current Occupant(s):	Public Storage
Structures:	The site is currently developed with a storage facility.
Total # of Existing Buildings:	Sixteen (16)
Total Sq. Ft. of Building:	70,000
Date Oldest Building was Built:	1974
Total # of Units:	Sixteen (16)
Total # of Units Visually Inspected:	Sixteen (16)
Site Contact:	Andres Friedman

SITE FACTS	
Field Assessor:	John Krusinski
Report Writer:	John Krusinski
Parcel #:	153-15-030, 153-15-002
Address Provided by Client:	1055 San Leandro Avenue & 1020 Terra Bella Avenue Mountain View, California 94043

1.3 SITE OBSERVATIONS

Site Observations				
General Observations	Interior	Exterior	N/A	Remarks
Aboveground storage tank (AST)			✓	N/A
Asbestos and lead			✓	The subject site was constructed in 1974 (Structures built after 1980 are considered asbestos-free, structures built after 1979 are considered lead-free (with respect to both water and painted surfaces).
Below grade vaults			✓	N/A
Burned or buried debris			✓	N/A
Chemical Mixing Area			✓	N/A
Chemical Storage	✓			Janitorial supplies
Discolored soil or water			✓	N/A
Ditches, streams			✓	N/A

Site Observations				
General Observations	Interior	Exterior	N/A	Remarks
Drains and Sumps			✓	N/A
Evidence of Mounds, Depressions, or Filled or Graded Areas Suggesting Trash or Other Solid Waste Disposal			✓	N/A
Fill dirt from a known source			✓	N/A
Hazardous chemical and petroleum products			✓	N/A
Hazardous chemical and petroleum products in connection with unknown use with volumes, storage conditions, types of containers (5- gallons or greater)			✓	N/A
Hazardous Waste Storage			✓	N/A
Heating and Cooling System and fuel source		✓		Electric
Hydraulic Lifts			✓	N/A
Industrial waste treatment equipment			✓	N/A
Loading and unloading areas		✓		Customer loading & unloading
Mold			✓	N/A
Non-hazardous containers with contents			✓	N/A

Site Observations				
General Observations	Interior	Exterior	N/A	Remarks
Odors			✓	N/A
Pits, Ponds, or Lagoons			✓	N/A
Process waste water			✓	N/A
Propane Cage			✓	N/A
Roads, Tracks, Railroad Tracks or Spurs, Parking Facilities			✓	N/A
Sanitary System (Sewer)			✓	N/A
Self-Serve Water Station			✓	N/A
Separators and Clarifiers			✓	N/A
Septic Systems or Cesspools			✓	N/A
Soil piles			✓	N/A
Solid Waste			✓	N/A
Stained Soil or Pavement		✓		Minor parking lot staining
Stains and Corrosion			✓	N/A
Standing Surface Water or Other Pools of Liquid			✓	N/A
Storm drains/Catch basins		✓		Parking lot drainage
Stressed Vegetation (Other than from insufficient water)			✓	N/A

Site Observations				
General Observations	Interior	Exterior	N/A	Remarks
Transformers or Equipment Containing Polychlorinated Biphenyls (PCBs)			✓	N/A
Underground storage tank (UST)			✓	N/A
Unidentified substance containers			✓	N/A
Water supplies (potable and process)			✓	N/A
Wells (irrigation, monitoring, or domestic)			✓	N/A
Wells (Oil and Gas)			✓	N/A
Wells (Tankfield Observation)			✓	N/A
Wetlands			✓	N/A

1.4 EXCEPTIONS AND/OR DELETIONS TO ASTM E 1527

There are no exceptions to ASTM E 1527.

1.5 NON-SCOPE ISSUES

According to client request, no other environmental issues that are "non-scope considerations" under ASTM E 1527, such as asbestos-containing materials, radon, lead-based paint, and lead in drinking water, were assessed.

SECTION 2.0

INTRODUCTION

2.1 PURPOSE OF A PHASE I ESA

The purpose of this Phase I Environmental Site Assessment is to assess (1) the likelihood of contamination of the subject site as a result of either past or present land-use practices; and (2) the potential for future environmental contamination which may occur as a result of current conditions or operations and maintenance activities at either the subject site or properties adjoining the subject site, thereby identifying real or potential environmental or economic impact to the subject site. In this way, the client may satisfy a requirement to qualify for the innocent landowner defense to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) liability by completing "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial and customary practice." To meet these objectives, *CREsurveys, LTD.* attempted to complete the tasks outlined in this section except as noted in Section 1.4.

2.2 SCOPE OF WORK

The Scope of Work that has been followed for this assessment is identified in Section 1 .1, Page 1-1.

2.2.1 Site Description

Site photographs were taken during the site reconnaissance. The photographs and their summary descriptions can be found in Appendix B.

CREsurveys, LTD. reviewed pertinent, reasonably ascertainable information on the soil types and groundwater conditions in the vicinity of the subject site. For the purposes of this assessment, the depth from the ground surface and the direction (or gradient) of the groundwater flow are of particular significance. Such findings are used by *CREsurveys, LTD.* report writers, in conjunction with additional information about environmental conditions on nearby sites, to assess the risk that is faced by the subject site from off-site sources of contamination.

It should be noted that *CREsurveys, LTD.* geological and hydrological research does not include investigation of seismological concerns (i.e., fault lines) that may affect the area of the subject site. Although the existence of faults in an area may be of concern to property owners and residents in that area, it is not considered to be an environmental concern, and so is not usually a component of a Phase I Environmental Site Assessment. (However, in the event that it is required, *CREsurveys, LTD.* can assist the client in completing a seismological investigation.)

2.2.2 Site Reconnaissance

A *CREsurveys, LTD.* field assessor conducted a visual reconnaissance of the subject property to identify observable signs of environmental impairments, including on-site operations and maintenance activities which may lead to possible environmental impairment. As a part of the site reconnaissance, *CREsurveys, LTD.* visually inspected the site for obvious indications of:

- Existing and previously existing storage tanks (aboveground and underground)
- Hazardous substances storage and handling
- Clarifiers, sumps, trenches, and industrial discharge sources
- Equipment which may contain polychlorinated biphenyls (PCB) (fluorescent light ballasts are not inspected)
- Indications of spillage of hazardous substances, and the general condition of concrete, asphalt, soil, and other surfaces
- Indications of stressed vegetation as a result of on-site contamination

During the site reconnaissance, *CREsurveys, LTD.* field assessors may make note of basic compliance issues which, may be environmental in nature, however are not issues directly associated with the potential for site contamination (i.e., the specific objective of our assessment). However, as a service to our clients, and because these compliance issues may contribute to our overall understanding of site operations, *CREsurveys, LTD.* may comment on the site's basic compliance status. The review of the site's compliance status is not intended to be complete or comprehensive and may or may not include all items identified during the site reconnaissance.

Again, the compliance review is not intended as a comprehensive compliance audit. Rather, the compliance review is only intended to aid *CREsurveys, LTD.* in determining the likelihood that the subject site may have been impacted by releases of hazardous substances.

When the storage or use of hazardous substances are encountered on a site, the *CREsurveys, LTD.* field assessor will look for or inquire about the on-site presence of Material Safety Data Sheets (MSDSs). MSDSs are prepared by the manufacturers of hazardous substances (pursuant to OSHA's Hazard Communication Standard), and they detail the components, dangers, and proper handling procedures for the hazardous substance for which they have been prepared. The presence or absence of MSDSs for on-site hazardous substances will be noted in 3.5, Hazardous Substances Storage and Handling. However, some sites may use or store hundreds of various chemical compounds. In such cases, it is practically impossible for the field assessor to match-up each substance with its corresponding MSDS. Still, the field assessor will inquire about MSDSs and copies of representative MSDSs that were made available will be included in the appendices.

CREsurveys, LTD. may have (based on contract) inspected and reviewed information for the subject site regarding the presence of specific hazardous substances which are relatively common sources of environmental concern. The substances in question include:

- Common building materials that may contain or are suspected of containing asbestos
- Radon (at elevated levels)
- Lead-contaminated drinking water
- Lead-based paints

Based on ASTM E1527-05 AND E1527-13, federal, state, and other regulatory agency guidelines, the following presumptions were in force if and when *CREsurveys, LTD.* inspected the subject site for specific hazardous substances:

- Structures built after 1980 are considered asbestos-free.
- Structures built after 1979 are considered lead-free (with respect to both water and painted surfaces).

- Fluorescent light ballasts will be considered PCB-free and will not be noted in the report regardless of their date of manufacture, unless *CREsurveys, LTD.* is instructed to do otherwise in writing by the client.

CREsurveys, LTD. also inspected the properties that adjoin the subject site. In general, this inspection included a "drive-by" survey to note the operations which may pose an imminent or potential environmental threat to the subject site.

2.2.3 Review of Historical Information

For this assessment, *CREsurveys, LTD.* may have reviewed reasonably ascertainable historical aerial photographs and United States Geologic Survey (U.S.G.S.) topographic maps of the subject site and vicinity. This review consisted of examining the reasonably ascertainable available photographs and topographic maps for evidence of activities on or development of the subject site and adjoining sites that may show an environmental condition or concern which may currently affect the subject site. The specific aerial photographs and U.S.G.S. maps that were reviewed for this assessment are identified and their environmentally relevant features are described in Section 4.1 and 4.2.

CREsurveys, LTD. may have also reviewed any reasonably ascertainable Historic Maps of the subject site and vicinity. Such maps have been prepared by fire insurance companies in order to determine the potential risk of fire damage to buildings in metropolitan areas. These maps have been produced since the mid-1850s and, for some areas, they are still produced today. For the purposes of a Phase I Environmental Site Assessment, these maps may contain helpful information on the ages and past uses of buildings, as well as information about on the storage of hazardous and flammable substances. However, because it was only worthwhile for fire insurance companies to map metropolitan areas, the scope of coverage of these maps is somewhat limited. If Historic Maps have provided coverage of the subject site, and if the specific maps were reasonably ascertainable, then the specific maps that were reviewed for this assessment are identified, and their environmentally relevant features described, in Section 4.3.

One of the least known yet most complete and comprehensive historical sources are historical city or street directories. These texts may have been reviewed by *CREsurveys, LTD.* to the extent that they have provided coverage of the subject site and were reasonably ascertainable. *CREsurveys, LTD.* reviews historical city or street directories (also known as criss cross or reverse indexed directories) for information on the past occupants of and activities on the subject site and adjoining

sites. These directories were prepared by companies that catered to the needs of salespeople by providing the names of the occupants at a given address (that is, unlike a traditional telephone book, the entries of a reverse directory are arranged by address, not by name). However, like Historical Maps, the scope of coverage of these directories is limited to mostly metropolitan areas. If they were reasonably ascertainable, they were reviewed and Section 4.4 contains listings of historical city or street directories.

CREsurveys, LTD. has contacted various state, county, and municipal agencies having current or past jurisdiction over the subject site, in an attempt to review reasonably ascertainable records that contain specific information about environmental conditions on the subject site that these agencies may have on file, or to establish that no environmentally relevant records are on file for the subject site. The client should be aware that most regulatory agencies file their records by address or corporate name (as opposed to parcel number or site name). If no specific address has been assigned to a site, then, typically, no environmental records related to the site will be forthcoming from the state, county, or municipal regulatory agencies. The findings of this records search are reported in Section 4.5, Agency Contacts. The names of the persons contacted within the various agencies are listed on the Regulatory Contacts Sheet, which is included in Section 4.5. Copies of any records obtained from regulatory agencies can be found in Appendix C. In some instances, **CREsurveys, LTD.** may not yet have received a reply from one or more of the agencies that were contacted. (Some agencies will take six weeks or longer to reply to a verbal or written request.) In the event of such delays in response, rather than delaying the issuance of the report, **CREsurveys, LTD.** has indicated in the report that a response to the request for records is pending, and a copy of the regulatory request form has been included in appendices. Any pertinent information that is subsequently received from the pending agency will be addressed and forwarded to the client in the form of an addendum to this report.

CREsurveys, LTD. has also reviewed an ERIS Database Report, a computer-generated federal, state, and regional one-mile regulatory database search in an effort to determine whether the subject site is listed on an agency environmental database and to identify possible regulatory-listed sites of concern within a one-mile radius of the subject site. In general, these documents list known or suspected hazardous-waste generators, release sites, landfills, unauthorized disposal sites, sites with registered underground storage tanks, and sites currently under investigation for known or suspected environmental violations or releases. In conjunction with the findings on the geological and hydrological conditions, information obtained from the database search can be used to assess the environmental risk faced by the subject site from past or present off-site sources

of contamination. Additionally, the ERIS Database Report may provide information about on-site sources of contamination. The ERIS Database Report review can be found in Section 4.6; a copy of the complete ERIS Database Report document and a detailed description of the databases that were searched are included Appendix D.

When requested, *CREsurveys, LTD.* will compile and review a chain-of-title abstract for the subject property. The chain-of-title abstract can help the client and *CREsurveys, LTD.* to better understand the history of the use of the subject site. The chain-of-title abstract is typically compiled from documents obtained from the County Recorder's Office or Tax Assessor's Office. The chain-of-title abstract review, if completed for this report, can be found in Section 4.7. The County Assessor also may be contacted to determine whether the subject site has been assigned addresses in the past which are different from its current address. It is the client's responsibility to supply *CREsurveys, LTD.* with any records of environmental liens or other such documents.

On occasion, the client, the client's representatives, or on-site personnel will make available environmental documents pertaining to the subject site. These documents may be prior Phase I Reports, environmental site remediation reports, foundation soil reports, or occupancy records, among others. If these are made available prior to the issuance of the report, *CREsurveys, LTD.* will review the conclusions of these documents, which may help to confirm or disprove any tentative findings that *CREsurveys, LTD.* has developed independently. If the client has supplied environmental documents for review as part of this assessment, the findings are included in Section 4.8.

After the above information from existing historical records, regulatory agencies, interviews, and other additional environmental documents has been reviewed and evaluated, *CREsurveys, LTD.* presents the site uses for the subject property as well as adjoining site uses in a chronological table. This historic site use summary assists the client, as well as the field assessors and reviewers to have a perspective of the historical uses of the subject site. The Historical Site Use is summarized in sections 4.1, 4.2, 4.3, and 4.4.

2.2.4 Interviews

CREsurveys, LTD. attempts to interview various individuals who may have knowledge of various aspects of the subject site. Typically, the interviewees might include:

- Current and previous owners

- Site and operations managers
- Tenants
- Local regulatory personnel

The interviews are summarized in Section 4.5.

2.2.5 Conclusions and Recommendations

Section 6.0, Conclusions and Recommendations, provides detailed descriptions of the recognized environmental conditions, the de minimis conditions, historical recognized environmental conditions, and controlled recognized environmental conditions that, in the professional opinion of *CREsurveys, LTD.*, currently affect the subject site. Section 6.0 also recommends or suggests the next-step actions that may be required to begin addressing the conditions.

The essential information on a condition at a given location is contained in the "Description of Condition" and the "Action Suggested" boxes of the table for that location. The section numbers refer to those sections in the report that describe the research tasks and findings behind the conclusions. This reporting method allows the reader to quickly go to those sections that are pertinent to the condition.

2.3 INTERPRETATION OF THE REPORT

Following the completion of the tasks outlined above, *CREsurveys, LTD.* prepared this report to present our findings and conclusions clearly and consistently. In an attempt to aid the reader and bring organization to pieces of seemingly unrelated information, *CREsurveys, LTD.* has developed a report format that is both innovative and concise. Each piece of information is described in the context of the research or assessment task under which it was found. Typically, an environmental condition will incorporate a number of specific findings. So, in Section 6.0, Conclusions and Recommendations, the various particular findings are grouped together and collectively presented with the description of the environmental condition that is corroborated by those findings

SECTION 3.0

SITE DESCRIPTION AND RECONNAISSANCE

The subject site is surrounded by an area of predominantly commercial properties. At the time of this assessment, the site consisted of approximately 4.27 acres of developed land. The building on-site is a Public Storage. The buildings are one story, concrete slab on grade foundation, masonry exteriors, with steel roofs. The parking lot is approximately 110,000 square feet of asphalt with eight parking spaces. The property is accessed from one driveway from Terra Bella Avenue to the south as well as gated entrances from San Rafael Avenue to the east and Linda Vista Avenue to the west. Site signage includes building mounted signage. Landscaping on-site consists of small trees, bushes and shrubs, and maintained lawns.

Information gathered in the course of this assessment indicates that the subject site is currently owned by Saratoga Equities, Inc..

The following subsections describe the physical characteristics of the subject site and are a compilation of the observations made during the visual site inspection

3.1 SITE PHOTOGRAPHS

A *CREsurveys, LTD.* field assessor completed a reconnaissance of the subject site, at which time a number of photographs were taken to document the current condition and use of the site (see Appendix B).

3.2 SITE PHYSICAL SETTING

Physical Setting	
Physical Parameter	Information/Comments
Site Elevation	According to the ERIS Database Report, the elevation of the subject site is reported to be 34 feet above mean sea level.

Physical Setting	
Physical Parameter	Information/Comments
Groundwater	Based upon <i>CREsurveys, LTD.</i> 's review of the ERIS Database Report and local topography, groundwater in the site vicinity is inferred from topographical maps to occur at a depth of approximately <25 feet below ground surface and flow towards the north-northeast. However, the flow direction is unknown. It should be noted that the flow direction and depth of groundwater may be influenced by rainfall, tidal activity (shore properties), and local groundwater pumping operations. It should also be noted that shallower, unreported, perched groundwater zones may occur in the immediate site vicinity.
Regional Groundwater Concerns	Based upon <i>CREsurveys, LTD.</i> 's review of sites listed in the ERIS Physical Setting Report, no indication of a regional groundwater quality problem was identified.
Local Geology	Based upon <i>CREsurveys, LTD.</i> 's review of the ERIS Physical Setting Report, local geology is determined to be: <ul style="list-style-type: none"> • Unit Name: Quaternary alluvium and marine deposits • Unit Age: Pliocene to Holocene • Primary Rock Type: alluvium • Secondary Rock Type: terrace • Unit Description: Alluvium, lake, playa, and terrace deposits; unconsolidated and semiconsolidated. Mostly nonmarine, but includes marine deposits near the coast.
Water Supply	The subject site obtains its water from the City of Mountain View water distribution system. According to their website, the 2018 Water Quality Report on the drinking water supplied to the subject site is within state and Federal standards, including lead and copper.
Wastewater Disposal	The subject site disposes of its wastewater in the City of Mountain View sewer system.
Flood Zone	Panel: 06085C0037H, Effective Date: 05/18/2009. Flood Zone X - Area with reduced flood risk due to levee.

Physical Setting	
Physical Parameter	Information/Comments
Bodies of Water/ Waterways	The closest waterway is Stevens Creek. It is approximately 1,150 feet to the east.
Wetlands	According to the National Wetlands Inventory, there are no wetlands on the subject site property or the adjoining properties.
Water Wells	Based upon <i>CREsurveys, LTD.</i> 's review of the ERIS Physical Setting Report, there are one hundred thirty-one (131) well locations within a one-mile radius of the subject site property.
Soil	<p>According to the U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS), the soil type in the Property vicinity is predominately mapped as:</p> <ul style="list-style-type: none"> • 145—Urbanland-Hangerone complex, 0 to 2 percent slopes, drained <ul style="list-style-type: none"> ◦ Elevation: 0 to 220 feet ◦ Mean annual precipitation: 14 to 24 inches ◦ Mean annual air temperature: 57 to 61 degrees F ◦ Frost-free period: 275 to 325 days ◦ Farmland classification: Not prime farmland ◦ Depth to restrictive feature: More than 80 inches ◦ Natural drainage class: Poorly drained ◦ Runoff class: Low ◦ Capacity of the most limiting layer to transmit water (Ksat): Moderately low to moderately high (0.06 to 0.20 in/hr) ◦ Depth to water table: More than 80 inches ◦ Frequency of flooding: None ◦ Frequency of ponding: None ◦ Calcium carbonate, maximum in profile: 25 percent ◦ Gypsum, maximum in profile: 2 percent ◦ Salinity, maximum in profile: Nonsaline to slightly saline (0.2 to 4.0 mmhos/cm) ◦ Sodium adsorption ratio, maximum in profile: 5.0 ◦ Available water storage in profile: Moderate (about 8.3 inches)

Physical Setting	
Physical Parameter	Information/Comments
Oil and Gas Wells	Based upon <i>CREsurveys, LTD.</i> 's review of the ERIS Physical Setting Report, no oil or gas wells are located within a one-mile radius of the subject site property.

3.3 EXISTING STORAGE TANKS

No evidence of any existing aboveground or underground storage tanks was observed on the subject site during the site reconnaissance nor noted in the research conducted for this assessment.

3.4 PREVIOUSLY EXISTING STORAGE TANKS

No evidence of previously existing aboveground or underground storage tanks was observed on the subject site during the site reconnaissance nor noted in the research conducted for this assessment.

3.5 HAZARDOUS SUBSTANCE STORAGE AND HANDLING

With the possible exception of common janitorial and/or office supplies, no storage or handling of hazardous substances greater than 20 gallon containers was observed in the areas inspected during the site reconnaissance.

3.6 SPECIFIC HAZARDOUS SUBSTANCES RECONNAISSANCE

3.6.1 Summary of Specific Hazardous Substances Reconnaissance (Beyond ASTM Scope)

In addition to a general inspection of the subject site for evidence of the presence of hazardous substances or environmental concerns, the field assessor also conducted a reconnaissance for a set of specific hazardous substances that are not addressed in the scope of the ASTM Standard. The results of this specific reconnaissance are given in the following table(s). If a specific suspected hazardous substance was sampled or otherwise tested, this will be indicated in the table and the results of the laboratory analysis or other tests will be given in Section 3.6.2.

SPECIFIC HAZARDOUS SUBSTANCES (BEYOND ASTM SCOPE)				
ID #	Substance	Sampled	Description	Condition
1	Asbestos	No	Based on the relatively recent date of construction of the subject building, the use of asbestos-containing building materials is not suspected.	None Identified
2	Radon	No	EPA Radon Zone: 2 (Predicted avg for county: 1.3 pCi/L) The subject property is located in an area that is considered to have a low occurrence of radon. However, the occurrence of radon is site-specific; only testing can determine the actual radon level at the site.	None Identified
3	Lead Paint	No	Based on the relatively recent date of construction of the subject site, the presence of lead-containing paint on-site is not suspected.	None Identified
4	Lead Water	No	Based on the relatively recent date of development of the subject site, the presence of lead in the plumbing fixtures and/or pipes on-site is not suspected.	None Identified

3.6.2 Details of Specific Hazardous Substances Sampling/Observations

No sampling or testing of suspected hazardous substances was performed or authorized for this assessment.

3.7 POLYCHLORINATED BIPHENYLS (PCBS)

The *CREsurveys, LTD.* site reconnaissance does not include checking on-site fluorescent light fixtures for potential PCB content. Although fluorescent light ballasts may contain PCBs, the amount contained is considered to be so inconsequential that the ASTM (Standard Practice, E 1527) has stated: "Fluorescent light ballast likely to contain PCBs does not need to be noted." in a Phase I Environmental Site Assessment Report.

No known or suspected PCB-containing equipment or materials were observed on-site during the site reconnaissance.

3.8 CLARIFIERS, SUMPS, TRENCHES, AND INDUSTRIAL DISCHARGE SOURCES

No clarifiers, sumps, trenches, industrial floor drains, or industrial discharge points were noted during the site reconnaissance, historical, and/or regulatory research.

3.9 SURFACE CONDITIONS

No significant areas of staining or other unusual surface conditions were observed during the site reconnaissance.

3.10 STRESSED VEGETATION

No disfigured, discolored, dying, or otherwise stressed vegetation was observed on-site during the site reconnaissance.

3.11 PRIOR OR CURRENT AGRICULTURAL LAND USE

The subject property was historically used for agricultural purposes. There is a potential that agricultural chemicals, such as pesticides, herbicides and fertilizers, were used on site. The entire area of the subject property is either paved over or covered by improvements that make direct contact with any potential remaining concentrations in the soil unlikely. Furthermore, the subject property is developed and used for commercial purposes and thus no further action related to the former agricultural use of the subject property is warranted at this time.

3.12 OTHER ENVIRONMENTAL CONDITIONS

No evidence of further environmental conditions and/or impairments was observed during the site reconnaissance, beyond that evidence that has already been noted in this section.

VAPOR INTRUSION

3.13 VISUAL OBSERVATIONS, ADJOINING SITES

During the site reconnaissance, the *CREsurveys, LTD.* field assessor also visually inspected and documented the use of those properties which immediately adjoin the subject property. The observations of the adjoining properties were made by the *CREsurveys, LTD.* field assessor on the date of the site reconnaissance.

SECTION 4.0

REVIEW OF HISTORICAL INFORMATION AND REGULATORY

AGENCY RECORDS

4.1 HISTORICAL AERIAL PHOTOGRAPH REVIEW

CREsurveys, LTD. reviewed readily available and reasonably ascertainable aerial photographs of the area of the subject site. These aerial photographs have been obtained from ERIS. Each aerial photograph was reviewed for the subject property and, where applicable, adjacent property use. In addition, each photograph was reviewed to identify the presence of areas of dumping, staining, buildings, and/or aboveground storage tanks.

Year(s)	Summary	Condition(s)
1939, 1948, 1954	Site: The subject site is undeveloped and agricultural land. Adjoining Sites: The adjacent areas are: <ul style="list-style-type: none">• North: Agricultural land• East: Residential• South: Residential• West: Residential	None Identified
1956, 1960	Site: The subject site is undeveloped and agricultural land. Adjoining Sites: The adjacent areas are: <ul style="list-style-type: none">• North: Undeveloped land• East: Residential• South: Residential• West: Residential	None Identified

Year(s)	Summary	Condition(s)
1968	<p>Site: The subject site is undeveloped and agricultural land.</p> <p>Adjoining Sites: The adjacent areas are:</p> <ul style="list-style-type: none"> • North: Bayshore Freeway • East: Residential • South: Commercial • West: Commercial 	None Identified
1974, 1980, 1991, 2004, 2005, 2006, 2009, 2010, 2012, 2014, 2016, 2018	<p>Site: The subject site is a storage facility.</p> <p>Adjoining Sites: The adjacent areas are:</p> <ul style="list-style-type: none"> • North: Bayshore Freeway • East: Residential • South: Commercial • West: Commercial 	None Identified

4.2 HISTORICAL TOPOGRAPHIC MAP REVIEW

CREsurveys, LTD. reviewed readily available and reasonably ascertainable U.S.G.S. topographic maps of the area of the subject site. These historical topographic maps have been obtained from ERIS. Each historical topographic map was reviewed for the subject property and, where applicable, adjacent property use. In addition, each map was review to identify the presence of areas of dumping, staining, buildings, and/or aboveground storage tanks.

Year(s)	Summary	Condition(s)
1897, 1899	<p>Site: The subject site is depicted as undeveloped land with no structures or other features shown.</p> <p>Adjoining Sites: The adjacent areas are depicted as undeveloped land with no structures or other features shown.</p>	None Identified
1943, 1948, 1953, 1961, 1968	<p>Site: The subject site is depicted as undeveloped land with no structures or other features shown.</p> <p>Adjoining Sites: The adjacent areas are depicted as developed land with some residential sized structures.</p>	None Identified

Year(s)	Summary	Condition(s)
1973, 1981	<p>Site: The subject site is depicted as developed land with no structures or other features shown.</p> <p>Adjoining Sites: The adjacent areas are depicted as developed land with some residential sized structures.</p>	None Identified
1995, 1997, 2015	<p>Site: The subject site is depicted as developed land with no structures or other features shown.</p> <p>Adjoining Sites: The adjacent areas are depicted as developed land with no structures or other features shown.</p>	None Identified

4.3 HISTORICAL MAP REVIEW

CREsurveys, LTD. contacted ERIS in an effort to review readily available historical and fire insurance maps with coverage of the subject site and vicinity that might be included in their collections. However, a search of the reasonably ascertainable historical and fire insurance maps found that none provided coverage of the area of the subject site.

4.4 HISTORICAL CITY OR STREET DIRECTORY REVIEW

CREsurveys, LTD. reviewed readily available historical city or street directories with coverage of the subject site and vicinity. These historical city or street directories were obtained from ERIS.

Year(s)	Summary	Condition(s)
1968-2018	<p>Subject Site Listings: 1020 Terra Bella Avenue</p> <ul style="list-style-type: none"> • SAVIANO CO INC...Paving Contractors (2018) • SAVIANO CO INC...Tennis Court Construc (2014, 2018) • SAVIANO CO INC...Tennis Court Supplies (2018) • SAVIANO CO INC...Topsoil (2018) • SAVIANO CO INC...Highway, Street, & Br (2010, 2014) • SAVIANO CO INC (2006) • NEW VARSITY TOWING (1990-91) • PARKER Mark (1987) • VARSITY TOWING (1987) • MAGGARD DALICE (1971) • BOLTON HOMER L (1968) • APARTMENTS (1968) 	None Identified
1971-2018	<p>Subject Site Listings: 1040 Terra Bella Avenue</p> <ul style="list-style-type: none"> • GARAGE DOOR SVC CO...Doors-garage (2018) • PUBLIC STORAGE...Boxes-corrugated & Fi (2014, 2018) • PUBLIC STORAGE...Storage-household & C (2018) • GARAGE DOOR SVC CO...Other Building Ma (2014) • PUBLIC STORAGE...Miniwarehouse & Self (2010, 2014) • PUBLIC STORAGE (2006) • CARRANZA JUSTINO V (1971) 	None Identified
	<p>Subject Site Listings: 1055 San Leandro Avenue</p> <ul style="list-style-type: none"> • 1055 San Leandro Avenue is not listed in the historical city directories.

4.5 AGENCY CONTACTS (RECORDS SEARCH)

As part of the Phase I Assessment, *CREsurveys, LTD.* attempts to interview various individuals who may have knowledge of different aspects of the subject site as it pertains to environmental conditions.

SUMMARY OF INTERVIEWS

ID #	Date of Interview	Name	Title	Relevant Discussions	Condition
1	10/18/19	Andres Friedman	Site Owner	Mr. Friedman is not aware of any activity or land use limitations, engineering or institutional controls, environmental liens, or other restrictions that have been placed on the property relating to hazardous materials or petroleum products. He does not have any specialized knowledge of the subject site property and surrounding areas material to recognized environmental conditions in connection with the subject property.	None Identified
2	10/22/19	Shellie Woodworth	City of Mountain View Building Department	There are no current records of violations on file with this agency.	None Identified

SUMMARY OF INTERVIEWS					
ID #	Date of Interview	Name	Title	Relevant Discussions	Condition
3	10/22/19	Jaymae Wentk	City of Mountain View Fire Department	There are no current records of concern on file with this agency.	None Identified
4	10/22/19	Magdy Baiandy	The California Environmental Protection Agency, Division of Water Quality, Underground Storage Tank Division	There are no current records of concern on file with this agency.	None Identified
5	10/22/19	Lisa Mendez	Santa Clara County Health Department Environmental Health Division	There are no current records of concern on file with this agency.	None Identified

4.6 REVIEW OF ERIS DATABASE REPORT

The *CREsurveys, LTD.* review of the ERIS Database Report, (the ERIS Database Report is included in the appendices) found the subject site is a regulatory-listed site. The ERIS Database Report: Database Radius Summary table below identifies the number of sites listed in each database included in the ERIS Database Report.

The ERIS Database Report search includes regulatory agency lists of known or potential hazardous waste sites, landfills, hazardous waste generators, and disposal facilities in addition to sites under investigation. Information included was obtained from publicly available sources. The locations of the sites listed in this report are plotted with a geographic information system utilizing geocoding of site addresses. The accuracy of these locations is generally +/- 300 feet.

During the site reconnaissance, *CREsurveys, LTD.* attempts to confirm the locations of listings on or adjacent to the subject site. Refer to the radius map (Appendix D: ERIS Database Report) for the locations of the sites in relation to the subject site property.

Migration of petroleum hydrocarbons or volatile organic compound (VOC) contamination is generally conveyed via groundwater. Therefore, only those contaminant release sites located upgradient from the subject site property are expected to represent a potential concern to the subject site property. Contaminated sites located downgradient of the subject site property are not expected to represent a potential threat. Sites that are situated hydrologically cross-gradient to the subject site property are not expected to represent a concern unless close proximity allows for the potential of lateral migration.

Common database review terms:

- Upgradient - a location that is the source groundwater for another location
- Downgradient - a location that receives groundwater from another location
- Cross-gradient - groundwater moving alongside rather than under a location

SUBJECT SITE LISTINGS

Address:	1055 San Leandro Avenue & 1020 Terra Bella Avenue Mountain View, California 94043
Databases:	HAZNET, DELISTED HAZ, FINDS/FRS, HAZNET, SANTA CLARA CUPA, HAZNET
Findings:	The subject site is listed in the ERIS Database Report. Storage tenants are listed as hazardous waste handlers. There are no violations reported for either tenant nor any concerns reported concerning the subject site property.
Recommendations:	After a review of California Environmental Protection Agency files, these listings do not represent an environmental risk to the subject site property.

ADJACENT SITE LISTINGS	
Address:	1060 Terra Bella Avenue
Databases:	FINDS/FRS
Distance / Direction / Elevation	23 feet / South / +3 feet
Findings:	The adjacent site listed in the ERIS Database Report at 1060 Terra Bella Avenue is listed as a Googlana Inc. The site is listed as part of the California Enviroview program. There are no concerns or violations reported for this site.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1066 Linda Vista Avenue
Databases:	FINDS/FRS
Distance / Direction / Elevation	30 feet / West-Northwest / 0 feet
Findings:	The adjacent site listed in the ERIS Database Report at 1066 Linda Vista Avenue is listed as a Main-Champ Co. The site is listed for RCRA information. There are no violations reported for this site.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1080 Linda Vista Avenue
Databases:	FINDS/FRS
Distance / Direction / Elevation	31 feet / Northwest / -1 feet

ADJACENT SITE LISTINGS	
Findings:	The adjacent site listed in the ERIS Database Report at 1080 Linda Vista Avenue is listed as a Robb-Jack Corp. The site is listed as part of the California Enviroview program. There are no concerns or violations reported for this site.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1025 Terra Bella Avenue
Databases:	CERS HAZ, DELISTED HAZ, FINDS/FRS, HAZNET, HAZNET, HAZNET, HAZNET, HAZNET, HAZNET, HAZNET, HAZNET, HIST MANIFEST, HIST MANIFEST, HIST MANIFEST, HIST MANIFEST, RCRA NON GEN, RCRA SQG, RCRA SQG, SANTA CLARA CUPA, SANTA CLARA CUPA, SANTA CLARA CUPA, SANTA CLARA CUPA,
Distance / Direction / Elevation	32 feet / Southeast / +2 feet
Findings:	The adjacent site listed in the ERIS Database Report at 1025 Terra Bella Avenue are multiple tenants. In 2015, FUJIFILM Wako Diagnostics U.S.A. Corporation received violations for failure to properly label materials and submit hazardous materials information to the state. There are no violations or concerns reported for any of the listed tenants.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1045 Terra Bella Avenue
Databases:	CERS HAZ, FINDS/FRS, HAZNET, HAZNET
Distance / Direction / Elevation	34 feet / South-Southeast /

ADJACENT SITE LISTINGS	
Findings:	The adjacent site listed in the ERIS Database Report at 1045 Terra Bella Avenue are multiple tenants. The site is listed as a hazardous materials site. There are no violations or concerns reported for any of the listed tenants.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1049 Terra Bella Avenue
Databases:	CERS HAZ, EMISSIONS, EMISSIONS, FINDS/FRS, HAZNET, SANTA CLARA CUPA
Distance / Direction / Elevation	34 feet / South-Southeast / +3 feet
Findings:	The adjacent site listed in the ERIS Database Report at 1049 Terra Bella Avenue is a Google, Inc. and Skybox Imaging. There are no concerns or violations reported for this site.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1062 Linda Vista Avenue
Databases:	FINDS/FRS
Distance / Direction / Elevation	38 feet / West / 0 feet
Findings:	The adjacent site listed in the ERIS Database Report at 1062 Linda Vista Avenue is a Verizon Wireless. The site is listed as part of the California Enviroview program. There are no concerns or violations reported for this site.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.

ADJACENT SITE LISTINGS	
Address:	1062 Linda Vista Avenue
Databases:	CERS HAZ
Distance / Direction / Elevation	39 feet / West / 0 feet
Findings:	The adjacent site listed in the ERIS Database Report at 1062 Linda Vista Avenue is a Verizon Wireless. The site is listed as a hazardous materials site with no violations reported.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1066 Linda Vista Avenue
Databases:	FINDS/FRS, HAZNET, HAZNET, RCRA SQG, RCRA SQG
Distance / Direction / Elevation	42 feet / West-Northwest/ 0 feet
Findings:	The adjacent site listed in the ERIS Database Report at 1066 Linda Vista Avenue is a Gard-More Circuits and Main-Champ Co. The site is listed as a hazardous materials site with no violations reported. The site is listed as a RCRA small quantity generator facility with no RCRA violations reported.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1049 Terra Bella Avenue
Databases:	FINDS/FRS
Distance / Direction / Elevation	42 feet / South-Southeast / +3 feet

ADJACENT SITE LISTINGS	
Findings:	The adjacent site listed in the ERIS Database Report at 1049 Terra Bella Avenue is a Skybox Imaging. The site is listed as part of the California Enviroview program. There are no concerns or violations reported for this site.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1080 Linda Vista Avenue
Databases:	HAZNET, HAZNET, HAZNET, HHSS, HIST TANK, SANTA CLARA LO
Distance / Direction / Elevation	44 feet / West-Northwest / -1 feet
Findings:	The adjacent site listed in the ERIS Database Report at 1080 Linda Vista Avenue are multiple tenants. The site is listed as a hazardous materials site. There are no violations or concerns reported for any of the listed tenants. The site is listed as previously having one 1,000 gallon underground storage tank on the property and one release was reported to the county. The site was issued a No Further Action letter on 06/26/1996. There are no current violations or releases reported for this site.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1049 Linda Vista Avenue
Databases:	FINDS/FRS
Distance / Direction / Elevation	47 feet / West / +1 feet
Findings:	The adjacent site listed in the ERIS Database Report at 1049 Linda Vista Avenue is listed as Apollo Fusion. The site is listed as a RCRA facility and the Toxic Release Inventory System. There are no violations or concerns reported for this site.

ADJACENT SITE LISTINGS	
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.
Address:	1080 Linda Vista Avenue
Databases:	LUST
Distance / Direction / Elevation	48 feet / Northwest / 0 feet
Findings:	The adjacent site listed in the ERIS Database Report at 1080 Linda Vista Avenue is listed as a Robb-Jack Corp. A release was reported 05/08/1986. The site received a No Further Action letter on 06/26/1996. There are no current violations or releases reported for this site.
Recommendations:	After a review of California Environmental Protection Agency files, this site does not represent an environmental risk to the subject site property due to regulatory status.

POSSIBLE UST AND AST SITES OF CONCERN WITHIN 0.25 MILES	
Databases:	None Listed
Findings:	There are no UST or AST sites of concern within 0.25 miles of the subject site.

ACTIVE LUST AND LAST SITES OF CONCERN WITHIN 0.50 MILES	
Databases:	None Listed
Findings:	There are no active LUST or LAST sites of concern within 0.50 miles of the subject site.

ACTIVE STATE AND FEDERAL SITES OF CONCERN WITHIN 1 MILE	
Databases:	None Listed
Findings:	There are no active State or Federal sites of concern within 1.00 mile of the subject site.

Orphan Sites

There are thirteen (13) facilities listed in the Unplottable Summary Report. The unplottable summary report was reviewed to assess the potential for the listed facility to pose a REC to the subject site property. Based on our review, these listings are assessed not to pose an environmental concern to the subject site property.

4.7 CHAIN-OF- TITLE ABSTRACT AND/OR REVIEW

CREsurveys, LTD. reviewed a Preliminary Commitment for Title Insurance. No environmental liens were reported for the subject site property. No engineering or institutional controls are required for the subject site property.

4.8 ADDITIONAL ENVIRONMENTAL DOCUMENTS

In the course of this assessment, *CREsurveys, LTD.* was provided with additional environmental documents regarding the environmental condition of the subject site by others. The conclusions of these materials were reviewed only. *CREsurveys, LTD.* relies upon the author/and corresponding companies’ conclusions and expertise. *CREsurveys, LTD.* does not evaluate the methodology, interpretation of results, analysis type or results, or verify in any way the completeness or correctness of the conclusions or procedures. *CREsurveys, LTD.* relies upon the report and associated conclusions of the reports provided to *CREsurveys, LTD.*. The conclusions of these materials are described in the following table.

SUMMARY OF ADDITIONAL ENVIRONMENTAL DOCUMENTS				
Date of Document	Document Type	Author/ Company	Relevant Information	Condition
December 18, 2001	Soil & Groundwater Sampling & Analysis	Daniel Hidalgo, CHG Kendall W. Price, CEG, REA E ₂ C, Inc.	"No further investigation is recommended at this time."	None Identified

4.9 IDENTIFICATION OF HISTORICAL DATA GAPS

During the course of this assessment, *CREsurveys, LTD.* identified no data gaps within the chain of historic documents regarding the environmental condition of the subject site.

4.10 REVIEW OF TITLE AND/OR JUDICIAL RECORDS FOR ENVIRONMENTAL LIENS OR ACTIVITY AND LAND USE LIMITATIONS (E.G., ENGINEERING AND INSTITUTIONAL CONTROLS)

CREsurveys, LTD. contacted the County Recorder's Office for the purpose of reviewing readily available and reasonably ascertainable title and/or judicial records for environmental liens or activity and land use limitations (e.g., engineering and institutional controls) that this agency may have on file for the subject site. Upon review of the readily available title and/or judicial records that typically pertain to environmental liens and/or land use limitations at this agency, no environmental liens, records of environmental activity and/or environmental land use limitations were identified. Not all records available and/or listed for this site at this agency were reviewed. Only those documents that typically contain those types of records (environmental liens and/or environmental land use limitations) were reviewed.

SECTION 5.0

PURCHASE PRICE OF THE PROPERTY AND FAIR MARKET VALUE

CREsurveys, LTD. uses data supplied by the client to determine if a difference between the purchase price of the property and the fair market value of the property is due to the effect of any releases or threatened releases of hazardous substances or petroleum products. The purchase price and/or fair market value are not being disclosed as part of this investigation. However, no current or past hazardous substance or petroleum product use was documented in this investigation. Therefore, any difference cannot be due to the effect of any releases or threatened releases of hazardous substances on the purchase price of the property.

SECTION 6.0

CONCLUSIONS AND RECOMMENDATIONS

6.1 RECOGNIZED ENVIRONMENTAL CONDITIONS

This section contains full descriptions of any recognized environmental conditions (REC) that have been identified as a result of the *CREsurveys, LTD.* Phase I Environmental Site Assessment for the subject site. *CREsurveys, LTD.* classifies a condition as a REC (as opposed to a de minimis condition) when it is one that involves a condition for which, in the opinion of *CREsurveys, LTD.*, further investigation and/or remediation is recommended. In addition to the descriptions of condition, this section also contains a statement of the recommended next-step actions for any conditions that are described in the following tables.

Each identified condition receives its own table, and that table will collect together the particular findings from the body of the report that have been used to support *CREsurveys, LTD.'s* conclusion as to the presence of a recognized environmental condition..

The principal findings of *CREsurveys, LTD.'s* Phase I Environmental Site Assessment for this site are as follows:

The subject site is currently affected by:

- No recognized environmental conditions (REC);
- No *de minimis* conditions, historical recognized environmental conditions (HREC), or controlled recognized environmental conditions (CREC).
- Given the findings and conclusions of *CREsurveys, LTD.'s* Phase I Environmental Site Assessment, further investigation is not recommended at this time.
- *CREsurveys, LTD.* has performed this Phase I Environmental Site Assessment of the subject site in conformance with the scope and limitations of the Environmental Protection Agency, Standards and Practices for All Appropriate Inquiries, 40 CFR Part 312 and the standard practice set forth in the American Society for Testing and Materials

(ASTM) Designation: E1527-05 and E1527-13, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process." Any exceptions to, or deletions from, these practices are described in Section 1.4 of this report.

- This assessment has revealed no evidence of recognized environmental conditions in connection with the property.

6.2 CONCLUSIONS SUMMARY

Based on the findings of this Phase I Environmental Site Assessment, *CREsurveys, LTD.* has identified no recognized environmental conditions:

RECOGNIZED ENVIRONMENTAL CONDITION(S)		
Condition #	Location	Description of Condition
None	N/A	No evidence of recognized environmental conditions was found during this investigation.

Note: Descriptions of conditions are given again in further detail in Section 6.0, Conclusions and Recommendations, along with recommendations as to how to address the conditions and the estimated costs of completing any recommended next-step action. *CREsurveys, LTD.* classifies a recognized environmental condition, per the ASTM Standard E 1527-13 definition, as the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property due to any release to the environment; under conditions indicative of a release to the environment; or under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not recognized environmental conditions.

Based on the findings of this Phase I Environmental Site Assessment, *CREsurveys, LTD.* has identified the following *de minimis* conditions, historical recognized environmental conditions, and/or controlled recognized environmental conditions:

DE MINIMIS CONDITIONS, HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS, OR CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS			
Condition #	Location	Description of Condition	Condition
None		The subject site does not appear to be at risk from a <i>de minimis</i> condition, historical recognized environmental condition, or controlled recognized environmental condition.	N/A

Note: Descriptions of conditions are given again in further detail in Section 6.0, Conclusions and Recommendations, along with recommendations as to how to address the conditions. **CREsurveys, LTD.** classifies an environmental condition as a *de minimis* as a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* conditions are not recognized environmental conditions nor controlled recognized environmental conditions. *De minimis* conditions may appear to pose no immediate threat to the subject site, to have a negligible monetary/physical impact on the subject site, and/or to require no immediate action or additional investigation given the current knowledge of site conditions. However, such conditions with time, groundwater movement, demolition or other disturbances, or sometimes with the acquisition of further information, may come to pose a long-term, immediate, or chronic environmental risk. **CREsurveys, LTD.** classifies a historical recognized environmental condition (HREC) as a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls. An HREC is limited to include only past releases that have been addressed to unrestricted residential use. **CREsurveys, LTD.** classifies a Controlled Recognized Environmental Condition (CREC) as a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable agency, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

6.3 CERTIFICATION STATEMENT

We certify that to the best of our knowledge and belief:

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting condition, and are **CREsurveys, LTD.** unbiased professional analysis, opinion, and conclusions.
3. **CREsurveys, LTD.** compensation is not contingent on an action or event resulting from the analysis, opinions and conclusions developed in this report.
4. We, and other representatives, have made a personal inspection of the property that is the subject of this report.
5. Other consultants provided significant professional assistance to the consultant signing this report.
6. This report is forwarded as an accurate representation of the site condition at the reported point in time to the best of our knowledge.

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312” and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

John Krusinski **CREsurveys, LTD.**

Environmental Professional

SECTION 7.0

LIMITATIONS

To achieve the study objectives stated in this report, we were required to base *CREsurveys, LTD.* conclusions and recommendations on the best information available during the period the investigation was conducted and within the limits prescribed by *CREsurveys, LTD.* client in the contract/authorization agreement and standard terms and conditions.

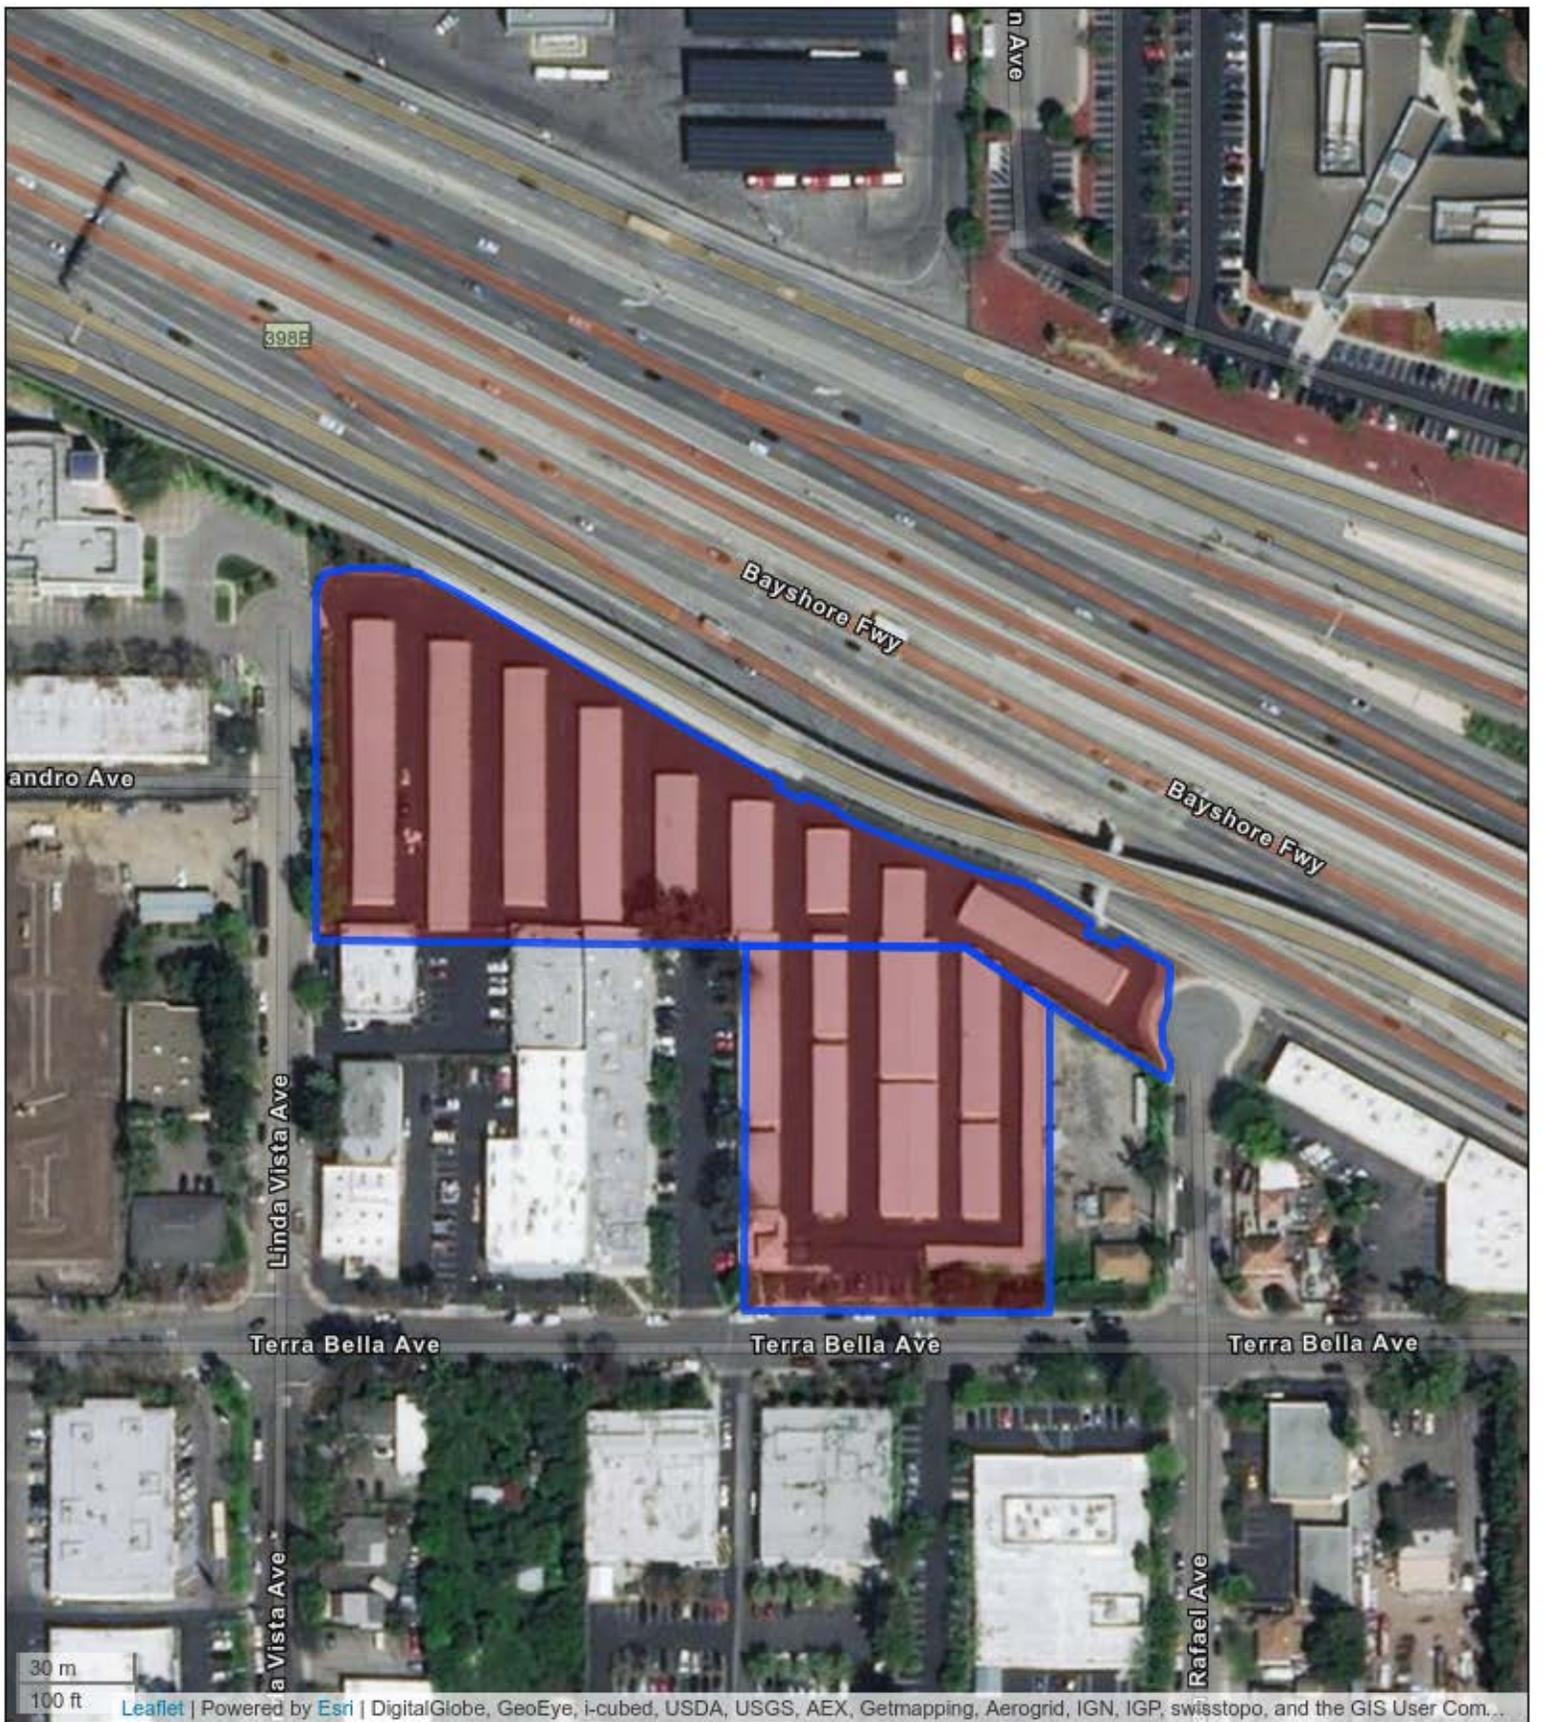

CREsurveys, LTD. professional services were performed using that degree of care and skill ordinarily exercised by environmental consultants practicing in this or similar fields. The findings were mainly based upon a site assessment, examination of historic records, maps, aerial photographs, and governmental agencies lists, and interviews with knowledgeable persons. The hazardous waste site lists represented in this report represent only a search of the specific government records as listed above. It should be noted that governmental agencies often do not list all sites with environmental contamination; the lists could be inaccurate and/or incomplete. Recommendations are based on the historic land use of the subject property, as well as features noted during the site walk and examined records. The absence of potential gross contamination sources, historic or present, does not necessarily imply that the subject property is free of any contamination. This report represents a "due diligence" effort as to the integrity of the subject property. No warranty or guarantee, expressed or implied, is made as to the professional conclusions or recommendations contained in this report. The limitations contained within this report are consistent with the proposed scope of work, the ASTM E1527-13 standard, the regulations at 40 CFR Part 312, and supersede all other contracts or scopes of work, implied or otherwise, except those stated or acknowledged herewith.

This report is not a legal opinion. It constitutes inquiry consistent with the requirements defined in the ASTM Standard and the regulations at 40 CFR Part 312 concerning to establish the limited liability defenses under CERCLA, including the "innocent landowner defense," the "bona fide prospective purchaser defense," and the "adjacent landowner defense." Only legal counsel retained by the client is competent to determine the legal implications of any information, conclusions, or recommendations in this report. The compliance status, discussed in Section 3.0, is not intended for use as a guide to compliance for the present owner. Its intended use is to identify environmental impairments to the subject property and is not to be used as a guide to the legal compliance to any regulations of any kind.

The findings, conclusions, recommendations, and professional opinions contained in this report have been prepared by the staff of *CREsurveys, LTD.*, in accordance with generally accepted professional practices. All cost estimates in Section 6.0, are purely estimates only, and may not represent the actual costs. Without further investigative assessment, exact, actual costs cannot be fixed. The costs associated with *CREsurveys, LTD.* recommendations are for budgetary purposes only.

This report does not address, in any way, septic systems, leach fields, septic tanks, or related health hazards.

Property: 1020 Terra Bella Avenue and, 1055 San Leandro Avenue, Mountain View, CA

PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. *The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties.* Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of August 01, 2019 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

ALTA Extended Owner Policy

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest [at the date hereof is vested in:](#)

Storage Equities, Inc., a California corporation

The estate or interest in the land hereinafter described or referred to covered by this Report is:

FEE

The Land referred to herein is described as follows:

(See attached Legal Description)

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

1. General and special taxes and assessments for the fiscal year 2019-2020, a lien not yet due or payable.
2. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.
3. A waiver of any claims for damages by reason of the location, construction, landscaping or maintenance of a contiguous freeway, highway, roadway or transit facility as contained in the document recorded November 19, 1957 as Document No. 1406201 in [Book 3940, Page 450](#) of Official Records.

(Affects Parcels One and Two)

4. Abutter's rights of ingress and egress to or from Freeway have been relinquished in the document recorded November 19, 1957 as Document No. 1406201 in [Book 3940, Page 450](#) of Official Records.

(Affects Parcels One and Two)

5. An easement for public street, road purposes and for sanitary sewer and storm drainage purposes and incidental purposes, recorded August 16, 1972 as [Book 9975, Page 604](#) of Official Records.

In Favor of: City of Mountain View, a municipal corporation
Affects: Parcels One and Two, as described therein

6. An easement for public street, road purposes, sanitary sewer and storm drainage purposes and incidental purposes, recorded August 16, 1972 as [Book 9975, Page 610](#) of Official Records.

In Favor of: City of Mountain View, a municipal corporation
Affects: Parcel One, as described therein

7. An easement for ingress and egress, underground conduits and a pipe line and incidental purposes, recorded January 31, 1973 as Book [0217, Page 332](#) of Official Records.

In Favor of: Pacific Gas and Electric Company, a California corporation
Affects: Parcel Two, as described therein

8. The terms and provisions contained in the document entitled "Agreement" recorded January 30, 1974 as Book [0744, Page 671](#) of Official Records.

(Affects Parcel Three)

9. The terms and provisions contained in the document entitled "Access Agreement" recorded February 04, 1974 as Book [0750, Page 269](#) of Official Records.

(Affects Parcels One and Three)

10. An easement for sanitary sewer public street/road and incidental purposes, recorded February 04, 1974 as Book [0750, Page 273](#) of Official Records.

In Favor of: City of Mountain View
Affects: Parcel Three, as described therein

11. The terms and provisions contained in the document entitled "Agreement" recorded March 21, 1974 as Document No. 4726541 in Book [0812, Page 581](#) of Official Records.

(Affects Parcel Three)

12. The terms and provisions contained in the document entitled "Agreement" recorded March 21, 1974 as Book [0812, Page 588](#) of Official Records.

(Affects Parcel Three)

13. The terms and provisions contained in the document entitled "Agreement" recorded October 01, 1974 as [Book B110, Page 719](#) of Official Records.

(Affects Parcel Three)

14. The terms and provisions contained in the document entitled "City of Mountain View Encroachment Permit" recorded February 09, 1984 as [Book I297, Page 230](#) of Official Records.

(Affects Parcel Two)

15. A mortgage to secure an original principal indebtedness of \$40,000,000.00, and any other amounts or obligations secured thereby, recorded December 07, 1984 as Document No. 8272299 in [Book J096, Page 653](#) of Official Records.

Dated: December 01, 1984
Mortgagor: Storage Equities, Inc., a California corporation
Mortgagee: First Interstate Bank of California, a California banking corporation

Said document does not contain a legal description.

16. An easement for permanent highway and street easements, permanent waterline, maintenance and subsurface foundation easements and incidental purposes, recorded December 12, 2005 as Document No. [18715687](#) of Official Records.

In Favor of: Santa Clara Valley Transportation Authority
Affects: as described therein

A document recorded November 17, 2011 as Document No. [21426699](#) of Official Records provides that the interest of the waterline easement holder was transferred to City of Mountain View, a municipal corporation of the State of California.

A document recorded November 17, 2011 as Document No. [21426700](#) of Official Records provides that the interest of the street easement holder was transferred to City of Mountain View, a municipal corporation of the State of California.

17. Rights of the public in and to that portion of the Land lying within any road, street and/or highway.
18. Additional matters, if any, following review by the Company's Waterways and Boundaries Underwriters.
19. An ALTA/NSPS survey of recent date which complies with the current minimum standard detail requirements for ALTA/NSPS land title surveys.
20. Any facts, rights, interests or claims which would be disclosed by a correct ALTA/NSPS survey.
21. Rights of parties in possession.

INFORMATIONAL NOTES

ALERT - CA Senate Bill 2 imposes an additional fee of \$75 up to \$225 at the time of recording on certain transactions effective January 1, 2018. Please contact your First American Title representative for more information on how this may affect your closing.

1. Taxes for proration purposes only for the fiscal year 2018-2019.

First Installment: \$16,923.52, PAID
Second Installment: \$16,923.52, PAID
Tax Rate Area: 005-010
APN: 153-15-030

(Affects Parcels One and Two)

2. Taxes for proration purposes only for the fiscal year 2018-2019.

First Installment: \$16,893.18, PAID
Second Installment: \$16,893.18, PAID
Tax Rate Area: 005-010
APN: 153-15-002

(Affects Parcel Three)

3. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Commercial Structure known as 1020 Terra Bella Avenue and 1055 San Leandro Avenue, Mountain View, CA.

4. According to the public records, there has been no conveyance of the land within a period of twenty-four months prior to the date of this report, except as follows:

None

5. This preliminary report/commitment was prepared based upon an application for a policy of title insurance that identified land by street address or assessor's parcel number only. It is the responsibility of the applicant to determine whether the land referred to herein is in fact the land that is to be described in the policy or policies to be issued.

6. Should this report be used to facilitate your transaction, we must be provided with the following prior to the issuance of the policy:

A. WITH RESPECT TO A CORPORATION:

1. A certificate of good standing of recent date issued by the Secretary of State of the corporation's state of domicile.
2. A certificate copy of a resolution of the Board of Directors authorizing the contemplated transaction and designating which corporate officers shall have the power to execute on behalf of the corporation.
3. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.

4. Requirements which the Company may impose following its review of the above material and other information which the Company may require.
- B. WITH RESPECT TO A CALIFORNIA LIMITED PARTNERSHIP:
1. A certified copy of the certificate of limited partnership (form LP-1) and any amendments thereto (form LP-2) to be recorded in the public records;
 2. A full copy of the partnership agreement and any amendments;
 3. Satisfactory evidence of the consent of a majority in interest of the limited partners to the contemplated transaction;
 4. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.
 5. Requirements which the Company may impose following its review of the above material and other information which the Company may require.
- C. WITH RESPECT TO A FOREIGN LIMITED PARTNERSHIP:
1. A certified copy of the application for registration, foreign limited partnership (form LP-5) and any amendments thereto (form LP-6) to be recorded in the public records;
 2. A full copy of the partnership agreement and any amendment;
 3. Satisfactory evidence of the consent of a majority in interest of the limited partners to the contemplated transaction;
 4. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.
 5. Requirements which the Company may impose following its review of the above material and other information which the Company may require.
- D. WITH RESPECT TO A GENERAL PARTNERSHIP:
1. A certified copy of a statement of partnership authority pursuant to Section 16303 of the California Corporation Code (form GP-1), executed by at least two partners, and a certified copy of any amendments to such statement (form GP-7), to be recorded in the public records;
 2. A full copy of the partnership agreement and any amendments;
 3. Requirements which the Company may impose following its review of the above material required herein and other information which the Company may require.
- E. WITH RESPECT TO A LIMITED LIABILITY COMPANY:
1. A copy of its operating agreement and any amendments thereto;
 2. If it is a California limited liability company, a certified copy of its articles of organization (LLC-1) and any certificate of correction (LLC-11), certificate of amendment (LLC-2), or restatement of articles of organization (LLC-10) to be recorded in the public records;
 3. If it is a foreign limited liability company, a certified copy of its application for registration (LLC-5) to be recorded in the public records;
 4. With respect to any deed, deed of trust, lease, subordination agreement or other document or instrument executed by such limited liability company and presented for recordation by the Company or upon which the Company is asked to rely, such document or instrument must be executed in accordance with one of the following, as appropriate:
 - (i) If the limited liability company properly operates through officers appointed or elected pursuant to the terms of a written operating agreement, such documents must be executed by at least two duly elected or appointed officers, as follows: the chairman of the board, the president or any vice president, and any secretary, assistant secretary, the chief financial officer or any assistant treasurer;
 - (ii) If the limited liability company properly operates through a manager or managers identified in the articles of organization and/or duly elected pursuant to the terms of a written operating agreement, such document must be executed by at least two such managers or by one manager if the limited liability company properly operates with the existence of only one manager.
 5. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.

6. Requirements which the Company may impose following its review of the above material and other information which the Company may require.
- F. WITH RESPECT TO A TRUST:
1. A certification pursuant to Section 18100.5 of the California Probate Code in a form satisfactory to the Company.
 2. Copies of those excerpts from the original trust documents and amendments thereto which designate the trustee and confer upon the trustee the power to act in the pending transaction.
 3. Other requirements which the Company may impose following its review of the material require herein and other information which the Company may require.
- G. WITH RESPECT TO INDIVIDUALS:
1. A statement of information.

The map attached, if any, may or may not be a survey of the land depicted hereon. First American Title Insurance Company expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of the title insurance policy, if any, to which this map is attached.

APN: 153-15-030 (Affects: Parcels One and Two) and

153-15-002 (Affects: Parcel Three)

NOTICE I

Section 12413.1 of the California Insurance Code, effective January 1, 1990, requires that any title insurance company, underwritten title company, or controlled escrow company handling funds in an escrow or sub-escrow capacity, wait a specified number of days after depositing funds, before recording any documents in connection with the transaction or disbursing funds. This statute allows for funds deposited by wire transfer to be disbursed the same day as deposit. In the case of cashier's checks or certified checks, funds may be disbursed the next day after deposit. In order to avoid unnecessary delays of three to seven days, or more, please use wire transfer, cashier's checks, or certified checks whenever possible.

If you have any questions about the effect of this new law, please contact your local First American Office for more details.

NOTICE II

As of January 1, 1991, if the transaction which is the subject of this report will be a sale, you as a party to the transaction, may have certain tax reporting and withholding obligations pursuant to the state law referred to below:

In accordance with Sections 18662 and 18668 of the Revenue and Taxation Code, a buyer may be required to withhold an amount equal to three and one-third percent of the sales price in the case of the disposition of California real property interest by either:

1. A seller who is an individual with a last known street address outside of California or when the disbursement instructions authorize the proceeds be sent to a financial intermediary of the seller, OR
2. A corporate seller which has no permanent place of business in California.

The buyer may become subject to penalty for failure to withhold an amount equal to the greater of 10 percent of the amount required to be withheld or five hundred dollars (\$500).

However, notwithstanding any other provision included in the California statutes referenced above, no buyer will be required to withhold any amount or be subject to penalty for failure to withhold if:

1. The sales price of the California real property conveyed does not exceed one hundred thousand dollars (\$100,000), OR
2. The seller executes a written certificate, under the penalty of perjury, certifying that the seller is a resident of California, or if a corporation, has a permanent place of business in California, OR
3. The seller, who is an individual, executes a written certificate, under the penalty of perjury, that the California real property being conveyed is the seller's principal residence (as defined in Section 1034 of the Internal Revenue Code).

The seller is subject to penalty for knowingly filing a fraudulent certificate for the purpose of avoiding the withholding requirement.

The California statutes referenced above include provisions which authorize the Franchise Tax Board to grant reduced withholding and waivers from withholding on a case-by-case basis.

The parties to this transaction should seek an attorney's, accountant's, or other tax specialist's opinion concerning the effect of this law on this transaction and should not act on any statements made or omitted by the escrow or closing officer.

The Seller May Request a Waiver by Contacting:
Franchise Tax Board
Withhold at Source Unit
P.O. Box 651
Sacramento, CA 95812-0651
(916) 845-4900

Privacy Policy

We Are Committed to Safeguarding Customer Information

In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information - particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our parent company, The First American Corporation, we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability

This Privacy Policy governs our use of the information which you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity. First American has also adopted broader guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its *Fair Information Values*, a copy of which can be found on our website at www.firstam.com.

Types of Information

Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information

We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies, and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies, or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers

Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security

We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American's *Fair Information Values*. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

**CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (02-03-10)
EXCLUSIONS**

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
 - (a) building;
 - (b) zoning;
 - (c) land use;
 - (d) improvements on the Land;
 - (e) land division; and
 - (f) environmental protection.This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
 - (a) that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
 - (b) that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
 - (c) that result in no loss to You; or
 - (d) that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
 - (a) to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
 - (b) in streets, alleys, or waterways that touch the Land.This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows: For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

Your Deductible Amount	<u>Our Maximum Dollar Limit of Liability</u>
Covered Risk 16: 1% of Policy Amount or \$2,500.00 (whichever is less)	\$10,000.00
Covered Risk 18: 1% of Policy Amount or \$5,000.00 (whichever is less)	\$25,000.00
Covered Risk 19: 1% of Policy Amount or \$5,000.00 (whichever is less)	\$25,000.00
Covered Risk 21: 1% of Policy Amount or \$2,500.00 (whichever is less)	\$5,000.00

**ALTA RESIDENTIAL TITLE INSURANCE POLICY (6-1-87)
EXCLUSIONS**

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning:
 - (a) and use
 - (b) improvements on the land
 - (c) and division
 - (d) environmental protectionThis exclusion does not apply to violations or the enforcement of these matters which appear in the public records at Policy Date. This exclusion does not limit the zoning coverage described in Items 12 and 13 of Covered Title Risks.
2. The right to take the land by condemning it, unless:
 - (a) a notice of exercising the right appears in the public records on the Policy Date
 - (b) the taking happened prior to the Policy Date and is binding on you if you bought the land without knowing of the taking
3. Title Risks:

- (a) that are created, allowed, or agreed to by you
 - (b) that are known to you, but not to us, on the Policy Date -- unless they appeared in the public records
 - (c) that result in no loss to you
 - (d) that first affect your title after the Policy Date -- this does not limit the labor and material lien coverage in Item 8 of Covered Title Risks
4. Failure to pay value for your title.
5. Lack of a right:
- (a) to any land outside the area specifically described and referred to in Item 3 of Schedule A OR
 - (b) in streets, alleys, or waterways that touch your land
- This exclusion does not limit the access coverage in Item 5 of Covered Title Risks.

2006 ALTA LOAN POLICY (06-17-06) EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
- i. the occupancy, use, or enjoyment of the Land;
 - ii. the character, dimensions, or location of any improvement erected on the Land;
 - iii. the subdivision of land; or
 - iv. environmental protection;
- or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
- a. created, suffered, assumed, or agreed to by the Insured Claimant;
 - b. not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - c. resulting in no loss or damage to the Insured Claimant;
 - d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
 - e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
- a. a fraudulent conveyance or fraudulent transfer, or
 - b. a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

- 1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- 2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
- 4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an

accurate and complete land survey of the Land and not shown by the Public Records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

**2006 ALTA OWNER'S POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE**

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - i. the occupancy, use, or enjoyment of the Land;
 - ii. the character, dimensions, or location of any improvement erected on the Land;
 - iii. the subdivision of land; or
 - iv. environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - a. created, suffered, assumed, or agreed to by the Insured Claimant;
 - b. not Known to the Company, not recorded in the Public Records at Date of Policy, but known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - c. resulting in no loss or damage to the Insured Claimant;
 - d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
 - e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. **Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws**, that the transaction vesting the Title as shown in Schedule A, is
 - a. a fraudulent conveyance or fraudulent transfer; or
 - b. a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

**ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (07-26-10)
EXCLUSIONS FROM COVERAGE**

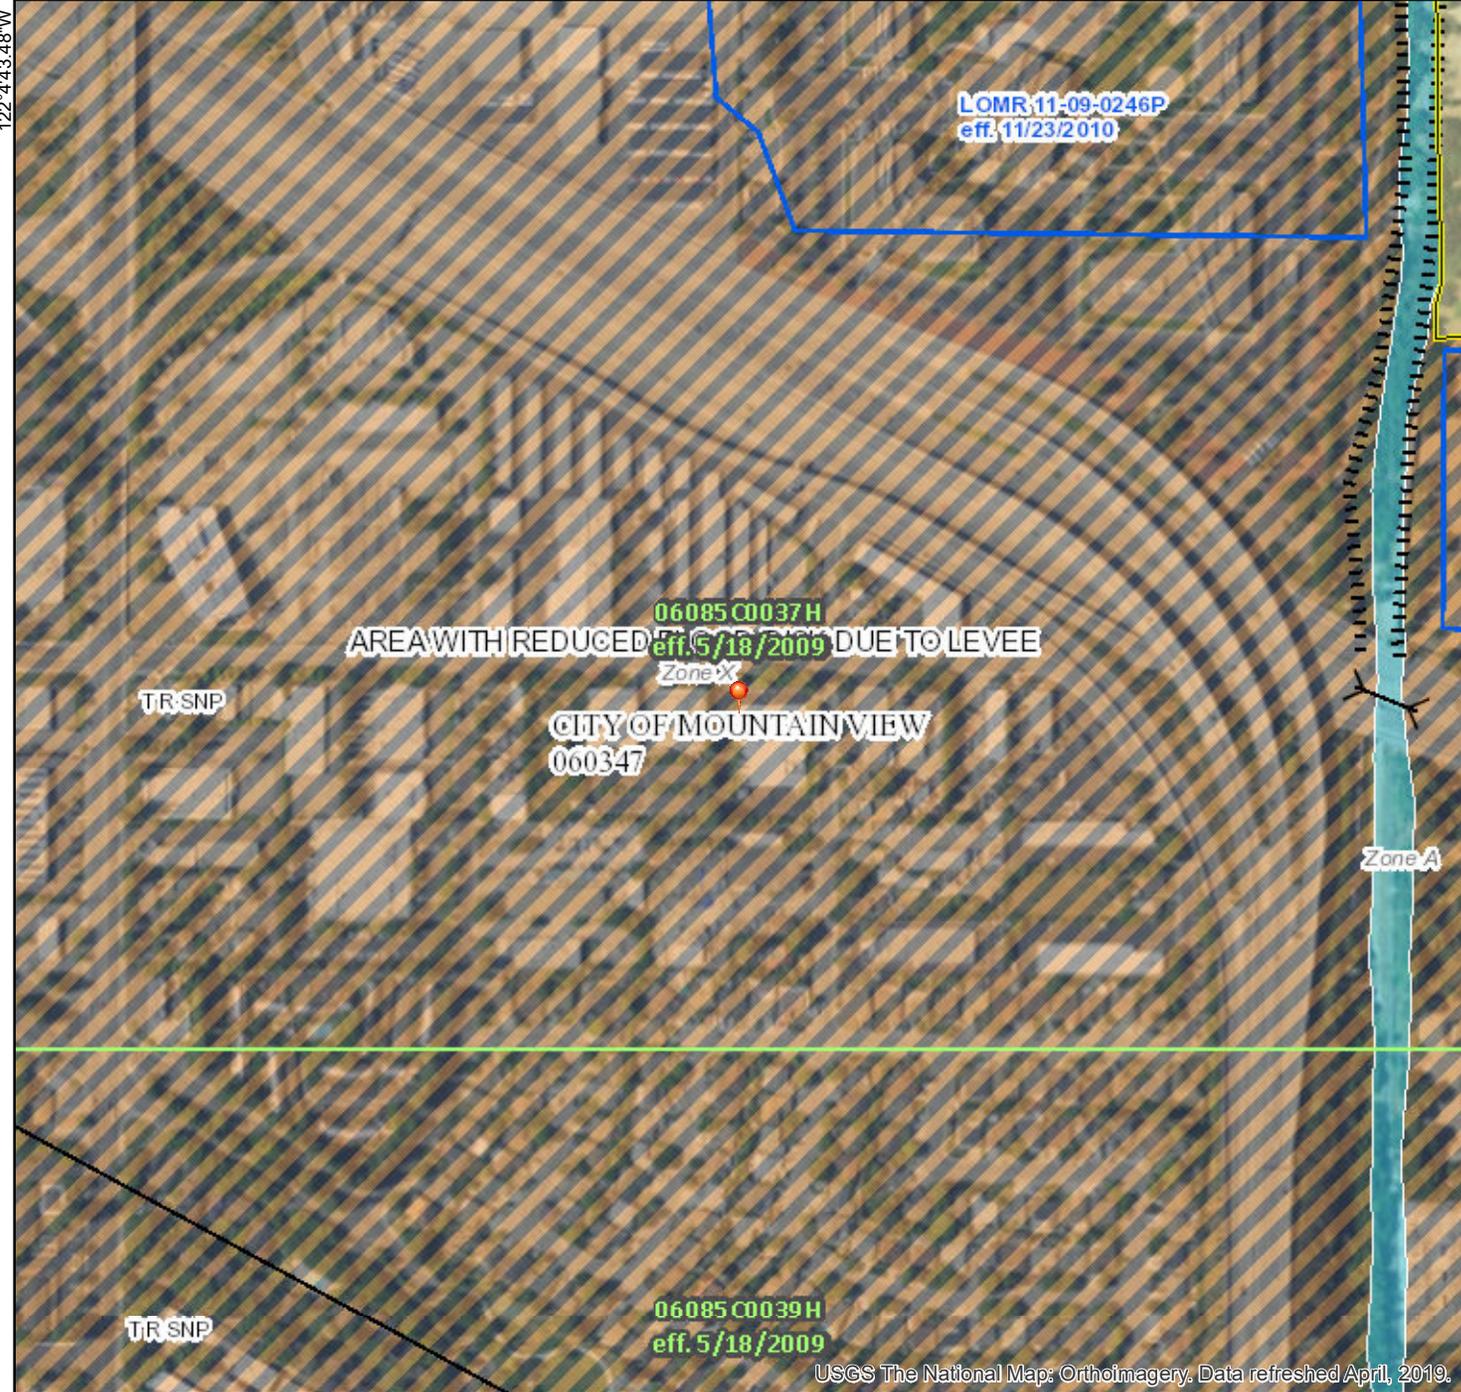

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - i. the occupancy, use, or enjoyment of the Land;
 - ii. the character, dimensions, or location of any improvement erected on the Land;
 - iii. the subdivision of land; or
 - iv. environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
- b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - a. created, suffered, assumed, or agreed to by the Insured Claimant;
 - b. not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - c. resulting in no loss or damage to the Insured Claimant;
 - d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
 - e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - a. a fraudulent conveyance or fraudulent transfer, or
 - b. a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.

June 26, 1996

Mr. Rob Eitreim
14370 Castle Rock Road
Salinas, CA 93908

Dear Mr. Eitreim:

Subject: Underground Storage Tank Case Closure—Robb-Jack Corp., 1080 Linda Vista Avenue, Mountain View, CA; Case No. 11-037; Underground Storage Tank Cleanup Fund No. 11354

This letter confirms the completion of site investigation and remedial action for the underground storage tank(s) formerly located at the above-described location. Enclosed is the Case Closure Summary for the referenced site for your records.

Based upon the available information, including the current land use, and with the provision that the information provided to this agency was accurate and representative of site conditions, no further action related to the underground storage tank release is required.

This notice is issued pursuant to a regulation contained in Title 23, California Code of Regulations, Division 3, Chapter 16, Section 2721(e).

Please contact Ms. Christine Tulloch at the Santa Clara Valley Water District's Camden Office, (408) 927-0710, extension 2636, if you have any questions in this matter.

Sincerely,

ORIGINAL SIGNED BY

James S. Crowley, P.E.
Associate Civil Engineer
Leaking Underground Storage Tank Oversight Program

June 17, 1996

Mr. John West
Regional Water Quality Control Board
2101 Webster Street, Suite 500
Oakland, CA 94612

Dear Mr. West:

Subject: Request for Case Closure Concurrence—Underground Storage Tank Program Case No. 11-037, Robb-Jack Corp., 1080 Linda Vista Avenue, Mountain View, CA

This requests your concurrence on case closure for the subject fuel leak case. Enclosed for your review is a case closure summary. Please provide comment to the Santa Clara Valley Water District (District) casehandler within 30 days from the receipt of this letter. If we have not received comment from you within that time frame, the District will issue a case closure letter for the subject case.

As you know, the District has entered into agreement with the State Water Resources Control Board to provide regulatory oversight for leaking underground fuel storage tanks. The terms of the agreement require the District to issue case closure letters after appropriate remediation for cases where soil and/or groundwater has been impacted. District evaluation of case closure is consistent with the San Francisco Bay Region, Regional Water Quality Control Board Water Quality Control Plan (Basin Plan) requirements and guidance.

Please contact Ms. Christine Tulloch at the Camden Office, (408) 927-0710, extension 2636, with any questions or comments that arise as you proceed with review of this proposed case closure.

Sincerely,

ORIGINAL SIGNED BY

James S. Crowley, P.E.

CASE CLOSURE SUMMARY LEAKING UNDERGROUND FUEL STORAGE TANK PROGRAM

I. AGENCY INFORMATION

Date: June 11, 1996

Agency Name: Santa Clara Valley Water District	Address: 5750 Almaden Expressway
City/State/Zip: San Jose, CA 95118	Phone: (408) 265-2600
Responsible Staff Person: Christine A. Tulloch	Title: Water Quality Specialist

II. CASE INFORMATION

Site Facility Name: Robb-Jack Corp.		
Site Facility Address: 1080 Linda Vista Avenue, Mountain View, CA		
RB LUSTIS Case No.: —	Local Case No.: 06S2W15M01f	LOP Case No.: 11-037
URF Filing Date: 05/08/86	SWEEPS No.: —	APN No.: 153-15-029
Responsible Parties	Addresses	Phone Numbers
Mr. Rob Eitreim	14370 Castle Rock Road Salinas, CA 93908	—

Tank I.D. No	Size in Gallons	Contents	Closed In-Place/Removed?	Date
1	1,000	Gasoline	Removed	05/08/86
Piping			—	—

III. RELEASE AND SITE CHARACTERIZATION INFORMATION

Cause and Type of Release: Holes in tank		
Site characterization complete? Yes	Date Approved By Oversight Agency: 04/26/96	
Monitoring wells installed? Yes	Number: 3	Proper screened interval? Yes
Highest GW Depth Below Ground Surface: 7.5	Lowest Depth: 9.5	Flow Direction: Northwest
Most Sensitive Current Use: Potential drinking water		
Summary of Production Wells in Vicinity: Not assessed due to localized contamination.		
Are drinking water wells affected? No	Aquifer Name: Santa Clara Valley Basin	
Is surface water affected? No	Nearest SW Name: —	
Off-Site Beneficial Use Impacts (Addresses/Locations): None reported		
Reports on file? Yes	Where are reports filed? Santa Clara Valley Water District	

TREATMENT AND DISPOSAL OF AFFECTED MATERIAL			
Material	Amount (Include Units)	Action (Treatment or Disposal w/Destination)	Date
Tank	1,000-gallon	Assumed off site	—
Piping	Unknown	Assumed off site	—
Free Product	None	—	—
Soil	250 cubic yards	On-site pending remediation	10/10/94
Groundwater	None	—	—
Barrels	None	—	—

MAXIMUM DOCUMENTED CONTAMINANT CONCENTRATIONS—BEFORE AND AFTER CLEANUP OPTIONAL: (Please see Attachment 2 for additional information on contaminant locations and concentrations)									
Contaminant	Soil (ppm)		Water (ppb)		Contaminant	Soil (ppm)		Water (ppb)	
	Before	After	Before	After		Before	After	Before	After
TPH (Gas)	2,300	25	610	120	Xylene	NA	0.088	97	1.4
TPH (Diesel)	NA	NA	NA	NA	Ethylbenzene	NA	0.90	2	ND
Benzene	NA	0.0038	89	3.5	Oil & Grease	NA	NA	NA	NA
Toluene	NA	0.32	20	0.72	Heavy Metals	NA	NA	NA	NA
Other (8240/8270)	NA	NA	NA	NA	Other	NA	NA	NA	NA

Description of Interim Remediation Activities: Reportedly, overexcavation occurred after tank removal, but contaminated soil was used as backfill. Overexcavation was undertaken again in September 1994. Verification sampling results indicates that most affected soil was removed.

IV. CLOSURE

Does completed corrective action protect existing beneficial uses per the Regional Board Basin Plan? Yes		
Does completed corrective action protect potential beneficial uses per the Regional Board Basin Plan? Yes		
Does corrective action protect public health for current land use? District staff does not make specific determinations concerning public health risk. However, it does not appear that the release would present a risk to human health.		
Site Management Requirements: None		
Should corrective action be reviewed if land use changes? No		
Monitoring Wells Decommissioned: No	Number Decommissioned: 0	Number Retained: 3
List Enforcement Actions Taken: None		
List Enforcement Actions Rescinded: None		

V. ADDITIONAL COMMENTS, DATA, ETC.

Considerations and/or Variances: Groundwater contamination was not detected in October 1986 when MW-1 was installed. Monitoring was not performed again until 1990. The highest level of Benzene detected was 89 parts per billion, almost an order of magnitude higher than any other sampling event and is considered anomalous.

Low levels of Total Petroleum Hydrocarbons as Gasoline (no Benzene, Toluene, Ethylbenzene, and Xylenes) were detected in MW-2 and MW-3, up and crossgradient, respectively. The laboratory has reported isolated peaks in the chromatogram which the consultant is attributing to an off-site source.

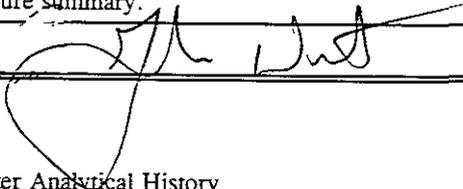

Conclusion: Overexcavation removed ongoing sources of groundwater contamination. Significant levels of petroleum hydrocarbons in groundwater have not been detected. Benzene was nondetect four of the last five sampling events. Residual contamination will not have a negative affect on beneficial uses of groundwater.

VI. LOCAL AGENCY REPRESENTATIVE DATA

Prepared by: Christine A. Tulloch	Title: Water Quality Specialist
Signature: 	Date: 6/13/96
Approved by: James S. Crowley, P.E.	Title: Associate Civil Engineer
Signature: 	Date: 6/13/96

This closure approval is based upon the available information and with the provision that the information provided to this agency was accurate and representative of site conditions.

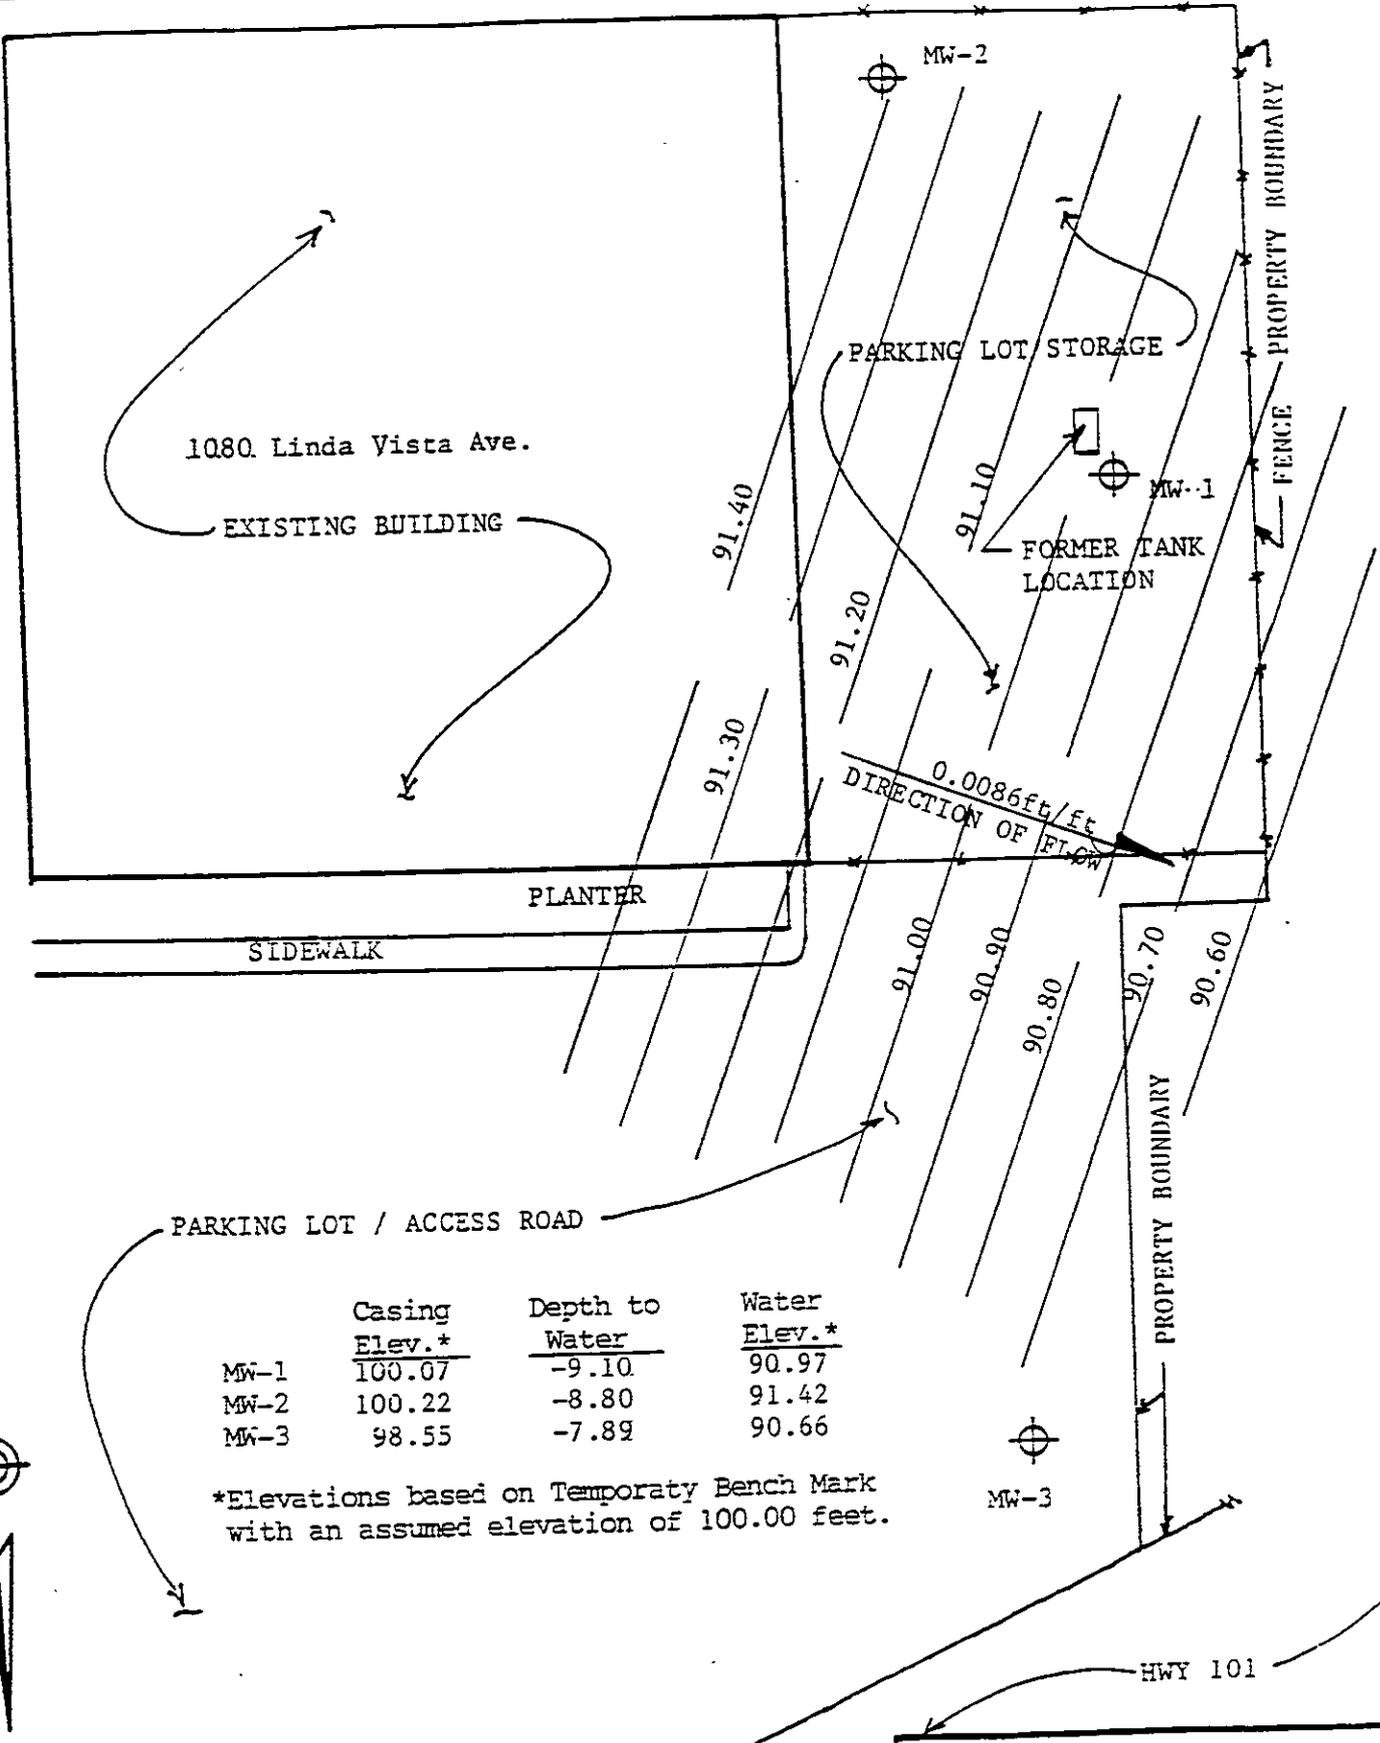

VII. REGIONAL BOARD NOTIFICATION

Regional Board Staff Name: John West	Title: E.S. III
RB Response: Concur, based solely upon information contained in this case closure summary.	Date Submitted to RB: 6-21-96
Signature: 	Date: 6-21-96

Attachments:

1. Site Map
2. Groundwater Analytical History

This document and the related CASE CLOSURE LETTER, shall be retained by the lead agency as part of the official site file.

PARKING LOT / ACCESS ROAD

	Casing Elev.*	Depth to Water	Water Elev.*
MW-1	100.07	-9.10	90.97
MW-2	100.22	-8.80	91.42
MW-3	98.55	-7.89	90.66

*Elevations based on Temporary Bench Mark with an assumed elevation of 100.00 feet.

BOB EITREIM		
DATE 12/15/94	SCALE 1"=30'	DRAWN BY DCG
SITE PLAN		
		Figure 2

SUMMARY OF FINDINGS

Ground water elevations recorded suggest that the ground water is approximately 8-10 feet below the ground surface and flows across the site in a northwesterly direction at a gradient of 0.0086 ft/ft. This flow direction places Monitoring Well MW-2 in an "up-gradient" direction from the former storage tank with Monitoring Well MW-1 located in a "down-gradient" direction and Monitoring Well MW-3 located in a "cross- to down-gradient" direction.

The analytical testing continued to detect low concentrations of Total Petroleum Hydrocarbons as gasoline in the water samples obtained from Monitoring Well MW-1, MW-2, and MW-3. Volatile Aromatic Compounds (Benzene, Toluene, Ethyl Benzene, and Xylene) were detected in the samples from Monitoring Well MW-1. The current, and previous, analytical test data are summarized in Table 1.

TABLE 1

SUMMARY OF GROUND WATER ANALYTICAL TEST DATA

<u>Date Sampled</u>	<u>Total Petroleum Hydrocarbons (ppb)</u>	<u>Benzene (ppb)</u>	<u>Toluene (ppb)</u>	<u>Total Xylenes (ppb)</u>	<u>Ethyl-Benzene (ppb)</u>
<u>MW-1</u>					
Reported by Others:					
8-16-90	610	15	12	0.5	1.1
9-27-90	350	89	20	10	2

12-15-94	120	3.5	0.72	1.4	N.D.

Note: -- - constituents not analyzed.
 N.D. indicates concentrations below detection limits.

TABLE 1 (Cont'd.)

SUMMARY OF GROUND WATER ANALYTICAL TEST DATA

<u>Date Sampled</u>	<u>Total Petroleum Hydrocarbons</u> (ppb)	<u>Benzene</u> (ppb)	<u>Toluene</u> (ppb)	<u>Total Xylenes</u> (ppb)	<u>Ethyl-Benzene</u> (ppb)
<u>MW-2</u>					
12-13-91	91	N.D.	N.D.	N.D.	N.D.
4-22-92	79	N.D.	N.D.	N.D.	N.D.
8-14-92	not sampled				
11-3-92	140	N.D.	N.D.	N.D.	N.D.
2-9-93	not sampled				
6-24-93	not sampled				
3-15-94	77	N.D.	N.D.	N.D.	N.D.
6-22-94	92	N.D.	N.D.	N.D.	N.D.
12-15-94	150	N.D.	N.D.	N.D.	N.D.
<u>MW-3</u>					
12-13-91	130	N.D.	N.D.	N.D.	N.D.
4-22-92	120	N.D.	N.D.	N.D.	N.D.
8-14-92	not sampled				
11-3-92	180	N.D.	N.D.	N.D.	N.D.
2-9-93	not sampled				
6-24-93	not sampled				
3-15-94	150	N.D.	N.D.	N.D.	N.D.
6-22-94	120	N.D.	N.D.	N.D.	N.D.
12-15-94	200	N.D.	N.D.	N.D.	N.D.

Note: N.D. indicates concentrations below detection limits.
 MW-2 is located "up-gradient" from the former tank.
 MW-3 is located "cross- to down-gradient" from the former tank.
 The concentrations reported as Total Petroleum Hydrocarbons as gasoline for samples MW-2 and MW-3 are the result of the presence of Volatile Organic Compounds.

Regulated Programs

EI Description: Chemical Storage Facilities **EI ID:** 10343953

El Description: Hazardous Waste Generator **El ID:** 10343953

Violations

Violation Date: 12/10/2015 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** Mountain View Fire Department
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Location: Add waste flammable liquids (ethanol, terpineol) to inventory, and fix other inconsistencies in inventory.

Violation Description:

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violations

Violation Date: 11/02/2015 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** Mountain View Fire Department
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Update HMMP in CERS.

Violation Description:

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violations

Violation Date: 06/18/2015 **Violation Source:** CERS
Violation Program: HW **Violation Division:** Santa Clara County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 06/18/2015. 1 x 5 gallon plastic container of toxic hazardous waste in the warehouse had two labels. One label did not indicate the contents/composition of the waste, it was removed today.

Violation Description:

Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 10/19/2015 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** Mountain View Fire Department
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 02/24/2016. Update hazardous waste and add new locations for chemical storage.

Violation Description:

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Eval Notes:	

Onsite today for routine hazardous waste inspection, noted the following: -Facility generates aqueous wastes with ethanol (profiled at 130 degree F - flash) and toxic thiocyanate aqueous waste. -Emergency information is available onsite. -Personnel appear familiar with hazardous waste operations. -Some wastes are accumulated in labs as satellite containers, then transferred to waste containers in the warehouse. -Accumulation times and storage is adequate with proper label detail information. Questions regarding this report, please contact Jeffrey M. Higbee at 408-918-4785; Note: data in [EVAL Notes] field for some records is truncated from the source.

Regulated Programs

EI Description: Hazardous Waste Generator **EI ID:** 10356586

EI Description: Chemical Storage Facilities **EI ID:** 10356586

Violations

Violation Date: 02/09/2016 **Violation Source:** CERS
Violation Program: HW **Violation Division:** Santa Clara County Environmental Health
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12
Violation Notes:

The facilities EPA Number is inactive CAL000293753; please call DTSC at 800-618-6942 to reactivate.

Violation Description:

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Failure to obtain and/or maintain an Active EPA ID.

Violations

Violation Date: 09/27/2016
Violation Program: HMRRP
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Violation Source: CERS
Violation Division: Mountain View Fire Department

Returned to compliance on 12/07/2016. Gas cylinders

Violation Description:

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violations

Violation Date: 02/09/2016
Violation Program: HW
Citation: HSC 6.5 Multiple Sections - California Health and Safety Code, Chapter 6.5, Section(s) Multiple Sections
Violation Notes:

Violation Source: CERS
Violation Division: Santa Clara County Environmental Health

Observed buckets open with used oil and some overfilled without labels near the hot tank washer. Also observed bead blast waste in a pan underneath the blaster machine. Clean up these waste accumulating and store in a closed container with proper hazardous waste label as needed. Note: The bead blast waste needs a hazardous determination.

Violation Description:

Haz Waste Generator Program - Operations/Maintenance - General

Violations

Violation Date: 02/09/2016
Violation Program: HW
Citation: HSC 6.5 Multiple Sections - California Health and Safety Code, Chapter 6.5, Section(s) Multiple Sections
Violation Notes:

Violation Source: CERS
Violation Division: Santa Clara County Environmental Health

Several 5 gallon containers of used oil in back of the shop were open without caps.

Violation Description:

Haz Waste Generator Program - Operations/Maintenance - General

Violations

Violation Date: 02/09/2016
Violation Program: HW
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Violation Source: CERS
Violation Division: Santa Clara County Environmental Health

3 x 5 gallon containers of used oil were not properly labeled.

Violation Description:

Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Violation Date: 02/09/2016
Violation Program: HW
Citation: 22 CCR 12 66262.40(c) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(c)
Violation Notes:

Please make a determination the bead blast waste whether it containers regulated heavy metals. A proper hazardous waste determination is required for all wastes.

Violation Description:

Failure to determine if the waste generated is a hazardous waste and to maintain analysis results for three years.

Evaluations

Eval Date: 10/09/2013

How Discovered Description:			
Stop Description:			
Calwater Watershed Name:	Santa Clara - Palo Alto (205.50)		
DWR GW Subbasin Name:	Santa Clara Valley - Santa Clara (2-009.02)		
Disadvantaged Community:			
Site History:			

In approximately 2016/2017, Calvano developed the approximately 7.3-acre site with a commercial office building (30,000 square feet) and then sold the property. Soil vapor and groundwater contamination has been reported on the site and a vapor barrier (EPRO e.BASE 205, EPRO e.spray, and EPRO e.SHIELD 205) was installed beneath the new building foundation as a precautionary measure to help prevent vapor intrusion and protect future building occupants. The DEH requires ongoing soil vapor monitoring at the site in order to evaluate current and future vapor intrusion risk. Property Information: Former APNs (pre-development): <153-15-018>, <153-15-017>, <153-15-024>, <153-15-022>, <153-15-015>, <153-15-016>, <153-15-014>, <153-15-026> Current APN (post-development): <153-15-032> Current Property Owner (5/2019): LH Shoreline LP

How Discovered Description:

Calwater Watershed Name: Santa Clara - Palo Alto (205.50)

DWR GW Subbasin Name: Santa Clara Valley - Santa Clara (2-009.02)

Disadvantaged Community:

Site History:

The Site is a former Texaco-branded service station located at the intersection of North Shoreline Boulevard and Terra Bella Avenue in Mountain View, California. Former station features include one 6,000-gallon gasoline underground storage tank (UST), four 4,000-gallon gasoline USTs, and one waste oil UST. In 1992, the six USTs, associated product piping, and dispensers were removed, and the Site was redeveloped as a restaurant. Twelve groundwater monitoring wells have been installed on or near the Site to-date. Eight groundwater monitoring wells (MW-22A, MW-22B, MW-22D, and MW-22L through MW-22P) were installed on-site, and four groundwater monitoring wells (MW-22E through MW-22H) were installed at off-site locations to assess the lateral extent of petroleum hydrocarbons in groundwater. Groundwater monitoring has been performed at the Site since 1988. Historically, groundwater flow at the Site has been towards the north.

Violations

Violation Date: 07/10/2017
Violation Program: HMRRP
Citation: HSC 6.95 25508.1(a)-(f) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(f)
Violation Notes:

Returned to compliance on 02/14/2018. Update hazardous materials inventory to include increase in car washing chemicals. Hazardous waste containers are full and need to be picked up.

Violation Description:

Failure to electronically update business plan within 30 days of any one of the following events:
 A 100 percent or more increase in the quantity of a previously disclosed material.
 Any handling of a previously undisclosed hazardous materials at or above reportable quantities.
 A change of business address, business ownership, or business name.
 A substantial change in the handler's operations that requires modification to any portion of the business plan.

Violations

Violation Date: 07/08/2019
Violation Program: UST
Citation: 23 CCR 16 2715(f) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2715(f)
Violation Notes:

Returned to compliance on 08/05/2019. L18 sensor is in active alarm (Dispenser 5-6) "wth no shutdown". 0.1 GPH annual testing submittted and dispenser locked out. Once repairs are made sensor L18 shall be re-certified with hazmat inspector present.

Violation Description:

Failure to have a properly qualified service technician test leak detection equipment as required every 12 months (vapor, pressure, hydrostatic (VPH) system, sensors, line-leak detectors (LLD), automatic tank gauge (ATG), etc.).

Onsite to perform complaint inspection; observed 1 x 55 gallon metal drum labeled hazardous waste - contents "sump water" which is used for SB989 UST testing, label is legible but fading, start date 7/14/15. No hazardous waste violation was noted. This complaint information was forwarded to MVFD representatives Cris Steck and Cc Patrick Mauri. Closed.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violations

Violation Date:	01/16/2019	Violation Source:	CERS
Violation Program:	UST	Violation Division:	Mountain View Fire Department
Citation:	23 CCR 16 2641(a) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2641(a)		
Violation Notes:			

Returned to compliance on 03/01/2019. The 91 tank annular space is currently full of debris (See picture 1) and the annular space sensor cannot be returned to the lowest point in the tank. In addition the annular sensor is no longer functioning and must also be replaced. Clean out debris in annular space and install a new sensor ASAP.

Violation Description:

Failure of leak detection equipment to be located such that equipment is capable of detecting a leak at the earliest possible opportunity.

Violations

Violation Date:	01/16/2019	Violation Source:	CERS
Violation Program:	UST	Violation Division:	Mountain View Fire Department
Citation:	23 CCR 16 2636(f)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(2)		
Violation Notes:			

Returned to compliance on 03/01/2019. The 91 Electronic line leak detector failed to catch a 3.0 gal/hr leak. Leak detector must be replaced.

Violation Description:

Failure of the functional line leak detector (LLD) monitoring pressurized piping to meet one or more of the following requirements: Monitored at least hourly with the capability of detecting a release of 3.0 gallons per hour leak at 10 pounds per square inch and restrict or shut off the flow of product through the piping when a leak is detected.

Cleanup Sites from GeoTracker Cleanup Sites Data Download - Facilities Detail

RB Case No: 43S0120 **CUF Case:** NO
Local Case No: **Case Worker:** RWP
Begin Date: 1982-01-01 00:00:00 **File Location:** Regional Board
Stop Method: Close and Remove Tank
Lead Agency: SAN FRANCISCO BAY RWQCB (REGION 2)
Local Agency: SANTA CLARA VALLEY WATER DISTRICT
Potential COC: Other Chlorinated Hydrocarbons, Trichloroethylene (TCE)
Potential Media of Concern: Other Groundwater (uses other than drinking water), Soil, Soil Vapor
How Discovered: Tank Closure
How Discovered Description: UST Investigation
Stop Description: UST Removal, Soil Excavation, and Soil Vapor Extraction
Calwater Watershed Name: Santa Clara - Palo Alto (205.50)
DWR GW Subbasin Name: Santa Clara Valley - Santa Clara (2-009.02)
Disadvantaged Community:

----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

The former Spectraphysics property is part of a 2-property Federal Superfund site along with the adjacent Teledyne property. Within the last ten years, Responsible Parties (RPs) for the Teledyne/Spectra-Physics site completed a Monitored Natural Attenuation (MNA) study in the off-property area north of and downgradient of the site. The MNA study concluded that natural breakdown of the chlorinated volatile organic compounds of concern is occurring naturally and at the same rate as groundwater extraction. As a result, only a few of the off-property downgradient extraction wells are operating mainly to maintain hydraulic control of the plume. The RPs completed an extended pilot study to test the feasibility of enhanced reductive dechlorination (ERD) and concluded that ERD is feasible with bioaugmentation of the Shallow Zone. Within the last several years, the RPs detected on-property groundwater-CVOCs and higher than expected levels but under 1,000 parts per billion and are about to implement an on-property ERD treatability study with the same recirculation technology as the the neighboring Teledyne property. When sub-slab depressurization (SSD) systems have been installed under the potentially impacted buildings, the RPs will move forward on the ERD treatability study. Within the last seven years however, IA VI was evaluated in several of the on-property commercial buildings to find that IA-CVOCs were over ESLs. The RPs installed SSD systems at several of the buildings. The RPs also assertively evaluated potential IA VI in the off-property commercial North Bayshore and residential Spring Street areas to conclude that IA VI is occurring in one of the off-property commercial area buildings and in several homes in the residential area. The RPs were in the process of installing a sub-slab depressurization system in the commercial building and offered the affected residents crawl space fans to address the issue.

Cleanup Oversight Agencies: SAN FRANCISCO BAY RWQCB (REGION 2) (LEAD) - CASE #: 43S0120
CASEWORKER: Roger Papler

Site History:

The former Spectraphysics property is part of a 2-property Federal Superfund site along with the adjacent Teledyne property.

Within the last ten years, Responsible Parties (RPs) for the Teledyne/Spectra-Physics site completed a Monitored Natural Attenuation (MNA) study in the off-property area north of and downgradient of the site. The MNA study concluded that natural breakdown of the chlorinated volatile organic compounds of concern is occurring naturally and at the same rate as groundwater extraction. As a result, only a few of the off-property downgradient extraction wells are operating mainly to maintain hydraulic control of the plume. The RPs completed an extended pilot study to test the feasibility of enhanced reductive dechlorination (ERD) and concluded that ERD is feasible with bioaugmentation of the Shallow Zone.

Within the last several years, the RPs detected on-property groundwater-CVOCs and higher than expected levels but under 1,000 parts per billion and are about to impelment an on-property ERD treatability study with the same recirculation technology as the the neighboring Teledyne property. When sub-slab depressurization (SSD) systems have been installed under the potentially impacted buildings, the RPs will move forward on the ERD treatability study.

Within the last seven years however, IA VI was evaluated in several of the on-property commercial buildings to find that IA-CVOCs were over ESLs. The RPs installed SSD systems at several of the buildings. The RPs also assertively evaluated potential IA VI in the off-property commercial North Bayshore and residential Spring Street areas to conclude that IA VI is occurring in one of the off-property commercial area buildings and in several homes in the residential area. The RPs were in the process of installing a sub-slab depressurization system in the commercial building and offered the affected residents crawl space fans to address the issue.

Cleanup Program Sites from GeoTracker Search - Cleanup Action(as of Apr 9, 2019)

Title Description Comments:

Email: HVAC Adjustment with OA Vents Open Recent 12Sept13 measurements of trichloroethene (TCE) and biproducts in indoor air (IA) with a portable GC/MS indicated that prior preferential pathway sealing was not sufficiently effective. This prompted immediate directive to Cinemark to increase the HVAC operation to 24/7 with outside air vents open to bring the IA-TCE levels down ASAP.

CONTAMINATED SOIL, HALOGENATED SOLVENTS

Site History:

Teledyne Semiconductor has operated a semiconductor manufacturing facility at this one-acre site since 1962. Chemicals used in the manufacturing process and wastes generated by the process are handled and stored onsite. In 1982, Teledyne notified the RWQCB that soil and ground- water near underground solvent storage tanks was contaminat- ed. Further study revealed that a groundwater contaminant plume had migrated northward and contaminated forty private domestic wells. The contaminants identified in soil and groundwater include trichloroethylene (TCE), dichloroethy- lene (DCE), Freon-113, dichlorobenzene (DCB), perchloroethy- lene (PCE), and xylene. About 270,000 people residing within three miles of the site depend on groundwater as a source of drinking water. The groundwater contamination represents a potential threat to municipal and other wells.

Facility Comments: DTSC rec'd ltr on 1/25/01, ltr dated 1/16/01 from C. Orr stating that MicroChip Technology Inc. has acquired all existing Tel Com permits and requested that permits be transferred to reflect the new name. Used incorrect ID No.CAD009001444 2/01-bcg.

FREON 113, VOLATILE ORGANICS (8260B VOCS)

Site History:

The Spectra-Physics Site (Site) has been the location of an electronics equipment and gas lasers manufacturing operation since 1961. Spectra-Physics used trichloroethene (TCE), trichloroethane (TCA), Freon-113, and other volatile organic compounds (VOCs) in the manufacturing process. Investigations at the site began in 1982, when the Regional Water Quality Control Board (RWQCB) received the facility questionnaire back from Spectra-Physics about the underground neutralization systems, sumps, and tanks at the Site. RWQCB required remedial investigation at the Site in 1984, and has remained the lead oversight agency since. On June 24, 1988, the Site was proposed for inclusion on the National Priorities List (NPL). The Site became a Superfund site and was placed on the NPL on February 11, 1991. On September 7, 1994, a Deed Restriction was recorded between Spectra-Physics and RWQCB, in which the Site was prohibited from activities which disturbed the remedy and monitoring systems without approval, required RWQCB be notified of change in property owner, required RWQCB be notified of damages to remedy and monitoring systems upon discovery, and restricted extraction of groundwater to site remediation purposes only. On September 18, 2012, an additional Covenant and Environmental Restriction on Property was executed for the Site which prohibited sensitive usage, and added additional notifications to, and approval from, RWQCB for excavation, subsurface work, and development at the Site.

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB
---------	-------------------	-----------	------------------	----------------	------	----

The Teledyne-Spectra Joint Superfund is a combination of the Spectra-Physics Site and another site, the Teledyne Semiconductors facility, where the contaminant plumes comingle. The Superfund site is a study area divided into three areas based on the sources of contamination, the extent of contamination in groundwater, and geographic location. There are separate areas for the Teledyne Semiconductors location and the Spectra-Physics site which focus on the facilities themselves, as well as a combined study area. The combined study area encompasses the full extent of the groundwater plume. Spectra-Physics and Teledyne have worked both jointly and independently to perform investigations and remediation under the oversight of RWQCB. Both soil and groundwater were found to have been contaminated by the operations at Spectra-Physics and Teledyne. Of the approximately 30 VOCs detected in the study area, the following nine have been used as indicator chemicals: 1,1-dichloroethane; 1,1-dichloroethene; 1,2-dichloroethene; tetrachloroethylene (PCE); toluene; 1,2,4-trichlorobenzene; 1,1,1-trichloroethane; TCE; and vinyl chloride.

Soil remediation began in 1989 and was completed in 1996. Groundwater remediation at the Site began in 1986 and is ongoing under oversight of RWQCB. Vapor intrusion has been a concern at the Site, and a vapor intrusion evaluation was performed in 2004. A sub-slab depressurization system for the Teledyne-Spectra study area was approved on April 8, 2015. The residences located near the study area were reportedly offered crawl space fans to address the vapor intrusion issue.

Spectra-Physics no longer occupies the site. In 1994, the Site was sold, and an Access and Indemnification Agreement was signed on August 31, 1991 for Spectra-Physics to be granted access to perform remediation activities and provided the buyer with certain indemnities in connection to the environmental condition of the Site. The Site is currently occupied by a church.

Site History:

Teledyne, Inc. originally operated their facility under Tiered Permitting but submitted a Part A application on 11/19/1980 and received an ISD on 4/6/1981. Over the years Teledyne applied for many permits including variance requests, a Part B, and Permit by Rule. They have also gone through many name changes which include Teledyne Inc, Teledyne Components, Telcom, and finally Teledyne Semiconductor Inc (TSI). By 1994 TSI began looking into closing their Interim Status units and operate as a generator. Microchip Technology Inc. purchased all of TSI's permits in 2001 and now operates the site.

DWR GW Subbasin Name: Santa Clara Valley - Santa Clara (2-009.02)
Disadvantaged Community:
Site History:

CUF Case: NO
Case Worker:
File Location:

The site formerly was used as the Santa Clara County vector control maintenance yard. Soil, soil vapor, and groundwater sampling showed contamination by petroleum hydrocarbons and/or VOCs. Under DTSC oversight, the County conducted several investigations and a soil removal. The City purchased the property and conducted additional investigation (soil, soil vapor, and groundwater) to evaluate on-site sources and extent of VOCs in 2013. Following completion of this work, the City installed site monitoring wells. The U.S. Environmental Protection Agency (EPA) determined groundwater contamination at this site is part of the MEW Superfund Study Area; lead regulatory agency oversight transitioned to EPA in February 2015.

Site Type:	VOLUNTARY CLEANUP		
Office:	CLEANUP BERKELEY		
Past Use that Caused Contam:	PESTICIDE/INSECTIDE/RODENTICIDE STORAGE		
Potential Media Affected:	OTHER GROUNDWATER AFFECTED (USES OTHER THAN DRINKING WATER), SOIL		
Potential Contamin of Concern:			

PETROLEUM, VOLATILE ORGANICS (8260B VOCS)

Site History:

The site covers approximately 7 acres in the northern portion of Mountain View and served as the Santa Clara County Vector Control District Yard. Approximately 3 acres are developed and the remainder is covered with vegetation. A fenced asphalt-paved area on site holds an empty concrete fish tank and two empty buildings, a 4,000 square foot former shop, and a 6,000 square foot three sided L-shaped storage building with an enclosed poison storage room. The north end of the storage building also has a wash area with a floor drain and vent. The shop building, which has an open cement floor and three roll-up doors, housed an office, restrooms, and storage room. A dirt road crosses the site from north to south.

Status: CERTIFIED
Program Type: VOLUNTARY CLEANUP
CalEnviroScreen Score: 41-45%

Document Type: Site Characterization Report
Date Completed: 12/28/2007
Comments: Site characterization completed. VOC groundwater contamination was determined to be form an offsite source. Remediation of the groundwater contamination will not be included as part of the Removal Action Workplan (RAW). The RAW will focus on the mitigation of residual soil VOC and TPH contamination associated with the Catch Basin. The results of the Site groundwater investigation indicates that the source(s) of the VOC groundwater contamination is from off-site and conveyed through the utility corridor.

A numeric estimate of the relative severity of a hazardous substance release or potential release based on: (1) the relative potential of substances to cause hazardous situations; (2) the likelihood and rate at which the substances may affect human and environmental receptors; and (3) the severity and magnitude of potential effects. The score is computed using the hazard ranking system (HRS).

Site History:

Teledyne, Inc. originally operated their facility under Tiered Permitting but submitted a Part A application on 11/19/1980 and received an ISD on 4/6/1981. Over the years Teledyne applied for many permits including variance requests, a Part B, and Permit by Rule. They have also gone through many name changes which include Teledyne Inc, Teledyne Components, Telcom, and finally Teledyne Semiconductor Inc (TSI). By 1994 TSI began looking into closing their Interim Status units and operate as a generator. Microchip Technology Inc. purchased all of TSI's permits in 2001 and now operates the site.

Teledyne/Spectra-Physics site completed a Monitored Natural Attenuation (MNA) study in the off-property area north of and downgradient of the site. The MNA study concluded that natural breakdown of the chlorinated volatile organic compounds of concern is occurring naturally and at the same rate as groundwater extraction. As a result, only a few of the off-property downgradient extraction wells were operating mainly to maintain hydraulic control of the plume. The RPs completed a pilot study to test the feasibility of enhanced reductive dechlorination (ERD) and concluded that ERD is feasible with bioaugmentation of the Shallow Zone. Within the last five years, the RPs detected elevated source areas at the Teledyne property using high resolution technology and continuously logged and screened ERD injection well boreholes. Implementing a full-scale ERD treatability study, they have been and are currently remediating the property with groundwater-CVOC levels dropping from as much as over 80,000 ug/l to low multiples of MCLs. Several rounds of ERD injections successfully cleaned up most of the Shallow Zone at the Teledyne property and the adjacent Spring Street residential area to drinking water standards and the treatability study was even more successful in the underlying Upper and Lower Intermediate Zones. An on-property IA VI evaluation at a SpectraPhysics property in 2004 indicated no IA-CVOC contamination above the Regional Water Board's 2008 ESLs. More recently, the RPs also assertively evaluated potential IA VI in the off-property commercial North Bayshore and residential Spring Street areas to conclude that IA VI is not occurring in most of the commercial area and is occasionally occurring in several homes in the residential area. The RPs installed sub-slab depressurization systems in the impacted on-property commercial buildings and offered the affected residents crawl space fans to address the issue.

Site History:

The Teledyne property is part of a two-property Superfund site along with the adjacent Spectra-Physics property.

The responsible parties (RPs) for the Teledyne/Spectra-Physics site completed a Monitored Natural Attenuation (MNA) study in the off-property area north of and downgradient of the site. The MNA study concluded that natural breakdown of the chlorinated volatile organic compounds of concern is occurring naturally and at the same rate as groundwater extraction. As a result, only a few of the off-property downgradient extraction wells were operating mainly to maintain hydraulic control of the plume. The RPs completed a pilot study to test the feasibility of enhanced reductive dechlorination (ERD) and concluded that ERD is feasible with bioaugmentation of the Shallow Zone.

Within the last five years, the RPs detected elevated source areas at the Teledyne property using high resolution technology and continuously logged and screened ERD injection well boreholes. Implementing a full-scale ERD treatability study, they have been and are currently remediating the property with groundwater-CVOC levels dropping from as much as over 80,000 ug/l to low multiples of MCLs. Several rounds of ERD injections successfully cleaned up most of the Shallow Zone at the Teledyne property and the adjacent Spring Street residential area to drinking water standards and the treatability study was even more successful in the underlying Upper and Lower Intermediate Zones.

An on-property IA VI evaluation at a SpectraPhysics property in 2004 indicated no IA-CVOC contamination above the Regional Water Board's 2008 ESLs. More recently, the RPs also assertively evaluated potential IA VI in the off-property commercial North Bayshore and residential Spring Street areas to conclude that IA VI is not occurring in most of the commercial area and is occasionally occurring in several homes in the residential area. The RPs installed sub-slab depressurization systems in the impacted on-property commercial buildings and offered the affected residents crawl space fans to address the issue.

Email: HVAC Adjustment with Outside Air Recent 12Sept13 measurements of trichloroethene (TCE) and biproducts in indoor air (IA) with a portable GC/MS indicated that prior preferential pathway sealing was not sufficiently effective. This prompted immediate directive to Cinemark to increase the HVAC operation to 24/7 with outside air vents open to bring the IA-TCE levels down ASAP.

Title Description Comments:

Meeting: Remediation Status & Path Forward Meeting/Teleconference w/ ATI Metals & Consultants: Based on extensive geologic data collected during the successful Full Scale Enhance Reductive Dechlorination (ERD) Treatability Study, sand thickness maps will be used to construct preferential pathway maps. Methane monitoring frequency - with expanded soil vapor (SV) extraction system engaging under-building SV wells - will be reduced pending the setting of realistic but conservative action levels based on co-sampled indoor air and SV-methane levels. Off-property request - based on MEW ROD requirements - to install sub-slab depressurization system is not realistic for T-S/MV North Bayshore area based on substantially different VOC levels in groundwater and indoor air. ATI will follow through on preferential pathway mitigation, re-test and then re-evaluate the path forward.

COPPER AND COMPOUNDS, FLUORINE (SOLUBLE FLUORIDE)

Site History:

LGM Manufacturing (LGM) manufactured printed circuit boards from 1969 to 1983. Chemicals used at the Site included ammonia, etch acids, brighteners, fusing oil, trichloroethylene, copper with formaldehyde, and methylene chloride. Chemical wastes were stored in drums and containers in a yard behind the LGM warehouse.

Status: CERTIFIED
Program Type: STATE RESPONSE

Document Type: Removal Action Completion Report
Date Completed: 1/6/1984
Comments: In February of 1983, DHS directed LGM to remove the contaminated soil from on and off its property. Several months later, LGM declared bankruptcy and went out of business. In the latter part of 1983 and early 1984, chemicals and contaminated soil were removed from the LGM storage area and an adjacent condominium complex. Post-excavation confirmation samples were taken for fluoride and copper. Detected levels were below health-based risk goals considered safe for residential use.

Cleanup Oversight Agencies:	SAN FRANCISCO BAY RWQCB (REGION 2) (LEAD) - CASE #: 43D9052 CASEWORKER: ELIZABETH WELLS SANTA CLARA COUNTY LOP		

Site History:

USTs 121 and 122 were discovered and removed in 1987 during construction of the current housing development. UST 121 stored diesel and UST 122 stored gasoline; both USTs were used to supply fuel to emergency generators for a former transmitter facility. Contamination was observed during tank removals. Site investigations were conducted in 1990, 1993, 1999-2000, 2005 and 2006 to define the lateral and vertical extent of petroleum contamination. Activities performed included soil and grab groundwater sampling, installation of monitoring wells, and monitoring. Petroleum in soil is expected to degrade and petroleum in groundwater has degraded. No remediation was necessary because the site presents no significant risk to human health or the environment. Suitable for residential land-use.

**Disadvantaged Community:
Site History:**

?The project is a redevelopment property within the Teledyne-Spectraphysics (T-S) plume with underlying groundwater probably impacted by the upgradient T-S source properties. The developer plans to construct the building with a vapor intrusion mitigation system (VIMS) and water barrier. Indoor air testing will be conducted to verify that the VIMS is working as designed.

CUF Case: NO
Case Worker:
File Location: Regional Board

The Orion Park Housing Area (OPHA), transferred in July 2000 to the U.S. Army, has VOC contamination in groundwater. VOCs are present in groundwater upgradient of the site; however, elevated concentrations have been detected in grab samples and well samples at the site, suggesting potential on-site sources of VOCs. Additional investigation has been requested of and conducted by the Army. U.S. EPA and the Regional Water Board provided comments on the draft report prepared by the Army. Prior to development as a housing area in the early 1940s, the site was a farm, which had a septic tank and drain field. The septic tank, which has been removed (most likely in 1968 during the construction of the Orion Park section of OPHA) was investigated as a potential source of VOCs in the groundwater; the Army concluded it was not a source of VOCs. The site was redeveloped for use as an Army Reserve Training Center. The Army installed vapor barriers in newly constructed buildings and has conducted indoor air sampling with results less than screening criteria. The U.S. Environmental Protection Agency (EPA) determined groundwater contamination at this site is part of the MEW Superfund Study Area.

Stop Description:
Calwater Watershed Name: Santa Clara - Palo Alto (205.50)
DWR GW Subbasin Name: Santa Clara Valley - Santa Clara (2-009.02)
Disadvantaged Community:
Site History:

Digital Equipment Corporation (DEC) operated a manufacturing facility at the subject site between 1969 and 1983. The facility performed nickel and copper plating of discs. As part of this operation, DEC stored and used hazardous materials including TCA and acetone, and operated an acid neutralization tank whose effluent discharged to the sanitary sewer. After operations were discontinued, DEC removed the acid neutralization tank and received regulatory closure from the Mountain View Fire Department. The Department approved final facility closure for chemical storage in 1990. DEC was acquired by Compaq in 1998; Compaq in turn was acquired by Hewlett Packard in 2002. DEC voluntarily reported a possible release of chlorinated solvents in 1984. This report was based on onsite groundwater monitoring that appeared to show chlorinated solvents in groundwater above drinking water levels. DEC later concluded that these results were false positives, due to laboratory contamination, and that no release of chlorinated solvents to soil or groundwater had occurred. Terra Bella Office Partners, LLC, the landowner, performed a comprehensive soil, soil vapor, and groundwater investigation in 2010. VOCs were either non-detect or in a few cases detected below regulatory standards (e.g., MCLs). Metals were detected but at concentrations consistent with background conditions. Water Board staff concludes that no condition of pollution exists at the site and the case should be closed.

Disadvantaged Community:						
Site History:						

Site was developed in the 1970s with a motel, which currently occupies the site. Prior to that the land was used for agricultural purposes. Grab groundwater samples have been collected from the site by current property owner and EPA. Additional source investigation conducted by EPA, including grab groundwater and soil vapor samples. Results indicated elevated concentrations of VOCs (TCE and DCE) in groundwater to at least 60 feet bgs. EPA collected indoor air samples for VOCs; results below indoor air screening levels. The U.S. Environmental Protection Agency (EPA) determined groundwater contamination at this site is part of the MEW Superfund Study Area; lead regulatory agency oversight transitioned to EPA in February 2015.

Cleanup Sites from GeoTracker Cleanup Sites Data Download - Facilities Detail

RB Case No: 43S1128 **CUF Case:** NO
Local Case No: **Case Worker:** EKW
Begin Date: 2008-01-09 00:00:00 **File Location:** Regional Board
Stop Method:
Lead Agency: SAN FRANCISCO BAY RWQCB (REGION 2)
Local Agency:
Potential COC: Other Chlorinated Hydrocarbons, Trichloroethylene (TCE)
Potential Media of Concern: Aquifer used for drinking water supply, Under Investigation
How Discovered: Site Assessment/Site Investigation
How Discovered Description:
Stop Description:
Calwater Watershed Name: Santa Clara - Palo Alto (205.50)
DWR GW Subbasin Name: Santa Clara Valley - Santa Clara (2-009.02)
Disadvantaged Community:
Site History:

The site was undeveloped until a Denny's restaurant was constructed in the 1970s. Denny's ceased operation in the early 2000s and has remained vacant since that time. Groundwater beneath the site is contaminated with chlorinated volatile organic compounds. Ownership of the property changed in early late 2012/early 2013; the site is proposed for redevelopment as a hotel. Several site investigations have been performed to date. The U.S. Environmental Protection Agency (EPA) determined groundwater contamination at this site is part of the MEW Superfund Study Area; lead regulatory agency oversight transitioned to EPA in February 2015.

Cleanup Sites from GeoTracker Cleanup Sites Data Download - Facilities Detail

RB Case No:	43S1173	CUF Case:	NO
Local Case No:		Case Worker:	RWP
Begin Date:	1980-01-01 00:00:00	File Location:	Regional Board
Stop Method:	Other Means		
Lead Agency:	SAN FRANCISCO BAY RWQCB (REGION 2)		
Local Agency:			
Potential COC:	Trichloroethylene (TCE)		
Potential Media of Concern:	Soil, Soil Vapor		
How Discovered:			
How Discovered Description:	Groundwater-TCE spike on edge of T-S plume		
Stop Description:	Electronic manufacturing operation stopped/moved		
Calwater Watershed Name:	Santa Clara - Palo Alto (205.50)		
DWR GW Subbasin Name:	Santa Clara Valley - Santa Clara (2-009.02)		
Disadvantaged Community:			
Site History:			

??The project is a redevelopment property within the Teledyne-Spectraphysics (T-S) plume with underlying groundwater probably impacted by the upgradient T-S source properties. The developer plans to construct the building with a vapor intrusion mitigation system (VIMS) and water barrier. Indoor air testing will be conducted to verify that the VIMS is working as designed.

TETRACHLOROETHYLENE (PCE), TRICHLOROETHYLENE (TCE)

Site History:

Arrowhead Development Company operated an amusement park equipment manufacturing facility from 1960 through 1980 on and 8-acre project that included the site. TCE was reportedly used at the facility for vapor degreasing. There were subsequent changes in the site ownership. Sanmina purchased the property in 1999 and operated four hazardous waste treatment units under permit-by-rule, including two Memtek wastewater treatment units, a batch treatment unit, and ion-exchange unit. The site is part of the Montwood Site (Plymouth Street Site) where the Regional Water Quality

Potential Contamin of Concern:			

NO CONTAMINANTS FOUND

Site History:

This site is approximately 7.06 acres and it included a grease rack and vehicle wash rack. The grease rack was constructed in the early 1950s and is no longer used. For funding purposes, the Army previously considered the wash rack to be a hazardous waste management compliance issue and not a site mitigation issue.

A draft Preliminary Assessment (PA) was completed in February 1999, and a final Site Investigation (SI) work plan was prepared in August 2000. In 1997, minimal shallow soil sampling was conducted around the grease rack. Contaminants of concern are primarily grease oil, fuels, and solvents.

Groundwater is shallow, approx 15 ft below ground surfact. The site referred to Regional Water Quality Control Board (RWQCB) for evaluation. The RWQCB agreed with No Further Action decision on June 29, 2004.

Site History:						
The Ames Aeronautical Laboratory was established in 1939 by Congress adjacent to the Sunnyvale Naval Air Station as the west coast site of the National Advisory Committee on Aeronautics (NACA). In 1945 the Sunnyvale airfield was renamed Moffett Field, after Admiral Moffett.						
In 1958 the Ames Aeronautical Laboratory became a NASA field center when Congress created NASA with the National Aeronautics and Space Act. NASA Ames Research Center grew to occupy 500 acres adjacent to the Naval Air Station at Moffett Field.

----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Following the closure of Moffett Field as a military base in 1994, NASA Ames acquired stewardship for the navy property.

In 2002 NASA Research Park began collaborative partnerships with academia, industry and non-profits to stimulate innovation and education in science and research disciplines critical to space exploration. NASA Ames strategic areas, including astrobiology, information technology, biotechnology and nanotechnology.

AOI 11 consists of seven underground storage tanks (tank 7/7R, 15, 16, 17, 23, 30, and U14) scattered throughout the Center. The tanks were closed under the Santal Clara County Department of Environmental Health. Soil and groundwater samples were collected and verified that no residual contamination remains associated with these tanks.

Area Name:
Area Link:
Sub Area:
Sub Area Link:
Document Type: Voluntary Cleanup Agreement
Date Completed: 8/13/1996
Comments: NASA entered into a VCA for AOI 11, for DTSC oversight. AOI 11 encompasses 11 underground storage tanks, which were investigated to determine if a release of hazardous substances could be determined and if remedial action would be required. Soil and groundwater around these tanks were sampled and analyzed. After the samples were analyzed, two tanks required further remedial action, Tank U14 and Tank 7. The area surrounding U14 is an undeveloped gravel lot that stretches east from the PG&E substation West N-225A to Parsons Avenue. In this area, groundwater can be found at eight feet below ground surface. Trichloroethylene (TCE) was not detected in the soil samples around Tank U14. Groundwater samples near the tank detected concentrations of TCE and dichloroethylene (DCE), above the California Maximum Contaminant Levels (MCLs) in drinking water. The highest concentrations were found in the monitoring wells up gradient from the site, 270 micrograms per liter (ug/l) of TCE and 120 ug/l of DCE. The sampling data suggests that the source of the contamination may be the Orion Park area, under Navy investigation or the MEW plume, under the oversight of the US EPA. Tank 7 is used to store jet fuel. The current tank replaced a tank, which was leaking. Remediation of the released hydrocarbons identified as TPH-JP5, has already occurred, but a fuel spill in the area occurred in 1995. Soil and groundwater contamination was investigated in 1999, identifying that both soil and groundwater are impacted with petroleum hydrocarbon concentrations above the cleanup levels. NASA is currently developing a workplan that focuses on the source(s).
