Notice of Determination

To: Yolo County Clerk Office of Planning and Research
625 Court Street
Woodland, CA 95695

Subject: Notice of Determination in compliance with Section 21108 or 21152
of the Public Resources Code.

Project Title: PW2022-03 - County Road 49 over Hamilton Creek Bridge Replacement Project

State Clearinghouse Number: 2022110591

Applicant: Yolo County Department of Community Services
292 W. Beamer St.
Woodland, CA 95695

Owner: Yolo County

Project Location: Portion of County Road (CR) 49 within unincorporated Yolo County, as it crosses over Hamilton Creek, west of State Route 16 and northwest of the town of Guinda in the Capay Valley (affects portions of APNs: 060-090-003, 060-090-006, 060-090-007, 060-090-010).

Project Description: The Yolo County Department of Community Services, Public Works Division, will replace the existing bridge on CR 49 over Hamilton Creek with funding made available through the Federal Highway Administration (FHWA) Highway Bridge Program and administered by the California Department of Transportation (Caltrans). The bridge has been determined to be functionally obsolete by Caltrans as recently as 2013 and has a sufficiency rating of 43.1. County Road 49 is a dead-end local roadway that extends from County Road 59 on the south to its terminus roughly 3 miles to the northwest. The subject bridge is bordered by agricultural land and rural parcels developed with home sites, with the nearest residence approximately 100 feet south of the bridge.

The existing bridge (Bridge No. 22C0095) was constructed in 1911 as a single-span earth-filled concrete arch and is approximately 26 feet long and 20 feet wide. The bridge has rock pockets and spalling with exposed rebar on the arch soffit; the bridge abutment footings are also exposed along their entire lengths. To improve public safety while traveling on CR 49 as it crosses over Hamilton Creek, a new bridge will be constructed along the same roadway alignment. The new structure will accommodate two 10-foot travel lanes with two-foot shoulders. The new bridge is anticipated to be a single-span, cast-in-place, post-tensioned slab structure approximately 61 feet long. The roadway and bridge profile will be raised to clear a 30- to 40-year storm event to ensure no increases in water surface elevation in the vicinity of the bridge.

An Initial Study/Mitigated Negative Declaration (SCH #2022110591) was prepared for the proposed County Road 49 over Hamilton Creek Bridge Replacement Project. This is to advise that the Yolo County Board of Supervisors has adopted the Mitigated Negative Declaration for the above-described project on March 21, 2023, and has made the following determinations:

1. The project will not cause a new significant effect on the environment or substantially increase the severity of a previously identified significant environmental effect.
2. A Mitigated Negative Declaration (SCH #2022110591) was prepared for this project pursuant to the provisions of CEQA and adopted by the County.
3. Mitigation measures were made a condition of the approval of the project.
4. A statement of Overriding Considerations was not adopted for this project.

This is to certify that the Mitigated Negative Declaration and record of project approval is available to the General Public for review at the Yolo County Community Services Department located at 292 W Beamer Street, Woodland, California.
