

PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT

Third Street & Central Avenue Highland

26999 West 5th Street
Highland, California 92346

Report Date: March 1, 2022
Partner Project No. 21-325676.4

Prepared for:

Lake Creek Industrial
1302 Brittany Cross Road
Santa Ana, California 92705

March 1, 2022

Mr. Michael Johnson
Lake Creek Industrial
1302 Brittany Cross Road
Santa Ana, California 92705

Subject: Phase I Environmental Site Assessment
Third Street & Central Avenue Highland
26999 West 5th Street
Highland, California 92346
Partner Project No. 21-325676.4

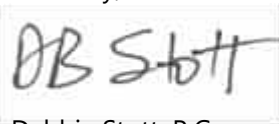

Dear Mr. Johnson:

Partner Engineering and Science, Inc. (Partner) is pleased to provide this *Phase I Environmental Site Assessment* (Phase I ESA) report of the abovementioned address (the "subject property"). This assessment was performed in conformance with the scope and limitations as detailed in the ASTM Practice E1527-13 and E1527-21 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process and Client Agreement.

This assessment included a site reconnaissance as well as research and interviews with representatives of the public, property ownership, site manager, and regulatory agencies. An assessment was made, conclusions stated, and recommendations outlined.

We appreciate your trust in Partner and the opportunity to provide environmental services to you. If you have any questions concerning this report, or if we can assist you in any other matter, please contact me at (310) 622-8855.

Sincerely,

Debbie Stott, P.G.
Principal

EXECUTIVE SUMMARY

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in accordance with the scope of work and limitations of ASTM Standard Practice E1527-13 and E1527-21, the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) and set forth by Lake Creek Industrial for the property located to the southeast of the intersection of 5th Street and Central Avenue, Highland, San Bernardino County, California (the "subject property").

Property Description

The subject property is generally bound by 5th Street to the north, Central Avenue to the west, and 3rd Street to the south, within a mixed commercial, industrial, and residential area of San Bernardino County. Please refer to the table below for further description of the subject property:

Subject Property Data

Addresses:	See table below
Property Use:	Commercial/Industrial/Residential and Vacant land
Land Acreage (Ac):	21.07 Ac
Assessor's Parcel Numbers (APNs):	1192-631-01, -02, -03, -04, -05, -06, -09, -10, -11, -12, -13, -14, -15, -16, -17, -18, -19, -20, -21, -22, -23, -24, -25, -26, -27, -28; and 1192-641-08, -09, -10, -11, -12, -15, -16, -17, -18, -19, -20, -21, -22, -23.
Current Tenants:	See table below
Zoning:	Business Park
Site Assessment Performed By:	Heather Hodgetts and Ramiro Vejar of Partner
Site Assessment Conducted On:	July 12 and November 19, 2021; January 28, 2022

The subject property consists of twelve properties totaling 40 tax parcels. For the purposes of this report, the parcels are grouped by owner and referred to as Properties 1 through 14, as detailed in the table below. Specific property information is summarized below.

Property	Owner/Seller	APN	Address	Acres	Current Tenant	Site Use/Number Onsite Buildings
1	JC Rueda	1192-631-01	None reported	0.39	Vacant Parcel	None. No buildings.
2	ML Coccooran Company	1192-631-04, -05, -06, -15, -16, -17, -18, -19	26999 5th St.	5.72	E.J. Meyer Company, pipeline contractor	Office Space, Fleet Service, and equipment storage. 2 Buildings – Office and maintenance shop/garage.
3	Tuttle	1192-631-20, 21	26998 3rd St.	1.83	Third St. Tavern	Bar/Restaurant 1 Building – Restaurant
4	Snipe Equip	1192-631-09, -13, -22, -23	27075 and 27077 5th St. & 27012-27016 3rd St.	2.57	Weka Inc., pipeline contractors	Office Space and Fleet Service. 3 Buildings – Office (5 th St. location)
5	Bill Morgan	1192-631-10, -11, -24, -25, -26	27048 and 27050 3rd St.	2.58	Parking Lot	Truck trailer parking. 1 Building – Office.

Property	Owner/Seller	APN	Address	Acres	Current Tenant	Site Use/Number Onsite Buildings
			& 27059 5th St.			
6	Tony	1192-631-12	27065 5th St.	0.21	ABF Construction	Office space and storage. 3 Buildings – office and two garages.
7	Laton/ Coleman	1192-631-27, -28 and 1192- 641-15, -18, -19	27098, 27010, 27112, and 27114 3rd St.	3.14	Individual Residential Tenants	Residential homes, truck trailer parking, two vacant auto repair businesses. 5 buildings – 2 residential homes, a garage, and three maintenance shops/sheds.
8	Bog LLC	1192-631-14	27083 and 27085 5th St.	0.38	Ray'z Tires, Wheels & Brake	Auto maintenance. 1 Building – vehicle maintenance shop.
9	Jenkins	1192-641-20, -21, -22, -23	27132, 27134, and 27136 3rd St.	1.84	Individual Residential Tenants	Residential homes. 3 buildings – residential homes.
10	Nordine	1192-641-12	Not reported	0.2	Not Provided	Vehicle storage lot. No buildings.
11	Martin	1192-631-03	26967 5th St.	0.41	S&S Inland Star Mercedes	Automobile Repair and maintenance.
12	Martin	1192-631-02	26975 5th St.	0.41	Elite Landscaping, S&S Inland Star Mercedes, Individual Storage Unit (Swap Meet Sales)	Landscaping Company office/equipment storage; automotive storage/repair, Individual Storage Unit storage for Swap Meet sales.
13	American Rentals/ Calprop, LLC	1192-641-09, 10, 11, 16, 17	27111 5 th Street	0.99	American Rentals	Construction and tool equipment rental service. Two storage and office buildings and one maintenance shop building.
14	Steve Schmidt	1192-641-08	27107 5 th Street	0.35	Steve Schmidt	Private personal storage

At the time of the site visit, Partner observed hazardous materials including retail cleaning products, general maintenance supplies, new motor oil, antifreeze, lubricating oil, diesel fuel, gasoline, and other vehicle maintenance products on Properties 2, 4, 8, 11, 12, and 13. Hazardous wastes including waste oil, waste oil filters, waste antifreeze, and other vehicle maintenance wastes are generated at Properties 2, 4, 8, 11, and 13. Housekeeping practices at Properties 2, 4, and 11 could be improved with secondary containment. Oil stained concrete was observed on the current/former vehicle maintenance areas at Properties 2, 4, 7, 8, and 11. Oil stained concrete was observed in the interior of the vacant, former vehicle maintenance building (27114 3rd Street) located on the southeast corner of Property 7. Oil stained asphalt

was observed in the used oil and oil filter storage area at Property 13. The oil staining is considered de minimis. Significant oil staining/spill was observed on the paved surface in the hazardous waste storage area at Property 11 (26967 5th Street).

Two in-ground single post hydraulic lifts were observed in the service building at S&S Inland Star (Property 11- 26967 5th Street). S&S Inland Star has been onsite for 5 years and the lifts were installed by a prior tenant. Site personnel at S&S Inland Star (Property 11) indicated that the southern hydraulic lift had been leaking for years. No maintenance records were available for review. The hydraulic lifts are considered to be a recognized environmental condition (REC).

ASTs were observed in the following areas:

- One 550-gallon waste oil AST is located in the hazardous waste storage area at Property 2 (26999 5th Street). Waste oil is generated at E.J. Meyer Company during vehicle/equipment maintenance conducted in the maintenance shop/garage located on the northeast corner of the property. Minor oil staining was observed adjacent to the AST. Based on the lack of reported releases, this tank is not considered a significant environmental concern.
- One 75-gallon AST motor oil and one 50-gallon synthetic oil are located in the central service bay and two 110-gallon ASTs containing used oil are located adjacent to the south side of the service building in hazardous waste storage area at Property 11 (26967 5th Street). Significant oil staining/spill was observed in the hazardous waste storage area at Property 11 (26967 5th Street).
- One 499-gallon propane AST, one 250-gallon gasoline AST, and one 500-gallon red diesel fuel AST were located at Property 13 (27111 5th Street). These ASTs are used to fuel rental equipment and tools. No staining was observed near the ASTs.

No evidence of current underground storage tanks (USTs) such as fill ports, piping, or vent pipes was observed or reported onsite. Partner observed the remains of a dispenser island/canopy on Property 2 (26999 5th Street). As discussed below, six former USTs were located on Property 2 (26999 5th Street) on the northwestern portion and were removed in 1997. The former fuel dispenser island/canopy are still present onsite adjacent to the east of the former USTs at Property 2. In addition, three former USTs identified on Property 13 were removed in 1997.

According to a San Bernardino County Fire Department (SBCFD) Certified Unified Program Agency (CUPA) records the following USTs were removed from the subject property:

Property 2 at 26999 5th Street:

According to an Application for Removal of UST was completed by Laidlaw Transit Inc in August 1997. Six USTs including two 10,000-gallon diesel USTs; 7,500-gallon diesel UST; 4,000-gallon unleaded UST; 6,000-gallon unleaded UST; and 7,500-gallon diesel UST were identified at the site. Installation date was estimated to be 1978 and 1980. An attached figure depicted the former tanks and dispenser island area as located on the northeast corner of the subject property, between the office and shop buildings near 5th Street. The application noted the removal appeared to be for "no piping/storage only."

A UST Closure was prepared by Bradley Environmental and dated September 26, 1997. On September 17, 1997, the USTs, fuel dispensers, and piping were removed under the oversight of SBCFD. It was noted that soil samples were collected under all the USTs and from the stockpiled soil. Soil samples were not collected under the fuel dispensers due to the possibility of undermining the dispenser island and canopy which were not removed. It was noted that samples under the fuel dispensers would be collected at a later time. Partner observed the remains of the dispenser island/canopy and likely the UST piping are still onsite. Onsite personnel were unaware of any additional sampling conduct in the area of the fuel dispenser island.

A 1988 figure depicts the UST piping between the USTs, fuel dispensers and adjacent garage/maintenance shop. Partner recommends confirmation soil sampling upon future removal of the canopy, fuel dispenser island and associated piping.

Following the removal of the UST, confirmation soil samples were collected at depths of 12 and 14 feet below ground surface (bgs) within the tank excavations and from the soil stockpiles. The soil samples were analyzed for Total Petroleum Hydrocarbons (TPH) as gasoline and diesel by EPA Method 8015 Modified; benzene, ethylbenzene, toluene, and xylenes (BTEX) and methyl tert butyl ether (MTBE) by EPA Method 8020. Total lead (EPA Method 7240) was completed on the sample with the highest BTEX level. All soil samples except four were non-detect. TPH was detected at concentrations between 14 to 28 milligrams per kilogram (mg/kg) indicating trace amounts of petroleum hydrocarbons just above laboratory detection limits. On December 19, 1997, SBCFD issued a No Further Action (NFA) letter following the review of Report submitted by Bradley Environmental dated September 26, 1997. A copy of the NFA letter is provided in Appendix B. Based on the removal of the UST and regulatory case closure, the former UST is considered a historical recognized environmental condition (HREC).

Property 13 at 27111 East 5th Street:

According to a CUPA Application for Construction and/or Removal of Underground Storage Tank (UST) facility completed by UST Hohan Trust c/o Shelly Hohan, three USTs were removed on March 27, 1997. The USTs were described as three unpermitted USTs including one 500-gallon waste oil UST (T-1) (capacity also noted as 250-gallon and 300-gallon in records), one 3,000-gallon gas UST (T-2), and one 4,000-gallon gas UST (T-3) were identified at the site. Installation date is estimated to be prior to 1984. An attached figure depicts the former tanks T-2 and T-3 as located to the east of the building on the northeastern portion of the subject property. T-1 was depicted as located to the south of the building on the central portion of the subject property. The figure does not depict the location of the fuel dispenser or piping associated with the USTs.

A UST Closure Report was prepared by JIMCO and dated April 7, 1997. Following the removal of the USTs, confirmation soil samples were collected at a depth of 2 feet below both tank ends and one sample was collected under the waste oil UST and under the fuel dispenser. The soil samples were analyzed for TPH as gasoline and diesel by EPA Method 8015 Modified; BTEX and MTBE by EPA Method 8020. All soil samples were non-detect except for two samples. TPH gasoline was detected at concentration of 420 mg/kg in Sample T3—w-E and TPH diesel was detected at concentration of 8 mg/kg in Sample T3-A.

SBCFD inspector noted that all the samples were below the action levels and no further action was required. On June 27, 1997, SBCFD issued a NFA letter following the review of sample results and closure report submitted by JIMCO dated April 7, 1997. A copy of the NFA letter is provided in Appendix B. Based on the removal of the USTs and regulatory case closure, the former USTs are considered a HREC. If UST piping is encountered in the future, Partner recommends proper removal and confirmation of UST piping.

Other site observations included: one former water well (Property 7) was identified at the subject property; at least four septic systems serving residences (Properties 7 and 9) were identified at the subject property; and a potential concrete sump was observed adjacent to the north of the former vehicle maintenance building (27114 3rd Street) located on the southeast corner of Property 7.

Based on the historical research and interviews, the subject property was undeveloped or vacant land located partially in the City Creek wash from 1899 to 1930. From the 1930s to 1975, the subject property was developed with several residential and associated structures. Agricultural development was observed on the southwest corner of the site in the 1959 aerial photograph. In 1975, a commercial structure appears to be located on the southeast corner of Property 7 on the southeastern portion of the subject property. By 1985, commercial structures (Properties 2, 11, 12, 13 and 14) were located on the northern boundary of the subject property. By 1989, additional commercial structures (Properties 6 and 8) were located on the northwestern boundary of the subject property. By 2002, Property 2 had expanded operation to the south toward 3rd Street and was used as an equipment yard. A commercial structure appears to be located on the southern boundary of Property 7. By 2006, Properties 5 and 7 appear to be larger cleared commercial lots/yards. By 2012, Property 4 in the central portion of the subject property was developed an equipment yard. By 2016, the majority of the subject property is developed for commercial/industrial use with small four residences on the southeast portion of the subject property.

The agency database reports obtained from Environmental Data Resources, Inc. (EDR) and Environmental Risk Information Services (ERIS) identified the subject property as:

- EJ Meyer Company (Property 2) (ERIS Map ID: 5/EDR Map ID: A1, A4, A5, A6, A11) at 26999 5th Street, is listed in the HAZNET, HWTS, CERS, CERS Haz Waste, San Bernardino County Permit, FINDS, ECHO, and RCRA-NonGen databases. No RCRA violations were listed. As discussed in Section 4.1.5, the facility is listed in the HAZNET database for generating state-regulated wastes that were manifested for off-site disposal in 2009. According to the San Bernardino County Permit database, the subject property is identified as having an active permits for hazardous material 4-10 chemicals and a small quantity generator. The facility was listed as last inspected by the San Bernardino County Fire Department on January 5, 2021 and violations were listed for failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days; failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.

- Meyers Constructors/Mayflower Contract Services (Property 2) (ERIS Map ID: 5/EDR Map ID: A2, A3, A7, A8) at 26999 5th Street, is listed in the HIST UST, NPDES, CIWQS, HWTS, FINDS, ECHO, and RCRA-SQG databases. No RCRA violations were listed. The facility has a terminated industrial stormwater permit. Four USTs including 7,500-gallon diesel UST, 4,000-gallon unleaded UST, 6,000-gallon unleaded UST, and 7,500-gallon diesel UST were identified on the HIST UST database. As discussed in Section 4.1.1, in September 1997, a total of 6 USTs were removed under the oversight of SBCFD and case closure was received on September 26, 1997. Based on the removal of the USTs and regulatory case closure, the former USTs are considered a historical recognized environmental condition (HREC).
- Laidlaw Transit Service (Property 2) (ERIS Map ID: 5/EDR Map ID: A9, A10) at 26999 5th Street, is listed in the HAZNET, HWTS, and CIWQS databases. The facility has a terminated industrial stormwater permit. As discussed in Section 4.1.5, the facility is listed in the HAZNET database for generating state-regulated wastes that were manifested for off-site disposal in 1997. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Anglo Heavy Equipment Repair LLC (Property 4) (ERIS Map ID: 1) at 27016 3rd Street, is listed in the HAZNET database. As discussed in Section 4.1.5, no hazardous wastes records are listed for the subject property. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Royal Concrete (Property 4) (ERIS Map ID: 4) at 27077 5th Street, is listed in the HAZNET database. As discussed in Section 4.1.5, the facility is listed in the HAZNET database for generating state-regulated wastes that were manifested for off-site disposal between 2006 and 2009. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- David Weintrub (Property 4) (ERIS Map ID: 2) at 27077 5th Street, is listed in the HAZNET database. As discussed in Section 4.1.5, no hazardous wastes records are listed for the subject property. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- TL Tavlich Construction (Property 5) (ERIS Map ID: 2) at 27050 3rd Street, is listed in the HAZNET database. As discussed in Section 4.1.5, the facility is listed in the HAZNET database for generating state-regulated wastes that were manifested for off-site disposal in 2009. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- A&I Automotive Repair, Paynes Corner (Property 7) (ERIS Map ID: 8/EDR Map ID: E20) at 27114 East 3rd Street, is listed in the HWTS and San Bernardino County Permit databases. According to the San Bernardino County Permit database, the subject property is identified as having two inactive permits for Special Handler and Special Generator. The permits expired on September

30, 2007. The facility is identified as General Automotive Repair. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.

- Master Automotive Repair, H Mackenzie (Property 8) (ERIS Map ID: 6) at 27085 5th Street, is listed in the HAZNET database. As discussed in Section 4.1.5, the facility is listed in the HAZNET database for generating state-regulated wastes that were manifested for off-site disposal in 1999. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- S&S Island Star, Sanchez Automotive Service (Property 11) (ERIS Map ID: 10/EDR Map ID: C14, C15) at 26967 5th Street, is listed in the San Bernardino County Permit, CERS, CERS Haz Waste, and RCRA NonGen databases. According to the San Bernardino County Permit database, the facility is identified as having active permits for Hazardous Materials 1-3 chemicals and Small Quantity Generator. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Elite Lawn & Landscape, J&N Truck Parts & Tire Service (Property 12) (ERIS Map ID: 9/EDR Map ID: C13) at 26975 5th Street, is listed in the San Bernardino County Permit database. According to the San Bernardino County Permit database, the facility is identified as having inactive permits for Special Generator and Conditionally Exempt Small Quantity Generator. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Astro Rental Equipment, Highland Equipment Rental, Foothill Tool/Equipment Rental, Rebel Rents, GKN Rentals (Property 13) (ERIS Map ID: 7/EDR Map ID: B12, B21, B22, B23) at 27111 5th Street, is listed in the HIST UST, SWEEPS UST, and RCRA NonGen databases. No RCRA violations were noted. Two fuel USTs, installed in 1980, were identified that the site. As discussed in Section 4.1.1, in March 1997, a total of 3 USTs were removed under the oversight of SBCFD and case closure was received on June 27, 1997. Based on the removal of the USTs and regulatory case closure, the former USTs are considered a HREC.

During the vicinity reconnaissance, Partner observed the following land use on properties in the immediate vicinity of the subject property:

Immediately Surrounding Properties

- North:** Commercial/industrial properties including Arrowhead Aftercare Crematory (27007 5th Street) and CSA Air Conditioning & Heating (27015 5th Street), followed by 5th Street, City Creek, vacant land, and residential and commercial/industrial properties (27014-27170 5th Street).
- South:** 3rd Street, followed by Match Corp. (3231 3rd Street), J.B. Hunt Transport Services, Inc. (Former Norton Air Force Base Landfill #2) (3465 3rd Street), and NTS San Bernardino (3505 3rd Street).
- East:** AAA Storage (27171 5th Street) and Roach Coach Auto Body (27180 3rd Street).
- West:** Central Avenue, followed by Highland Head Start (26887 5th Street), New West Upholstery (8046 Central Avenue), a residence/commercial property (8058 Central Avenue), and vacant land.

No environmental concerns associated with adjacent properties were identified based on visual observation from publicly accessible rights-of-way.

According to information obtained from the California State Water Resource Control Board online database, GeoTracker, for a nearby property (Case Number DOD100360600 – US Air Force, Former Norton Air Force Base Installation Restoration Program (IRP) Site 2 Landfill (LF-2) at 3rd Street/Central Avenue) and topographic map interpretation, groundwater in the vicinity of the subject property is present at a depth greater than 185 feet below ground surface (bgs) and flows toward the southwest.

Findings and Opinions

Recognized Environmental Condition

A *recognized environmental condition (REC)* refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. The following was identified during the course of this assessment:

- Two single post hydraulic lifts were observed in the service building at S&S Inland Star (Property 11- 26967 5th Street). Onsite personnel indicated that the southern hydraulic lift had been leaking for years. Based on the reported leak, the hydraulic lifts are considered to be a REC.

Controlled Recognized Environmental Condition

A *controlled recognized environmental condition (CREC)* refers to a REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations). The following was identified during the course of this assessment:

- Partner did not identify any CRECs during the course of this assessment.

Historical Recognized Environmental Condition

A *historical recognized environmental condition (HREC)* refers to a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations). The following was identified during the course of this assessment:

- Six USTs were formerly located on the northeast corner of the subject property on Property 2 (26999 5th Street) between the office and shop buildings near 5th Street. The USTs were removed from the subject property in 1997 under the oversight of the SBCFD. SBCFD records issued a closure letter on December 19, 1997. A copy of the closure letter was included the SBCFD files.

Based on the removal of the USTs and regulatory case closure, the former USTs are considered an HREC. It was noted that soil samples were not collected under the fuel dispensers due to the possibility of undermining the dispenser island and canopy which were not removed and that samples under the fuel dispensers would be collected at a later time. Partner observed the remains of the dispenser island/canopy and it appears likely the UST piping are still onsite. Onsite personnel were unaware of any additional sampling conduct in the area of the fuel dispenser island. A 1988 figure depicts the UST piping between the USTs, fuel dispensers and adjacent garage/maintenance shop. Partner recommends confirmation soil sampling upon removal of the canopy, fuel dispenser island and associated piping.

- Three USTs were formerly located on the northeast and central portions of the subject property on Property 13 (27111 East 5th Street) to the east and south of the building. The USTs were removed from the subject property in 1997 under the oversight of the SBCFD. SBCFD records issued a closure letter on June 27, 1997. A copy of the closure letter was included the SBCFD files. Based on the removal of the USTs and regulatory case closure, the former USTs are considered an HREC. Sampling or removal of UST piping was not mentioned in SBCFD notes. If UST piping is encountered in the future, Partner recommends proper removal and confirmation of UST piping.

Business Environmental Risk

A *Business Environmental Risks (BER)* is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice. The following was identified during the course of this assessment:

- Significant oil staining/spill was observed on the paved surface in the hazardous waste storage area at Property 11 (26967 5th Street). If oil stained soils are encountered in the areas of former vehicle maintenance areas, soils should be disposed of properly.
- A potential concrete sump was observed adjacent to the north of the former vehicle maintenance building (27114 3rd Street) located on the southeast corner of Property 7. The potential sump should be abandoned and removed under local requirements.
- Due to the age of some of the subject property buildings, there is a potential that asbestos-containing material (ACM) and/or lead-based paint (LBP) are present. The suspect ACMs would need to be sampled to confirm the presence or absence of asbestos prior to any renovation or demolition activities to prevent potential exposure to workers and/or building occupants.
- At least four septic systems serving residences (Properties 7 and 9) were identified at the subject property. Other septic tanks may be associated with former residences/farming structures may be present onsite. Based on residential use suspected septic systems do not represent an environmental concern. If encountered, septic systems should be abandoned and removed under local requirements.

- At least one former water well (Property 7) was identified at the subject property. Other water wells may be located at the subject property. If encountered, the water wells should be abandoned and removed under local requirements.

Significant Data Gaps

A significant data gap affects the ability of the Environmental Professional to identify a REC. Partner did not identify significant data gaps that affected our ability to identify RECs.

Conclusions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 and E1527-21 of the property located to the southeast of the intersection of 5th Street and Central Avenue, Highland, San Bernardino County, California (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed evidence of RECs, HRECs and/or BERs in connection with the subject property. Based on the conclusions of this assessment, Partner recommends the following:

- Partner suggests that when redeveloped, sampling of soil in the vicinity of the lifts at Property 11 and beneath the fuel dispenser at Property 2 be considered.

1.0 INTRODUCTION

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in conformance with the scope and limitations of ASTM Standard Practice E1527-13 and E1527-21 and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) for the property located to the southeast of the intersection of 5th Street and Central Avenue in the City of Highland, San Bernardino County, California (the "subject property"). Any exceptions to, or deletions from, this scope of work are described in the report.

1.1 Purpose

The purpose of this ESA is to identify existing or potential Recognized Environmental Conditions (as defined by ASTM Standard E1527-13 and E1527-21) affecting the subject property that: 1) constitute or result in a material violation or a potential material violation of any applicable environmental law; 2) impose any material constraints on the operation of the subject property or require a material change in the use thereof; 3) require clean-up, remedial action or other response with respect to Hazardous Substances or Petroleum Products on or affecting the subject property under any applicable environmental law; 4) may affect the value of the subject property; and 5) may require specific actions to be performed with regard to such conditions and circumstances. The information contained in the ESA Report will be used by Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout or seller financing; 2) evaluate the subject property's overall development potential, the associated market value and the impact of applicable laws that restrict financial and other types of assistance for the future development of the subject property; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout or seller financing of the subject property.

This ESA was performed to permit the *User* to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) liability (hereinafter, the "*landowner liability protections*," or "*LLPs*"). ASTM Standard E1527-13 constitutes "*all appropriate inquiry* into the previous ownership and uses of the *property* consistent with good commercial or customary practice" as defined at 42 U.S.C. §9601(35)(B).

1.2 Scope of Work

The scope of work for this ESA is in accordance with and to the extent necessary to achieve the goal of the requirements set forth in the ASTM Standard E1527-13 and E1527-21. This assessment included: 1) a property and adjoining site reconnaissance; 2) interviews with key personnel; 3) a review of historical sources; 4) a review of regulatory agency records; and 5) a review of a regulatory database report provided by a third-party vendor. Partner contacted local agencies, such as environmental health departments, fire departments and building departments to obtain readily ascertainable information to determine any current and/or former hazardous substances usage, storage and/or releases of hazardous substances on the subject property. Additionally, Partner researched readily available information on the

presence of activity and use limitations (AULs) at these agencies. As defined by ASTM E1527-21, AULs include both legal (that is, institutional) and physical (that is, engineering) controls that may include legal or physical restrictions or limitations on the use of, or access to, a site or facility: 1) to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil, soil vapor, groundwater, or surface water on the subject property; or 2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment. These legal or physical restrictions, which may include institutional and/or engineering controls (IC/ECs), are intended to prevent adverse impacts to individuals or populations that may be exposed to hazardous substances and petroleum products in the soil, soil vapor, groundwater, and/or surface water on a property.

If requested by Client, this report may also include the identification, discussion of, and/or limited sampling of asbestos-containing materials (ACMs), lead-based paint (LBP), mold, and/or radon.

1.3 Limitations

Partner warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in the Scope of Work. These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions. There is a possibility that even with the proper application of these methodologies there may exist on the subject property conditions that could not be identified within the scope of the assessment or which were not reasonably identifiable from the available information. Partner believes that the information obtained from the record review and the interviews concerning the subject property is reliable. However, Partner cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. The conclusions and findings set forth in this report are strictly limited in time and scope to the date of the evaluations. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. No other warranties are implied or expressed.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This report is subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollections of those persons contacted.

This practice does not address requirements of any state or local laws or of any federal laws other than the all appropriate inquiry provisions of the LLPs. Further, this report does not intend to address all of the compliance and safety concerns, if any, associated with the subject property.

Environmental concerns, which are beyond the scope of a Phase I ESA as defined by ASTM include the following: ACMs, LBP, radon, and lead in drinking water. These issues may affect environmental risk at the subject property and may warrant discussion and/or assessment; however, are considered non-scope issues. If specifically requested by the Client, these non-scope issues are discussed in Section 6.3.

1.4 User Reliance

Lake Creek Industrial engaged Partner to perform this assessment in accordance with an agreement governing the nature, scope and purpose of the work as well as other matters critical to the engagement. All reports, both verbal and written, are for the sole use and benefit of Lake Creek Industrial. Either verbally or in writing, third parties may come into possession of this report or all or part of the information generated as a result of this work. In the absence of a written agreement with Partner granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action against Partner, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold Partner, Client and their respective officers, employees, vendors, successors and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys' fees) and costs attributable to such Use. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply.

1.5 Limiting Conditions

The findings and conclusions contain all of the limitations inherent in these methodologies that are referred to in ASTM E1527-13 and E1527-21.

Specific limitations and exceptions to this ESA are more specifically set forth below:

- Interviews with past owners, past operators and occupants were not reasonably ascertainable and thus constitute a data gap. Based on information obtained from other historical sources (as discussed in Section 3.0), this data gap is not expected to alter the findings of this assessment.
- An environmental cleanup lien search was not performed. However, it is Partner's opinion that the lack of the lien search does not represent a significant data gap, in that it does not impact Partner's ability to identify recognized environmental conditions at the subject property and therefore it does not alter the conclusions of this report. A Commitment for Title Insurance provided by Lake Creek Industrial did not indicate environmental liens filed against the property. According to the Title Commitments, EDR and ERIS Reports, NPL (Superfund) and other environmental liens are not associated with the subject property. Based on available information, no environmental liens appear to be associated with the subject property.
- Partner did not access Property 3 and the northeast corner of Property 7. Site observations were made from the adjacent properties and public rights of way.

2.0 SITE DESCRIPTION

2.1 Site Location and Legal Description

The subject property is generally bound by 5th Street to the north, Central Avenue to the west, and 3rd Street to the south. The subject property was inspected by Heather Hodgetts of Partner on July 12 and November 19, 2021; and Ramiro Vejar on January 28, 2022. According to the San Bernardino County Assessor, Assessor's Parcel Numbers (APNs) associated with the subject property are 1192-631-01, -02, -03, -04, -05, -06, -09, -10, -11, -12, -13, -14, -15, -16, -17, -18, -19, -20, -21, -22, -23, -24, -25, -26, -27, -28; and 1192-641-08, -09, -10, -11, -12, -15, -16, -17, -18, -19, -20, -21, -22, -23.

Please refer to Figure 1: Site Location Map, Figure 2: Site Plan, Figure 3: Topographic Map, and Appendix A: Site Photographs for the location and site characteristics of the subject property.

2.2 Current Property Use

The subject property consists of twelve properties totaling 40 tax parcels. For the purposes of this report, the parcels are grouped by owner and referred to as Properties 1 through 14, as detailed in the table below. Specific property information is summarized below.

Property	Owner/Seller	APN	Address	Acres	Current Tenant	Site Use/Number Onsite Buildings
1	JC Rueda	1192-631-01	None reported	0.41	Vacant Parcel	None. No buildings.
2	ML Coccoran Company	1192-631-04, -05, -06, -15, -16, -17, -18, -19	26999 5th St.	5.68	E.J. Meyer Company, pipeline contractor	Office Space, Fleet Service, and equipment storage. 2 Buildings – Office and maintenance shop/garage.
3	Tuttle	1192-631-20, 21	26998 3rd St.	1.84	Third St. Tavern	Bar/Restaurant 1 Building – Restaurant
4	Snipe Equip	1192-631-09, -13, -22, -23	27075 and 27077 5th St. & 27012 3rd St.	2.57	Weka Inc., pipeline contractors	Office Space and Fleet Service. 3 Buildings – Office (5 th St. location)
5	Bill Morgan	1192-631-10, -11, -24, -25, -26	27048 3rd St. & 27059 5th St.	2.61	Parking Lot	Truck trailer parking. 1 Building – Office.
6	Tony	1192-631-12	27065 5th St.	0.21	ABF Construction	Office space and storage. 3 Buildings – office and two garages.
7	Laton/ Coleman	1192-631-27, -28 and 1192-641-15, -18, -19	27098, 27112, and 27114 3rd St.	3.14	Individual Residential Tenants	Residential homes, truck trailer parking, two vacant auto repair businesses. 5 buildings – 2 residential homes, a garage, and three maintenance shops/sheds.
8	Bog LLC	1192-631-14	27083 5th St.	0.38	Ray'z Tires, Wheels & Brake	Auto maintenance. 1 Building – vehicle

Property	Owner/Seller	APN	Address	Acres	Current Tenant	Site Use/Number Onsite Buildings
						maintenance shop.
9	Jenkins	1192-641-20, -21, -22, -23	27132, 27134, and 27136 3rd St.	1.84	Individual Residential Tenants	Residential homes. 3 buildings – residential homes.
10	Nordine	1192-641-12	Not reported	0.33	Not Provided	Vehicle storage lot. No buildings.
11	Martin	1192-631-03	26967 5th St.	0.41	S&S Inland Star Mercedes	Automobile Repair and maintenance.
12	Martin	1192-631-02	26975 5th St.		Elite Landscaping, S&S Inland Star Mercedes, Individual Storage Unit (Swap Meet Sales)	Landscaping Company office/equipment storage; automotive storage/repair, Individual Storage Unit storage for Swap Meet sales.
13	American Rentals/ Calprop, LLC	1192-641-09, 10, 11, 16, 17	27111 5 th Street	0.972	American Rentals	Construction and tool equipment rental service. Two storage and office buildings and one maintenance shop building.
14	Steve Schmidt	1192-641-08	27107 5 th Street	0.355	Steve Schmidt	Private personal storage

2.3 Current Use of Adjacent Properties

The subject property is located within a mixed commercial, industrial, and residential area of San Bernardino County. During the vicinity reconnaissance, Partner observed the following land use on properties in the immediate vicinity of the subject property:

Immediately Surrounding Properties

- North:** Commercial/industrial properties including Arrowhead Aftercare Crematory (27007 5th Street) and CSA Air Conditioning & Heating (27015 5th Street), followed by 5th Street, City Creek, vacant land, and residential and commercial/industrial properties (27014-27170 5th Street).
- South:** 3rd Street, followed by Match Corp. (3231 3rd Street), J.B. Hunt Transport Services, Inc. (Former Norton Air Force Base Landfill #2) (3465 3rd Street), and NTS San Bernardino (3505 3rd Street).
- East:** AAA Storage (27171 5th Street) and Roach Coach Auto Body (27180 3rd Street).
- West:** Central Avenue, followed by Highland Head Start (26887 5th Street), New West Upholstery (8046 Central Avenue), a residence/commercial property (8058 Central Avenue), and vacant land.

No environmental concerns associated with adjacent properties were identified based on visual observation from publicly accessible rights-of-way.

2.4 Physical Setting Sources

2.4.1 Topography

The United States Geological Survey (USGS) *Redlands, California* Quadrangle 7.5-minute series topographic map was reviewed for this ESA. According to the contour lines on the topographic map, the subject property is located at approximately 1,176 feet above mean sea level (MSL). The contour lines in the area of the subject property indicate the area is sloping toward the southwest.

A copy of the most recent topographic map is included as Figure 3 of this report.

2.4.2 Hydrology

According to information obtained from the California State Water Resource Control Board online database, GeoTracker, for a nearby property (Case Number DOD100360600 – US Air Force, Former Norton Air Force Base Installation Restoration Program (IRP) Site 2 Landfill (LF-2) at 3rd Street/Central Avenue) and topographic map interpretation, groundwater in the vicinity of the subject property is present at a depth greater than 185 feet below ground surface (bgs) and flows toward the southwest.

No settling ponds, lagoons, surface impoundments, wetlands or natural catch basins were observed on the subject property during this assessment. The nearest surface water is the City Creek located approximately 0.05 miles to the northwest.

2.4.3 Geology/Soils

The site is located in the Peninsular Ranges geomorphic province. The Peninsular Ranges are a northwest-southwest oriented complex of blocks separated by similarly trending faults. They extend from the Transverse Ranges and the Los Angeles Basin south to the Mexican border and beyond to the tip of Baja California and are bounded on the east by the Colorado Desert and the Gulf of California. The Peninsular Ranges contain minor Jurassic and extensive Cretaceous igneous rocks associated with the Nevadan plutonism. Marine Cretaceous sedimentary rocks are well represented and post-Cretaceous rocks form a restricted veneer of volcanic, marine, and nonmarine sediments.

Based on information obtained from the USDA Natural Resources Conservation Service Web Soil Survey online database, the subject property is mapped as Tujunga gravelly loamy sand. The Tujunga series consists of somewhat excessively drained alluvium derived from granite. Slopes range from 0 to 9 percent.

2.4.4 Flood Zone Information

Partner performed a review of the Flood Insurance Rate Map, published by the Federal Emergency Management Agency. According to Community Panel Number 06071C8702H, dated July 28, 2008, the subject property appears to be located in Zone X, an area with reduced flood risk due to a levee.

3.0 HISTORICAL INFORMATION

Partner obtained historical use information about the subject property from a variety of sources. Information regarding past land use was obtained by a review of historical aerial photographs, historical Fire Insurance maps, city directories, historical topographic maps, and previous reports of the subject property and surrounding area obtained from Environmental Data Resources (EDR) in July 2021. Copies of the historical resources are included in Appendix B. Due to the large volume of historical data, the following paragraph present a brief synopsis of the historical uses of the subject property.

Based on the historical research and interviews, the subject property was undeveloped or vacant land located partially in the City Creek wash from 1899 to 1930. From the 1930s to 1975, the subject property was developed with several residential and associated structures. Agricultural development was observed on the southwest corner of the site in the 1959 aerial photograph. In 1975, a commercial structure appears to be located on the southeast corner of Property 7 on the southeastern portion of the subject property. By 1985, commercial structures (Properties 2, 11, 12, 13 and 14) were located on the northern boundary of the subject property. By 1989, additional commercial structures (Properties 6 and 8) were located on the northwestern boundary of the subject property. By 2002, Property 2 had expanded operation to the south toward 3rd Street and was used as an equipment yard. A commercial structure appears to be located on the southern boundary of Property 7. By 2006, Properties 5 and 7 appear to be larger cleared commercial lots/yards. By 2012, Property 4 in the central portion of the subject property was developed an equipment yard. By 2016, the majority of the subject property is developed for commercial/industrial use with small four residences on the southeast portion of the subject property.

Common agricultural practices can result in residual concentrations of fertilizers, pesticides or herbicides in near-surface soil, though not generally at concentrations that pose a significant health risk. It is Partner's opinion that, the property has been graded, and remaining pesticide or herbicide residues, if any, are likely to have been dispersed and therefore are unlikely to impact human health or the environment. Accordingly, no further investigation is recommended regarding potential residual pesticides.

4.0 REGULATORY RECORDS REVIEW

4.1 Regulatory Agencies

4.1.1 Health Department

Regulatory Agency Data

Name of Agency:	San Bernardino County Fire Department (SBCFD)
Point of Contact:	Records Coordinator
Agency Address:	4065 County Circle Drive, Room 104
Agency Phone Number:	(951) 358-7018
Date of Contact:	July 9 and November 19, 2021; January 28, 2022
Method of Communication:	Email
Summary of Communication:	

According to San Bernardino County Fire Department (SBCFD) records:

Active Permit Facilities

Property 2

E.J. Meyer Company (26999 E. 5th Street):

- Certified Unified Program Agency (CUPA) permits were issued to E.J. Meyer Company for a Hazardous Materials 4-10 Chemicals Handler Permit and a Small Quantity Generator Permit. The last CERS Submission was on May 06, 2020.
- According to a January 2021 CUPA Compliance Inspection Report, E.J. Meyer is a contractor storage yard with vehicle maintenance conducted onsite. Hazardous materials observed onsite included motor oil, antifreeze, greases, and compressed gases (detailed chemical inventory was provided in the 2012 Business Plan). The facility generates hazardous waste including waste oil in 480-gallon aboveground storage tank (AST), oil filters, waste diesel, waste antifreeze, waste batteries, and shop towels. Current permits expire on May 31, 2021. Violations were corrected onsite.

Property 11

S & S Inland Star (26967 5th Street):

- Certified Unified Program Agency (CUPA) permits were issued to S & S Inland Star for a Hazardous Materials 1-3 Chemicals Handler Permit and a Small Quantity Generator Permit. The last CERS Submission was on August 10, 2020.
- S & S Inland Star, an auto repair shop, began operating at the subject property in November 2014.
- According to a July 2020 Compliance Inspection Report, violations were issued for failing to certify the business plan annually and submit chemical inventory. Hazardous materials observed onsite included one 75-gallon AST motor oil, two 110-gallon used lubricating oil, two 55-gallon

waste antifreeze drums, one 55-gallon used lubricating oil, 30-gallon parts washer, greases, and compressed gases. On July 20, 2020, a compliance deadline reminder notice was sent to the Mr. Sam Swartz indicating that the violations remained outstanding.

Inactive/Non-Permit Facilities

Property 2

Laidlaw Transit (Formerly: Mayflower Contract Services) (26999 5th Street)

- CUPA permits were issued to Laidlaw Transit for a Hazardous Materials Handler Permit, a Underground Storage Tank Permits (6), and a Special Generator Permit.

Property 4

WEKA Inc. (27012 3rd Street):

- A CUPA permit was issued to WEKA Inc. for Non-Handler/Non-Generator Permits. Noted that no CUPA Permits were required.

RWR Construction (27075 5th Street)

- Noted that no CUPA Permits were required. Company does not handle regulated substances in quantities at or exceeding threshold quantities.
- According to a CUPA Permit Exemption Request Form completed by WEKA Inc. for RWR Construction and dated August 2014 indicated that no hazardous materials are stored over the limits. The facility operations were listed as a sales office. The facility was exempt from Business Plan and Risk Management Plans requirements because it does not handle regulated substances in quantities at or exceeding threshold quantities.

WEKA Inc. (27075 5th Street)

- A CUPA permit was issued to WEKA Inc. for Non-Handler/Non-Generator Permits.
- According to a CUPA Permit Exemption Request Form completed by WEKA Inc. and dated September 2011 and May 2013 indicated that no hazardous materials are stored over the limits. Hazardous waste was not generated onsite. The facility operations were listed as office use. The facility was exempt from Business Plan and Risk Management Plans requirements because it does not handle regulated substances in quantities at or exceeding threshold quantities.

Property 5

Mike Minchew's Towing (27110 3rd Street):

- A CUPA permit was issued to Mike Minchew's Towing for Special Generator/Special Handler Permits.
- A CUPA permit was issued to Mike Minchew's Towing in 1992. Site operation included 2 oil changes a month (used oil). No USTs were identified onsite. A CUPA Hazardous Materials Field

Services Forms dated September 1995 indicated that Mike Minchew's Towing did not store/use hazardous materials onsite. Facility permit was inactivated.

Property 7

A&I Automotive Repair (27114 E. 3rd Street)

- A CUPA permit was issued to A&I Automotive Repair for Special Generator/Special Handler Permits.
- In 2001, a Special Handler was issued to A&I Automotive Repair, an automotive repair facility. A 2005 inspection noted violations for open or unlabeled containers, no secondary containers, containers not sound condition, manifest not available, and not updated Business Plan. In May 2007, business operations ceased. SBCFD observed numerous containers of hazardous wastes including waste oil, waste antifreeze, used oil filters, and other possible unknowns during the December 2007 close-out inspection. A tire business was now operating at the location and did not appear to generate waste.

Payne's Corner (27114 E. 3rd Street)

- A CUPA permit was issued to Payne's Corner for Non-Handler/Non-Generator Permits.
- According to a CUPA Business Emergency/Contingency Plan & CUPA Permit Exemption Form completed by Payne's Corner and dated February 2009. The facility operations included light automotive repair. The facility was exempt from Business Plan and Risk Management Plans requirements because it does not handle regulated substances in quantities at or exceeding threshold quantities.

MJB Auto Detail (27114 E. 3rd Street)

- A CUPA permit was issued to MJB Auto Detail for Non-Handler/Non-Generator Permits.
- According to a CUPA Hazardous Materials Management Division Survey completed by MJB Auto Detail and dated August 1992 indicated that no hazardous materials are stored over the limits. The facility operations were listed as a mobile business that repairs trucks at depots. In 1993, the facility was inactivated and described as a storage yard, no hazardous materials or was reported at site.

Property 7

A&I Automotive Repair (27114 E. 3rd Street)

- A CUPA permit was issued to A&I Automotive Repair for Special Generator/Special Handler Permits.
- In 2001, a Special Handler was issued to A&I Automotive Repair, an automotive repair facility. A 2005 inspection noted violations for open or unlabeled containers, no secondary containers, containers not sound condition, manifest not available, and not updated Business Plan. In May 2007, business operations ceased. SBCFD observed numerous containers of hazardous wastes

including waste oil, waste antifreeze, used oil filters, and other possible unknowns during the December 2007 close-out inspection. A tire business was now operating at the location and did not appear to generate waste.

Payne's Corner (27114 E. 3rd Street)

- A CUPA permit was issued to Payne's Corner for Non-Handler/Non-Generator Permits.
- According to a CUPA Business Emergency/Contingency Plan & CUPA Permit Exemption Form completed by Payne's Corner and dated February 2009. The facility operations included light automotive repair. The facility was exempt from Business Plan and Risk Management Plans requirements because it does not handle regulated substances in quantities at or exceeding threshold quantities.

MJB Auto Detail (27114 E. 3rd Street)

- A CUPA permit was issued to MJB Auto Detail for Non-Handler/Non-Generator Permits.
- According to a CUPA Hazardous Materials Management Division Survey completed by MJB Auto Detail and dated August 1992 indicated that no hazardous materials are stored over the limits. The facility operations were listed as a mobile business that repairs trucks at depots. In 1993, the facility was inactivated and described as a storage yard, no hazardous materials or was reported at site.

Property 8

Zapata Tire Shop #2 (27085 E. 5th Street)

- A CUPA permit was issued to Zapata Tire Shop #2 for Non-Handler/Non-Generator Permits.
- According to a CUPA Permit Exemption Request Form completed by Zapata Tire Shop #2 and dated October 2010 indicated that the business does not store/generate hazardous waste onsite. The facility is listed as a tire shop. The facility was exempt from Business Plan and Risk Management Plans requirements because it does not handle regulated substances in quantities at or exceeding threshold quantities.

Aviator Clothing Co. Inc. (27085 5th Street)

- A CUPA permit was issued to Aviator Clothing Co. Inc. for Non-Handler/Non-Generator Permits.
- According to a CUPA Business Emergency/Contingency Plan & CUPA Permit Exemption Form completed by Aviator Clothing Co. Inc. and dated December 2008. The facility operations included sewing medical uniforms and retail sales. The facility was exempt from Business Plan and Risk Management Plans requirements because it does not handle regulated substances in quantities at or exceeding threshold quantities.

Haywood's Auto Services (27085 5th Street)

- CUPA permits were issued to Haywood's Auto Services for a Special Handler/Special Generator Permits.

- In 1992, a Hazardous Materials Management Division Pre-Application was completed by Haywood's Auto Services, an automotive repair facility. Hazardous wastes generated onsite included waste oil, waste antifreeze, and used oil filters were observed during SBCFD inspection. During an April 2000 SBCFD inspection, hazardous waste were observed to be abandoned. The waste were removed under manifest on May 19, 2000.

Ray'z Tires & Wheels (27085 E. 5th Street)

- A CUPA permit was issued to Ray'z Tires & Wheels for Non-Handler/Non-Generator Permits.
- According to a CUPA Permit Exemption Request Form completed by Ray'z Tires & Wheels and dated June 2018 indicated that the business does not store/generate hazardous waste onsite. The facility is listed as a tire shop. The facility was exempt from Business Plan and Risk Management Plans requirements because it does not handle regulated substances in quantities at or exceeding threshold quantities.

Property 11

Martin's Automotive (26967 5th Street)

- A CUPA permit was issued to Martin's Automotive for a Limited Quantity Generator Permit.
- Martin's Automotive operated at the property from 1989-2006. In August 1991, the facility was designated as a Limited Quantity Generator. The 1993 Application for Health Permit indicated that Martin's Automotive generated hazardous wastes including waste motor oil. The waste oil was removed by Golden West Oil Co. A March 2003 CUPA Inspection report stated that hazardous wastes onsite included waste oil waste antifreeze, parts cleaner, waste auto batteries, and oil filters. By March 2006, the business was no longer operating at the subject property. CUPA permit was inactivated.

Sanchez Automotive Service (26967 5th Street)

- A CUPA permit was issued to Martin's Automotive for a Limited Quantity Generator Permit.
- Sanchez Automotive Service, an auto repair shop, operated at the subject property from 2006 to 2014. The most recent inspection reports from 2011 and 2014 indicated that the facility stored one 30- to 55-gallon drum of waste antifreeze, one 30- to 55-gallon drum of used oil, one 30-gallon drum of grease, and one 55-gallon drum of used oil filters. Attached photographs showed the some of the drums in secondary containment. Violations were noted for obtaining a Hazardous Waste Generator Permit (2011) and for not updating the business plan (2014),

Property 12

Elite Lawn & Landscape (26975 5th Street)

- CUPA permits were issued to Elite Lawn & Landscape for Special Handler/Special Generator Permits.

- According to a Hazardous Materials Field Services Computer Database Update Authorization completed by Elite Lawn & Landscape, a landscape business, and dated July 2003, the facility was no longer a handler/generator. Occupant reported that they no longer used motor oil, parts cleaner fluid or filters. It was reported that trucks and mowers were serviced offsite, with the occasional mower being serviced onsite. Permit changed to Limited Quantity Generator, no Handler required. In 1998 and 2000, the facility was noted as generating hazardous wastes including waste motor oil and parts washer solvent.

Property 13

GNK Rental (Formerly: Foothill Tool/Equip. Rentals; Rebel Rent; Astro Rental Equipment; AKA: UST – Hoham Trust) (27111 East 5th Street)

- CUPA permits were issued to GNK Rental for Hazardous Material Handler – UST Only Permit and Underground Storage Tank Permits.

Permit to Remove/Install/Modify Tanks Underground

Property 2

Laidlaw Transit Inc./Mayflower Contract (26999 5th Street):

- A CUPA permit was issued to Laidlaw Transit Inc./Mayflower Contract on August 29, 1997 to remove 6 USTs. USTs removed on September 19, 1991.
- According to a CUPA Application for Removal of Underground Storage Tank (UST) was completed by Laidlaw Transit Inc in August 1997. Six USTs including two 10,000-gallon diesel USTs; 7,500-gallon diesel UST; 4,000-gallon unleaded UST; 6,000-gallon unleaded UST; and 7,500-gallon diesel UST were identified at the site. Installation date was estimated to be 1978 and 1980. An attached figure depicted the former tanks and dispenser island area as located on the northeast corner of the subject property, between the office and shop buildings near 5th Street. The application noted the removal appeared to be for “no piping/storage only.”
- A UST Closure for Laidlaw Transit was prepared by Bradley Environmental and dated September 26, 1997. On September 17, 1997, the USTs, fuel dispensers, and piping were removed under the oversight of SBCFD. It was noted that soil samples were collected under all the USTs and from the stockpiled soil. Soil samples were not collected under the fuel dispensers due to the possibility of undermining the dispenser island and canopy which were not removed. It was noted that samples under the fuel dispensers would be collected at a later time. Partner observed the remains of the dispenser island/canopy and likely the UST piping are still onsite. Onsite personnel was unaware of any additional sampling conduct in the area of the fuel dispenser island. A 1988 figure depicts the UST piping between the USTs, fuel dispensers and adjacent garage/maintenance shop. Partner recommends confirmation soil sampling upon removal of the canopy, fuel dispenser island and associated piping.

- Following the removal of the UST, confirmation soil samples were collected at depths of 12 and 14 feet below ground surface (bgs) within the tank excavations and from the soil stockpiles. The soil samples were analyzed for Total Petroleum Hydrocarbons (TPH) as gasoline and diesel by EPA Method 8015 Modified; benzene, ethylbenzene, toluene, and xylenes (BTEX) and methyl tert butyl ether (MTBE) by EPA Method 8020. Total lead (EPA Method 7240) was completed on the sample with the highest BTEX level. All soil samples except four were non-detect. TPH was detected at concentration between 14 to 28 milligrams per kilogram (mg/kg) indicating trace amounts of petroleum hydrocarbons just above laboratory detection limits. On December 19, 1997, SBCFD issued a No Further Action (NFA) letter following the review of Report submitted by Bradley Environmental dated September 26, 1997. A copy of the NFA letter is provided in Appendix B. Based on the removal of the UST and regulatory case closure, the former UST is considered a historical recognized environmental condition (HREC).

Property 13

GNK Rental (Formerly: Foothill Tool/Equip. Rentals; Rebel Rent; Astro Rental Equipment; AKA: UST – Hoham Trust) (27111 East 5th Street)

- According to a CUPA Application for Construction and/or Removal of Underground Storage Tank (UST) facility completed by UST Hoham Trust c/o Shelly Hoham, three USTs were removed on March 27, 1997. The USTs were described as three unpermitted USTs including one 500-gallon waste oil UST (T-1) (capacity also noted as 250-gallon and 300-gallon in records), one 3,000-gallon gas UST (T-2), and one 4,000-gallon gas UST (T-3) were identified at the site. Installation date is estimated to be prior to 1984. An attached figure depicts the former tanks T-2 and T-3 as located to the east of the building on the northeastern portion of the subject property. T-1 was depicted as located to the south of the building on the central portion of the subject property. The figure does not depict the location of the fuel dispenser or piping associated with the USTs.
- A UST Closure Report was prepared by JIMCO and dated April 7, 1997. Following the removal of the USTs, confirmation soil samples were collected at a depth of 2 feet below both tank ends and one sample was collected under the waste oil UST and under the fuel dispenser. The soil samples were analyzed for TPH as gasoline and diesel by EPA Method 8015 Modified; BTEX and MTBE by EPA Method 8020. All soil samples were non-detect except for two samples. TPH gasoline was detected at concentration of 420 mg/kg in Sample T3—w-E and TPH diesel was detected at concentration of 8 mg/kg in Sample T3-A. SBCFD inspector noted that all the samples were below the action levels and no further action was required. Sampling or removal of UST piping was not mentioned in SBCFD notes. On June 27, 1997, SBCFD issued a NFA letter following the review of sample results and closure report submitted by JIMCO dated April 7, 1997. A copy of the NFA letter is provided in Appendix B. Based on the removal of the USTs and regulatory case closure, the former USTs are considered a HREC. If UST piping is encountered in the future, Partner recommends proper removal and confirmation of UST piping.

Haz Mat Incident Response Activity

No record of hazmat incident response activity identified.

Site Remediation

No records of site remediation identified.

As of the date of this report, Partner has not received a response from the SBCFD for Properties 13 and 14 for inclusion in this report.

4.1.2 Air Pollution Control Agency

Regulatory Agency Data

Name of Agency: South Coast Air Quality Management District (SCAQMD)
Point of Contact: <http://www.aqmd.gov/nav/FIND/facility-information-detail>
Agency Address: 21865 Copley Drive, Diamond Bar, California 91765
Agency Phone Number: (909) 396-2000
Date of Contact: July 9 and November 19, 2021; January 28, 2022
Method of Communication: Online
Summary of Communication:

Partner researched the South Coast Air Quality Management District (SCAQMD) online database for information regarding any Permits to Operate (PTO), Notices of Violation (NOV), or Notices to Comply (NTC) records for the subject property related to air emission equipment.

The following records were found for the subject property addresses:

Facility ID	Facility Name/Address	Status	Equipment Listed	NOVs/NTC
101413	Mayflower Contract Services Inc./26999 5th Street (Property 2)	Active	A permit to operate a CFC-12 Recovery/Recycling (Rule 1411) was issued in 1994. The permit is shown as inactive.	No NOVSS or NTCs were identified.
31095	Meyer Constructors/26999 5th Street (Property 2)	Active	A permit to operate a serv stat storage & dispensing gasoline and Amine (or DEA) Regeneration was issued in 1982. The permits are shown as inactive.	No NOVSS or NTCs were identified.

Facility ID	Facility Name/Address	Status	Equipment Listed	NOVs/NTC
62718	Mayflower Contract Services/2699 5th Street (likely associated with 26999) (Property 2)	Active	No equipment listed.	No NOVVs or NTCs were identified.
34233	Louis Rozema/ 27111 5 th Street	Out of Business	Permits to operate Serv Stat Storage & Dispensing Gasoline and Amine (or DEA) Regeneration were issued in 1983. The permit is shown as inactive.	No NOVVs or NTCs were identified.
54848	Foothill Tool & Equipment Rentals/27111 5 th Street	Out of Business	Permits to operate Serv Stat Storage & Dispensing Gasoline and Amine Treating were issued in 1987. The permit is shown as inactive. SIC Code 5541- Gasoline Service Stations.	No NOVVs or NTCs were identified.
79124	GKN Rentals/ 27111 5 th Street	Out of Business	Permits to operate Serv Stat Storage & Dispensing Gasoline and Amine Treating were issued in 1990. The permit is shown as inactive.	No NOVVs or NTCs were identified.

Facility ID	Facility Name/Address	Status	Equipment Listed	NOVs/NTC
111760	Rebel Rents/2711 5 th Street (Property 13)	Inactive	An application for Plan Rule 1166 (contaminated soil hand.) was cancelled in March 1997. The address was listed as 2711 instead of 27111 5 th Street.	No NOVSS or NTCs were identified.

4.1.3 Regional Water Quality Agency

Regulatory Agency Data

Name of Agency: Regional Water Quality Control Board (RWQCB)
Point of Contact: <http://geotracker.waterboards.ca.gov/>
Agency Address: 3737 Main St Ste 500, Riverside, CA 92501
Agency Phone Number: (951) 782-4130
Date of Contact: July 9 and November 19, 2021; January 28, 2022
Method of Communication: Online database
Summary of Communication:

The subject property was not identified on the RWQCB GeoTracker online database. On August 10, 2021, Partner received a reply from the RWQCB stating they have stormwater records for the subject property:

- Mayflower Contract Service Inc. (26999 5th Street) (Property 2): A terminated industrial stormwater permit (WDID: 8 36I004684) was listed. A 2020-2021 AD HOC Monitoring Report for Stormwater Discharges associated with industrial activities was submitted by Layne Christensen Company for a January 2021 rain event.
- Laidlaw Transit Inc/Mayflower Contract (26999 5th Street) (Property 2): A terminated industrial stormwater permit (WDID: 8 36I011774) was listed.

4.1.4 Department of Toxic Substances Control

Regulatory Agency Data

Name of Agency: California Department of Toxic Substances Control (DTSC)
Agency Address: <http://www.envirostor.dtsc.ca.gov/public/>
<http://www.hwts.dtsc.ca.gov/>
Agency Phone Number: (714) 484-5400
Date of Contact: July 9 and November 19, 2021; January 28, 2022
Method of Communication: Online
Summary of Communication:

Partner received a reply on June 23, 2021 from the DTSC stating they have no records for the subject property address. The subject property was not identified in the online DTSC EnviroStor database.

The subject property was identified in the online Hazardous Waste Tracking System database:

ID Number	Facility Name/ Address	Status	Inactive Date	Waste
CAL00011633	Laidlaw Transit Inc./26999 5th Street (Property 2)	Inactive	June 30, 2000	The facility was listed as a generator of the following hazardous waste in 1997: waste oil and mixed oil.
CAD982433757	Mayflower Contract Services Inc. /26999 5th Street (Property 2)	Inactive	January 1, 1995	The facility was listed as a generator of the following hazardous waste between 1993 and 2007: photochemical/photo processing waste metal sludge, metals recovery including retoring, smelting, chemicals.
CAL000258671	EJ Meyer Co./ 26999 5th Street (Property 2)	Active	NA	The facility was listed as a generator of the following hazardous waste in 2009: waste oil & mixed oil, and organic solids with halogens.
CAC002662277	David Weintraub/ 27077 5th Street (Property 4)	Inactive	August 26, 2011	No hazardous wastes records are listed.
CAL000256971	Royal Concrete/ 27077 5th Street (Property 4)	Inactive	June 30, 2008	The facility was listed as a generator of the following hazardous waste between 2006 and 2008: unspecified solvent mixture and hydrocarbon solvents.
CAL000373606	Anglo Heavy Equipment Repair LLC/27016 3 rd Street (Property 4)	Inactive	June 30, 2014	No hazardous wastes records are listed.
CAC002648001	TL Tavlich Construction	Inactive	May 5,	The facility was listed as a generator of the following hazardous waste in 2009: waste oil &

ID Number	Facility Name/ Address	Status	Inactive Date	Waste
	/27050 E. 3 rd Street (Property 5)		2010	mixed oil.
CAL000336470	Paynes Corner Highland/ 27114 E. 3 rd Street (Property 7)	Inactive	June 30, 2009	No hazardous wastes records are listed.
CAI000233942	A&I Automotive Repair/ 27114 E. 3 rd Street (Property 7)	Inactive	June 30, 2008	No hazardous wastes records are listed.
CAC003120827	Unknown Party/27114 E. 3 rd Street (Property 7)	Active	August 19, 2021	No hazardous wastes records are listed.
CAC001323344	H Mckenzie /27085 5 th Street (Property 8)	Inactive	October 25, 2020	The facility was listed as a generator of the following hazardous waste in 1999: unspecified oil-containing waste.
CAL000007813	Master Auto Repair/27085 5 th Street (Property 8)	Inactive	January 1, 1995	No hazardous wastes records are listed.
CAL000405511	S&S Motors Inc. (DBA S&S Inland Star)/26967 5 th Street (Property 11)	Active	-	No hazardous wastes records are listed.

ID Number	Facility Name/ Address	Status	Inactive Date	Waste
CAC002797103	S&S Motors Inc. (DBA S&S Inland Star)/26967 5 th Street (Property 11)	Inactive	March 17, 2015	No hazardous wastes records are listed.
CAL000304636	Sanchez Automotive Service/ 26967 5 th Street (Property 11)	Inactive	June 30, 2011	No hazardous wastes records are listed.
CAL000128907	J&N Truck Parts & Tire Service/ 26975 5 th Street (Property 12)	Inactive	June 30, 1998	No hazardous wastes records are listed.
CAL000209611	Elite Lawn and Landscape/ 26975 5 th Street (Property 12)	Inactive	June 30, 2005	No hazardous wastes records are listed.
CAL000270616	Highland Equipment Rental Inc./27111 5 th Street (Property 13)	Active	NA	The facility was listed as a generator of the following hazardous waste between 2003 and 2007: unspecified oil-containing waste.
CAC002565541	Highland Equipment Rental Inc./27111 5 th Street	Inactive	May 20, 2003	No hazardous wastes records are listed.

ID Number	Facility Name/ Address	Status	Inactive Date	Waste
	(Property 13)			
CAC002194129	Rebel Rents/27111 5 th Street (Property 13)	Inactive	June 11, 2001	No hazardous wastes records are listed.
CAC002345999	Rebel Rents/27111 5 th Street (Property 13)	Inactive	September 11, 2001	The facility was listed as a generator of the following hazardous waste in 2001: other organic solids.
CAL000067887	GKN Rentals/ 27111 5 th Street (Property 13)	Inactive	June 30, 1995	No hazardous wastes records are listed.
CAL000016298	Foothill Tool & Equipment Rent/27111 5 th Street (Property 13)	Inactive	April 15, 1994	The facility was listed as a generator of the following hazardous waste in 1993: unspecified aqueous solution (2<pH<12.5), waste oil and mixed oil.

Based on site observations, hazardous wastes are generated at Property 11, S&S Motors Inc. (DBA S&S Inland Star) at 26967 5th Street. Site personnel indicated that hazardous waste is removed by Asbury Environmental Services. However, manifest records have not been recorded in the DTSC Hazardous Waste Tracking System.

4.1.5 Planning Department

Regulatory Agency Data

Name of Agency:	City of Highland Planning Division
Point of Contact:	https://www.cityofhighland.org/190/Planning
Agency Address:	27215 Base Line, Highland, CA 92346
Agency Phone Number:	(909) 864-6861
Date of Contact:	July 9 and November 19, 2021
Method of Communication:	Online
Summary of Communication:	According to records reviewed, the subject property is zoned for Business Park (BP) by the City of Highland.

4.1.6 Oil & Gas Exploration

Regulatory Agency Data

Name of Agency:	California Division of Oil, Gas and Geothermal Resources (CalGem)
Point of Contact:	http://maps.conservation.ca.gov/doms/doms-app.html
Agency Address:	801 K Street, MS 24-01, Sacramento, California 95814
Agency Phone Number:	(916) 322-1080
Date of Contact:	July 9 and November 19, 2021
Method of Communication:	Online
Summary of Communication:	According to CalGem, no oil or gas wells are located on or adjacent to the subject property.

4.1.7 Assessor's Office

Regulatory Agency Data

Name of Agency:	San Bernardino County Assessor (RCA)
Point of Contact:	https://ca-riverside-acr.publicaccessnow.com/
Agency Address:	4080 Lemon St, 1st Floor Riverside, CA 92501
Agency Phone Number:	(951) 955-9553
Date of Contact:	July 9 and November 19, 2021
Method of Communication:	Online
Summary of Communication:	According to records reviewed, the subject property is identified by Assessor Parcel Numbers (APNs) 1192-631-01, -02, -03, -04, -05, -06, -09, -10, -11, -12, -13, -14, -15, -16, -17, -18, -19, -20, -21, -22, -23, -24, -25, -26, -27, -28; and 1192-641-08, -09, -10, -11, -12, -15, -16, -17, -18, -19, -20, -21, -22, -23.

Copies of pertinent documents obtained by Partner from the above-referenced agencies are included in Appendix B.

4.2 Mapped Database Records Search

The regulatory database report provided by Environmental Data Resources, Inc. (EDR) and Environmental Risk Information Services (ERIS) documents the listing of sites identified on federal, state, county, city, and tribal (when applicable) standard source environmental databases within the approximate minimum search distance (AMSD) specified by ASTM E1527-13 and E1527-21. The data from these sources are updated as these data are released and integrated into one database. The information contained in this report was compiled from publicly available sources.

The environmental database information is used to identify environmental concerns in connection with the subject property. The listings also serve to identify the known indications of the storage, use, generation, disposal, or release of hazardous substance at the subject property and the potential for contaminants to migrate onto the subject property from off-site sources in groundwater or soil in the form of liquids or vapor.

Using the ASTM definition of migration, Partner considers the migration of hazardous substances or petroleum products in any form onto the subject property during the evaluation of each site listed on the radius report, which includes solid, liquid, and vapor.

4.2.1 Regulatory Database Summary

The following table lists the number of sites as categorized by the regulatory database within the prescribed AMSD. The locations of the sites are plotted utilizing a geographic information system, which geocodes the site addresses. The accuracy of the geocoded locations is approximately +/-300 feet.

Radius Report Data					
Database	AMSD Radius (mile)	Listings Identified		Surrounding Area Sites of Concern	
		Subject Property	Adjoining Properties		
Federal NPL	1.00	N	N	Y	
Delisted NPL Site	0.50	N	N	N	
Federal SEMS Site	0.50	N	N	N	
Federal SEMS-ARCHIVE	0.50	N	N	N	
Federal RCRA CORRACTS Facility	1.00	N	N	Y	
Federal RCRA TSD Facility	0.50	N	N	N	
Federal RCRA Generators Site (LQG, SQG, VSQG, CESQG)	Subject and Adjoining	Y	Y	N/A	
Federal IC/EC Registries	Subject Property	N	N/A	N/A	
Federal ERNS Site	Subject Property	N	N/A	N/A	
State/Tribal Equivalent NPL	1.00	N	N	N	
State/Tribal Equivalent CERCLIS	1.00	N	N	N	
State/Tribal Landfill/Solid Waste Disposal Site	0.50	N	N	N	
State/Tribal Leaking Storage Tank Site (LUST/LPST)	0.50	N	N	N	
State/Tribal Registered Storage Tank Sites (UST/AST)	Subject and Adjoining	N	N	N/A	
State/Tribal IC/EC Registries	Subject and Adjoining	N	N	N/A	
State/Tribal Voluntary Cleanup Sites (VCP)	0.50	N	N	N	
State/Tribal Spills	0.50	N	N	N	
Federal Brownfield Sites	0.50	N	N	N	
State Brownfield Sites	0.50	N	N	N	
San Bernardino County Permit	0.25	Y	Y		
Hazardous Waste Tracking System (HWTS)	0.25	Y	Y		
HAZNET	0.25	Y	N		

4.2.2 Subject Property Listings

The subject property is identified the agency database reports:

- EJ Meyer Company (Property 2) (ERIS Map ID: 5/EDR Map ID: A1, A4, A5, A6, A11) at 26999 5th Street, is listed in the HAZNET, HWTS, CERS, CERS Haz Waste, San Bernardino County Permit, FINDS, ECHO, and RCRA-NonGen databases. No RCRA violations were listed. As discussed in Section 4.1.5, the facility is listed in the HAZNET database for generating state-regulated wastes that were manifested for off-site disposal in 2009. According to the San Bernardino County Permit

database, the subject property is identified as having an active permits for hazardous material 4-10 chemicals and a small quantity generator. The facility was listed as last inspected by the San Bernardino County Fire Department on January 5, 2021 and violations were listed for failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days; failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.

- Meyers Constructors/Mayflower Contract Services (Property 2) (ERIS Map ID: 5/EDR Map ID: A2, A3, A7, A8) at 26999 5th Street, is listed in the HIST UST, NPDES, CIWQS, HWTS, FINDS, ECHO, and RCRA-SQG databases. No RCRA violations were listed. The facility has a terminated industrial stormwater permit. Four USTs including 7,500-gallon diesel UST, 4,000-gallon unleaded UST, 6,000-gallon unleaded UST, and 7,500-gallon diesel UST were identified on the HIST UST database. As discussed in Section 4.1.1, in September 1997, a total of 6 USTs were removed under the oversight of SBCFD and case closure was received on September 26, 1997. Based on the removal of the USTs and regulatory case closure, the former USTs are considered a historical recognized environmental condition (HREC).
- Laidlaw Transit Service (Property 2) (ERIS Map ID: 5/EDR Map ID: A9, A10) at 26999 5th Street, is listed in the HAZNET, HWTS, and CIWQS databases. The facility has a terminated industrial stormwater permit. As discussed in Section 4.1.5, the facility is listed in the HAZNET database for generating state-regulated wastes that were manifested for off-site disposal in 1997. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Anglo Heavy Equipment Repair LLC (Property 4) (ERIS Map ID: 1) at 27016 3rd Street, is listed in the HAZNET database. As discussed in Section 4.1.5, no hazardous wastes records are listed for the subject property. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Royal Concrete (Property 4) (ERIS Map ID: 4) at 27077 5th Street, is listed in the HAZNET database. As discussed in Section 4.1.5, the facility is listed in the HAZNET database for generating state-regulated wastes that were manifested for off-site disposal between 2006 and 2009. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- David Weintrub (Property 4) (ERIS Map ID: 2) at 27077 5th Street, is listed in the HAZNET database. As discussed in Section 4.1.5, no hazardous wastes records are listed for the subject property. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- TL Tavlich Construction (Property 5) (ERIS Map ID: 2) at 27050 3rd Street, is listed in the HAZNET database. As discussed in Section 4.1.5, the facility is listed in the HAZNET database for generating state-regulated wastes that were manifested for off-site disposal in 2009. Based on

the regulatory status, this listing is not considered to have created an environmental concern to the subject property.

- A&I Automotive Repair, Paynes Corner (Property 7) (ERIS Map ID: 8/EDR Map ID: E20) at 27114 East 3rd Street, is listed in the HWTS and San Bernardino County Permit databases. According to the San Bernardino County Permit database, the subject property is identified as having two inactive permits for Special Handler and Special Generator. The permits expired on September 30, 2007. The facility is identified as General Automotive Repair. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Master Automotive Repair, H Mackenzie (Property 8) (ERIS Map ID: 6) at 27085 5th Street, is listed in the HAZNET database. As discussed in Section 4.1.5, the facility is listed in the HAZNET database for generating state-regulated wastes that were manifested for off-site disposal in 1999. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- S&S Island Star, Sanchez Automotive Service (Property 11) (ERIS Map ID: 10/EDR Map ID: C14, C15) at 26967 5th Street, is listed in the San Bernardino County Permit, CERS, CERS Haz Waste, and RCRA NonGen databases. According to the San Bernardino County Permit database, the facility is identified as having active permits for Hazardous Materials 1-3 chemicals and Small Quantity Generator. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Elite Lawn & Landscape, J&N Truck Parts & Tire Service (Property 12) (ERIS Map ID: 9/EDR Map ID: C13) at 26975 5th Street, is listed in the San Bernardino County Permit database. According to the San Bernardino County Permit database, the facility is identified as having inactive permits for Special Generator and Conditionally Exempt Small Quantity Generator. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Astro Rental Equipment, Highland Equipment Rental, Foothill Tool/Equipment Rental, Rebel Rents, GKN Rentals (Property 13) (ERIS Map ID: 7/EDR Map ID: B12, B21, B22, B23) at 27111 5th Street, is listed in the HIST UST, SWEEPS UST, and RCRA NonGen databases. No RCRA violations were noted. Two fuel USTs, installed in 1980, were identified at the site. As discussed in Section 4.1.1, in March 1997, a total of 3 USTs were removed under the oversight of SBCFD and case closure was received on June 27, 1997. Based on the removal of the USTs and regulatory case closure, the former USTs are considered a HREC.

4.2.3 Adjoining Property Listings

- The following adjoining facilities were identified in the regulatory database reports. CSR Air Conditioning (ERIS Map ID: 3/EDR Map ID: F24) at 27015 5th Street, is located adjoining to the north and hydrologically up-gradient of the subject property. The site was identified in the RCRA NonGen database. No RCRA violations were noted. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.

- Wyle Labs SBO East Test, National Technical Systems San Bernardino (EDR Map ID: D16-D19) at 3505 3rd Street, is located adjoining to the southeast and hydrologically down-gradient of the subject property. The site was identified in the AST, CERS, CERS Haz Waste, CERS Tanks, RCRA NonGen, RCRA SQG, and San Bernardino County Permit databases. An Aboveground Petroleum Storage tank was identified at that the site. According to the San Bernardino County Permit database, the National Technical Systems facility is identified as having active permits for Hazardous Materials 11-30 chemicals, ASPA 1,320-10,000 gal facility capacity, and Small Quantity Generator. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Penske (EDR Map ID: F25) at 27056 5th Street, is located adjoining to the north and hydrologically up-gradient of the subject property. The site was identified in the RCRA NonGen database. No RCRA violations were noted. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Amigos Recycling Inc. (EDR Map ID: B26) at 27170 5th Street, is located adjoining to the northeast and hydrologically up-gradient of the subject property. The site was identified in the San Bernardino County Permit database. an Aboveground Petroleum Storage tank was identified at that the site. According to the San Bernardino County Permit database, the facility is identified as having an inactive permit for Hazardous Materials 1-3 chemicals special. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Jose Huizar (EDR Map ID: 27) at 26875 4th Place, is located adjoining to the west and hydrologically down-gradient of the subject property. The site was identified in the RCRA NonGen database. No RCRA violations were noted. Based on the regulatory status, this listing is not considered to have created an environmental concern to the subject property.
- Closed Norton Air Force Base (AFB) Landfill #2 at 305 South Tippecanoe Avenue, is located adjoining to the south, beyond 3rd Street, and hydrologically down-gradient of the subject property. The facility is identified on the is identified as a DOD, NPL, SEMS, CERCLIS, CORRACTS, RCRA-TSDF, US ENG CONTROLS, US INST CONTROL, ROD, and PADS databases. The former Norton AFB included approximately 2,200 acres of contiguous property. Landfill #2 consists of approximately 35 acres in the northeastern corner of the former base. According to the GeoTracker online database, Landfill #2 (also known as Installation Restoration Program (IRP) Site 2) operated as the main landfill for the base from 1958 to 1980. The landfill accepted general refuse, demolition debris, and industrial waste that may have included spent solvent, acid, refrigerant, paint stripper, paint thinner, waste oil, and sludge. The site operated as a trench-and-fill-type landfill, with waste placed in trenches dug into the preexisting surface to approximately 20 feet. The landfill contains an estimated 640,000 cubic yards of waste. Previous investigations indicated that approximately 1 to 3 feet of native material was placed over the waste in the filled trenches. As a result of landfill operations, groundwater was impacted by trichloroethylene (TCE),

PCBs, and other contaminants. Several contamination plumes have been identified that have flowed offsite. The local groundwater gradient has caused migration of these plumes to the south-southwest away from the subject property.

Between 1982 to present, investigations and monitoring have been conducted at the facility. In March 2010, an asphaltic concrete parking lot was completed on top of the landfill. According to the IRP Site 2 Landfill Operations, Maintenance, and Monitoring 2019 Annual Report prepared by CH2M HILL, Inc. and dated May 2020, monitoring activities and maintenance continue to be conducted according to the Final Operating, Monitoring, and Maintenance Plan (OM&M Plan), Alternative Compliance Plan (ACP), and Closure and Postclosure Plan (CPCMP) Addendum 2. The paved parking lot controls flow of surface water on the top of the cap from rainfall and reduces the potential for soil erosion and the presence of burrowing animals. Compliance groundwater monitoring wells MW-402, MW-403, and MW-404 will continue to be checked semiannually for potential water level measurements. Landfill gas (LFG) perimeter probe methane monitoring continues on a semiannual basis with annual perimeter probe analytical sampling. Instantaneous and integrated surface emission monitoring continues on an annual basis. Annual header and ambient air sampling continues to be conducted. Monthly inspections of the LFG collection system continues to be conducted. Detailed site inspections continue to be conducted semiannually and after major rain events, earthquakes, wind storms, or fires. Maintenance is performed as needed to ensure the integrity of the landfill systems and site.

Partner observed during the site visit that this property was occupied by a trucking company. Based on the regulatory status, continued monitoring and regulatory oversight, and inferred direction of groundwater flow, this site is not expected to represent a significant environmental concern.

4.2.4 Surrounding Area Listings of Concern to Subject Property

Partner reviewed the EDR database report to identify offsite facilities that have suspected or documented environmental concerns or RECs that may negatively impact the subject property. Partner's criteria for further evaluating the potential impact of a listed offsite facility are summarized below:

- The listed offsite facility is documented or assumed to be hydrogeologically up-gradient and a likely pathway exists for known releases of environmentally mobile contaminants to reach the subject property; or, contaminants from the listed offsite facility can reach the subject through other pathways (i.e., surface runoff); and,
- The offsite facility is listed as an open case on one of the following databases: Federal NPL, Federal CORRACTS, Federal CERCLIS, Federal ERNS, and State-Specific lists including, but not limited to State Hazardous Waste Sites, State SCL, State LUST, State Deed Restrictions, State Toxic Pits, Landfill (excluding transfer stations); or
- The facility is a known or suspected concern based on Partner's experience or observations made during the site reconnaissance (i.e., Dry-cleaning operations that may or may not be listed as RCRA-SQG or a non-adjacent UST site that appears to have a remediation system in place).

Partner did not identify facilities that, using the criteria discussed above, appeared to be a potential concern.

4.2.5 Unplottable Listings

No unplottable listings of concern are identified in the regulatory database report.

A copy of the regulatory database report is included in Appendix C of this report.

4.3 Vapor Encroachment Screening

This screening utilized readily available data sources previously discussed in this Phase I ESA that includes:

- the physical setting of the subject property (Section 2.4),
- standard historical sources for the subject property, adjoining, and surrounding area (Section 3.0),
- known or potentially contaminated sites as identified from information from regulatory agencies and sites on Federal, State, tribal and local databases (Section 4.0), and
- information from the site reconnaissance (Section 6.0) of the subject property and observations of the surrounding properties.

The results of our data collection, reconnaissance, and analysis are tabulated below:

<i>Potential for Vapor Encroachment to Impact the Subject Property</i>	
Area of Concern	Likely or Known VEC to Subject Property
Subject Property Existing Operations or Conditions	None identified that impact the subject property. Refer to Sections 4.0 Site Description and 7.0 Site Reconnaissance and discussion below.
Historical Uses of the Subject Property	None identified that impact the subject property. Refer to Section 5.0 Historical Use and discussion below.
Adjoining Property Operations or Existing Conditions	None identified that impact the subject property. Refer to Section 4.2 Surrounding Land Use and discussion below.
Historical Uses of Adjoining Properties or Nearby Properties	None identified that impact the subject property. Refer to Section 4.0 Historical Use and discussion below.
Regulatory Review of sites identified on Federal, State, tribal and Local Environmental Databases which were located in the AMSD	None identified that impact the subject property. Refer to Section 6.0 Regulatory Review and discussion below.

Partner reviewed the environmental database records identified in the ERIS Radius Report and evaluated each reported site relative to a subsurface vapor encroachment condition, respective a known release, the chemicals of concern, the distance that contaminants are likely to migrate based on local geological and hydrological conditions, sub-grade utility corridors and preferential pathways, structural components, mitigation devices, and other reasonable factors.

The subsurface vapor encroachment screening was completed in general conformance with ASTM International Designation: E2600-15: *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions* ("ASTM Guide E2600-15") using Tier 1 Screening procedures. In addition, based on the inferred or known groundwater gradient as specified within this Report, Partner

adopted and implemented a reduced/adjusted default area of concern ("critical distance") as calculated, suggested and published by Buonicore, A. J., *A Smaller Intrusion*, Pollution Engineering, p26-31, May, 2009. Limiting conditions, ASTM deviations, and significant gaps, if any, are discussed in Sections 1.0.

4.3.1 On-Site Sources for a Vapor Encroachment Condition

Based on a review of previous reports, agency records, and current site observations, on-site sources with the potential to create a subsurface vapor encroachment concern to the subject property and its receptors were not identified. As such, a subsurface vapor encroachment condition on the subject property relative to an on-site contaminant source does not exist.

4.3.2 Off-Site Sources for a Vapor Encroachment Condition

Based on Partner's review of the Radius Report, no off-site properties with the potential to create a subsurface vapor encroachment concern to the subject property and its receptors were identified. No off-site properties with a documented open release of petroleum hydrocarbons were identified within the critical distance - 30 feet up-gradient, cross-gradient, or down-gradient of the subject property in the Radius Report. No off-site properties with a documented release of other contaminants of concern such as chlorinated volatile organic hydrocarbons were identified within the critical distance - 100 feet up-gradient, cross-gradient, or down-gradient of the subject property in the Radius Report.

Based on the physical setting of the subject property and the findings from historical and regulatory records review, an off-site source for a subsurface vapor encroachment condition was not identified in association with the subject property. As such, a subsurface vapor encroachment condition on the subject property relative to off-site contaminant source does not exist.

Partner conducted a limited non-intrusive vapor screening on the subject property to identify, to the extent feasible, the potential for vapor encroachment conditions (VECs) in connection with the subject property. This included consideration of chemicals of concern (COC) that may migrate as vapors into the subsurface of the subject property as a result of contaminated soil and groundwater on or near the property.

5.0 USER PROVIDED INFORMATION AND INTERVIEWS

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the *Brownfields Amendments*), the *User* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. The *User* should provide the following information to the *environmental professional*. Failure to provide this information could result in a determination that *all appropriate inquiries* is not complete. The *User* is asked to provide information or knowledge of the following:

- Review Title and Judicial Records for Environmental Liens and AULs
- Specialized Knowledge or Experience of the User
- Actual Knowledge of the User
- Reason for Significantly Lower Purchase Price
- Commonly Known or *Reasonably Ascertainable* information
- Degree of Obviousness
- Reason for Preparation of this Phase I ESA

Fulfillment of these user responsibilities is key to qualification for the identified defenses to CERCLA liability. Partner requested our Client to provide information to satisfy User Responsibilities as identified in Section 6 of the ASTM guidance.

5.1 Interviews

5.1.1 Interview with Owner

Available subject property owners and tenants were interviewed at the time of the assessment. Current property owners are listed in the table provided in Section 2.2. Partner requested property owners complete site questionnaires for their properties. Completed questionnaires are provided in Appendix B.

5.1.2 Interview with Report User

Please refer to Section 5.2 below for information requested from the Report User.

5.1.3 Interview with Key Site Manager

See Section 5.1.

5.1.4 Interviews with Past Owners, Operators and Occupants

Interviews with past owners, operators and occupants were not conducted since information regarding the potential for contamination at the subject property was obtained from other sources.

5.2 User Provided Information

5.2.1 Title Records, Environmental Liens, and AULs

Partner was provided by Lake Creek Industrial with a Commitment for Title Insurance Reports issued by First American Title Insurance Company and Fidelity National Title Company for the subject property

parcels. No apparent environmental liens or AULs were identified for the subject property based on the review of the Commitment for Title Insurance Reports.

Copies of the reports are included in Appendix B.

5.2.2 Specialized Knowledge

No specialized knowledge of environmental conditions associated with the subject property was provided by the User at the time of the assessment.

5.2.3 Actual Knowledge of the User

No actual knowledge of any environmental lien or AULs encumbering the subject property or in connection with the subject property was provided by the User at the time of the assessment.

5.2.4 Valuation Reduction for Environmental Issues

No knowledge of valuation reductions associated with the subject property was provided by the User at the time of the assessment.

5.2.5 Commonly Known or Reasonably Ascertainable Information

The User did not provide information that is commonly known or *reasonably ascertainable* within the local community about the subject property at the time of the assessment.

5.2.6 Previous Reports and Other Provided Documentation

No previous ESA reports was provided to Partner for review during the course of this assessment. Other pertinent documentation is discussed in Section 4.0.

6.0 SITE RECONNAISSANCE

The weather at the time of the site visit was sunny and clear. Refer to Section 1.5 for limitations encountered during the field reconnaissance and Sections 2.1 and 2.2 for subject property operations. The table below provides the site assessment details:

Site Assessment Data

Site Assessment Performed By: Heather Hodgetts and Ramiro Vejar
Site Assessment Conducted On: July 12 and November 19, 2021, January 28, 2022

The table below provides the subject property personnel interviewed during the field reconnaissance:

Site Personnel for the Subject Property

Name	Title/Role	Contact Number	Site Walk* Yes/No
Mr. Kristian Corona	Manager with E.J. Meyer Co.	(909) 425-4025	Yes
Mr. Bill Morgan	CTS Contracting Inc.	(951) 233-6961	Yes

* Accompanied Partner during the field reconnaissance activities and/or provided information pertaining to the current operations and maintenance of the subject property

Environmental concerns were identified during the onsite reconnaissance related to the storage, use, and generation of hazardous substances Properties 4 and 7; the presence of the former fuel dispenser island/canopy at Property 2 (E.J. Meyer – 26999 5th Street); the two existing in-ground, single post hydraulic lifts and hazardous waste storage area at Property 11 (S&S Inland Star – 26967 5th Street), as further discussed in Sections 6.1 and 6.2.

6.1 General Site Characteristics

6.1.1 Solid Waste Disposal

Solid waste generated at the subject property is disposed of in dumpsters or trash containers on each property. Independent solid waste disposal contractor removes solid waste from the subject property. No staining or other indication of environmental concern was observed in the areas of the onsite solid waste containers. No evidence of illegal dumping of solid waste was observed during the Partner site reconnaissance.

6.1.2 Sewage Discharge and Disposal

The municipal sanitary sewer system operated by the City of Highland services the subject property vicinity. No wastewater treatment facilities are located on the subject property.

6.1.3 Surface Water Drainage

Storm water is removed from the subject property primarily by percolation to unpaved ground surfaces on the subject property and by sheet flow action across the paved surfaces towards storm water drains located in the public right of way.

The subject property does not appear to be a designated wetland area, based on information obtained from the United States Fish & Wildlife Service; however, a comprehensive wetlands survey would be required in order to formally determine actual wetlands on the subject property.

No surface impoundments, wetlands, natural catch basins, settling ponds, or lagoons are located on the subject property. No drywells were identified on the subject property.

6.1.4 Source of Heating and Cooling

Electricity and natural gas are provided to the vicinity by Southern California Edison (SCE) and the Southern California Gas Company.

6.1.5 Wells and Cisterns

At least one former water well (Property 7) was identified at the subject property. Other water wells may be located at the subject property. If encountered, the water wells should be abandoned and removed under local requirements.

No aboveground evidence of cisterns was observed during the site reconnaissance.

6.1.6 Wastewater

Domestic wastewater is not generated at the subject property.

6.1.7 Septic Systems

At least four septic systems serving residences (Properties 7 and 9) were identified at the subject property. Other septic tanks may be associated with former residences/farming structures may be present onsite. Based on residential use suspected septic systems do not represent an environmental concern. If encountered, septic systems should be abandoned and removed under local requirements.

6.1.8 Additional Site Observations

No other additional general site characteristics were observed during the site reconnaissance.

6.2 Potential Environmental Hazards

6.2.1 Hazardous Substances and Petroleum Products Used or Stored at the Site

Partner identified hazardous substances used, stored, and/or generated on the subject property as noted in the following table:

Hazardous Substances and/or Petroleum Products Noted Onsite				
Substance	Container Size	Location	Nature of Use	Disposal Method
General Retail Cleaning Supplies and Building Maintenance Products	Various retail sized containers	Throughout the subject property.	General Cleaning and Routine Maintenance	Used until exhausted

Hazardous Substances and/or Petroleum Products Noted Onsite

Substance	Container Size	Location	Nature of Use	Disposal Method
New Motor Oil, Antifreeze, Lubricating Oil, other vehicle maintenance products	55-gallon drums	Property 2 (E.J. Meyer) – maintenance shop/ garage building. Property 4 (Weka Inc.) - maintenance shop tent on the 3 rd Street site.	Vehicle/equipment maintenance	Used until exhausted
Waste Oil	One 275-gallon plastic tote	Property 8 (Ray'z Tires) - Adjacent to the southwest side of building.	Vehicle maintenance	Removed by offsite contactor
Waste Oil	550-gallon waste oil aboveground storage tank (AST)	Property 2 (E.J. Meyer) - Adjacent to the south side of the maintenance shop/garage building (northeast corner of the property).	Vehicle/equipment maintenance	Removed by All Valley Environmental
Waste oil filters, waste antifreeze, and other vehicle maintenance wastes	5-gallon containers to 55-gallon drums	Property 2 (E.J. Meyer) - Adjacent to the south side of the maintenance shop/garage building (northeast corner of the property).	Vehicle/equipment maintenance	Removed by All Valley Environmental
Motor oil, synthetic oil, lubricating oil, antifreeze, 30-gallon parts washer, greases, and compressed gases	One 75-gallon AST, one 50-gallon AST, 5-gallon containers to 55-gallon drums	Property 11 (S&S Inland Star), Interior of Service Building (3 service bays)	Vehicle repair/maintenance	Used until exhausted
Waste oil, oil filters, waste antifreeze, and other vehicle maintenance wastes	Two 110-gallon used oil ASTs, 55-gallon drums	Property 11 (S&S Inland Star), Hazardous Waste Storage Area, adjacent to the south side of the building.	Vehicle repair/maintenance	Removed by All Asbury Environmental Services
Gasoline	5-gallon plastic containers	Property 12 (Elite Landscaping), shop area	Fuel for landscape equipment	Used until exhausted
Gasoline	250-gallon AST	Property 13 (American Rentals), storage yard	Fuel for equipment and tool rentals	Used until exhausted
Red Diesel	500-gallon AST	Property 13 (American Rentals), storage yard	Fuel for equipment and tool rentals	Used until exhausted

Hazardous Substances and/or Petroleum Products Noted Onsite

Substance	Container Size	Location	Nature of Use	Disposal Method
Propane	499-gallon AST	Property 13 (American Rentals), property entrance	Fuel for equipment and tool rentals	Used until exhausted
Waste oil, oil filters	5-gallon plastic containers, and 2 55-gallon drums	Property 13 (American Rentals), east of maintenance building	Rental equipment and tool maintenance	Removed by All Valley Environmental
Diesel Exhaust Fluid (DEF)	5x 55-gallon drums	Property 13 (American Rentals), storage yard	For equipment and trucks	Used until exhausted

At the time of the site visit, Partner observed hazardous materials including retail cleaning products, general maintenance supplies, new motor oil, antifreeze, lubricating oil, and other vehicle maintenance products on Properties 2, 4, 8, 11, 12, and 13. Hazardous wastes including waste oil, waste oil filters, waste antifreeze, and other vehicle maintenance wastes are generated at Properties 2, 4, 8, 11, and 13. Housekeeping practices at Properties 2, 4, and 11 could be improved with secondary containment. Oil stained concrete was observed on the current/former vehicle maintenance areas at Properties 2, 4, 7, 8, and 11. Oil stained concrete was observed in the interior of the vacant, former vehicle maintenance building (27114 3rd Street) located on the southeast corner of Property 7. Oil stained asphalt was observed in the used oil and oil filter storage area at Property 13. The oil staining is considered de minimis. Significant oil staining/spill was observed on the paved surface in the hazardous waste storage area at Property 11 (26967 5th Street).

6.2.2 Aboveground & Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)

ASTs were observed in the following areas:

- One 550-gallon waste oil AST is located in the hazardous waste storage area at Property 2 (26999 5th Street). Waste oil is generated at E.J. Meyer Company during vehicle/equipment maintenance conducted in the maintenance shop/garage located on the northeast corner of the property. Minor oil staining was observed adjacent to the AST. Based on the lack of reported releases, this tank is not considered a significant environmental concern.
- One 75-gallon AST motor oil and one 50-gallon synthetic oil are located in the central service bay and two 110-gallon ASTs containing used oil are located adjacent to the south side of the service building in hazardous waste storage area at Property 11 (26967 5th Street). Significant oil staining/spill was observed in the hazardous waste storage area at Property 11 (26967 5th Street).
- One 499-gallon propane AST, one 250-gallon gasoline AST, and one 500-gallon red diesel fuel AST were located at Property 13 (27111 5th Street). These ASTs are used to fuel rental equipment and tools. No staining was observed near the ASTs.

No evidence of current USTs such as fill ports, piping, or vent pipes was observed or reported onsite. Former USTs were reported on Properties 2 and 13:

- Partner observed the remains of a dispenser island/canopy on Property 2 (26999 5th Street). As discussed in Section 4.1.1, six former USTs were located on Property 2 on the northwestern portion of the subject property and were removed in 1997. The former fuel dispenser island/canopy are still present onsite adjacent to the east of the former USTs at Property 2.
- As discussed in Section 4.1.1, three former USTs were identified on Property 13 on the central and northeastern portions of the subject property and were removed in 1997.

6.2.3 Evidence of Releases

Oil stained concrete considered to be a de minimis condition was observed on the current/former vehicle maintenance areas at Properties 2, 4, 7, and 8. Oil stained concrete was observed in the interior of the vacant, former vehicle maintenance building (27114 3rd Street) located on the southeast corner of Property 7. Oil stained asphalt was observed in the used oil and oil filter storage area at Property 13

Significant oil staining/spill was observed in the hazardous waste storage area at Property 11 (26967 5th Street). In addition, as discussed in 6.2.4, site personnel at S&S Inland Star (Property 11) indicated that the southern hydraulic lift had been leaking for years.

No other spills, stains or other indications that a surficial release has occurred at the subject property were observed or reported.

Two single post hydraulic lifts were observed in the service building at S&S Inland Star (Property 11-26967 5th Street). S&S Inland Star has been onsite for 5 years and the lifts were installed by a prior tenant. Site personnel at S&S Inland Star (Property 11) indicated that the southern hydraulic lift had been leaking for years. No maintenance records were available for review.

6.2.4 Polychlorinated Biphenyls (PCBs)

Electrical Transformers

Older transformers and other electrical equipment could contain PCBs at a level that subjects them to regulation by the U.S. EPA. PCBs in electrical equipment are controlled by United States Environmental Protection Agency regulations 40 CFR, Part 761. Under the regulations, there are three categories into which electrical equipment can be classified: 1) Less than 50 parts per million (ppm) of PCBs – “Non-PCB;” 2) 50 ppm-500 ppm – “PCB-Contaminated;” and, 3) Greater than 500 ppm – “PCB-Containing.” The manufacture, process, or distribution in commerce or use of any PCB in any manner other than in a totally enclosed manner was prohibited after July 2, 1979.

The on-site reconnaissance addressed indoor and outdoor transformers that may contain PCBs. Several pole- and -pad mounted transformers were observed on the subject property. The transformers are not labeled indicating PCB content. No staining or leakage was observed in the vicinity of the transformers. SCE maintains responsibility for maintenance and clean-up of leaks or spills associated with the transformer. Based on the good condition of the equipment, the transformer is not expected to represent a significant environmental concern.

Hydraulic Lifts

As discussed in Section 6.2.3, two single post hydraulic lifts were observed in the service building at S&S Inland Star (Property 11- 26967 5th Street

Other Miscellaneous Equipment

No other potential PCB-containing equipment (interior transformers, oil-filled switches, hoists, dock levelers, hydraulic elevators, balers, etc.) was observed on the subject property during Partner's reconnaissance.

6.2.5 Strong, Pungent or Noxious Odors

No strong, pungent or noxious odors were evident during the site reconnaissance.

6.2.6 Pools of Liquid

No pools of liquid were observed on the subject property during the site reconnaissance.

6.2.7 Drains, Sumps and Clarifiers

A potential concrete sump was observed adjacent to the north of the former vehicle maintenance building (27114 3rd Street) located on the southeast corner of Property 7. The potential sump should be abandoned and removed under local requirements.

An equipment wash down area was observed at the south parcel of American Rentals (27111 5th Street). The cutout concrete is covered by a steel grate and reportedly only received wash down water and mud from equipment which has been recently rented and returned. American Rentals is further equipped with a six-inch PVC pipe near the maintenance building. The six-inch pipe reportedly receives stormwater which is then flushed to a dirt pit. The dirt pit was opened and observed as mud-filled at the time of assessment.

No other drains, sumps, or clarifiers were observed on the subject property during the site reconnaissance.

6.2.8 Pits, Ponds and Lagoons

No pits, ponds or lagoons were observed on the subject property.

6.2.9 Stressed Vegetation

No stressed vegetation was observed on the subject property.

6.2.10 Additional Potential Environmental Hazards

No additional environmental hazards, including landfill activities or radiological hazards, were observed.

6.3 Non-ASTM Services

6.3.1 Asbestos-Containing Materials (ACMs)

Asbestos is the name given to a number of naturally occurring, fibrous silicate minerals mined for their useful properties such as thermal insulation, chemical and thermal stability, and high tensile strength. The

Occupational Safety and Health Administration (OSHA) regulation 29 CFR 1926.1101 requires certain construction materials to be *presumed* to contain asbestos, for purposes of this regulation. Construction materials including, but not limited to, thermal system insulation (TSI), surfacing material, and asphalt/vinyl flooring that are present in a building and that have not been appropriately tested may be considered “presumed asbestos-containing material” (PACM).

There is a potential for asbestos-containing materials (ACMs) to be present in onsite buildings constructed prior to 1980. According to the US EPA, ACM and PACM that is intact and in good condition can, in general, be managed safely in-place under an Operations and Maintenance (O&M) Program until removal is dictated by renovation, demolition, or deteriorating material condition. Prior to any disturbance of the construction materials within this facility, a comprehensive ACM survey is recommended.

6.3.2 Lead-Based Paint (LBP)

Lead is a highly toxic metal that affects virtually every system of the body. LBP is defined as any paint, varnish, stain, or other applied coating that has 1 mg/cm² (or 5,000 ug/g or 0.5% by weight) or more of lead.

There is a potential for LBP to be present in onsite buildings constructed prior to 1978. Interior and exterior painted surfaces were observed in good to fair condition and therefore not expected to represent a “hazard,” although the condition of the paint should be monitored and maintained to ensure that it does not become deteriorated.

6.3.3 Radon

Radon is a colorless, odorless, naturally occurring, radioactive, inert, gaseous element formed by radioactive decay of radium (Ra) atoms. The US EPA has prepared a map to assist National, State, and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three Radon Zones, according to the table below:

EPA Radon Zones		
EPA Zones	Average Predicted Radon Levels	Potential
Zone 1	Exceed 4.0 pCi/L	Highest
Zone 2	Between 2.0 and 4.0 pCi/L	Moderate
Zone 3	Less than 2.0 pCi/L	Low

It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the US EPA recommends site-specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures.

Radon sampling was not conducted as part of this assessment. Review of the US EPA Map of Radon Zones places the subject property in Zone 2. Based upon the radon zone classification and proposed commercial use, radon is not considered to be a significant environmental concern.

6.3.4 Lead in Drinking Water

According to available information, a public water system operated by the East Valley Water District (EVWD) serves the subject property vicinity. According to EVWD, the sources of public water for the City Highland are the Santa Ana River, the Bunker Hill Groundwater Basin, and the State Water Project. According to the EMWD 2020 Water Quality Report, water supplied to the subject property is in compliance with all State and Federal regulations pertaining to drinking water standards, including lead and copper. Water sampling was not conducted to verify water quality.

6.3.5 Mold

Molds are microscopic organisms found virtually everywhere, indoors and outdoors. Mold will grow and multiply under the right conditions, needing only sufficient moisture (e.g. in the form of very high humidity, condensation, or water from a leaking pipe, etc.) and organic material (e.g., ceiling tile, drywall, paper, or natural fiber carpet padding).

Some areas of water damage were observed or reported during Partner's visual assessment. The buildings will be demolished and mold is not considered a concern at this time.

6.3.6 Wetlands

The subject property does not appear to be a designated wetland area, based on information obtained from the United States Fish & Wildlife Service; however, a comprehensive wetlands survey would be required in order to formally determine actual wetlands on the subject property. No surface impoundments, wetlands, natural catch basins, settling ponds, or lagoons are located on the subject property.

6.4 Adjacent Property Reconnaissance

The adjacent property reconnaissance consisted of observing the adjacent properties from the subject property premises. No items of environmental concern were identified on the adjacent properties during the site assessment, including hazardous substances, petroleum products, ASTs, USTs, evidence of releases, PCBs, strong or noxious odors, pools of liquids, sumps or clarifiers, pits or lagoons, stressed vegetation, or any other potential environmental hazards.

7.0 FINDINGS AND CONCLUSIONS

Findings and Opinions

Recognized Environmental Condition

A REC refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. The following was identified during the course of this assessment:

- Two single post hydraulic lifts were observed in the service building at S&S Inland Star (Property 11- 26967 5th Street). Onsite personnel indicated that the southern hydraulic lift had been leaking for years. Based on the reported leak, the hydraulic lifts are considered to be a REC.

Controlled Recognized Environmental Condition

A CREC refers to a REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations). The following was identified during the course of this assessment:

- Partner did not identify any CRECs during the course of this assessment.

Historical Recognized Environmental Condition

A HREC refers to a previous release of hazardous substances or petroleum products affecting the that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations). The following was identified during the course of this assessment:

- Six USTs were formerly located on the northeast corner of the subject property on Property 2 (26999 5th Street) between the office and shop buildings near 5th Street. The USTs were removed from the subject property in 1997 under the oversight of the SBCFD. SBCFD records issued a closure letter on December 19, 1997. A copy of the closure letter was included the SBCFD files. Based on the removal of the USTs and regulatory case closure, the former USTs are considered an HREC. It was noted that soil samples were not collected under the fuel dispensers due to the possibility of undermining the dispenser island and canopy which were not removed and that samples under the fuel dispensers would be collected at a later time. Partner observed the remains of the dispenser island/canopy and it appears likely the UST piping are still onsite. Onsite personnel were unaware of any additional sampling conduct in the area of the fuel dispenser island. A 1988 figure depicts the UST piping between the USTs, fuel dispensers and adjacent garage/maintenance shop. Partner recommends confirmation soil sampling upon removal of the canopy, fuel dispenser island and associated piping.

- Three USTs were formerly located on the northeast and central portions of the subject property on Property 13 (27111 East 5th Street) to the east and south of the building. The USTs were removed from the subject property in 1997 under the oversight of the SBCFD. SBCFD records issued a closure letter on June 27, 1997. A copy of the closure letter was included in the SBCFD files. Based on the removal of the USTs and regulatory case closure, the former USTs are considered an HREC. Sampling or removal of UST piping was not mentioned in SBCFD notes. If UST piping is encountered in the future, Partner recommends proper removal and confirmation of UST piping.

A *BER* is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice. The following was identified during the course of this assessment:

- Significant oil staining/spill was observed on the paved surface in the hazardous waste storage area at Property 11 (26967 5th Street). If oil stained soils are encountered in the areas of former vehicle maintenance areas, soils should be disposed of properly.
- A potential concrete sump was observed adjacent to the north of the former vehicle maintenance building (27114 3rd Street) located on the southeast corner of Property 7. The potential sump should be abandoned and removed under local requirements.
- Due to the age of some of the subject property buildings, there is a potential that ACM and/or LBP are present. The suspect ACMs would need to be sampled to confirm the presence or absence of asbestos prior to any renovation or demolition activities to prevent potential exposure to workers and/or building occupants.
- At least four septic systems serving residences (Properties 7 and 9) were identified at the subject property. Other septic tanks may be associated with former residences/farming structures may be present onsite. Based on residential use suspected septic systems do not represent an environmental concern. If encountered, septic systems should be abandoned and removed under local requirements.
- At least one former water well (Property 7) was identified at the subject property. Other water wells may be located at the subject property. If encountered, the water wells should be abandoned and removed under local requirements.

Significant Data Gaps

A significant data gap affects the ability of the Environmental Professional to identify a REC. Partner did not identify significant data gaps that affected our ability to identify RECs.

Conclusions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 and E1527-21 of the property located to the southeast of the intersection of 5th Street and Central Avenue, Highland, San Bernardino County, California (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed evidence of RECs, HRECs and/or BERs in connection with the subject property. Based on the conclusions of this assessment, Partner recommends the following:

- Partner suggests that when redeveloped, sampling of soil in the vicinity of the lifts at Property 11 and beneath the fuel dispenser at Property 2 be considered.

8.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Partner has performed a Phase I Environmental Site Assessment of the property located to the southeast of the intersection of 5th Street and Central Avenue, Highland, San Bernardino County, California in conformance with the scope and limitations of the protocol and the limitations stated earlier

in conformance with the scope and limitations of the protocol and the limitations stated earlier in this report. Exceptions to or deletions from this protocol are discussed earlier in this report.

By signing below, Partner declares that, to the best of our professional knowledge and belief, we meet the definition of *Environmental Professional* as defined in §312.10 of 40 CFR §312. Partner has the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject *property*. Partner has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

104. 104. Property 11 from the southeast corner of the parcel, view facing north.

1.View of the subject property at 27111 5th Street (Property 13) from the northeast.

2.View of the main office building on the north.

3.View of the office/storage building to the south of the main office building, behind the lifts.

4.View of the shop/maintenance building.

5.View of the propane tank on the north of the property.

6.View of the diesel and gasoline ASTs on the south parcel.

7.View of the trenched mud-pit where rental equipment is hosed off.

8.View of the trenched mud-pit where rental equipment is hosed off.

9.View of the canopied area between the office buildings and a stormwater drain.

10.View of the stormwater drain collection area.

11.View of the stormwater drain collection area full of mud.

12.View of rental equipment inside the southern building.

13. View of damaged and chipped floor tiles in the southern building.

14. View of the office in the southern building.

15. View of stored DEF near the southern building exterior.

16. View of stored equipment underneath the canopied area between the buildings.

17. View of the used oil and oil filter storage area.

18. View of the *de minimis* staining on the asphalt.

19.View of stored 55-gallon drums with used oil.

20.View of stored new oil and coolant.

21.View of the storage yard looking southwest.

22.View of the storage yard looking north.

23.View of stored tools and ladders on the west of the property.

24.View of stored propane for sales/exchange on the north of the property.

25. View of the adjacent residential properties to the north.

26. View of the adjacent property to the west.

27. View of the adjacent property to the east.

1.View of the subject property, 27107 5th Street (Property 13) from the north.

2.View of the subject property building from the northwest.

3.View of the subject property building from the south.

4.View of the subject property from the southeast.

5.View of a foundation, former dwelling pad, with private storage under a canopy.

6.View of the warehouse interior with private storage.

7.View of the warehouse interior with private storage (tools).

8.View of the warehouse interior with private storage (tools).

9.View of the office.

10.View of the restroom.

11.View of water damage on the acoustic sprayed ceiling.

12.View of water damaged drywall cutout from the ceiling.

13. View of stored ducting materials on the south-east.

14. View of a personal generator not in use.

15. View of the adjacent property to the west.

16. View of the adjacent (vacant) residential to the south.

17. View of the adjacent residential properties to the north.

18. View of the adjacent property to the east.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

RE: CITY DIRECTORY RESEARCH
Central Avenue Highland
27107 & 27111 West 5th Street HIGHLAND, CA

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:

26811-27250 of W 5th ST
3277-3505 of E 3rd St
8046-8058 of Central Ave
26854-27202 of 3rd St

HAZ MAT INCIDENT RESPONSE ACTIVITY: (other records of spill notifications and/or complaints not listed below may also exist in facility permit files).

No record of hazmat incident response activity identified in this search.

SITE REMEDIATION: (Underground Storage Tank Clean-Up under Local Oversight Program or Voluntary Hazardous Waste Clean-Up activity under Local Jurisdiction) (documents may be included in regular active or inactive permit files listed above).

No records of site remediation identified in this search.

Records searched include permit database systems for facilities with permits as hazardous waste generators, hazardous materials handlers, and/or underground storage tanks, including inactive and/or out of business records; logs of permits issued for the removal and/or installation of underground storage tanks; records and databases pertaining to illicit dumping and releases; records of non-permitted facilities; sites undergoing remediation for contaminated soil and/or groundwater; and incidents responded to by the hazardous materials emergency response team. Records date back to mid- 1980's.

Records consist of 13 files, approximately 5" thick, combined. If you wish to view the original documents, please e-mail this office at hazmatrecords@sbcfire.org to arrange an appointment.

Respectfully,

Donna Juday

REDLANDS, CA 92373

**SUBJECT: REMOVAL OF SIX UNDERGROUND STORAGE TANKS AT
26999 5TH STREET, HIGHLAND**

The Department has reviewed the report dated September 26, 1997, submitted by Bradley Environmental for the facility at the subject address. The results indicate that contamination remaining in the excavation is below that which is generally considered a problem and further investigation is not warranted at this time.

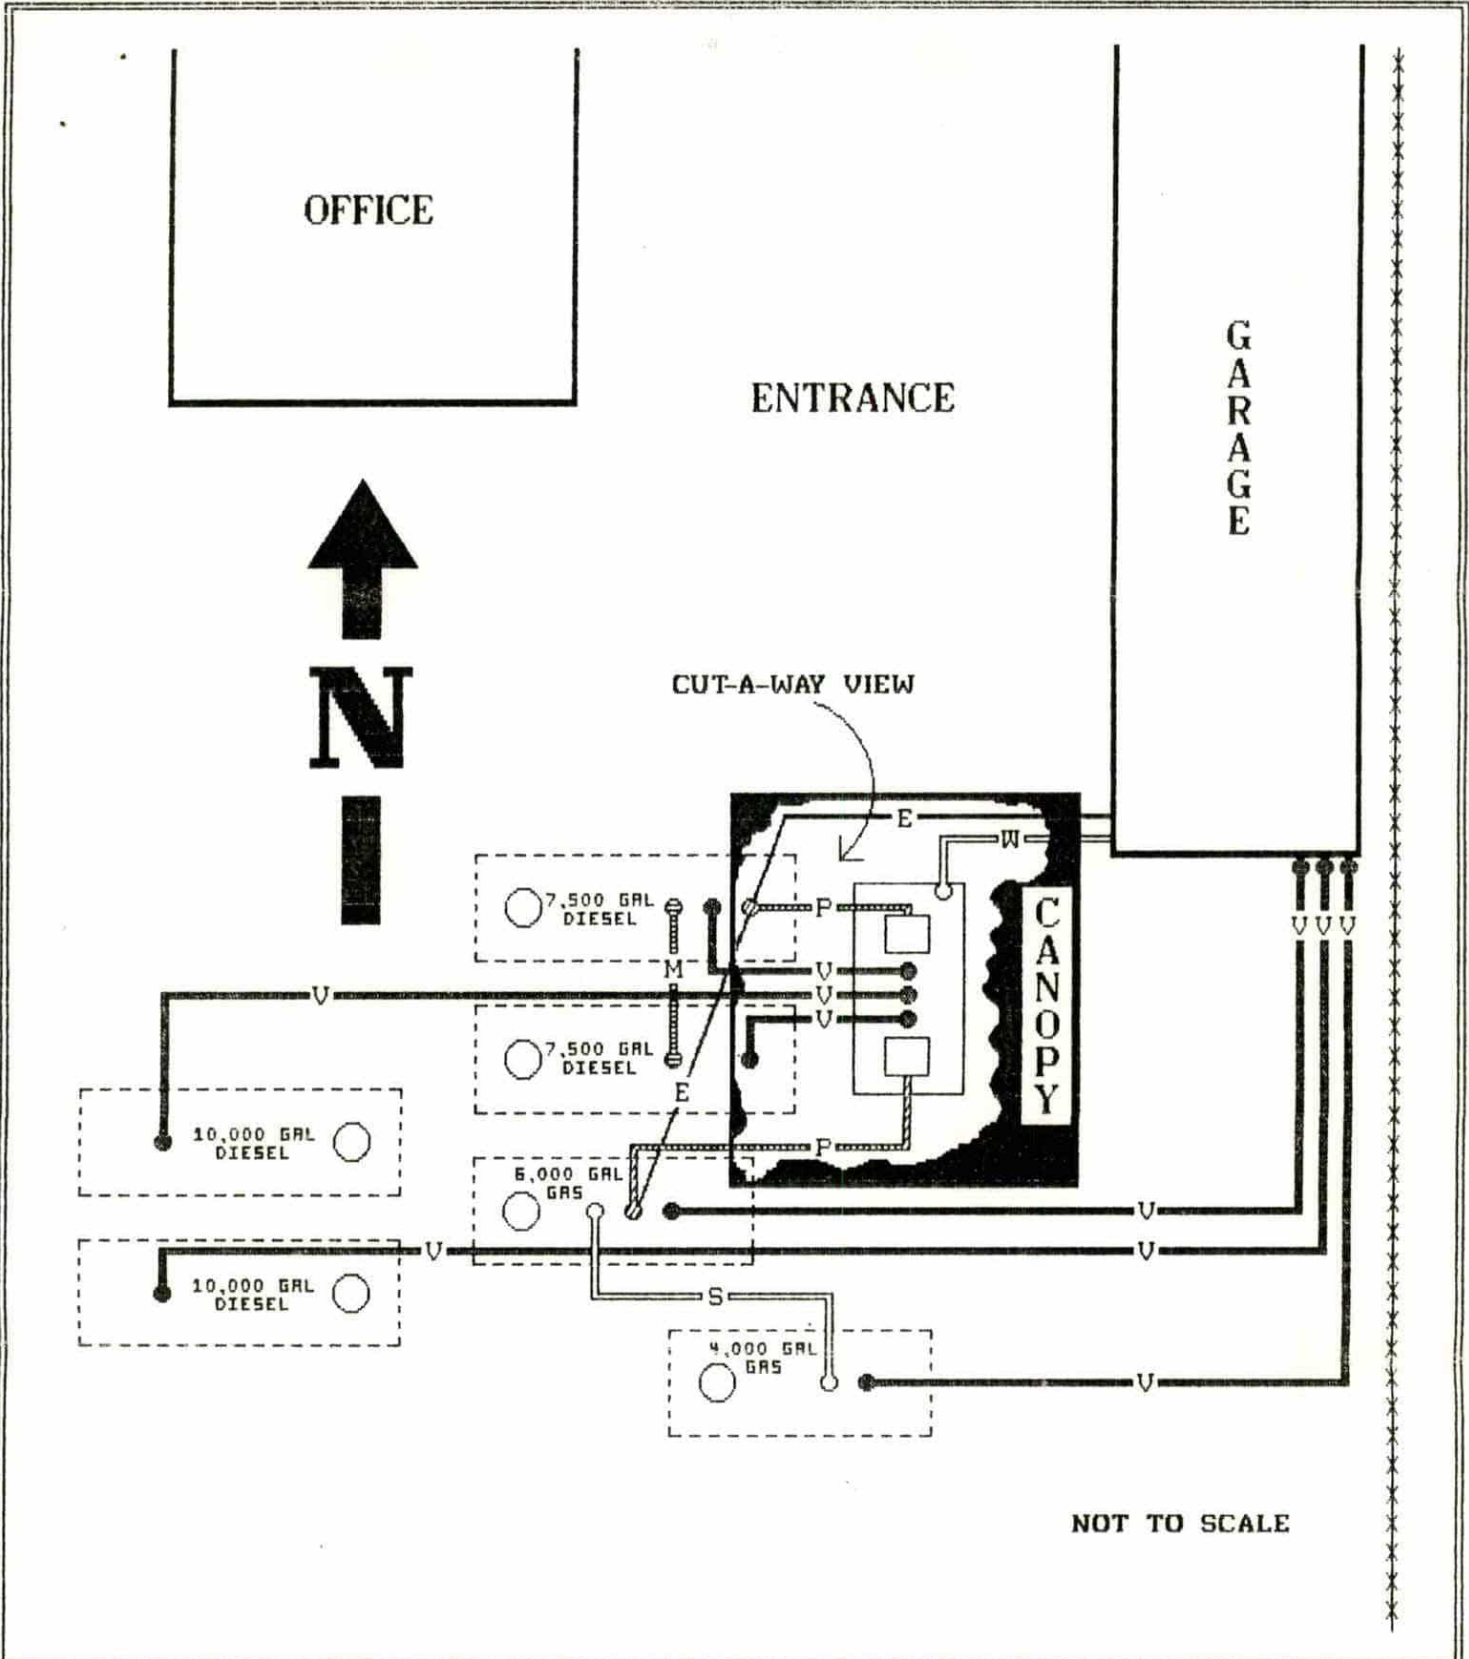

It is important to note that this does not constitute a release of liability for contamination remaining on site or contamination not detected. Should site conditions change, the Department may require further investigation and remedial action.

If you have any questions, please call (909) 387-3082.

Violations and Compliance Information		
H201	Failure to obtain/maintain a current CUPA Hazardous Materials Handler permit.	Comply by paying all permit fees upon receipt of invoice.
H202	Failure to adequately establish and implement a Business Plan when storing/handling a hazardous material at or above reportable quantities.	Comply by establishing and implementing the Business Plan.
H203	Failure to complete and electronically submit initially, annually or triennially a Business Plan when storing/handling a hazardous material at or above reportable quantities.	Comply by submitting an accurate and complete Business Plan via the California Environmental Reporting System (CERS).
H206	Failure to annually review and electronically certify that the Business Plan is complete and accurate on or before the due date.	Comply by reviewing and certifying the Business Plan annually via CERS.
H209	Failure to electronically update Business Plan within 30 days of: a 100% or more increase in a reported quantity, any handling of a previously undisclosed, reportable hazardous materials, a change of business address, business ownership, or business name, a substantial change in the handler's operations that requires modification of the business plan.	Comply by submitting the updated Business Plan information via CERS.
H210	Failure to electronically submit complete and accurate information on the Business Activities Page and/or Business Owner/Operator Identification Page.	Comply by submitting the Business Activities Page and/or Business Owner/Operator Identification Page via CERS.
H211	Failure to electronically submit complete and accurate hazardous materials inventory information for all reportable hazardous materials on site at or above reportable quantities.	Comply by submitting an accurate and complete hazardous materials inventory via CERS.
H212	Failure to electronically submit a site map with all required content.	Comply by submitting an accurate and complete site map via CERS.
H213	Failure to establish and electronically submit an adequate emergency response plan and procedures for a release or threatened release of a hazardous material.	Comply by submitting a complete emergency response plan via CERS.
H214	Failure to establish and electronically submit an adequate training program and safety procedures in the event of a release or threatened release of a hazardous material.	Comply by submitting a complete training program via CERS.
H215	Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material and/or failure to document and maintain training records for a minimum of three years.	Comply by submitting a signed statement indicating that initial and annual training is conducted and training records are maintained for at least three years.
W101	Failure to obtain and maintain a CUPA Hazardous Waste generator permit.	Comply by paying all applicable permit fees upon receipt of invoice and submitting all necessary information.
W103	Failure to make hazardous waste determination.	Comply by submitting a signed statement indicating the waste is non-hazardous based upon generator knowledge, laboratory analysis documentation, or manage the waste as hazardous waste and submit disposal records.
W104	Failure to obtain an EPA ID Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.	Comply by submitting form 1358 to DTSC.
W110	Failure to properly label hazardous waste containers with: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and accumulation start date.	Comply by labeling containers properly and submitting the signed Certificate of Compliance (CoC).
W122	Failure to properly manage reusable soiled textile materials prior to being sent for laundering.	Comply by properly managing reusable textile materials and submitting the signed CoC.
W128	Failure to keep disposal records for three years.	Comply by retaining hazardous waste disposal records and submitting the signed CoC.
W137	Failure to comply with consolidated manifesting procedures and retain records for three years.	Comply by following the consolidated manifesting requirements and submitting the signed CoC.
W138	Failure to properly manage used oil/fuel filters.	Comply by proper management of used oil/fuel filters, and by submitting the signed CoC.
W139	Failure to retain for at least 3 years a legible copy of each manifest or bill of lading which identifies spent lead-acid storage batteries shipped to a person who stores the batteries or who uses, reuses, recycles or reclaims the batteries or their components.	Comply by retaining records for 3 years and by submitting the signed CoC.
W145	Failure to dispose of hazardous waste at an authorized facility.	Comply by submitting a signed statement indicating that hazardous waste will be disposed of through a licensed facility.
W159	Failure to provide names, addresses and phone numbers of the business and owner; name and 24-hr phone number of the emergency contact; site address where hazardous waste is generated or produced, if different from the facility address; list of each type of hazardous waste generated; prepare a Contingency Plan.	Comply by meeting all stated requirements by submitting the information via CERS.
W206	Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any release of hazardous waste substances to air, soil, or surface water which could threaten human health or the environment.	Comply by ensuring the above requirements are met and by submitting the CoC.
W207	Failure to post the following information next to the telephone: name and telephone number of the emergency coordinator; location of fire extinguishers and spill control material, and, if present, fire alarm; and the telephonic number of the fire department, unless the facility has a direct alarm.	Comply by meeting the requirements stated above and by submitting the CoC.
W213	Failure to manage hazardous waste within 180 days (or as otherwise required).	Comply by disposing of hazardous waste within the accumulation time limit, by submitting records and the CoC.
W214	Failure to accumulate hazardous waste in a container that is in good condition.	Comply by using a container that is in good condition and by submitting the CoC.
W216	Failure to keep closed a hazardous waste container unless it is in use.	Comply by closing the containers and by submitting the CoC.
W218	Failure to manage hazardous waste within 180/270 days (or 90 days if acutely or extremely hazardous waste) for generators of less than 100 Kg per month.	Comply by managing the waste as required and by submitting disposal records and the CoC.
W231	Failure to train all employees on waste handling and emergency procedures.	Comply by training employees and by submitting the CoC.
W238	Failure to inspect hazardous waste storage areas at least weekly.	Comply by conducting weekly inspections and by submitting the CoC along with any other documentation requested by the inspector.

CERTIFICATE OF COMPLIANCE

Return Certification within 30 Days of Receipt to Inspector KARL WENDT

RESPONDENT: Richard Hamneck

VIOLATION(S) CITED ON: 1/3/2018

CERTIFICATE OF COMPLIANCE DATE: 1/3/2018

NAME: <u>E.J. MEYER COMPANY</u>	FACILITY ID: <u>FAB018224</u>
ADDRESS: <u>28889 E 6TH ST</u>	CERS ID: <u>10054540</u>
CITY: <u>HIGHLAND</u>	STATE: <u>GA</u> ZIP CODE: <u>30346</u>

Attach the following documentation when returning the Certificate of Compliance:

- 0138 Submit photos to the CUPA demonstrating that the used oil filters are being properly managed or submit a bill of lading to this department demonstrating proper disposal. Observed multiple 5 gallon open containers to contain drained used oil filters.

Compliance Requirement: Sign the Certificate of Compliance in attestation that all drained used oil filters stored on site have either been properly disposed of or containerized in a closed reinfoof container.

- H211 Submit an accurate and complete hazardous materials inventory into the California Environmental Reporting System (CERS). Observed (2) ~122 cubic foot cylinders of oxygen, and (2) ~100 cubic foot cylinders of acetylene that were not disclosed on the most recent hazardous materials business plan on 02/09/2017.

I certify under penalty of law that:

- Respondent has corrected violations specified in the above-entitled action.
- I have personally examined any documentation attached to this certification to establish that the violations have been corrected.
- Based on my examination of the attached documentation and inquiry of the individuals, who prepared or obtained them, I believe the information to be true, accurate and complete.
- I am authorized to file this certification on behalf of the Respondent.
- I am aware there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

CUPA COMPLIANCE INSPECTION REPORT

NAME: E.J. MEYER COMPANY		FACILITY ID: FA0912324	
ADDRESS: 26999 E 5TH ST		CERS ID: 10054540	
CITY: HIGHLAND	STATE: CA	ZIP CODE: 92346	INSPECTION DATE: 1/3/2018

Inspector was given permission to: photograph inspect

Inspection Narrative (v020000)

An inspection was conducted on 01/03/2018 to determine compliance with applicable hazardous materials and hazardous waste laws and regulations. Richard Hammack, Lead Mechanic, gave consent to inspection and photograph, and was the facility escort for the duration of inspection.

This facility is a pipeline construction company. The hazardous materials stored on site are utilized in the routine maintenance of the facility operated vehicles and equipment. Hazardous waste generated on site is a result of the routine maintenance of facility operated vehicles and equipment.

Inventory:

-Consistent with the hazardous materials inventory submitted via the California Environmental Reporting System on 02/09/2017, with the addition of the following (2) items:

- (2)-122 cubic foot cylinders of oxygen
- (2)-100 cubic foot cylinders of acetylene

Document Review:

-Applicable CUPA permits are current; expiration date of 05/31/2018

-This facility submitted a Hazardous Materials Business Plan via the California Environmental Reporting System (CERS) on 02/09/2017. This facility has an established CERS ID number: 10054540

-This facility has an established and active EPA ID number. EPA ID number is CAL000268671

-Hazardous waste disposal records were available for review at the time of inspection. Valley Environmental is the hazardous waste transporter utilized by this facility.

-Applicable hazardous materials and hazardous waste training is conducted.

-Weekly inspections of the hazardous waste storage area are conducted.

-Rags and Uniforms are laundered by Prudential Uniform

-Spent Lead Acid Batteries are received by Interstate Battery

Notes:

Submit the completed Certificate of Compliance (CofC) provided along with all requested documentation, to this Division within 30 days of receipt of this report.

Please contact Karl Wendt at (909) 386-8401 or by email at kwendt@sbcfire.org with any questions regarding this report.

If you have any questions regarding CERS, please call the CERS Help Line at (909) 386-8432.

The following lines marked in the V column are violations that must be corrected. Marked items in the N column require additional information to determine compliance.

520 South "E" Street, San Bernardino, CA 92415-2164 • (909) 388-8401 FAX (909) 388-9480 • www.sbctfirs.org

CERTIFICATE OF COMPLIANCE

Return Certification within **30** Days of Receipt to Inspector **KARL WENDT**

RESPONDENT: Richard Hammack

VIOLATION(S) CITED ON: 1/3/2018

CERTIFICATE OF COMPLIANCE DATE: 1/3/2018

NAME: E.J. MEYER COMPANY	FACILITY ID: FA0012324
ADDRESS: 26999 E 5TH ST	CERS ID: 10054540
CITY: HIGHLAND	STATE: CA ZIP CODE: 92346

Attach the following documentation when returning the Certificate of Compliance:

<p>0138 Submit photos to the CUPA demonstrating that the used oil filters are being properly managed or submit a bill of lading to this department demonstrating proper disposal. Observed multiple 5 gallon open containers to contain drained used oil filters.</p> <p>H211 Submit an accurate and complete hazardous materials inventory into the California Environmental Reporting System (CERS). Observed (2) -122 cubic foot cylinders of oxygen, and (2) -100 cubic foot cylinders of acetylene that were not disclosed on the most recent hazardous materials business plan on 02/09/2017.</p>	<p>Compliance Requirement: Sign the Certificate of Compliance in attestation that all drained used oil filters stored on site have either been properly disposed of or containerized in a closed rainproof container.</p>
---	---

I certify under penalty of law that:

- Respondent has corrected violations specified in the above-entitled action.
- I have personally examined any documentation attached to this certification to establish that the violations have been corrected.
- Based on my examination of the attached documentation and inquiry of the individuals, who prepared or obtained them, I believe the information to be true, accurate and complete.
- I am authorized to file this certification on behalf of the Respondent.
- I am aware there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

Inspection Narrative (v020000)

An inspection was conducted on 11/12/2014 to determine compliance with hazardous materials and hazardous waste laws and regulations. Consent to conduct the inspection was given by Sally Hammond, Office Manager.

- This facility is a storage yard for heavy machinery and specializes in constructing underground utilities lines such as water transmission lines.
- This is a small quantity generator
- Chemical Inventory consistent with CERS
- Permits are current and applicable for this facility
- Permits to expire 5/30/2015
- The EPA ID number is established and active
- All Valley Environmental hauls the Hazardous Waste (Used oil, waste coolant, used oil filters)
- Last manifest is dated 6/5/2014 for used oil
- Number of Employees: ~25
- Training provided
- No violations observed

If you have any questions, please contact me at ftaher@sbcfire.org or (909) 386-8401. "If you have any questions regarding CERS, please call the CERS Help Line at (909) 386-8432."

The following lines marked in the V column are violations that must be corrected. Marked items in the N column require additional information to determine compliance.

VIOLATION CODE	DESCRIPTION	SECTION	V	N
42	HMRRP (HAZARDOUS MATERIALS HANDLER)			
0201	Failure to obtain a CUPA Hazardous Materials Handler permit.	23.0602(a)		
0202	Failure to establish a Business Plan.	CAL HEALTH & SAFETY CODE 25507		
0203	Failure to submit a Business Plan.	CAL HEALTH & SAFETY CODE 25508		
0204	Failure to immediately report any release or threatened release of a hazardous material.	CAL HEALTH & SAFETY CODE 25510		
0205	Failure to allow a hazardous materials handler inspection.	CAL HEALTH & SAFETY CODE 25511		
0206	Failure to update the Business Plan	CAL HEALTH & SAFETY CODE 25508.2		
0209	Failure to submit an amendment to the inventory form within 30 days of change.	CAL HEALTH & SAFETY CODE 25508.1		
1231	Failure to submit a corrected Business Plan within 30 days after notification of deficiencies.	CAL HEALTH & SAFETY CODE 25508		
1232	Failure to submit a Business Plan revision within 30 days of a substantial change in operation.	CAL HEALTH & SAFETY CODE 25505(b)

Compliance Requirement: Submit fees within 30 days of billing.
- 104. EPA ID Number not obtained for waste generation. (CCR 66262.12(a)) EPA ID # ESTABLISHED AND ACTIVE.
Compliance Requirement: Obtain permanent EPA ID Number by submitting Form 1358 to DTSC. Submit your EPA ID Number to this Division.
- 106. Facility not operated to prevent a spill or release. (CCR 66265.31) WASTE CONTAINERS CLOSED AND SOUND.
Compliance Requirement: Facility must conduct housekeeping & operate to prevent all spills. Signature on certification below denotes compliance.
- 107. A Contingency Plan has not been established. (CCR 66265.51(a))
- 202. A Business Plan has not been established. (CHSC 25503.5)
- 203. A Business Plan has not been submitted / updated. (CHSC 25505)
Compliance Requirement: Submit the original and one copy of the Business Emergency/Contingency Plan to this Division. NOTE: You must keep a current copy of your Business Emergency/Contingency Plan onsite and available at all times.
- 131. Training documentation not complete or available. (CCR 66262.34(d)(2)) TRAINING DEMONSTRATED AT THE TIME OF THE INSPECTION.
Compliance Requirement: Submit training documentation as required.

INVENTORY: 3X55-GAL OF OIL. (1) 550-GAL AST OF USED OIL.
1X55-GAL OF WASTE COOLANT.
1X55-GAL OF WASTE DIESEL.
1X55-GAL OF GREASE.
2X55-GAL OF DRAINED USED OIL FILTERS.

Container Storage and Labeling Requirements:

- 110. Hazardous waste containers are not labeled/marked. (CCR 66262.34(f)(3)) WASTE COOLANT AND DIESEL DRUMS WERE MISSING LABELS
- 111. Hazardous waste label is incomplete. (CCR 66262.34(f)(3)) WASTE COOLANT AND DIESEL DRUMS WERE MISSING LABELS
- 112. Accumulation start date is missing from tank/container. (CCR 66262.34(f)(2)) WASTE COOLANT AND DIESEL DRUMS WERE MISSING Accumulation Start Date.
Compliance Requirement: Hazardous waste label is to be applied to the tank/container. All fields and lines are to be correctly completed.
- 113. Accumulation time exceeded. (CCR 66262.34) TIME FRAME EXCEEDED FOR THE DRAINED USED OIL FILTERS
Compliance Requirement: Dispose of waste using a licensed waste hauler within 30 days. Submit copies of disposal documents to this Division.
- 114. Hazardous waste container not sound. (CCR 66265.171) ALL WASTE CONTAINERS SOUND.
- 115. Hazardous waste container leaking. (CCR 66265.173(b)) NO CONTAINER LEAKING.
- 116. Hazardous waste container open when not in use. (CCR 66265.173(a)) ALL CONTAINERS CLOSED WHEN NOT IN USE.
Compliance Requirement: Waste containers must be sound, not leaking and closed when not in use.

Waste Management: ALL VALLEY ENVIRONMENTAL HANDLES THE WASTE. PROXIMAL SERVICES THE TRUCKS.

- 119. Hazardous waste managed unlawfully. (CHSC 25154) WASTE COOLANT AND DIESEL DRUMS BOTH MISSING LABELS
Compliance Requirement: Hazardous waste containers and aboveground tanks must be labeled, closed, and inspected (weekly or daily, as appropriate). Waste is to be removed by a licensed waste hauler within the allowed time periods.
- 128. Failure to retain manifested waste disposal records for 3 years. (CCR 66262.40(a)) RECORDS AVAILABLE.
- 137. Failure to retain consolidated waste disposal records for 3 years. (CHSC 25160.2(b)(3)) RECORDS AVAILABLE.
Compliance Requirement: Submit copies of waste disposal records for the past N/A.

- 138. Unlawful management of used oil filters. (CCR 66266.130) (1) DRUM MISSING LABEL AND ACCUMULATION START DATE.
Compliance Requirement: Label all used oil filter containers with "DRAINED USED OIL FILTERS" and the accumulation start date.

Business Description: ENGINEERING CONTRACTOR THAT SPECIALIZES IN UNDERGROUND UTILITIES SUCH AS WATER TRANSMISSION LINES FOR THE PUBLIC AGENCIES. THIS LOCATION IS STORAGE FOR HEAVY MACHINERY

DEAR MR. ZEIGLER,

In reference to our anti-freeze spill on 5/8/09. A mechanic was working on a semi-tractor and the water filter blew up, releasing a small amount of antifreeze on the garage floor, which was contained. During the cleanup process a very small portion went down the driveway.

As a side note we have since noticed that the driveway cleaner we use and purchase from Colton Truck Supply looks like anti-freeze when it is mixed with water. It is very possible this is what could have been noted in the gutter.

If you have any questions pertaining to this please contact Richard Hammack, our head mechanic at (909)957-9868.

Sincerely,

Sally Hammond

Refer to Title 19 and Title 22 of the California Code of Regulations (CCR), Chapter 6.5 of the Health and Safety Code (CHSC) and Division 9 of Title 2 of the San Bernardino County Code (CC). The following code sections are either in Violation (V) of, in Compliance (C) with, the applicable laws and regulations, or compliance is not applicable, not addressed or unknown (N).

Table with columns for code sections (e.g., 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 145, 146, 147, 148, 149) and compliance status (V, C, N). Includes sections for Storage and Labeling Requirements, Hazardous Waste Records and Manifests, and Disposal and Transportation.

INSPECTION NARRATIVE

Unannounced compliance inspection in response to a report of a release of antifreeze from the facility (CO0026423). A release of approximately 1 quart of antifreeze had been rinsed from the driveway into the street gutter by a mechanic onsite that had not been properly trained in hazardous waste management. The antifreeze had been diluted so much by the rinse water that no soil remediation was necessary.

Inventory:

- 1 - 400 gallon waste oil container
• 4 - 55 gallon drums hydraulic oil
• 1 - 55 gallon drum engine oil
• 2 - 55 gallon drums used filters
• 1 parts cleaner

Business is a utilities contractor, equipment serviced onsite. Sally Hammond (Office Manager) provided the following receipts and documentation for review: All Valley Environmental hauls waste oil, filters and antifreeze (not routinely generated); Prudential is utilized as rag service; Approximately 20 to 50 gallons of waste oil is generated monthly, on average.

Continued on Supplemental Form

[X] NOTICE OF VIOLATION: THE VIOLATIONS NOTED ABOVE MUST BE CORRECTED WITHIN 30 DAYS. FAILURE TO COMPLY MAY RESULT IN LEGAL ACTION. THE CERTIFICATE OF COMPLIANCE SHALL BE SUBMITTED WITHIN THE TIME PERIOD NOTED ABOVE.

SUPPLEMENTAL INSPECTION REPORT

Page 1 of 1

INSPECTION
DATE: **5/8/09**

FACILITY ID FA0012324	FACILITY NAME: E.J. Meyer Company	FACILITY LOCATION: 26999 E. 5th St. Highland, CA 92346
Consent Granted by: Inspected Photograph	NAME Sally Hammond	TITLE Office Manager

Correct the following violations within 30 days:

#101, #201: The facility is not currently permitted with this agency to generate hazardous waste or to handle hazardous materials. Obtain operating permits by paying invoice upon receipt.

107, 202, 203. The business has not established or submitted a Business Emergency Contingency Plan to this office. Establish and submit the plan in duplicate and keep one copy onsite and available.

#106. Oil staining on the concrete and soil in and around the hazardous waste storage area indicates that the facility operator is not managing the area in manner to prevent spills and overflows. Conduct activities onsite in a manner that minimizes the potential for such releases to occur. Signature on Certificate of Compliance (provided) denotes compliance with this requirement.

119, 145. The emergency response to the site on 5/8/09 revealed that a mechanic had illegally rinsed antifreeze off the property into the street to the North of the facility. This constitutes an illegal disposal of potentially hazardous (toxic) waste. Discontinue this practice and verify that all spills that occur onsite in the future are properly managed and that they do not leave the site. Conduct spill management training for personnel that could encounter a spill. Signature on Certificate of Compliance denotes compliance.

#204. The release of antifreeze that occurred on 5/8/09 was not reported to this agency by a facility representative. All spills that occur at the site in the future must be reported to this agency by a facility representative as soon as possible. Submit a brief release report describing the cause and results of the antifreeze spill and subsequent rinsing to the street on 5/8/09.

NOTICE OF VIOLATION: THE VIOLATIONS NOTED ABOVE MUST BE CORRECTED WITHIN 30 DAYS. FAILURE TO COMPLY MAY RESULT IN LEGAL ACTION. THE CERTIFICATE OF COMPLIANCE SHALL BE SUBMITTED WITHIN THE TIME PERIOD NOTED ABOVE.

EMERGENCY RESPONSE PLANS AND PROCEDURES

BUSINESS NAME (Same as FACILITY NAME or DBA)

E. J. Meyer Company

State Law requires your business to complete all sections of the Emergency Response Procedure listed below:

For each of the following, briefly describe your business's standard operating procedures relating to the release or threatened release of hazardous materials located at your facility. You may attach additional pages if necessary, but do not include copies of facility manuals unless requested to do so by this Department. You may reference manuals that are used by your facility for these procedures, but you must still give a brief description here.

EVACUATION/NOTIFICATION: Indicate location(s) where employees, customers, visitors or others on site are to evacuate in an emergency. Describe how your business will immediately notify people and evacuate the facility in the event of a release or threatened release of hazardous materials. Include the route and meeting place.

In case of emergency all employees and visitors will verbally be instructed to evacuate. All employees + visitors will be escorted to the excavation staging area, located at the front of the site near 75th Street.

PREVENTION/MITIGATION/ABATEMENT: Describe what policies and procedures your business will follow to prevent, reduce and/or remove the hazard to persons, property or the environment caused by a release or threatened release of hazardous materials and/or hazardous wastes. (✓ Check those items that apply and write additional information in the space provided).

- Reduction of containers on site if not used or needed
- Containers are properly labeled and closed when not in use
- Compressed gas cylinders are properly secured
- Use of monitoring system Type: _____
- Other:

All containers are inspected weekly to ensure proper labeling + closure of containers. Used oil is removed as needed

Date: 3/6/09

San Bernardino County Fire Department • Hazardous Materials Division

620 South "E" Street, San Bernardino, CA 92415-0153 • PHONE (909) 386-8401 FAX (909) 386-8460 www.sbcfire.org

EMERGENCY RESPONSE PLANS AND PROCEDURES

BUSINESS NAME (Same as FACILITY NAME or DBA)

E. J. Meyer Company

FACILITY TRAINING PLAN: Describe employee and operator training including local emergency response coordination, use of facility emergency equipment, and provisions for initial and refresher training. In addition, describe training for hazardous materials/waste handling as required by OSHA. (✓ Check those items that apply and write additional information in the space provided)

- New employee training
- Annual training & periodic refresher courses
- Familiarization with the Emergency Response Plans and Procedures of this Business Plan
- Spill control equipment
- Monitoring system
- Personal Protective Equipment
- On the job training (Described below)

Other: *we have weekly safety meeting, which periodically cover hazardous materials + waste handling*

EMERGENCY PROCEDURES: Describe duties of the Emergency Coordinator and how implementation of Facility Emergency Response will be accomplished. (e.g. Notification, evacuation, emergency coordination) (✓ Check those items that apply and write additional information in the space provided)

Emergency Coordinator will:

- Identify potential hazards and determine whether a release has occurred
- Activate local emergency systems (e.g. manual shutoff devices) and take appropriate immediate actions based on level of training and the ability to act safely
- Coordinate the notification and evacuation of employees, customers, and other visitors from the facility
- Make required agency notifications and request needed assistance
- Assist responding agencies by providing access to the facility and information about the facility
- Other:

HELPFUL HINTS FOR COMPLETING THE INVENTORY SECTION

Congratulations! You have completed the first half of the plan. The following pages require review of the hazardous materials and hazardous wastes at your facility to determine which items require disclosure.

Here are some helpful hints to assist you in filling out the hazardous materials inventory section:

- 1) This CUPA offers an example business plan that is available on our website or by mail. If you are unfamiliar with the business plan requirement, we recommend that you look at the example before you get started so you can see how Inventory Summary, chemical description pages, and maps work together.
- 2) Before you start filling out forms, determine how many items require disclosure and make the appropriate number of copies of the Inventory Summary form and the Chemical Description form. Note the following criteria when determining which items require disclosure in the inventory section: hazardous materials with a maximum quantity of greater than 55 gallons, 500 pounds, or 200 cubic feet, extremely hazardous substances at or exceeding threshold quantities (see Appendix B); any amount of hazardous waste, category 1 or 2 pesticides, or explosives.
- 3) Assign a unique item number to each inventoried item (e.g. 1,2,3, etc.) This same item number is used on the Inventory Summary, on the individual Chemical Description form, and to show the storage location(s) on the facility map.
- 4) Each inventoried item requires a Chemical Description page that gives additional details about each chemical. Material Safety Data Sheets (MSDSs) and container labels are the main sources of chemical information. Wastes do not have MSDSs, but waste analysis, profiles, or manifests may have useful information.
- 5) Review Appendix I to determine which inventoried items require submission of a Material Safety Data Sheet (MSDS). If the substance is not listed in Appendix I, attach the MSDS for that chemical to the corresponding individual Chemical Description page. Anytime you update or refile the Chemical Description Page, make sure to attach the current MSDS. If you do not have a MSDS for a material, you can get one from your chemical vendor. MSDS are required for compliance with the OSHA Hazard Communication Standard. Hazardous wastes do not have MSDSs.
- 6) Materials and wastes of the same chemical (e.g. lubricating oil and used oil) require separate Chemical Description pages.
- 7) Since the Chemical Description Page requires location information, you must complete the facility map(s) before you can finalize the Chemical Description pages.
- 8) The Maximum Quantity should reflect the maximum amount that could ever be onsite at any one time. The maximum listed on the Inventory Summary and the maximum listed on the individual Chemical Description form should be the same.
- 9) Typically, liquids are disclosed in gallons, solids are listed in pounds and compressed gases are listed in cubic feet. If you have questions regarding the correct unit type for an item, contact this Department for assistance.
- 10) Signatures: The Inventory Summary form requires the Owner/Operator signature. Additionally, EPCRA filers are required to sign all individual Chemical Description forms.

Note: If you have a large warehouse, trade secrets, or other unique situation, please call this office before you fill out chemical description pages. We can help you develop an inventory that will meet the requirements and accommodate a unique situation.

San Bernardino County Fire Department • Hazardous Materials Division

620 South "E" Street, San Bernardino, CA 92415-0153 • PHONE (909) 386-8401 FAX (909) 386-8460 www.sbcfire.org

INVENTORY SUMMARY FORM

I. FACILITY IDENTIFICATION

FACILITY ID # **F A 001 2324**

(This number is on your CUPA permit.)

BUSINESS NAME (Same as FACILITY NAME or DBA)
E. J. Meyer Company

Item #	Name of Hazardous Material or Waste	Maximum Quantity	Size of Largest Container	Unit of Measure
3.	Lubricating Oil (Example Only)	555	500	Gallon
1	Used oil	480	480	gallon
2	Used oil filters	110	55	gallon
3	used antifreeze	55	55	gallon
4	used diesel	55	55	gallon
5	Hydraulic oil	10	5	gallon
6	Gear lubricant	5	5	gallon
7	parts cleaner	10	10	gallon
8	Used rags	10	10	pounds gallon
9	waste automotive batteries	7	1	unit
10	Hydraulic oil	55	55	gallon
11	motor oil	55	55	gallon
12	grease machine	5	5	gallon
13	USED oil	55	55	gallon

Summarize the Business Plan inventory on this page. Place this summary in front of the inventory section of the Business Plan. Make copies of this sheet as necessary. Reminder: You need not report hazardous materials with a maximum quantity of less than 55 gallons, 500 pounds, 200 cubic feet, or the threshold planning quantity of an extremely hazardous substance. However, hazardous wastes, Category 1 and 2 pesticides, and explosives are reportable at any quantity.

III. SIGNATURE- EPCRA Facilities MUST sign the bottom of each individual attached inventory form.

SIGNATURE OF OWNER/OPERATOR 	NAME OF SIGNER (print) Michael Corcoran	136	DATE 6/4/9	134
--	---	-----	----------------------	-----

Business Plan Inventory Summary Form Instructions

You must file an Inventory Summary every time you update any or all of the Chemical Description Pages. This ensures you, the local Fire Agency, and the CUPA have the most current, complete information.

Purpose: The Inventory Summary is a critical document that acts as a table of contents for the individual chemical description pages, otherwise known as the Chemical Description Pages. It gives an important at-a-glance view of your inventory and acts as a key to the location of inventoried items on your facility map.

Inventory: Only items meeting the criteria and quantities of 55 gallons, 500 pounds, 200 cubic feet of a hazardous substance; extremely hazardous substances at or exceeding threshold quantities (see Appendix B); any amount of hazardous waste, category 1 or 2 pesticides, or explosives must be included in the Inventory Section of the Business Plan.

Item Numbers: Assign a unique number to each inventoried item. Place the item number on each individual Chemical Description Form, and then use the same item number to list the item in order of the attached Chemical Description Pages on the Inventory Summary Form. This item number is also used to locate the storage location of the inventoried items on the Facility Map(s).

Name of Hazardous Material or Waste: Provide the name of the Hazardous Material or Waste being inventoried. The same name should be used on the Chemical Description Form.

Maximum Quantity: Maximum quantities are a not-to-exceed amount for the reporting year.

Largest Container Size: Enter the total capacity of the largest container in which the material is stored. If hazardous materials are stored in various containers, use the largest container size to complete this section.

Unit of Measure: Describe how the hazardous material is being stored. Typically, liquids are listed in gallons; solids are listed as pounds; and gases are listed as cubic feet. Extremely Hazardous Substances (EHS) must be reported in pounds, regardless if the EHS is in a liquid, solid, or gas phase.

Signature: The owner/operator must sign the Inventory Summary Form, print their name, and date this page.

EPCRA: EPCRA filers must also sign and date all Chemical Description Pages.

If EPCRA, Please Sign Here

Hazardous Materials Inventory - Chemical Description

You must complete a separate Hazardous Materials Inventory - Chemical Description page for each hazardous material (hazardous substances and hazardous waste) that you handle at your facility in aggregate quantities equal to or greater than 500 pounds, 55 gallons, 200 cubic feet of gas (calculated at standard temperature and pressure) or the federal threshold planning quantity for Extremely Hazardous Substances, whichever is less. Also complete a page for each radioactive material handled over quantities for which an emergency plan is required to be adopted pursuant to 10 CFR Parts 90, 40, or 70. The completed inventory should reflect all reportable quantities of hazardous materials at your facility, reported separately for each building or outside adjacent area, with separate pages for unique occurrences of physical state, storage temperature and storage pressure. (Note: the numbering of the instructions follows the data element numbers that are on the Unified Program Confidential Form (UPCF) pages. These data element numbers are used for electronic submission and are the same as the numbering used in Division 8, Electronic Submission of Information.) Please number all pages of your submittal. This helps your CUPA or AA identify whether the submittal is complete and if any pages are separated.

1. FACILITY ID NUMBER - This number is assigned by the CUPA or AA. This is the unique number which identifies your facility.
 3. BUSINESS NAME - Enter the full legal name of the business.
 200. ADD/DELETE/REVISE - Indicate if the material is being added to the inventory, deleted from the inventory, or if the information previously submitted is being revised.
NOTE: You may choose to leave this blank if you resubmit your entire inventory annually.
 203. MAP NUMBER - Enter the number of the map on which the location of the hazardous material is shown.
 204. GRID NUMBER - Enter the grid coordinates of the map that correspond to the location of the hazardous material. If applicable, multiple grid coordinates can be listed.
 205. CHEMICAL NAME - Enter the proper chemical name associated with the Chemical Abstract Service (CAS) number of the hazardous material. This should be the International Union of Pure and Applied Chemistry (IUPAC) name found on the Material Safety Data Sheet (MSDS). NOTE: If the chemical is a mixture, do not complete this field; complete the ACOMMON NAME field instead.
 206. TRADE SECRET - Check "Yes" if the information in this section is designated a trade secret or "No" if it is not.
State requirement: If yes, and business is not subject to EPCRA, disclosure of the designated trade secret information is bound by HSC §25511.
Federal requirement: If yes, and business is subject to EPCRA, disclosure of the designated Trade Secret information is bound by 40 CFR and the business must submit a "Substantiation to Accompany Claims of Trade Secrecy" form (40 CFR 350.27) to USEPA.
 207. COMMON NAME - Enter the common name or trade name of the hazardous material or mixture containing a hazardous material.
 208. EHS - Check "Yes" if the hazardous material is an Extremely Hazardous Substance (EHS), as defined in 40 CFR, Part 355, Appendix A. If the material is a mixture containing an EHS, leave this section blank and complete the section on hazardous components below.
 209. CAS # - Enter the Chemical Abstract Service (CAS) number for the hazardous material. For mixtures, enter the CAS number of the mixture if it has been assigned a number distinct from its components. If the mixture has no CAS number, leave this column blank and report the CAS numbers of the individual hazardous components in the appropriate section below.
 211. HAZARDOUS MATERIAL TYPE - Check the one box that best describes the type of hazardous material: pure, mixture or waste. If waste material, check only that box. If mixture or waste, complete hazardous components section.
 212. RADIOACTIVE - Check "Yes" if the hazardous material is radioactive or "No" if it is not.
 213. CURIES - If the hazardous material is radioactive, use this area to report the activity in curies. You may use up to nine digits with a floating decimal point to report activity in curies.
 214. PHYSICAL STATE - Check the one box that best describes the state in which the hazardous material is handled: solid, liquid or gas.
 215. LARGEST CONTAINER - Enter the total capacity of the largest container in which the material is stored.
 216. FEDERAL HAZARD CATEGORIES - Check all categories that describe the physical and health hazards associated with the hazardous material.
- | PHYSICAL HAZARDS | HEALTH HAZARDS |
|---|---|
| Flam: Flammable Liquids and Solids, Combustible Liquids, Pyrophorics, Oxidizers | Acute Health (Immediate): Highly Toxic, Toxic, Irritants, Sensitizers, Corrosives, other hazardous chemicals with an adverse effect with short term exposure

Chronic Health (Delayed): Carcinogens, other hazardous chemicals with an adverse effect with long term exposure |
| Reactive: Unstable Reactive, Organic Peroxides, Water Reactive, Radioactive | |
| Pressure Release: Explosives, Compressed Gases, Blasting Agents | |
217. AVERAGE DAILY AMOUNT - Calculate the average daily amount of the hazardous material or mixture containing a hazardous material, in each building or adjacent/outside area. Calculations shall be based on the previous year's inventory of material reported on this page. Total all daily amounts and divide by the number of days the chemical will be on site. If this is a material that has not previously been present at this location, the amount shall be the average daily amount you project to be on hand during the course of the year. This amount should be consistent with the units reported in box 221 and should not exceed that of maximum daily amount.
 218. MAXIMUM DAILY AMOUNT - Enter the maximum amount of each hazardous material or mixture containing a hazardous material, which is handled in a building or adjacent/outside area at any one time over the course of the year. This amount must contain at a minimum last year's inventory of the material reported on this page, with the reflection of additions, deletions, or revisions projected for the current year. This amount should be consistent with the units reported in box 221.
 219. ANNUAL WASTE AMOUNT - If the hazardous material being inventoried is a waste, provide an estimate of the annual amount handled.
 220. STATE WASTE CODE - If the hazardous material is a waste, enter the appropriate California 3-digit hazardous waste code as listed on the back of the Uniform Hazardous Waste Manifest.
 221. UNITS - Check the unit of measure that is most appropriate for the material being reported on this page: gallons, pounds, cubic feet or tons. NOTE: If the material is a federally defined Extremely Hazardous Substance (EHS), all amounts must be reported in pounds. If material is a mixture containing an EHS, report the units that the material is stored in (gallons, pounds, cubic feet, or tons).
 222. DAYS ON SITE - List the total number of days during the year that the material is on site.
 223. STORAGE CONTAINER - Check all boxes that describe the type of storage containers in which the hazardous material is stored. NOTE: If appropriate, you may choose more than one.
 224. STORAGE PRESSURE - Check the one box that best describes the pressure at which the hazardous material is stored.
 225. STORAGE TEMPERATURE - Check the one box that best describes the temperature at which the hazardous material is stored.
 226. HAZARDOUS COMPONENTS 1-5 (% BY WEIGHT) - Enter the percentage weight of the hazardous component in a mixture. If a range of percentages is available, report the highest percentage in that range. (Report for components 2 through 5 in 230, 234, 238, and 242.)
 227. HAZARDOUS COMPONENTS 1-5 NAME - When reporting a hazardous material that is a mixture, list up to five chemical names of hazardous components in that mixture by percent weight (refer to MSDS or, in the case of trade secrets, refer to manufacturer). All hazardous components in the mixture present at greater than 1% by weight if non-carcinogenic, or 0.1% by weight if carcinogenic, should be reported. If more than five hazardous components are present above these percentages, you may attach an additional sheet of paper to capture the required information. When reporting waste mixtures, mineral and chemical composition should be listed. (Report for components 2 through 5 in 231, 235, 239, and 243.)
 228. HAZARDOUS COMPONENTS 1-5 EHS - Check "Yes" if the component of the mixture is considered an Extremely Hazardous Substance as defined in 40 CFR, Part 355, or "No" if it is not. (Report for components 2 through 5 in 232, 236, 240, and 244.)
 229. HAZARDOUS COMPONENTS 1-5 CAS - List the Chemical Abstract Service (CAS) numbers as related to the hazardous components in the mixture. (Repeat for 2-5.)
 246. LOCALLY COLLECTED INFORMATION - This space may be used by the CUPA or AA to collect any additional information necessary to meet the requirements of their individual programs. Contact the CUPA or AA for guidance.

BUSINESS EMERGENCY/CONTINGENCY PLAN COVER SHEET

I. IDENTIFICATION

FACILITY ID #	F A 0 0 1 2 3 2 4
BUSINESS NAME (Same as FACILITY NAME or DBA)	E. J. Meyer Company
BUSINESS SITE ADDRESS	26999 5 th St.
CITY	Highland
ZIP CODE	92346

For Dept Use Only - Log In/Date Stamp

RECEIVED

JAN 19 2012

S.B. CO. FIRE DEPT.

II. SUBMISSION CHECKLIST

(Complete this Section if submitting an entire Business Emergency/Contingency Plan whether new or revised)

Submission Checklist

- Business Activities Form
- Business Owner/Operator Identification Form
- Supplemental Emergency Contact Page
- Emergency Response Plans and Procedures
- Hazardous Materials Inventory Summary Form for the facility listing materials (including wastes) by item number
- One Hazardous Materials Inventory Form for each hazardous material (including wastes) which meet reporting criteria
- Material Safety Data Sheets attached to the inventory form of each material not listed in Appendix I
- Facility map (using grid form provided) consisting of all required features including the location of each inventoried item
- Site map (using grid form provided) consisting of all required features including surrounding facilities and areas.
- Area map - photocopied city map with location of site indicated
- Owner/Operator has signed and dated the plan and all required individual pages of the plan
- Submit the original and 1 copy to the Hazardous Materials Division. One is for distribution to the local fire jurisdiction
- Retain one copy of the business emergency/contingency plan at the facility.**

III. UPDATE/CERTIFICATION

(Complete this Section if submitting a partial update or re-certifying an existing Plan)

Check the appropriate boxes below and sign the certification statement. Submit 2 copies of all update information.

- Please incorporate the following into my Business Emergency/Contingency Plan
 - New Business Owner/Operator Identification Form
 - New Inventory Forms and new Inventory Summary Form (and maps, if affected)
 - New Supplemental Emergency Contact Page
- Other: _____

Brief explanation of changes: _____

- There have been no changes to the inventory. In place of submitting the annual inventory, I hereby attest to all of the following:
 - The information contained in the inventory most recently submitted to the CUPA is complete, accurate and up to date.
 - There has been no change in the quantity, storage, or handling of hazardous materials (including waste) reported in the most recently submitted inventory.
 - No hazardous materials (including waste) subject to inventory requirements are being handled that are not listed on the most recently submitted inventory.
 - This certification is not being made to meet annual inventory submission requirements of EPCRA. (EPCRA requires complete annual submission)

IV. SIGNATURE

(Complete this Section for all submissions)

Certification - Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted on this document and believe the information is true, accurate and complete.

Does your facility...	If Yes, please complete these pages of the UPCF*....		
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO	4	HAZARDOUS MATERIALS INVENTORY - CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release Prevention Program (CalARP)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	4a	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	5	UST FACILITY UST TANK
D. ABOVE GROUND PETROLEUM STORAGE TANKS (ASTs) Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	8	NO FORM REQUIRED TO CUPAs
E. HAZARDOUS WASTE Generate hazardous waste?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO	9	EPA ID NUMBER - provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per CHSC 25143.2)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	10	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	11	ON-SITE HAZARDOUS WASTE TREATMENT - FACILITY ON-SITE HAZARDOUS WASTE TREATMENT - UNIT
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	12	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	13	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as containing hazardous waste and cleaned on-site?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	14	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of Federal RCRA hazardous waste; or generate in any single calendar month, or accumulate at any time 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acutely hazardous waste.	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	14a	Obtain Federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	14b	See CUPA for required forms.
F. LOCAL REQUIREMENTS			

CUPA
San Bernardino County Fire Department • Hazardous Materials Division
620 South 'E' Street, San Bernardino, CA 92415-0153
(909) 386-8401 • FAX (909) 386-8460 • www.sbcfire.org

ACCESS REQUEST to FACILITY RECORD IN CERS - SINGLE FACILITY*

For more information, see: <http://www.sbcfire.org/hazmatfile.aspx> or call CERS help line (909) 386-8432

The purpose of the ACCESS REQUEST is to ensure that only individuals designated by the facility owner/operator are authorized by the CUPA to access facility records and to create, edit, and submit electronic data on the owner's behalf to the statewide system, known as the California Environmental Reporting System (CERS). The initial business user authorized by the CUPA to have access to a facility on CERS is designated as a lead business user. Lead business users have the ability to add additional lead or standard business users, approve or reject other access requests, or delete other users for any facility for which they are listed as a lead user.

AUTHORIZED LEAD BUSINESS USER

<small>Name</small> SALLY HAMMOND		<small>Title</small> OFFICE MANAGER/CORP SECRETARY			
<small>Email Address</small> s Hammond@ejmeyer.com		<small>Contact Phone</small> 909 425-4025			
<small>OWNER NAME</small> E. J. MEYER COMPANY		<small>OWNER EMAIL ADDRESS</small> s Hammond@ejmeyer.com			
<small>OWNER MAILING ADDRESS</small> P O BOX 277		<small>CITY</small> HIGHLAND	<small>STATE</small> CA	<small>ZIP CODE</small> 92346	<small>OWNER PHONE</small> 909 425-4025

Fill out the following information for the facility

<small>FACILITY ID (e.g., FA0123456)</small> FA0012324	<small>FACILITY NAME (e.g., CUPA AUTO)</small> E.J. MEYER CO	<small>SITE ADDRESS (e.g., 123 N. MAIN ST.)</small> 26999 5TH ST	<small>CITY (e.g., ANYTOWN)</small> HIGHLAND
--	--	--	--

I authorize the person and email address listed above to be a lead business user for the listed facility. This includes the ability to create, edit, and submit compliance data for the listed facility. I understand that as a lead business user this person may approve additional lead business users or standard business users, grant or reject facility access requests, and delete users from the facility listed on this authorization form.

Certification - I certify that I am the owner/operator or legal representative of the facility listed on this form. I understand that compliance documents prepared or submitted electronically are held to the same standard as their former paper equivalents.

<small>SIGNATURE OF OWNER/OPERATOR OR LEGALLY DESIGNATED REPRESENTATIVE</small> SALLY HAMMOND	<small>DATE</small> 02/19/13	<small>NAME OF DOCUMENT PREPARER</small> SALLY HAMMOND
<small>NAME OF SIGNER (print)</small> SALLY HAMMOND	<small>TITLE OF SIGNER</small> OFFICE MANAGER/CORP SECRETARY	

*Each facility record that is entered into CERS is assigned to a business/organization. Multiple facilities that have the same owner/operator and that will have the same users managing the facility record in CERS can be grouped together into a single "umbrella" business/organization. If you own or operate multiple facilities and if the same users will be managing all of the facilities in CERS, you may want them to be grouped into a single business/organization. For more information please contact the San Bernardino CERS help line at (909) 386-8432.

Return completed form by Mail: San Bernardino County Fire Department or Fax: (909) 386-8460 or Email: EMile@sbcfire.org

II. SUBMISSION CHECKLIST

(Complete this Section if submitting an entire Business Emergency/Contingency Plan whether new or revised)

Submission Checklist

- Business Activities Form
- Business Owner/Operator Identification Form
- Supplemental Emergency Contact Page
- Emergency Response Plans and Procedures
- Hazardous Materials Inventory Summary Form for the facility listing materials (including wastes) by item number
- One Hazardous Materials Inventory Form for each hazardous material (including wastes) which meet reporting criteria
- Material Safety Data Sheets attached to the inventory form of each material not listed in Appendix I
- Facility map (using grid form provided) consisting of all required features including the location of each inventoried item
- Site map (using grid form provided) consisting of all required features including surrounding facilities and areas.
- Area map - photocopied city map with location of site indicated
- Owner/Operator has signed and dated the plan and all required individual pages of the plan
- Submit the original and 1 copy to the Hazardous Materials Division. One is for distribution to the local fire jurisdiction
- Retain one copy of the business emergency/contingency plan at the facility.**

III. UPDATE/CERTIFICATION

(Complete this Section if submitting a partial update or re-certifying an existing Plan)

Check the appropriate boxes below and sign the certification statement. Submit 2 copies of all update information.

- Please incorporate the following into my Business Emergency/Contingency Plan
 - New Business Owner/Operator Identification Form
 - New Inventory Forms and new Inventory Summary Form (and maps, if affected)
 - New Supplemental Emergency Contact Page
- Other: _____

Brief explanation of changes: _____

- There have been no changes to the inventory. In place of submitting the annual inventory, I hereby attest to all of the following:
 - The information contained in the inventory most recently submitted to the CUPA is complete, accurate and up to date.
 - There has been no change in the quantity, storage, or handling of hazardous materials (including waste) reported in the most recently submitted inventory.
 - No hazardous materials (including waste) subject to inventory requirements are being handled that are not listed on the most recently submitted inventory.
 - This certification is **not** being made to meet annual inventory submission requirements of EPCRA. (EPCRA requires complete annual submission)

IV. SIGNATURE

(Complete this Section for all submissions)

Certification - Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted on this document and believe the information is true, accurate and complete.

BUSINESS EMERGENCY/CONTINGENCY PLAN COVER SHEET INSTRUCTIONS

Submit the Business Emergency/Contingency Plan Cover Sheet each time you update the Business Emergency/Contingency Plan.

Purpose: This form helps you determine which pages of the Business Emergency/Contingency Plan are required for full submissions and updates/changes. If completed correctly, this form can also alert staff to changes that affect permitting such as ownership or business name changes. Finally, this form serves as documented certification that the Plan contents have been reviewed by the Owner/Operator and are accurate to the best of that Individual's knowledge.

Facility ID: The Facility ID # is unique to an operation at a specific location under the control of a single employer. This CUPA issues the number. If this is your first application with this CUPA for this site, you will not have a Facility ID # yet and should leave this field blank on all forms. You can expect to receive your facility ID # with the invoice for your permits within 60 days of initial filing of the Plan. Facility ID #'s are not transferable from one location/site to another. If you have questions regarding your Facility ID #, please contact this Department.

Submission Checklist: Complete this section if you are submitting an entire Business Plan. Checking off the boxes helps you to make sure that you have completed all the required pages and made the necessary copies.

Update/Certification: This section must be completed to notify this Department of significant changes such as an ownership change, changes to the inventory and changes relating to the emergency contact information. For more information about updates, see the instructions on page III or call this office. Note that EPCRA facilities must provide a complete submission every year.

Signature: This section must be completed. The Plan will not be accepted as complete unless the Plan has been certified and signed by the Owner/Operator.

*Unified Program Consolidated Forms

Business Activities

Please submit the Business Activities page, the Business Owner/Operator Identification page, and Hazardous Materials Inventory - Chemical Description pages for all submissions, make copies as necessary. (Note: the numbering of the instructions follows the data element numbers that are on the Unified Program Consolidated Form (UPCF) pages. These data element numbers are used for electronic submission and are the same as the numbering used in Division 3, Electronic Submittal of Information). Please number all pages of your submittal. This helps your CUPA or AA identify whether the submittal is complete and if any pages are separated.

1. **FACILITY ID NUMBER** - Leave this blank. This number is assigned by the Certified Unified Program Agency (CUPA) or Administering Agency (AA). This is the unique number which identifies your facility.
2. **EPA ID NUMBER** - If you generate, recycle, or treat hazardous waste, enter your facility's 12-character U.S. Environmental Protection Agency (U.S. EPA) or California Identification number. For facilities in California, the number usually starts with the letters CA. Contact the Department of Toxic Substances Control at (415) 485-8895 for further information.
3. **BUSINESS NAME** - Enter the full legal name of the business. This is the same as the terms Facility Name or DBA - Doing Business As that might have been used in the past.
103. **BUSINESS SITE ADDRESS** - Enter the street address where the facility is located. No post office box numbers are allowed. This information must provide a means to geographically locate the facility.
104. **BUSINESS SITE CITY** - Enter the city or unincorporated area in which business site is located.
105. **ZIP CODE** - Enter the zip code of business site. THE EXTRA 4 digit zip may also be added.

4. HAZARDOUS MATERIALS -

Check the box to indicate whether you have a hazardous material onsite. You have a hazardous material onsite if:

- It is handled in quantities equal to or greater than 500 pounds, 55 gallons, or 200 cubic feet of compressed gas (calculated at standard temperature and pressure) based on container size.
- It is handled in quantities equal to or greater than the applicable federal threshold planning quantity for an extremely hazardous substance listed in 40 CFR Part 355, Appendix A.
- Radioactive materials are handled in quantities for which an emergency plan is required to be adopted pursuant to Part 30, Part 40, or Part 70 of Chapter 10 of 10 CFR, or pursuant to any regulations adopted by the state in accordance with these regulations.

If you have a hazardous material onsite, then you must complete the Business Owner/Operator Identification page and the Hazardous Materials Inventory - Chemical Description page, as well as an Emergency Response Plan and Training Plan.

Do not answer YES to this question if you exceed only a local threshold, but do not exceed the state threshold.

- 4a. **REGULATED SUBSTANCES** - Refer to 19 CCR 2770.5 for regulated substances. Check the box to indicate whether your facility has CalARP regulated substances stored onsite.
5. **OWN OR OPERATE UNDERGROUND STORAGE TANK (UST)** - Check the appropriate box to indicate whether you own or operate USTs containing hazardous substances as defined in Health and Safety Code (HSC) 25318. If YES, then you must complete one UST Facility page and UST Tank pages for each tank. You must also submit a plot plan and a monitoring program plan.
8. **OWN OR OPERATE ABOVEGROUND PETROLEUM STORAGE TANK OR CONTAINER** - Check the appropriate box to indicate whether there are ASTs onsite which exceed the regulatory thresholds. (There is no UPCF page for ASTs.) This program applies to all facilities storing petroleum in aboveground tanks. Petroleum means crude oil, or any fraction thereof, which is liquid at 60 degrees Fahrenheit temperature and 14.7 pounds per square inch absolute pressure (HSC 26270.2 (g)). The facility must have a cumulative storage capacity greater than 1,320 gallons for all ASTs. NOT Subject to the Act (exemptions):
An aboveground petroleum storage tank (AST) facility with one or more of the following (see HSC 26270.2 (k)) is not subject to this act and is exempt:
 - A pressure vessel or boiler which is subject to Division 5 of the Labor Code.
 - A storage tank containing hazardous waste if a hazardous waste facility permit has been issued for the storage tank by DTSC.
 - An aboveground oil production tank which is regulated by the Division of Oil and Gas.
 - Certain oil-filled electrical equipment including but not limited to transformers, circuit breakers, or capacitors.
9. **HAZARDOUS WASTE GENERATOR** - Check the appropriate box to indicate whether your facility generates hazardous waste. A generator is the person or business whose acts or processes produce a hazardous waste or who causes a hazardous substance or waste to become subject to State hazardous waste law. If your facility generates hazardous waste, you must obtain and use an EPA identification number (ID) in order to properly transport and dispose of it. Report your EPA ID number in #12. Hazardous waste means a waste that meets any of the criteria for the identification of a hazardous waste adopted by DTSC pursuant to HSC 25141. "Hazardous waste" includes, but is not limited to, federally regulated hazardous waste. Federal hazardous waste law is known as the Resource Conservation and Recovery Act (RCRA). Unless explicitly stated otherwise, the term "hazardous waste" also includes extremely hazardous waste and acutely hazardous waste.
10. **RECYCLE** - Check the appropriate box to indicate whether you recycle more than 100 kilograms per month of recyclable material under a claim that the material is excluded or exempt per CHSC 25143.2. Check YES and complete the Recyclable Materials Report pages, if you either recycled onsite or recycled excluded/recyclable materials which were generated onsite. Check NO if you only send recyclable materials to an offsite recycler. You do not need to report.
11. **ONSITE HAZARDOUS WASTE TREATMENT** - Check the appropriate box to indicate whether your facility engages in onsite treatment of hazardous waste. "Treatment" means any method, technique, or process which is designed to change the physical, chemical, or biological character or composition of any hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose. "Treatment" does not include the removal of residues from manufacturing process equipment for the purposes of cleaning that equipment. Amendments (effective 1/1/98) add exemptions from the definition of treatment for certain processes under specific, limited conditions. Refer to CHSC 25200.3.1 for specific information. Please contact your CUPA to determine if any exemptions apply to your facility. If your facility engages in onsite treatment of hazardous waste then complete the Onsite Hazardous Waste Treatment Notification - Facility page and one set of Onsite Hazardous Waste Treatment Notification - Unit pages with waste and treatment process information for each unit.
12. **FINANCIAL ASSURANCE** - Check the appropriate box to indicate whether your facility is subject to financial assurance requirements for closure of an onsite treatment unit. Unless they are exempt, Permit by Rule (PBR) and Conditionally Authorized (CA) operations are required to provide financial assurance for closure costs (per 22 CCR, 67450.13 (b) and CHSC, 25245.4). If your facility is subject to financial assurance requirements or claiming an exemption, then complete the Certification of Financial Assurance page.
13. **REMOTE WASTE CONSOLIDATION SITE** - Check the appropriate box to indicate whether your facility consolidates hazardous waste generated at a remote site. Answer YES if you are a hazardous waste generator that collects hazardous waste initially at remote sites and subsequently transports the hazardous waste to a consolidation site you also operate. You must be eligible pursuant to the conditions in HSC 25110.10. If your facility consolidates hazardous waste generated at a remote site, then complete the Remote Waste Consolidation Site Annual Notification page.
14. **HAZARDOUS WASTE TANK CLOSURE** - Check the appropriate box to indicate whether the tank being closed would be classified as hazardous waste after its contents are removed. Classification could be based on:
 - Your knowledge of the tank and its contents
 - Testing of the tank
 - Inability to remove hazardous materials stored in the tank.
 - The mixture rule
 - The listed wastes in 40 CFR 261.31 or 40 CFR 261.32.If the tank being closed would be classified as hazardous waste after its contents are removed, then you must complete the Hazardous Waste Tank Closure Certification page.
- 14a. **RCRA LQG** - Check the appropriate box to indicate whether your facility is a Federal Large Quantity Generator. If YES, you must have or obtain a US EPA ID Number.
- 14b. **HOUSEHOLD HAZARDOUS WASTE COLLECTION** - Check the appropriate box to indicate whether your facility is a HHW Collection site.
15. **LOCAL REQUIREMENTS** - Some CUPAs or AAs may require additional information. Check with your CUPA before submitting the UPCF to determine if any supplemental information is required.

CUPA PERMIT CONDITIONS

As a condition of the Certified Unified Program Agency (CUPA) permit to operate, the owner, operator, and permit holder shall comply with the following:

- a. **Hazardous Materials Release Response Plans and Inventories Program (HMRRP):** California Health and Safety Code (CHSC) Division 20, Chapter 6.95, Article 1 and Title 19 California Code of Regulations (CCR).
- b. **California Accidental Release Prevention Program (CalARP):** CHSC Division 20, Chapter 6.95, Article 2 and Title 19 CCR.
- c. **Underground Storage Tanks (USTs):** CHSC Division 20, Chapters 6.5, 6.7 and Title 23 CCR, Chapter 16.
 - (1) Monitoring, Response and Plot Plans shall be approved by the San Bernardino County CUPA.
 - (2) The owner and operator are subject to all applicable requirements of Chapter 6.7 of the CHSC and the applicable regulations.
 - (3) This permit and permit conditions including the Monitoring, Response and Plot Plans shall be maintained on site.
 - (4) Monitoring or programming for monitoring shall be conducted at the locations of the following UST equipment, if installed: monitoring system control panels; sensors monitoring tank annular spaces, sumps, dispenser pans, spill containers, or other secondary containment areas (e.g. double-walled piping); mechanical or electronic line leak detectors; and in-tank liquid level probes used for leak detection.
Note: The UST ID Number is listed on the front of the permit for each UST.
- d. **Aboveground Petroleum Storage Act SPCC Plans:** CHSC Division 20, Chapter 6.67 and 40 CFR 112.
- e. **Hazardous Waste Generator and Hazardous Waste Onsite Treatment:** CHSC Division 20, Chapter 6.5 and Title 22 CCR, Division 4.5, Chapters 10, 11, 12, 20 and 31.
- f. **San Bernardino County Fire Protection District Code (SBCFPD FC), Hazardous Materials Management Plans and Inventories:** CHSC Division 12, Part 2, Chapter 1, Article 2, Section 13143.9, CHSC Division 20, Chapter 6.95, Article 1, Section 25504, SBCFPD FC Chapter 4, Section 407.5, Section 407.6, Chapter 50, Section 5001.5.1 and Section 5001.5.2.
- g. **Unified Program Forms and Electronic Reporting:** CHSC Division 20, Chapter 6.11, Section 25404(e)(4) and Title 27 CCR.

La Verne, California 91750

Project No. 7298
September 26, 1997

Kevin Jenkins
Project Manager

Steven Kerchner
Project REA #3221

1.0 INTRODUCTION

This Closure Report has been prepared by Bradley Environmental Services (BRADLEY) for The E.J. Meyer Company, 105 Summit, Redlands, California to describe the removal of six (6) underground storage tanks (UST's) located at Laidlaw Transit, Incorporated, 26999 5th Street, Highland, California.

The UST removal was performed under the following permits and licenses:

- (1) - Permit No. 082997-01 (Job Card 5014), obtained from the County of San Bernardino Fire Department on August 29, 1997;
- (2) - BRADLEY State Contractors License No. 661390, General Engineering "A-HAZ" classification;
- (3) - State of California, Department of Industrial Relations, Division of Occupational Safety and Health (Cal-OSHA) Permit No. 97-902578;
- (4) - United States Environmental Protection Agency (EPA) permanent Identification #CAD981972474;
- (5) - Underground Services Alert Ticket Number 718959.

Copies of permits/licenses #1 through #3 above are contained in Appendix A. Permit numbers for items #4 and #5 were obtained verbally via oral communication.

2.0 SITE DESCRIPTION

2.1 Property Location and Layout

The subject property (site) is located at 26999 5th Street, Highland, California. Please see Figure 1 for tank locations. The subject site had two 10,000-gallon diesel fuel tanks; two 7,500-gallon diesel fuel tanks; one 6,000-gallon gasoline tank; and one 4,000-gallon gasoline fuel tank for a total of six (6) tanks. All 6 of these UST's are single wall steel tanks that were installed in 1978.

3.0 UST Removal and Disposal

Concrete above the 6 UST's was broken and removed on September 19, 1997. Surface soil covering the top of the UST's was excavated and stockpiled the same day. Pumping, rinsing, icing (insertion of dry ice to reduce lower explosive limit), and removal of the UST's was conducted between September 17 and September 23, 1997. BRADLEY using procedures outlined in the San Bernardino Fire Department Closure Permit removed the UST's. All associated product piping was removed with the UST's. Soil and concrete above and along the sides of the UST's was excavated and stockpiled using a John Deere 410D backhoe. The stockpiled soil was covered with 10 mil thick visqueen to prevent the emission of any volatile

organic compounds (VOC's) into the atmosphere. VOC emissions from the soil stockpile were monitored using a Photoionization Detector (PID).

All liquid was removed from the UST's using a vacuum truck provided by Nieto and Sons Trucking, Inc. (Brea). The rinsing process continued until the tank atmosphere reached 0% lower explosive limit (LEL) as monitored using an LEL meter. The residual liquid and rinseate (about 700 gallons) was transported to DeMenno Kerdoon (Compton) under hazardous waste manifest # 96764252 (Appendix C).

Dry ice was placed into all UST's prior to removal. Hazardous Materials Specialist Mr. Curtis Armstrong of the San Bernardino Fire Department gave permission to remove the tank after it tested safe with the LEL meter. The UST was removed from the excavation by use of the backhoe supplied by Bradley. Upon visual inspection it was determined that none of the UST's contained holes, dents, or cracks. The UST's were immediately loaded onto a flatbed trailer and transported by Nieto & Sons to American Metal Recycling (AMR), Inc. (Ontario) for demolition (Appendix C). The dispensers were removed from the site and also hauled to AMR.

4.0 SOIL SAMPLING

4.1 SOIL SAMPLE COLLECTION

Soil sampling was conducted between September 17, and September 23, 1997 under the direction of Hazardous Materials Specialist Mr. Curtis Armstrong of the San Bernardino County Fire Department following removal of the 6 UST's. Two soil samples were collected for each of the UST's at the site. The soil samples were labeled on the chain of custody according to the orientation of each tank (north (N), east (E), south (S) or west (W)) and volume. The samples were taken from underneath the UST's at a depth of between approximately 12 to 18 feet below grade at the bottom of each UST excavation. Groundwater was not encountered at the subject site for any of the tank excavations and no diesel or gasoline product was visible in the soil surrounding the tank excavations.

The soil samples were collected from soil brought to the surface in the bucket of the backhoe. The samples were collected by pushing a 1.5-inch diameter brass sleeve into the soil within a pothole cut into the soil of the bucket. Each end of the sleeve was covered with a teflon sheet and plastic cap and sealed with parafilm tape.

The samples were stored in a chilled condition (approximately 4 degrees C) from the time of collection until analyzed. Chain of Custody records were prepared in the field and accompanied the sample to the analytical laboratory. The samples were delivered to the laboratory within 24 hours of collection.

4.2 SOIL SAMPLE ANALYSIS

The soil samples were analyzed by Enviro-Chem, Inc. (Pomona) using the analytical methods specified by the San Bernardino County Fire Department. The soil samples from the 6 tank excavations were analyzed for Benzene, Toluene, Ethylene, and Xylene (BTEX) using EPA Method 8020, MBTE, and for Total Petroleum Hydrocarbons (TPH) using EPA Method 8015 Modified. Total lead (EPA Method 7240) was completed on the sample with the highest BTEX level or a sample taken at random if all samples were non-detect (ND). All soil samples except four (4) were non-detect and these 4 were below 28 mg/kg indicating trace amounts of petroleum hydrocarbons barely above laboratory detection limits. Complete analytical results and Chain of Custody records are contained in Appendix D.

5.0 BACKFILL AND COMPACTION

The UST excavations were back-filled and compacted in order to leave the site in a safe and secure manner. Native soil was reused at the site to backfill the lower portions of the excavation. A sufficient amount of import soil to compensate for the removed UST was placed above the soil. The back-filled soil was compacted to at least 90% certified compaction using a portable vibratory plate. The portable plate was used due to failure of the plate attached to the backhoe arm.

6.0 FINDINGS

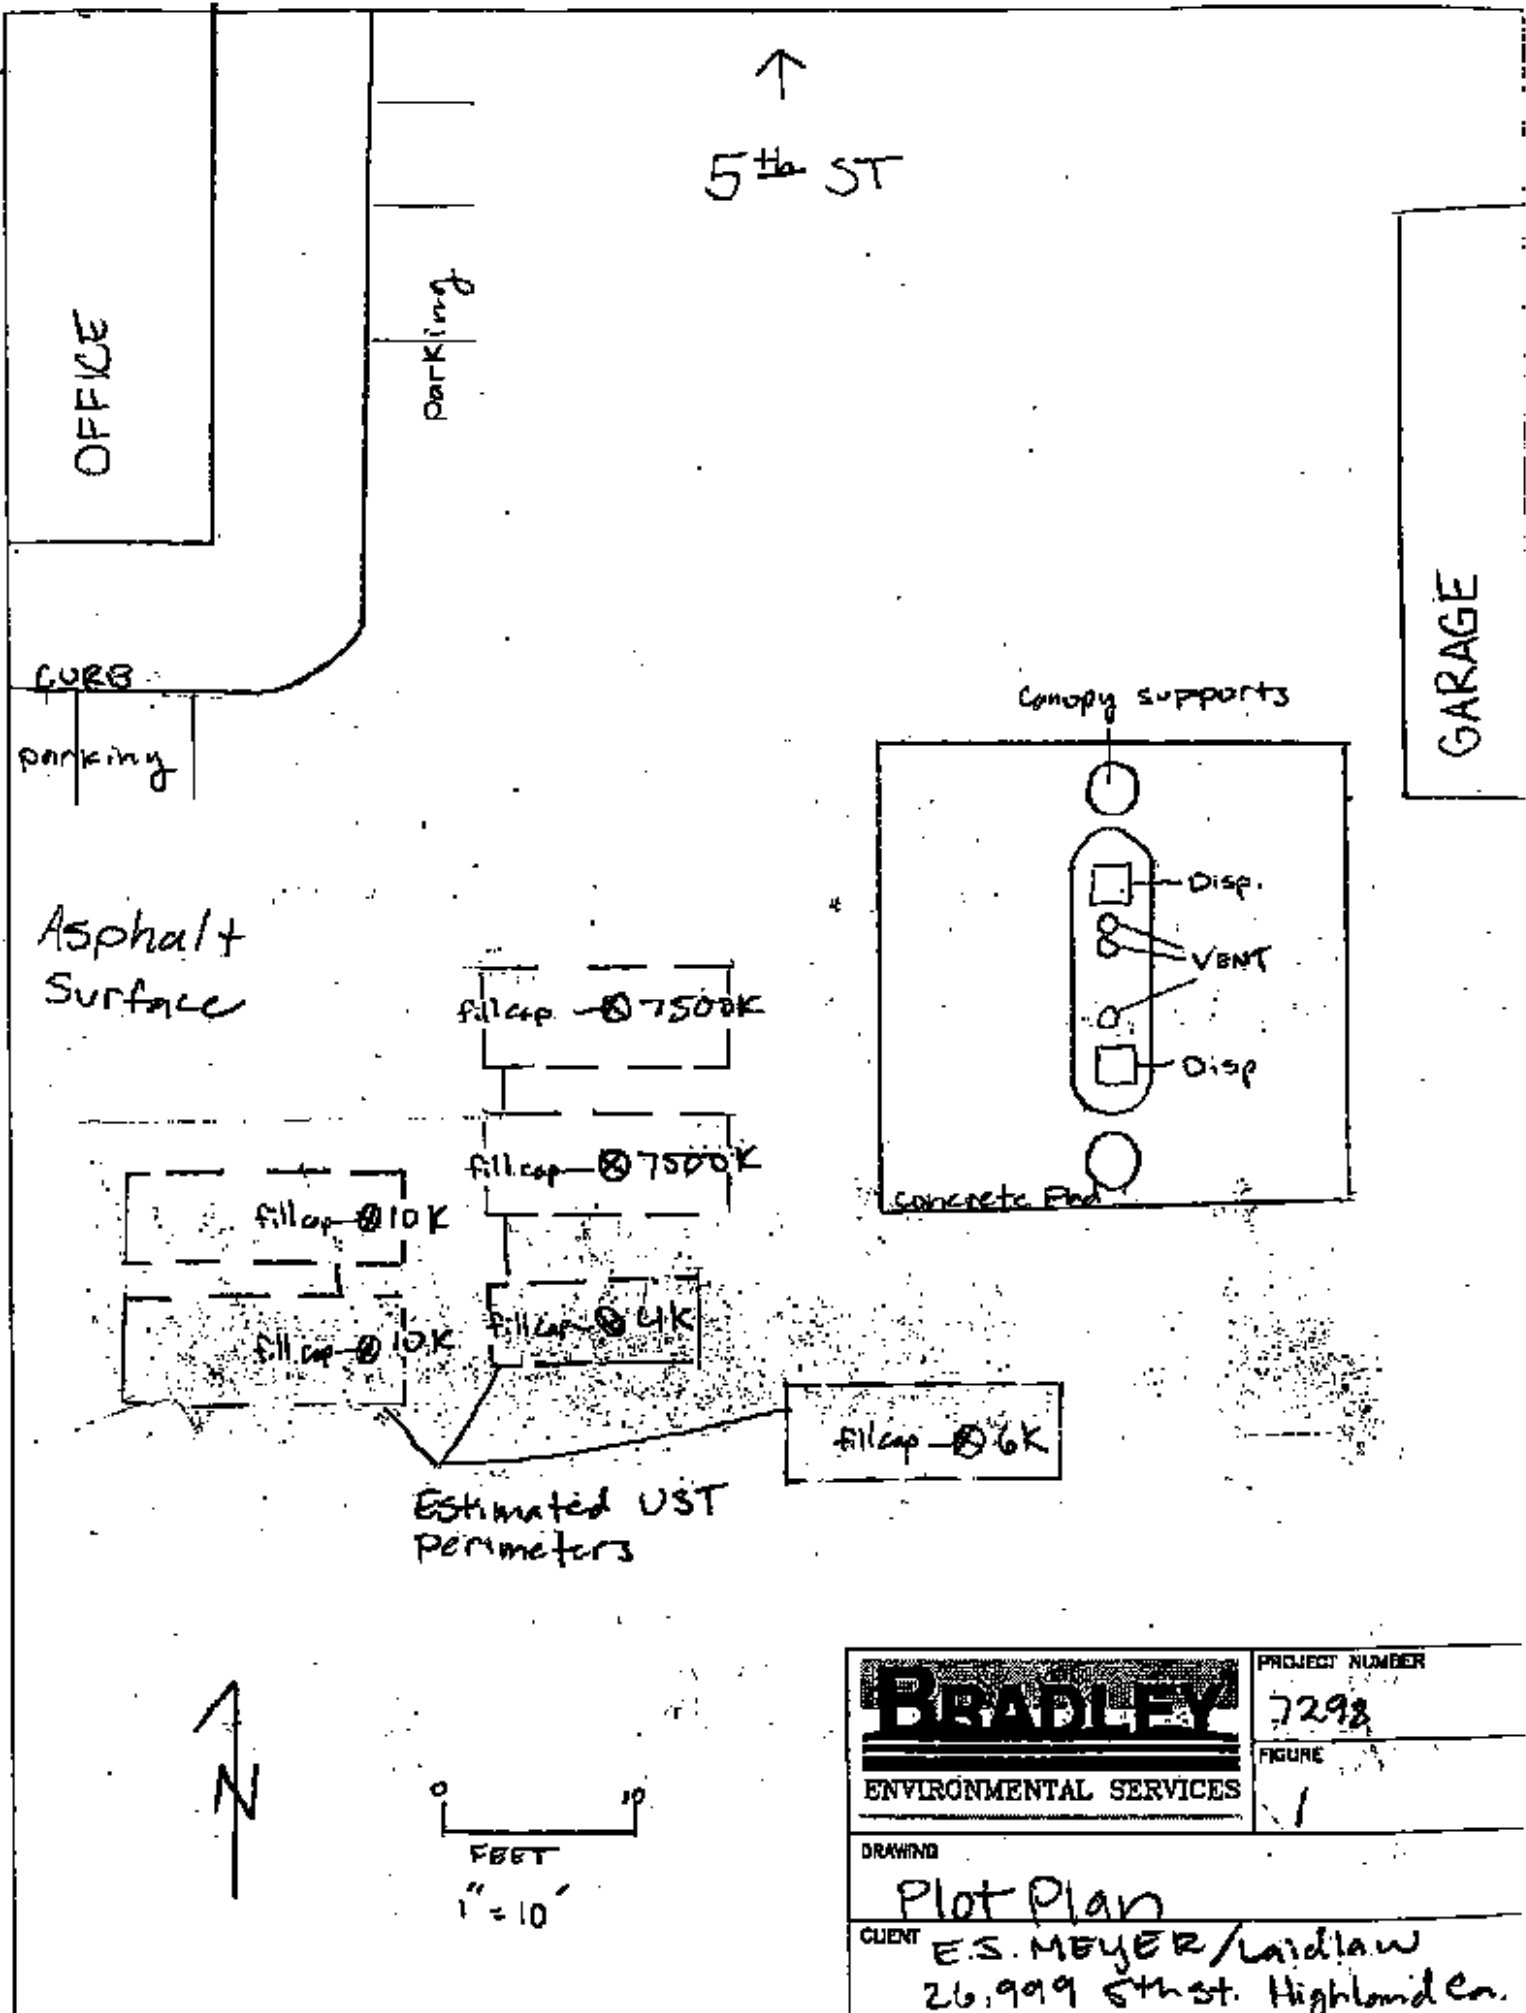

No evidence of staining was observed on the sides of the removed tanks or in the tank excavations. Tank backfill material had no staining or hydrocarbon odors. Samples N10DE@14, N7.5DW@14, N7.5DE@14, and N10DE@18, collected from beneath the UST's showed analytical results barely above laboratory detection limits for TPH (between 14 parts/million (ppm) and 28 ppm). All other soil samples were analyzed and were found to be non-detect showing the tank beds to be clean with no remaining petroleum hydrocarbons in the excavations.

7.0 CONCLUSIONS AND RECOMMENDATIONS

Based on soil sample analysis, the trace levels and non-detectable levels of diesel fuel or petroleum hydrocarbons, MBTE or lead have not impacted the soil above regulatory action levels, beneath the former location of the 6 UST's. BRADLEY recommends site closure for all 6 UST's at the subject site.

8.0 CERTIFICATION

This UST Closure Report has been prepared for E.J. Meyer by BRADLEY in accordance with applicable San Bernardino County Fire Department regulations and customary geologic practice. All work was performed under the supervision of the signatories shown on the title page of this report. No other warranty is either expressed or implied.

OWNER-BUILDER DECLARATION
 I hereby affirm under penalty of perjury that I am exempt from the Contractor's License Law for the following reasons: (Sec. 7001.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractor's License Law (Chapter 6 Commencing with Section 7000) of Division 3 of the Business and Professions Code, or that he or she is exempt therefrom, and the basis for the alleged exemption. Any violation of Section 7001.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).
 I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended for sale. (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves a structure and who does such work himself or herself or through his or her employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.)
 I, as owner of the property, am contractually contracting with licensed contractors to construct the project. (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves a structure, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)
 I am exempt under Sec. _____ B.S.P.C. for this reason: _____

WORKER'S COMPENSATION DECLARATION
 I hereby affirm under penalty of perjury one of the following declarations:
 I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.
 I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.
 My workers' compensation insurance carrier and policy number are:
 Carrier: _____ Policy Number: _____
 (This section does not be completed if the permit is for one hundred dollars (\$100) or less.)
 I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to workers' compensation laws of California, and agree that if I should become subject to workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.
 Date: _____ Applicant: _____

CONSTRUCTION LENDING AGENCY
 I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued. (Sec. 3692 Civ. C.)

Dear Mr. Jenkins:

The analytical results for the soil samples, received by our Lab on September 18, 1997, are attached.

Enviro-Chem appreciates the opportunity to provide you and your company this and other services. Please do not hesitate to call Mr. John Ackerman, our Customer Service Specialist, or myself, if you have any questions.

Sincerely,

Curtis Desilets

Send forms in triplicate to San Bernardino County Department of
Environmental Health Services
Hazardous Materials Management
385 N. Arrowhead Ave.
San Bernardino, CA 92415-0160

Questions??? Call (714)387-3044
Are there any exemptions?

9. INVENTORY OF HAZARDOUS MATERIALS ON SITE (INDICATE UNITS USED).

A. HAZARDOUS MATERIALS

1. Chemical Name Acetylene
 CAS # (if known) _____
 Composition Liquid stored under pressure Gas when Released
 Hazard Code/s (See Page 10) 2 / 1 / _____ / _____
 Common Name Acetylene
 Solid _____ Liquid Gas Mix Pure _____
 Maximum amount at one time on site 1 TANK
 Average daily amount on site 1 TANK
 Number of days on site/year _____
 Container type Compressed Tank
 Storage Pressure 350 LBS Storage Temp (F) _____

2. Chemical Name Diesel Fuel
 CAS # (if known) _____
 Composition Diesel
 Hazard Code/s (See Page 10) 1 / 4 / 1 / _____
 Common Name Diesel
 Solid _____ Liquid Gas _____ Mix _____ Pure _____
 Maximum amount at one time on site 35,000
 Average daily amount on site 7,500
 Number of days on site/year 365
 Container type 2 (7500 Gallon Underground Tanks) 2 (10,000 Tanks)
 Storage Pressure _____ Storage Temp (F) _____

3. Chemical Name Oxygen
 CAS # (if known) _____
 Composition _____
 Hazard Code/s (See Page 10) 1 / 2 / _____ / _____
 Common Name Oxygen
 Solid _____ Liquid _____ Gas Mix _____ Pure _____
 Maximum amount at one time on site 1 TANK
 Average daily amount on site 1 TANK
 Number of days on site/year 365
 Container type Compressed Tank
 Storage Pressure 350 LBS Storage Temp (F) _____

4. Chemical Name Ethylene Glycol
 CAS # (if known) _____
 Composition _____
 Hazard Code/s (See Page 10) 4
 Common Name Anti-Freeze
 Solid _____ Liquid Gas _____ Mix _____ Pure _____
 Maximum amount at one time on site 55 Gallons
 Average daily amount on site 30 Gallons
 Number of days on site/year 365 Days
 Container type _____
 Storage Pressure _____ Storage Temp (F) _____

MAKE ADDITIONAL COPIES OF INVENTORY FORM AS NEEDED FOR EVERY CHEMICAL.

20. Facility Map

- a) Location of each hazardous material handling area and which materials are handled in each area (including laboratory).
- b) Type of storage, including above and below ground and partially buried (tanks, barrels, drums, etc.)
- c) Location of emergency response equipment such as fire suppression equipment, protective clothing, etc.
- d) Internal and external communications.

Note: The combination of the site map and facility map may be acceptable.

***COMPLETE THE LAST PAGE OF THIS DOCUMENT AND RETURN TO DEHS WITH BUSINESS PLAN.**

Submit Plan within 45 days in triplicate to:

Department of Environmental Health
Services/Hazardous Materials Management
385 N. Arrowhead Avenue
San Bernardino, CA 92415-0160

Please retain a completed copy of your Business Plan at your business.

Check all chemicals located at the laboratory and give the maximum amount on hand of that substance. Substances that are not listed on this inventory page must be included on the laboratories Business Plan form and submitted with a Material Safety Data Sheet.

PLEASE REPLY TO ADDRESS CHECKED

ATTENTION BUSINESSES - PLEASE READ CAREFULLY

As a business in San Bernardino County that handles, uses, generates or stores hazardous materials, it is required that you comply with the various State and Federal laws. The public concern regarding hazardous materials has resulted in the passage of a hazardous materials disclosure law. The intent of this law is to safeguard public health through disclosure of the potential risks of a hazardous materials release. To accomplish this intent, all businesses are required to submit a "Business Plan" to the County Department of Environmental Health Services. This plan includes an inventory of hazardous materials at each facility and what contingency plan the business has in the event of a release of those materials or other emergency. Your Business Plan will be given to each fire and police jurisdiction in your area for use by emergency personnel and portions will be available for public review on request.

We know how overwhelming and confusing the various new laws can be. We hope to work with you to minimize the confusion while we all strive for a safer community.

The attached guide is to assist you in developing your Business Plan.

Revised 08/01/89

WHAT DO I HAVE TO DO TO COMPLY WITH THE NEW STATE AND FEDERAL LAW?

1. All businesses which handle hazardous materials, big or small, are required to report releases or threatened releases that may endanger the public health or environment to the Department of Environmental Health Services (DEHS) and the Governor's Office of Emergency Services. These phone numbers are listed in the Notification Plan on page 7 of the guide. Fines up to \$25,000 and one year in prison may result if you fail to report a release or a threatened release. Additionally, if a release involves an extremely hazardous substance listed in the Code of Federal Regulations, Title 40, and the release equals or exceeds the reportable quantity as stated, a follow-up notice to OES must be filed within 15 days of the incident. (Special forms can be obtained from DEHS.)
2. Your business must submit a "Business Plan" to DEHS. Basic information on the location, type and quantity of hazardous materials must be provided by businesses to assist emergency responders and planning officials in preventing or mitigating emergencies resulting from hazardous materials releases. Any business subject to SARA, Title III inventory requirements must submit a Business Plan in lieu of Tier II forms.
3. If the facility is a NEW business, a Certificate of Occupancy issued by the City or County Building Department will not be finalized until DEHS reviews a Business Plan. A Risk Management and Prevention Program (RMPP) will be required if extremely hazardous materials are to be used or stored at the new facility.
4. Any business that operates on rented or leased property and is required to submit a Business Plan is required to submit a notice to the owner of the property in writing stating that the business is subject to the Business Plan mandates and has complied with the provisions, and shall provide a copy of the Business Plan to the property owner within five (5) working days after receiving a request for a copy from the owner.

WHAT IS A HAZARDOUS MATERIAL?

A hazardous material is a broad term for all substances that may be hazardous, including hazardous waste. Substances that are flammable, corrosive, reactive, oxidizers, radioactive, combustible, or toxic are considered hazardous. Examples include: oil, paints, thinners, cleaning solvents, compressed gas, radioactive materials and pesticides.

The California Health and Safety Code defines a Hazardous Material as "any material that because of its quantity, concentration, or physical or chemical characteristics poses a significant present or potential hazard to human health and safety or the environment if released into the work-place or the environment."

--- A Hazardous Substance means any substance or chemical product for which one of the following applies:

1. A Material Safety Data Sheet (MSDS) is required of the manufacturer pursuant to the California Labor Code.
2. The Substance is listed as radioactive in Title 10 or the Code of Federal Regulations.
3. The Substance is listed as Hazardous in Title 49 of the Code of Federal Regulations.
4. The Substance is listed in the California Department of Industrial Relations, Director's List of Hazardous Substances (developed pursuant to Chapter 2.5 of the California Labor Code).

--- Hazardous Waste is clearly defined in Chapter 6.5 of the California Health and Safety Code and clarified in Title 22 of the California Administrative Code. Businesses that generate, treat, or store hazardous waste should currently be under regulation by the County of San Bernardino, and a Contingency Plan for accidental release of the waste should be on file with the San Bernardino County Department of Environmental Health Services. The Business Plan satisfies the requirements of a Hazardous Waste Contingency Plan.

WHO MUST SUBMIT A BUSINESS PLAN?

- A Any business that uses, generates, processes, produces, treats, stores, emits, or discharges a hazardous material in quantities ^{per year} exceeding 55 gallons, 500 pounds, or 200 cubic feet of a compressed gas at any one time in the course of a year must submit a Business Plan.
- B All hazardous waste generators, unless the business generates less than 5 gallons or 50 pounds per month, must submit a Business Plan due to mandates by existing hazardous waste laws.
- C Any business that handles, stores, or uses category (I) or (II) pesticides, as defined by FIFRA, regardless of amount, must submit a Business Plan. Indicate on inventory if Category I or II.

- D Any business that handles substances on the Governor's List of Carcinogens or Reproductive Toxicants pursuant to Prop. 65 in any quantity must submit a Business Plan.
- E Any business that handles Class A, B, or C explosives (CFR 49) must submit a Business Plan.
- F Any business which handles extremely hazardous substances in quantities exceeding the Threshold Planning Quantity (T.P.Q.) must submit a Business Plan. Call (714) 387-4631 for a copy of this list.
- G Any business which handles, uses, or stores radioactive substances in any quantity must submit a Plan.
- H Businesses subject to SARA, Title III inventory requirements must submit a Business Plan. Tier II forms need not be submitted to the various State and Federal agencies pursuant to the newest legislation (AB 2189) which merges State and Federal inventory requirements.

LABORATORIES

Laboratories which handle a hazardous material, solid, liquid or compressed gas in any quantity, must submit a modified Business Plan to DEHS (see attached form and specific instructions). These hazardous materials that must be reported include, but are not limited to, extremely hazardous materials, radioactive substances and explosives, organic peroxides, substances listed on the Governor's Prop. 65 list and hazardous wastes generated by the lab.

Please note: If the lab is within a facility which meets any one of the criteria on page 2, attach the Laboratory Business Plan forms to the rest of the Business Plan. Only one set of maps are required. Please identify lab location on map.

Are there any exemptions?

Yes!

- A. Businesses that handle less than 55 gallons, less than 500 pounds of a hazardous material or less than 200 cubic feet of a compressed gas as a maximum amount at any one time in the course of a year are exempt. Please note: Hazardous Waste generators and Businesses that use Category I or II pesticides, explosives, substances on the Governors List, and labs are not exempt.
- B. Any business that has hazardous materials contained solely in a consumer product direct for distribution to and use by the general public in closed containers is exempt.

ARE TRADE SECRETS PROTECTED UNDER THE LAW?

Because one intent of this Law is to disclose to the general public the presence of hazardous materials in the community, the Department of Environmental Health Services is required to make the contents of Business Plans available to the public. If a Hazardous Material handler believes that in order to comply with the law, trade secrets must be disclosed within the Business Plan and those portions of the Plan must be clearly marked as trade secrets and placed on separate pages within the Plan. A Statement should also be attached to the Plan detailing which portions are considered trade secrets. If the Public should request access to trade secret information the Department of Environmental Health Services shall notify the Handler in writing of the request by certified mail, return receipt requested. The Department will then wait 30 days before releasing the information unless during that 30 days the Handler has filed an action in an appropriate court to prevent such a release.

ARE FARMS EXEMPT?

Farms are exempt from some portions of the Business Plan requirements but must submit a special inventory form as developed by the County Agricultural Commissioner's Office before January 1 of each year. This form asks the following:

1. A Hazardous Material Inventory.
2. Maximum amount handled at any one time.
3. How and where the materials are handled.
4. Emergency Contact Person and phone number.
5. Certification that the Hazardous Material Storage Area has been posted with the proper warning signs.

Questions regarding the special form or the handling of hazardous materials on farms should be directed to the County Agricultural Commissioner's Office.

HOW WILL UNDERGROUND STORAGE OF HAZARDOUS MATERIALS BE AFFECTED BY THIS NEW LAW?

If a business that is OPERATED BY THE OWNER stores hazardous materials in underground tanks only, and those tanks are properly registered with the San Bernardino County DEHS, the business should already be in compliance. However, if in addition to the material stored underground your business stores hazardous materials above ground, and meets the criteria on page 2, then a Business Plan is required by DEHS. Any operator of underground storage tanks containing hazardous materials who does not own the tanks must submit a Business Plan to DEHS.

HOW IS THIS PROGRAM FUNDED?

Costs incurred by DEHS in carrying out provisions of this law are to be recovered by the collection of a fee from each business required by law to submit a Business Plan. A Hazardous Materials Handler Permit will be issued upon payment of fee. Businesses will be invoiced.

WHEN IS THE BUSINESS PLAN TO BE SUBMITTED AND WHAT ARE THE PENALTIES FOR NON-COMPLIANCE?

The written portion of the Business Plan shall be updated every other year. The inventory shall be updated every January 1st of the new year. However, the business Plan shall be revised as soon as a change of owner occurs, inventory is increased 100%, a facility moves to a new location, contact persons are reassigned or storage locations for chemicals are moved.

Any business that does not comply with the submission of a Business Plan within 45 days of notice will be civilly liable for a maximum fine of \$2,000 for each day the violation occurs. If non-compliance persists after reasonable notice of the violation, a maximum fine of \$5,000 for each day in violation will be required (Section 25514).

WHAT IS THE LEGAL AUTHORITY FOR THIS PROGRAM?

- California State Health & Safety Code, Division 20, Chapter 6.8, Sections 25360.2, Chapter 6.9, Sections 25500 - 25520; Chapter 4, Sections 42301.6 - 42450.1.
- California Code of Regulations, Title 19, Chapter 2, Sub-chapter 3, Article 4, Sections 2729 - 2734
- Title 40, Code of Federal Regulations, EPA (SARA, Title III)

WHO IS AVAILABLE FOR ASSISTANCE IF FURTHER INFORMATION IS NEEDED?

If you have additional questions, please call DEHS Hazardous Materials Management at (714) 387-3044.

WHAT ARE THE MINIMUM ELEMENTS OF A BUSINESS PLAN?

The following pages contain an outline of 20 numbered items that represent the basic elements of the Business Plan. For the purpose of automated data processing by the Department, the Plan should be submitted in the order shown. Please make all responses brief. A cumbersome document may become useless in an emergency situation due to the complex nature of the Plan. The Plan may not be approved if any one element is not complete.

Notes: Please do not combine facilities at different locations. Since this document will be used for emergency response, the Business Plan must be site-specific.

All Business Plans should be submitted within 45 days of receipt of this guide. If more time is needed, please submit your request for an extension in writing to DEHS.

BUSINESS PLAN

OUTLINE OF ESSENTIAL ELEMENTS

1. Business Name and Address and Assessor's Parcel Number
2. Business Phone
3. Owner and/or operator (designate which)
4. Standard Industrial Classification Code
5. Dun & Bradstreet # (if applicable)
6. Business Description (activity)
7. # of employees (as reported by most recent tax withholding forms).

Is there a school, hospital or extended care facility within 1,000 feet (straight line distance) of your facility? If so, give name and address.
8. Emergency contact person and alternatives (two names and phone numbers)

--- These persons should be knowledgeable in all aspects of the business operation. They should be authorized to commit business resources. (Indicate if phone numbers should be kept confidential from public requestors.)
9. Inventory of hazardous materials on site (including a waste category of every hazardous waste handled). Use attached inventory form. It would be beneficial to note on the inventory if there is retail sale items at location with other bulk substances. All information requested on the form must be completed. Make additional copies of form if more space is needed. The Business Plan Inventory must be updated annually. Please indicate EPA signal words for pesticides.
10. Emergency Notification Plan (*Mandatory Agency Notification in case of release or threatened release of hazardous material).
 - a) 911 or local emergency response agency. Remember, 911 (if available) should be the first phone number called in cases of emergency.

- *b) San Bernardino County Department of Environmental Health
-- (800) 33-TOXIC or (714) 387-3044
- *c) State of California, Office of Emergency Services
-- (800) 852-7550
- d) National Response Center
-- (800) 424-8802 (Spills of certain substances may require federal notification depending upon volume and concentration. Familiarization of the applicable federal statutes is recommended).
- e) Emergency Response Team
-- Own employees or contracted
(List names and phone numbers)
- f) Others: insurance company, hazardous waste hauler, etc., or local emergency response agency.

11. Emergency Procedures

- a) Give name and duties of Emergency Coordinator.
- b) Activation of Facility Emergency Response if specifically equipped to do so.

12. Facility Employee Evacuation Procedures

--- Every business that handles hazardous materials must provide proper notification to employees and make sure employees know how and where to evacuate. (Consider wind direction and chemicals on site.)

13. Preventive Measures

For example,

- a) Reduction of containers on site if not used or needed.
- b) Safe storage and disposal methods.
- c) Use of monitors, alarms, and informational devices (signs, labels, etc.).
- d) Effective land use (berms, structural confinement, control of drainage and safe placement of containers as to not contaminate surface water, wells, residential areas, or traffic).

- e) Proper training of all employees to be able to identify an emergency or potential threat of an emergency.
- f) All containers, even those storing non-hazardous substances, are properly labeled to alert emergency responders.

14. Facility Training Plan

- a) Procedures for local emergency response coordination.
- b) Use of facility emergency equipment.
- c) Provisions for initial and refresher training.
- d) Hazardous materials/waste handling training as required by OSHA.

15. List of Facility Emergency Equipment

(Include test/maintenance plan)

- Fire extinguishers?
- Breathing Apparatus?
- Emergency Kits?

16. List of Arrangements/Agreements (if applicable)

- Hazardous waste hauler/disposal/recycler
- Local hospitals
- Local police or fire jurisdiction
- Emergency equipment suppliers

17. Copies of Material Safety Data Sheets (MSDS) (for each hazardous material listed on inventory form).

Hazard category information can be found on each MSDS.

Please categorize MSDS's according to hazard category, or alphabetically or numerically according to inventory.

- Code** = (Indicate all code numbers that correlate with category on inventory.)
- 1 = Fire hazard i.e. "flammable", "combustible liquids" and "oxidizers".
 - 2 = Sudden release of pressure, i.e. "explosives", "compressed gas".

THIS FORM MUST BE ACCOMPANIED BY AT LEAST (1) OR MORE PERMIT APPLICATION - FORM B, UNLESS THIS IS A CHANGE OF SITE INFORMATION ONLY.
OWNER MUST FILE THIS FORM WITH THE LOCAL AGENCY IMPLEMENTING THE UNDERGROUND STORAGE TANK REGULATIONS

INSTRUCTIONS FOR COMPLETING FORM "A"

GENERAL INSTRUCTIONS:

SECTION 2711 OF TITLE 25, CHAPTER 16, CALIFORNIA CODE OF REGULATIONS AND SECTIONS 25286, 25287, AND 25289 OF CHAPTER 6.7, DIVISION 20, CALIFORNIA HEALTH AND SAFETY CODE REQUIRE OWNERS TO APPLY FOR AN UST OPERATING PERMIT.

1. One FORM "A" shall be completed for all NEW PERMIT CHANGES or any FACILITY/SITE INFORMATION CHANGES.
2. **SUBMIT ONLY ONE (1) FORM "A"** for a Facility/Site, regardless of the number of tanks located at the site.
3. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
4. Please type or print clearly all requested information.
5. Use a hard point writing instrument, you are making 3 copies.
6. Tank owner must submit a facility plot plan to the local agency as part of the application showing the location of the UST's with respect to buildings and landmarks (Section 2711 (a)(5), CCR).
7. Tank owner must submit documentation showing compliance with state financial responsibility requirements to the local agency as part of the application for petroleum UST's (Section 2711 (2)(11), CCR).

TOP OF FORM: "MARK ONLY ONE ITEM"

Mark an (X) in the box next to the item that best describes the reason the form is being completed.

I. FACILITY/SITE INFORMATION & ADDRESS (MUST BE COMPLETED)

1. Record name and address (physical location) of the underground tank(s).
NOTE: Address MUST have a valid physical location including city, state, and zip code.
P.O. BOX NUMBERS ARE NOT ACCEPTABLE.
Include nearest cross street and name of the operator.
2. Phone number must have an area code. If the night number is the same, write "SAME" in proper location.
3. Check the appropriate box for TYPE OF BUSINESS OWNERSHIP (ex. CORPORATION, INDIVIDUAL, etc.).
4. Check the appropriate box for TYPE OF BUSINESS.
5. If Facility/Site is located within an Indian reservation or other Indian trust lands, check the box marked "YES".
6. Indicate the NUMBER of TANKS at this SITE.
7. Record the E.P.A. ID # or write "NONE" in the space provided.

II. PROPERTY OWNER INFORMATION & ADDRESS (MUST BE COMPLETED)

Complete all items in this section, unless all items are the same as SECTION I; If the same, write "SAME AS SITE" across this section. Be sure to check PROPERTY OWNERSHIP TYPE box.

III. TANK OWNER INFORMATION & ADDRESS (MUST BE COMPLETED)

Complete all items in this section, unless all items are the same as SECTION I; If the same, write "SAME AS SITE" across this section. Be sure to check TANK OWNERS TYPE box.

IV. BOARD OF EQUALIZATION UST STORAGE FEE ACCOUNT NUMBER (MUST BE COMPLETED PER ARTICLE 5, CHAPTER 6.05, DIVISION 20, CALIFORNIA HEALTH AND SAFETY CODE.)

Every owner of a facility with UST storage fee account number which is required before your permit application can be processed. Register with the BOE so that you will receive a quarterly storage fee return in reporting the Storage (monthly) per us that fee due on the number of gallons placed at your UST's. The BOE will credit percent exempt from paying the storage fee so returns will not be zero. If you do not have an account number with the BOE or if you have any questions regarding the fee or exemptions, please call the BOE at 916-227-0900 or write to the BOE at the following address: Board of Equalization, Fuel Taxes Division, P.O. Box 942679, Sacramento, CA 95826-2679.

V. PETROLEUM UST FINANCIAL RESPONSIBILITY (MUST BE COMPLETED FOR PETROLEUM UST'S ONLY, SEE SECTIONS 2711 (2)(5) OF TITLE 25, CHAPTER 16, CALIFORNIA CODE OF REGULATIONS.)

Identify the method(s) used by the owner and/or operator, in meeting the Federal and State financial responsibility requirements. UST's owned by any Federal or State agency as well as non-petroleum UST's are exempt from this requirement.

VI. LEGAL NOTIFICATION AND BILLING ADDRESS

Check (X) in box for the address that will be used for BOTH LEGAL AND BILLING NOTIFICATIONS.

TANK OWNER OR AUTHORIZED REPRESENTATIVE MUST SIGN AND DATE THE FORM AS INDICATED. (SEE SECTIONS 2711 (2)(9) OF TITLE 25, CHAPTER 16, CALIFORNIA CODE OF REGULATIONS.)

INSTRUCTION FOR THE LOCAL AGENCIES

The county jurisdictional number is predetermined and can be obtained by calling the State Board (916) 227-1300. The facility number may be assigned by the local agency; however, this number must be numerical and cannot contain any alphabetical characters. If the local agency prefers the State Board to assign the facility number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THIS APPLICATION CANNOT BE PROCESSED IF THE BOE ACCOUNT NUMBER IS NOT FILLED IN. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(s) TO THE FOLLOWING ADDRESS. THE LOCAL AGENCY SHOULD RETAIN THE ORIGINALS AND FORWARD THE YELLOW COPIES TO THE FOLLOWING ADDRESS. THE PINK COPY SHOULD BE RETAINED BY THE TANK OWNER.

THIS FORM MUST BE ACCOMPANIED BY A PERMIT APPLICATION - FORM A, UNLESS A CURRENT FORM A HAS BEEN FILED.
FILE THIS FORM WITH THE LOCAL AGENCY IMPLEMENTING THE UNDERGROUND STORAGE TANK REGULATIONS

INSTRUCTIONS FOR COMPLETING FORM

GENERAL INSTRUCTIONS:

1. One FORM "B" shall be completed for each tank for all NEW PERMITS, PERMIT CHANGES, REMOVALS and/or any other TANK INFORMATION CHANGE.
2. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
3. Please type or print clearly all requested information.
4. Use a hard point writing instrument; you are making 3 copies.

TOP OF FORM: MARK ONLY ONE ITEM

1. Mark an (X) in the box next to the item that best describes the reason the form is being completed.
2. Indicate the DBA or Facility name where the tank is installed.

I. TANK DESCRIPTION - COMPLETE ALL ITEMS - IF UNKNOWN - SO SPECIFY

- A. Indicate owners tank ID.# - If there is a tank number that is used by the owner to identify the tank (ex. AB70789).
- B. Indicate the name of the company that manufactured the tank (ex. ACME TANK MFG.).
- C. Indicate the year the tank was installed (ex. 1987).
- D. Indicate the tank capacity in gallons (ex. 25,000 or 10,000 etc.).

II. TANK CONTENTS

- A. 1. If MOTOR VEHICLE FUEL, check box 1 and complete items B & C.
2. If not MOTOR VEHICLE FUEL, check the appropriate box in section A and complete items B & D.
- B. Check the appropriate box.
- C. Check the type of MOTOR VEHICLE FUEL (if box 1 is checked in A).
- D. Print the chemical name of the hazardous substance stored in the tank and the C.A.S.#. (Chemical Abstract Service number); if box 1 is NOT checked in A.

III. TANK CONSTRUCTION - MARK ONE ITEM ONLY IN BOX A, B, C & D

1. Check only one item in TYPE OF SYSTEM, TANK MATERIAL, INTERIOR LINING and CORROSION PROTECTION.
2. If OTHER, print in the space provided.

IV. PIPING INFORMATION

1. Circle A if above ground; circle U if underground; and circle both if applicable.
2. If UNKNOWN, circle; or if OTHER, print in space provided.
3. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirement for the piping.

V. TANK LEAK DETECTION

1. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirements for the tank.

VI. INFORMATION ON TANK PERMANENTLY CLOSED IN PLACE

1. ESTIMATED DATE LAST USED - MONTH/YEAR (January, 1988 or 01/88).
2. ESTIMATED QUANTITY of HAZARDOUS SUBSTANCE remaining in the tank (in Gallons).
3. WAS TANK FILLED WITH INERT MATERIAL? Check 'Yes' or 'NO'.

APPLICANT MUST SIGN AND DATE THE FORM AS INDICATED

INSTRUCTION FOR THE LOCAL AGENCIES

The state underground storage tank identification number is composed of the two digit county number, the three digit jurisdiction number, the six digit facility number and the six digit tank number. The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916)739-3421. The facility number must be the same as shown in form "A". The tank number may be assigned by the local agency; however, this number must be numerical and cannot contain an alphabet. If the local agency prefers the State Board to assign the tank number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B" TO THE FOLLOWING ADDRESS.

THIS FORM HAS BEEN COMPLETED UNDER PENALTY OF PERJURY, AND TO THE BEST OF MY KNOWLEDGE, IS TRUE AND CORRECT

APPLICANT'S NAME (PRINTED & SIGNATURE) <u>Michael Corcoran, Vice President</u>	DATE <u>8-29-97</u>
--	---------------------

LOCAL AGENCY USE ONLY THE STATE I.D. NUMBER IS COMPOSED OF THE FOUR NUMBERS BELOW

STATE I.D.#	COUNTY #	JURISDICTION #	FACILITY #

PERMIT NUMBER	PERMIT APPROVED BY/DATE	PERMIT EXPIRATION DATE
---------------	-------------------------	------------------------

THIS FORM MUST BE ACCOMPANIED BY A PERMIT APPLICATION - FORM A, UNLESS A CURRENT FORM A HAS BEEN FILED.
FILE THIS FORM WITH THE LOCAL AGENCY IMPLEMENTING THE UNDERGROUND STORAGE TANK REGULATIONS

INSTRUCTIONS FOR COMPLETING FORM

GENERAL INSTRUCTIONS:

1. One FORM "B" shall be completed for each tank for all NEW PERMITS, PERMIT CHANGES, REMOVALS and/or any other TANK INFORMATION CHANGE.
2. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
3. Please type or print clearly all requested information.
4. Use a hard point writing instrument. you are making 3 copies.

TOP OF FORM: "MARK ONLY ONE ITEM"

1. Mark an (X) in the box next to the item that best describes the reason the form is being completed.
2. Indicate the DBA or Facility name where the tank is installed.

I. TANK DESCRIPTION - COMPLETE ALL ITEMS - IF UNKNOWN - SO SPECIFY

- A. Indicate owners tank ID, # - If there is a tank number that is used by the owner to identify the tank (ex. AB7D785).
- B. Indicate the name of the company that manufactured the tank (ex. ACME TANK MFG.).
- C. Indicate the year the tank was installed (ex. 1987).
- D. Indicate the tank capacity in gallons (ex. 25,000 or 10,000 etc.).

II. TANK CONTENTS

- A. 1. IF MOTOR VEHICLE FUEL, check box 1 and complete items B & C.
2. If not MOTOR VEHICLE FUEL, check the appropriate box in section A and complete items B & D.
- B. Check the appropriate box.
- C. Check the type of MOTOR VEHICLE FUEL (if box 1 is checked in A).
- D. Print the chemical name of the hazardous substance stored in the tank and the C.A.S.#. (Chemical Abstract Service number), if box 1 is NOT checked in A.

III. TANK CONSTRUCTION - MARK ONE ITEM ONLY IN BOX A, B, C & D

1. Check only one item in TYPE OF SYSTEM, TANK MATERIAL, INTERIOR LINING and CORROSION PROTECTION.
2. IF OTHER, print in the space provided.

IV. PIPING INFORMATION

1. Circle A if above ground; circle U if underground; and circle both if applicable.
2. IF UNKNOWN, circle; or IF OTHER, print in space provided.
3. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirement for the piping.

V. TANK LEAK DETECTION

1. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirements for the tank.

VI. INFORMATION ON TANK PERMANENTLY CLOSED IN PLACE

1. ESTIMATED DATE LAST USED - MONTH/YEAR (January, 1988 or 01/88).
2. ESTIMATED QUANTITY of HAZARDOUS SUBSTANCE remaining in the tank (in Gallons).
3. WAS TANK FILLED WITH INERT MATERIAL? Check 'Yes' or 'NO'.

APPLICANT MUST SIGN AND DATE THE FORM AS INDICATED.

INSTRUCTION FOR THE LOCAL AGENCIES

The state underground storage tank identification number is composed of the two digit county number, the three digit jurisdiction number, the six digit facility number and the six digit tank number. The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916)739-2421. The facility number must be the same as shown in form "A". The tank number may be assigned by the local agency; however, this number must be numerical and cannot contain an alphabet. If the local agency prefers the State Board to assign the tank number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE LOCAL AGENCY USE ONLY INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B" TO THE FOLLOWING ADDRESS.

THIS FORM HAS BEEN COMPLETED UNDER PENALTY OF PERJURY, AND TO THE BEST OF MY KNOWLEDGE, IS TRUE AND CORRECT

APPLICANT'S NAME (PRINTED & SIGNATURE) Michael Corcoran, Vice President DATE 8-29-97

LOCAL AGENCY USE ONLY THE STATE I.D. NUMBER IS COMPOSED OF THE FOUR NUMBERS BELOW

STATE I.D.#	COUNTY #	JURISDICTION #	FACILITY #	TANK #
PERMIT NUMBER	PERMIT APPROVED BY/DATE	PERMIT EXPIRATION DATE		

THIS FORM MUST BE ACCOMPANIED BY A PERMIT APPLICATION - FORM A, UNLESS A CURRENT FORM A HAS BEEN FILED.
FILE THIS FORM WITH THE LOCAL AGENCY IMPLEMENTING THE UNDERGROUND STORAGE TANK REGULATIONS

INSTRUCTIONS FOR COMPLETING FORM

GENERAL INSTRUCTIONS:

1. One FORM "B" shall be completed for each tank for all NEW PERMITS, PERMIT CHANGES, REMOVALS and/or any other TANK INFORMATION CHANGE.
2. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
3. Please type or print clearly all requested information.
4. Use a hard point writing instrument. you are making 3 copies.

TOP OF FORM: "MARK ONLY ONE ITEM"

1. Mark an (X) in the box next to the item that best describes the reason the form is being completed.
2. Indicate the DBA or Facility name where the tank is installed.

I. TANK DESCRIPTION - COMPLETE ALL ITEMS - IF UNKNOWN - SO SPECIFY

- A. Indicate owners tank ID.# - If there is a tank number that is used by the owner to identify the tank (ex. AB70789).
- B. Indicate the name of the company that manufactured the tank (ex. ACME TANK MFG.).
- C. Indicate the year the tank was installed (ex. 1987).
- D. Indicate the tank capacity in gallons (ex. 25,000 or 10,000 etc.).

II. TANK CONTENTS

- A. 1. If MOTOR VEHICLE FUEL, check box 1 and complete items B & C.
2. If not MOTOR VEHICLE FUEL, check the appropriate box in section A and complete items B & D.
- B. Check the appropriate box.
- C. Check the type of MOTOR VEHICLE FUEL (if box 1 is checked in A).
- D. Print the chemical name of the hazardous substance stored in the tank and the C.A.S.#. (Chemical Abstract Service number), if box 1 is NOT checked in A.

III. TANK CONSTRUCTION - MARK ONE ITEM ONLY IN BOX A, B, C & D

1. Check only one item in TYPE OF SYSTEM, TANK MATERIAL, INTERIOR LINING and CORROSION PROTECTION.
2. If OTHER, print in the space provided.

IV. PIPING INFORMATION

1. Circle A if above ground; circle U if underground; and circle both if applicable.
2. If UNKNOWN, circle: or if OTHER, print in space provided.
3. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirement for the piping.

V. TANK LEAK DETECTION

1. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirements for the tank.

VI. INFORMATION ON TANK PERMANENTLY CLOSED IN PLACE

1. ESTIMATED DATE LAST USED - MONTH/YEAR (January, 1988 or 01/88).
2. ESTIMATED QUANTITY of HAZARDOUS SUBSTANCE remaining in the tank (in Gallons).
3. WAS TANK FILLED WITH INERT MATERIAL? Check "Yes" or "NO".

APPLICANT MUST SIGN AND DATE THE FORM AS INDICATED.

INSTRUCTION FOR THE LOCAL AGENCIES

The state underground storage tank identification number is composed of the two digit county number, the three digit jurisdiction number, the six digit facility number and the six digit tank number. The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916)739-2421. The facility number must be the same as shown in form "A". The tank number may be assigned by the local agency; however, this number must be numerical and cannot contain an alphabet. If the local agency prefers the State Board to assign the tank number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(s) TO THE FOLLOWING ADDRESS.

**SUBJECT: REMOVAL OF SIX UNDERGROUND STORAGE TANKS AT
26999 5TH STREET, HIGHLAND**

The Department has reviewed the report dated September 26, 1997, submitted by Bradley Environmental for the facility at the subject address. The results indicate that contamination remaining in the excavation is below that which is generally considered a problem and further investigation is not warranted at this time.

It is important to note that this does not constitute a release of liability for contamination remaining on site or contamination not detected. Should site conditions change, the Department may require further investigation and remedial action.

If you have any questions, please call (909) 387-3082.

MANIFEST # 96764252 SCAQMD REFERENCE # _____ DRY ICE USED (10-15 # / 1000 g) 900 lbs

NOTES:
 Removed six single wall steel USTs, fuel dispensers and related piping. Soil samples were collected under all USTs and from the excavated soil stock piles. Laboratory analytical results to follow.
 Note: Soil samples were not collected under the fuel dispensers due to undermining of the dispenser island and canopy. Sample will be collected at a later time.

COMPANY NAME CITY

Ina Tyson Contract Mgr.
PERSON CONTACTED POSITION

DISCUSSION:

4-15-91 spoke with Mrs. Tyson. Advised that \$1103.15 would bring permits existing up to date for 1989. She would then be billed for 1990. I also advised that no generator permit existed and that I would do the paperwork necessary to obtain the permit and then bill for the permit.

① Current fees for the underground storage tanks must be paid within 2 weeks to prevent further legal action.
 Permits must be posted on site once received from this Dept.

② Stick readings must be kept in a log sheet and made available for inspection.

③ Quarterly reports regarding inventory reconciliation will need to be submitted every quarter.

Received By _____

Date _____

August 2, 1988

To: San Bernardino County
Department of Environmental
Hazardous Waste & Toxic Control
385 North Arrowhead Avenue
San Bernardino, California 92415-0160

From: Meyer Constructor
P.O. Box 928
Azusa, California 91702

Subject: To place the site located at: 26999 5th Street,
Highland, Ca., in full compliance with all state
and county underground storage container rules and
regulations.

Tank Data

Tank Number 1: 4,000 gallon

Product: Gasoline

Manufacturer: Unknown

Date Manufactured: 1978

Date Installed: 1980

Construction: Single wall, 5/16 inch, steel, coated with
Koppers Super Tank

Secondary Containment: None

Dispensing Method: Turbine Pump

Present Leak Detection: Manual inventory and annual precision

Tank History: No known leak history or history of spillage

Piping: Pressurized, no known leakage or repairs. Tanks 1 &
2 are siphoned together

Tank Number 2: 6,000 gallon

Product: Gasoline

Manufacturer: Unknown

Date Manufactured: 1978

Date Installed: 1980

Construction: Single wall, 5/16 inch, steel, coated with
Koppers Super Tank

Secondary Containment: None

Dispensing Method: Turbine Pump

Present Leak Detection: Manual inventory System and annual
precision tank test

Tank History: No known leak history or history of spillage

Piping: Pressurized, no known leakage or repair. Tanks 1 & 2
are siphoned together

Tank Number 3: 7,500 gallon

Product: Diesel

Manufacturer: Unknown

Date Manufactured: 1978

Date Installed: 1980

Construction: Single wall, 5/16, steel, coated with Koppers
Super Tank

Secondary Containment: None

Dispensing Method: Turbine pump

Present Leak Detection: Manual inventory and annual precision
tank test

Tank History: No known leak history or history of spillage

Piping: Pressurized, no known leakage or repair. Tanks 3 & 4
are manifolded

Tank Number 4: 7,500 gallon

Product: Diesel

Manufacturer: Unknown

Date Manufactured: 1978

Date Installed: 1980

Construction: Single wall, 5/16, steel, coated with Koppers
Super Tank

Secondary Containment: None

Dispensing Method: Turbine pump

Present Leak Detection: Manual inventory and annual precision tank test

Tank History: No known leak history or history of spillage

Piping: Pressurized, no known leakage or repair. Tanks 3 & 4 are manifolded

Tank Number 5: 10,000 gallon

Product: Diesel

Manufacturer: Unknown

Date Manufactured: 1978

Date Installed: 1980

Construction: Single wall, 5/16, steel, coated with Koppers Super Tank

Secondary Containment: None

Dispensing Method: None

Present Leak Detection: Manual inventory and annual precision tank test

Tank History: No known leak history or history of spillage

Piping: N/A, tank is reserve storage only, fuel is transferred to tanks 3 & 4 by portable transfer pump

Tank Number 6: 10,000 gallon

Product: Diesel

Manufacturer: Unknown

Date Manufactured: 1978

Date Installed: 1980

Construction: Single wall, 5/16, steel, coated with Koppers Super Tank

Secondary Containment: None

Dispensing Method: None

Present Leak Detection: Manual inventory and annual precision tank test

Tank History: No known leak history or history of spillage

Piping: N/A, tank is reserve storage only, fuel is transferred to tanks 3 & 4 by portable transfer pump

Hydrology

Underground Water Level: 110 feet

Site Elevation: 1,100 feet

Nearest Well: 500 feet east of Palm and 3rd Street, approximately 3/4 mile from this site. Water level at well is 103 feet

Well Usage: Not used

Water Quality: Bad

Soil at Site: Soil consists of holocene and earlier sands and gravels

Proposed Monitoring Option

1. Daily inventory reconciliation: To be performed by shop foreman of Mayflower Contract Services (Leasee of property).
2. Annual precision tank test: To be conducted yearly in the monthly of July.
3. The two pressurized lines will be retrofited with pipeline leak detectors.

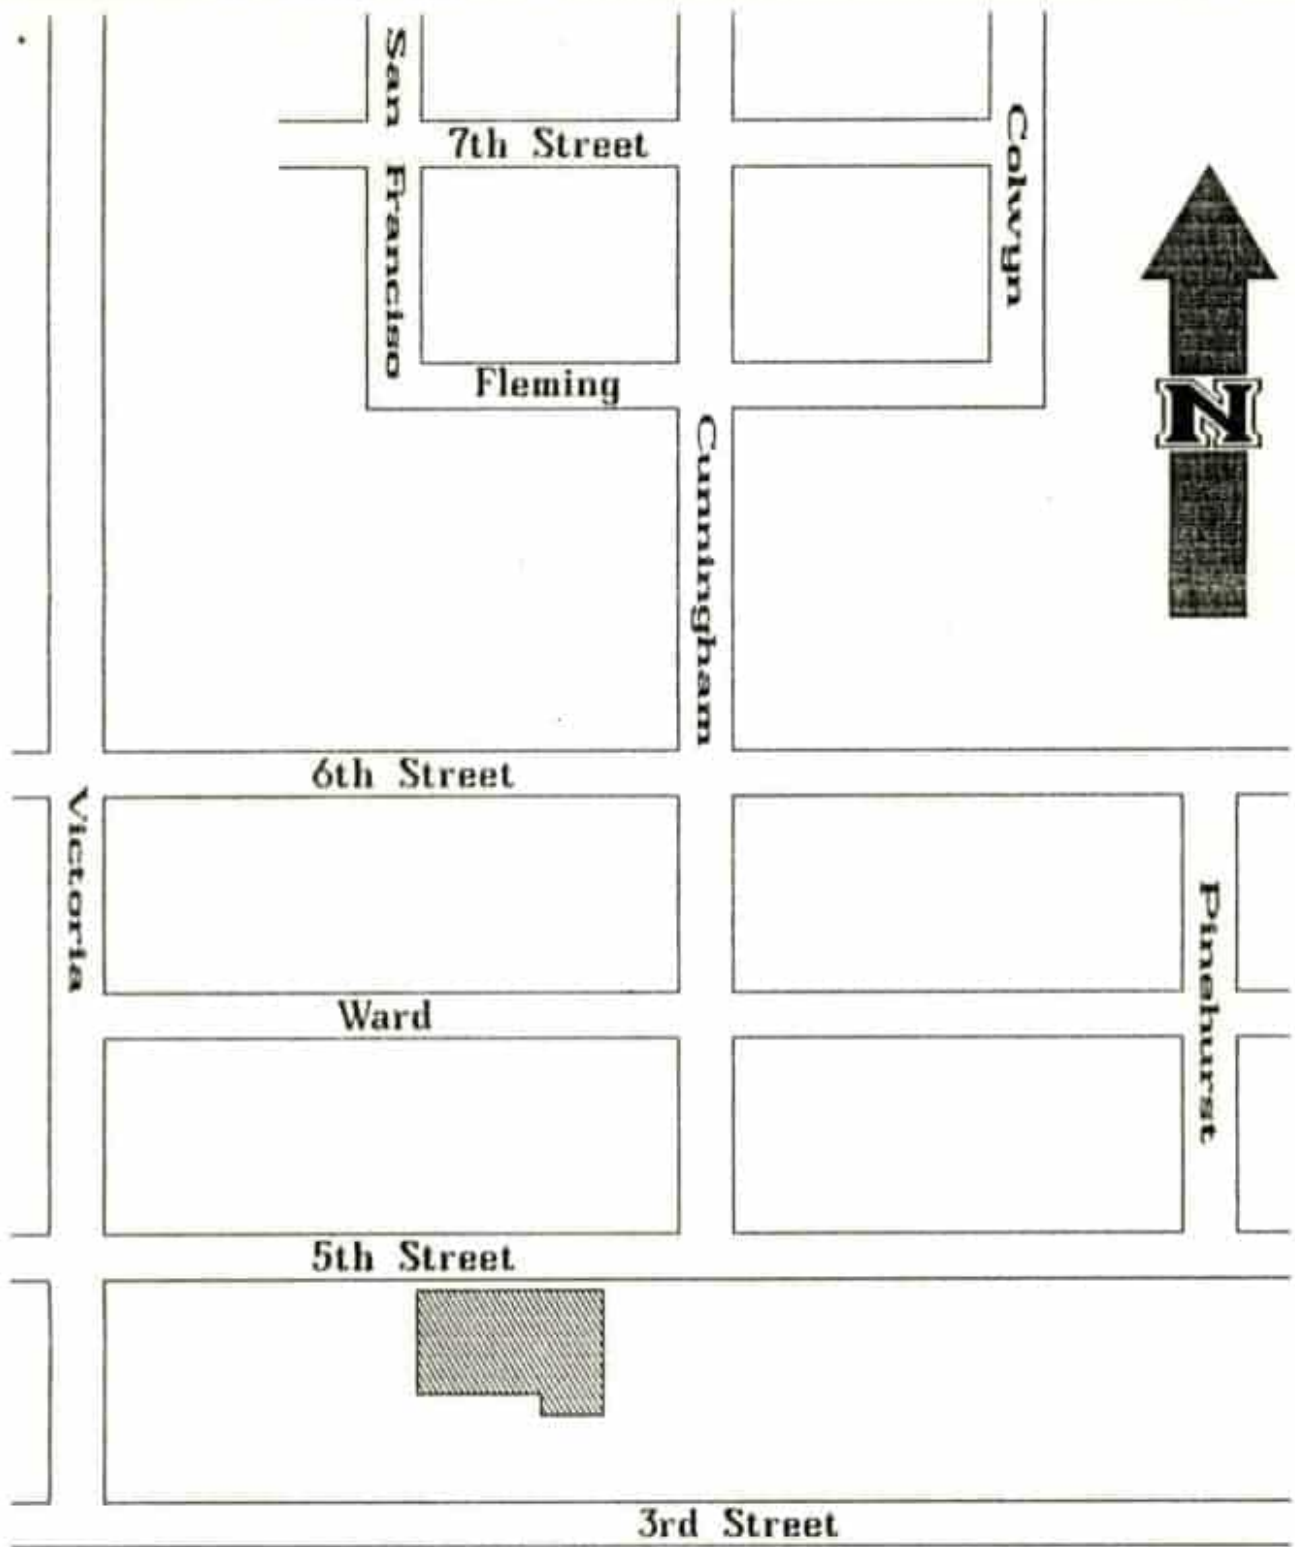

The two pipelines shall be monitored continuously using an automatic on-line pressure loss detector and flow restrictor device.

The gasoline system will be retrofited with a flow restrictor.

Attn: Mark Mayers

SUBJECT: ENVIRONMENTAL SENSITIVE AREAS

The area around your establishment is contained within the City Creek Outwash Fan. This active fan consists of Holocene and earlier sands and gravels. The permeability and/or transmissivity of these materials is very high. Water and other liquids pass through these and flow directly into the aquifer from which San Bernardino, adjacent and downstream cities get their public drinking water. According to Dr. Stuart Long this aquifer is less than one hundred feet below your establishment. For the above stated reasons this is an environmentally sensitive area and should be treated as such when designing your monitoring proposal.

The variability referred to in alternative #13 is the frequency with which you monitor the vadose well. In sensitive conditions this should be done continuously and the fillpapas should be retrofit with spill containment boxes.

If you have other evidence, concerning this matter, that you feel changes our analysis of the situation please submit it to this Department and we will evaluate it.

Attention: Mr. Ronald A. Ripley, R.S.

RE: Underground Storage Tank Standards
Leak Detection Plan, 1986

Mr. Ripley,

On 5-4-86 I received a bulletin from a trade paper stating a requirement to notify our local agency and report the age, size, type, location, and uses of any underground storage tanks in use. On 5-8-86 I had a conversation with Vickey at your department whereby I provided her with the information requested. Vickey indicated she would send me the necessary information on obtaining the proper permits which I received 5-14-86. I discovered the requirements for these permits to be very extensive and required immediate attention because of the time required to comply with said requirements.

After reviewing the information and the potential costs involved, I met with the partners of the company to discuss our needs for the storage fuel tanks. It was decided that I research methods to produce a leak detection plan as required in "Section I General, Item A2".

I contacted Mr. Stuart Long at your department and obtained our groundwater levels via telephone 5-28-86. I then called a local gas station owner whom I know, seeking advice as to how I might get in contact with professional assistance in this matter. He suggested a company called Elmer J. Wood, Inc.. I discussed our problem with Tina at Elmer Woods office and she indicated they were booked so far ahead that it would be thirty days or more until their crew could come to our yard and make an evaluation of our needs.

Please note on 5-29-86 I had a telephone conversation with Betty McGregor at your department asking for clarification of some material covered in the leak detection plan requirements (e.g. Are we required to install Retrofit Line Leak Detectors ?) and to seek assistance in expediting the plan. I explained to

her the difficulty I was having in preparing the plan and informed her of my conversation with Elmer Wood's office. She indicated that she was aware of Elmer J. Wood, Inc. and said that she "understood completely" the problems I discussed. I stressed the fact that it is unlikely we will complete the leak detection plan before 5-31-66, thus I was very concerned. She indicated that considering the timing involved and the overload at the County she could substantiate a "grace period" reasonable enough for us to complete our plan. She will also send an ample list of professionals to assist us with the completion of our leak detection plan in a timely manner.

Sincerely,
Meyer Constructors

REQUIREMENTS FOR EXEMPTION

Note: Quantities are based on the maximum amount of hazardous materials and/or hazardous waste on site at any time. Materials in the course of transportation are exempt only when under active shipping papers.

1. Facility will not handle extremely hazardous substances exceeding threshold planning quantities or regulated substances exceeding threshold quantities.
2. Facility will not handle any quantity of:
 - ✓ Category I or II pesticides
 - ✓ DOT Class 1 explosives
 - ✓ Radioactive substances
3. Facility will generate no quantity of hazardous wastes.
4. Facility handles or will handle less than 55 gallons of a liquid, 500 pounds of a solid, or 200 cubic feet of any compressed gas

Additional exemptions may include:

- A. If the facility is a medical office only handling oxygen, nitrogen, or nitrous oxide in quantities no more than 1,000 cubic feet
- B. If the only hazardous material present at the facility is new lubricating oil and the total volume of each type of lubricating oil does not exceed 55 gallons and the total volume of all types of lubricating oil does not exceed 275 gallons at any one time.
- C. The only hazardous materials present at the facility is 300 gallons or less of propane used solely for heating employee work areas
- D. All hazardous materials exceeding these quantities are consumer products for direct distribution to, and use by the general public.

HAZARDOUS WASTE GENERATOR AND HAZARDOUS MATERIALS HANDLER INSPECTION REPORT

FA #: FA0000045 Facility Name: A & I Automotive Repair Inspection Date: December 6, 2007
Site Address: 27114 E. 3rd Street Phone #: (909) 425-8468
City: Highland Zip Code: 92346 EPA ID #:

Consent Granted by:
[] Inspect [] Photograph Name: Chris (employee of new business) Title: # Emp:

Refer to Title 19 and Title 22 of the California Code of Regulations (CCR), Chapter 6.5 of the Health and Safety Code (CHSC) and Division 3 of Title 2 of the San Bernardino County Code (CC). The following code sections are either in Violation (V) of, in Compliance (C) with, the applicable laws and regulations, or compliance is not applicable, not addressed or unknown (N).

Table with columns for GENERAL REQUIREMENTS FOR GENERATORS, GENERAL REQUIREMENTS FOR HANDLERS, STORAGE AND LABELING REQUIREMENTS, HAZARDOUS WASTE RECORDS AND MANIFESTS, and DISPOSAL AND TRANSPORTATION. Includes compliance status (V, C, N) for various codes.

INSPECTION NARRATIVE
An inspection was conducted to confirm closure of this business as stated in a letter received from A & I Auto sent on August 23, 2007. The letter stated that as of May 31, 2007 the business closed and ceased all business operations. This was an automotive repair facility that was previously inspected by this department on May 11, 2005.

After an inspection, I observed numerous containers of hazardous waste including waste oil, waste coolant, used oil filters, and other possible unknowns. All of these items were observed in the area that was used as hazardous waste storage by A & I Automotive. A tire business is now being operated at this location and does not appear to generate any hazardous waste at this time. Many of the containers observed were the same containers observed during the 2005 inspection and stored in the same area.

Continued on the next page.....

[X] NOTICE OF VIOLATION: THE VIOLATIONS NOTED ABOVE MUST BE CORRECTED WITHIN 45 DAYS. FAILURE TO COMPLY MAY RESULT IN LEGAL ACTION. THE CERTIFICATE OF COMPLIANCE SHALL BE SUBMITTED WITHIN THE TIME PERIOD NOTED ABOVE.

SUPPLEMENTAL INSPECTION REPORT

Page 2 of 3

INSPECTION DATE: 12/06/07

FACILITY ID FA0000045	FACILITY NAME: A & I Automotive Repair	FACILITY LOCATION: 27114 E. 3rd Street, Highland
Consent Granted by: <input type="checkbox"/> Inspect <input type="checkbox"/> Photograph	NAME Chris	TITLE Tire business employee

Hazardous Waste Inventory (located in the hazardous waste storage area:

- 1x55 gallon drum of used oil filters
- 1x250 gallon tote of used oil
- 4x55 gallon drums of unknown materials, partially full
- 1x110 gallon oil cube, partially filled with oil
- 2x5 gallon buckets of oily rags
- 2 small buckets of transmission fluid
- 1x30 gallon drum of unknown material
- 1x20 gallon drum of unknown material
- various size empty drums and containers

The following items were located in the old walk in refrigerator :

- 7x55 gallon drums, some empty and some full with unknown contents
- 2x5 gallon buckets with unknown contents
- 2x10 gallon drums with unknown contents
- 1x55 gallon drum with unknown contents

Violations to be Corrected within 45 days:

- #106- Facility not operated to prevent release of hazardous materials. CCR 66265.31
- #114- Hazardous waste containers not sound. CCR 66262.171
- #115- Hazardous waste containers leaking. CCR 66265.173(b)
- #116- Hazardous waste containers not closed. CCR 66265.173(a)

There were numerous containers observed in the hazardous waste storage area that are either leaking and not sound, or were open and exposed to the elements, enabling them to leak or overflow.

Compliance Requirement: After all the hazardous waste has been removed, clean all the spilled waste oil from the hazardous waste storage area of the property. Dispose of the used absorbent (used to clean the spilled oil) as a hazardous waste. Be sure that the used absorbent is shown on the hazardous waste manifest or consolidated manifest.

NOTICE OF VIOLATION: THE VIOLATIONS NOTED ABOVE MUST BE CORRECTED WITHIN 45 DAYS. FAILURE TO COMPLY MAY RESULT IN LEGAL ACTION. THE CERTIFICATE OF COMPLIANCE SHALL BE SUBMITTED WITHIN THE TIME PERIOD NOTED ABOVE.

SUPPLEMENTAL INSPECTION REPORT

Page 3 of 3

INSPECTION DATE: 12/06/07

FACILITY ID FA0000045	FACILITY NAME: A & I Automotive Repair	FACILITY LOCATION: 27114 E. 3rd Street, Highland
Consent Granted by: <input type="checkbox"/> Inspect <input type="checkbox"/> Photograph	NAME Chris	TITLE Tire business employee

Violations Continued:

#110- Tank/container not labeled "Hazardous Waste". CCR 66262.34(f)(3)

#111- Hazardous waste label not complete. CCR 66262.34(f)(3)

#112- Accumulation start date not on containers. CCR 66262.34(f)(2)

None of the hazardous waste containers that were observed on the property were properly labeled as hazardous waste, making it difficult to identify the contents in case of a fire or release of the materials inside.

#113- Hazardous waste accumulation time has been exceeded. CCR 66262.34

#135- Used oil not managed properly. CHSC 25250.4

When a facility generates less than 1,000 kg of hazardous waste per month, there is a time limit in which one has to dispose of the hazardous waste. The time limit to dispose of the hazardous waste for your business is 180 days. The hazardous waste on your property has exceeded its accumulation time limit and must be disposed of.

Compliance Requirement: Dispose of all the hazardous waste on the property within 45 days of receipt of this report. That includes all the waste oil, used oil filters, and any unknown hazardous waste. Provide a copy of the receipt showing removal of the hazardous waste to this department. Failure to dispose of the hazardous waste will result in the continued requirement to maintain an active hazardous waste generator permit for this business as well as further legal action by this department.

#138- Used oil filters not managed lawfully. CCR 66266.130

The used oil filters seen on the property have exceeded their accumulation time limit of 180 days. The container was not properly covered and secured, and was not properly labeled.

Compliance Requirement: Have all of the used oil filters on the property hauled by an approved hazardous waste hauler. Provide a copy of the manifest or consolidated manifest to this department.

Submit all the required documentation along with a signed Certificate of Compliance within 45 days of receipt of this report.

NOTICE OF VIOLATION: THE VIOLATIONS NOTED ABOVE MUST BE CORRECTED WITHIN 45 DAYS. FAILURE TO COMPLY MAY RESULT IN LEGAL ACTION. THE CERTIFICATE OF COMPLIANCE SHALL BE SUBMITTED WITHIN THE TIME PERIOD NOTED ABOVE.

SUPPLEMENTAL INSPECTION REPORT

FACILITY NAME:

Avi Automotive Repair

FACILITY LOCATION:

27114 3rd St., Highland

Hazardous Waste Inventory:

1x 55 gal drum of used oil filters.

1x 350 AST of waste oil

1x 55 gal ~~drum~~ transfer drum of waste oil (from oil filters)

Hazardous Material Inventory:

1x 30 gal parts washer

1x 249 ft³ oxygen ; 1x 150 ft³ acetylene

2x 5 gal propane tanks

1x 5 gal freon recovery unit

Violations to be corrected within 30 days:

#106 → Many waste oil containers were left open with no secondary spill containment. All waste oil and hazardous waste containers must be closed at all times ~~except~~ (unless being filled) to prevent an accidental release. Use closeable drums for used drained oil filters and waste oil. Provide a statement confirming that used filter are being stored in closeable drums. Also state that waste oil drums are all closed.

#110-112 → ~~the~~ waste oil containers were not labeled. Place hazardous waste labels on all waste oil drums and ~~to~~ complete the labels including an accumulation start date. Provide a statement confirming the placement of hazardous waste labels on all waste oil drums.

SUPPLEMENTAL INSPECTION REPORT

FACILITY NAME:

A+I Automotive Repair

FACILITY LOCATION:

27114 3rd St., Highland

Violations to be corrected within 30 days:

#114+116 → Some hazardous waste containers were not in sound condition or were not closed. Recycle or remove all damaged waste containers and close all open containers. Provide a statement confirming that all open containers are closed and damaged containers removed or recycled.

#117 → Have all empty contaminated containers removed if they are ~~not~~ no longer used.

#118 → The hazardous waste/waste oil storage area should be inspected weekly. Provide 3 weekly inspection forms confirming weekly inspections.

#137 → Receipts showing removal of used oil were not available at the inspection. Provide a copy of the most recent and the previous waste oil pickup.

#138 → All used drained oil filters must be kept in a closed container and not be saturated in waste oil. All oil filter containers must be labeled "USED DRAINED OIL FILTERS" and include an accumulation start date. Provide a statement confirming that filters have been transferred into appropriate containers and have been properly labeled.

#139 → All used batteries must be removed or recycled by an approved hauler. Provide a copy of receipt showing removal of used batteries.

SUPPLEMENTAL INSPECTION REPORT

FACILITY NAME:

A & I Automotive Repair

FACILITY LOCATION:

27114 E. 3rd St., Highland

Correct the following violations:

1. Obtain hazardous material handler and hazardous waste generator permits by paying invoice upon receipt.
2. Obtain an EPA ID # by calling 1-800-618-6942.
3. Hazardous waste containers must be labeled with a hazardous waste label. A label was left onsite. Submit a letter stating hazardous waste containers are properly labeled.
4. Hazardous waste storage areas must be inspected weekly. A sample inspection checklist was left onsite. Submit copies of 3 weekly inspection checklists.
5. Drained used oil filters must be stored in a container labeled "NON HAZARDOUS Drained Used Oil Filters," along with the accumulation start date. Used oil filters must be removed at least once a year by a licensed transporter for recycling. Removal receipts must be retained for at least 3 years.
6. Hazardous waste removal receipts were not available for used solvent and used oil filters. Have these hazardous wastes removed by a licensed hazardous waste hauler and submit copies of removal receipts to this Division.
7. Complete and submit the enclosed Recyclable Materials Reporting form for recycled antifreeze.
8. Complete the Business Emergency/Contingency Plan on forms provided during the inspection. Submit the original plus one copy and keep an additional copy onsite at all times.

Submit signed Certificate of Compliance with required documentation to this Division. If you have any questions, please call me at 909-387-3080.

NOTICE OF VIOLATION: THE VIOLATIONS NOTED ABOVE MUST BE CORRECTED WITHIN 30 DAYS. FAILURE TO COMPLY MAY RESULT IN LEGAL ACTION. THE CERTIFICATE OF COMPLIANCE SHALL BE SUBMITTED WITHIN THE TIME PERIOD NOTED ABOVE.

COUNTY FIRE DEPARTMENT
HAZARDOUS MATERIALS

II. SUBMISSION CHECKLIST

(Complete this Section if submitting an entire business emergency/contingency plan whether new or revised)

This submission is a complete business emergency/contingency plan

- Submission Checklist (✓) *considered 'inventory' under state disclosure laws
- *Business Activities Form and *Business Owner/Operator Identification Form
 - *Supplemental Emergency Contact Page
 - Emergency Response Plans and Procedures
 - *Hazardous Materials Inventory Summary Form for the facility listing materials (including wastes) by item number.
 - *One Hazardous Materials Inventory Form for each hazardous material (including wastes) which meet reporting criteria
 - *Material Safety Data Sheets attached to the inventory form of each material not listed in Appendix I.
 - *Facility map (using grid form provided) consisting of all required features including the location of each inventoried item.
 - Site map (using grid form provided) consisting of all required features including surrounding facilities and areas.
 - Area map - photocopied city map with location of site indicated
 - Owner/Operator has signed and dated the plan and all required individual pages of the plan.
 - Submit 2 copies to the Hazardous Materials Division. One is for distribution to the local fire jurisdiction.
 - Retain one copy of the business plan at the facility.

III. UPDATE/CERTIFICATION

(Complete this Section if submitting a partial update or recertifying an existing Plan)

Check the appropriate boxes below and sign the certification statement. Submit 2 copies of all update information.

- Please incorporate the following into my business emergency/contingency plan.
 - New Business Owner/Operator Identification Form
 - New Inventory Forms and new Inventory Summary Form (and maps, if affected).
 - New Supplemental Emergency Contact Page.
 - Other:

Brief Explanation of Changes:

- There have been no changes to the inventory. In place of submitting the annual inventory, I hereby attest to all of the following:
 - The information contained in the inventory most recently submitted to the GUPA is complete, accurate and up to date.
 - There has been no change in the quantity, storage, or handling of hazardous materials (including waste) reported in the most recently submitted inventory.
 - No hazardous materials (including waste) subject to inventory requirements are being handled that are not listed on the most recently submitted inventory.
 - This certification is not being made to meet annual inventory submission requirements of EPCRA. (EPCRA requires complete annual submission)

IV. SIGNATURE

(Complete this Section for all submissions)

Certification - Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted on this document and believe the information is true, accurate and complete.

BUSINESS DESCRIPTION
 General AUTO REPAIR

Number of Underground Storage Tanks located at this facility 0

Does this facility:

Store liquid petroleum (not petroleum gases) in a single aboveground tank greater than 660 gallons?	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
Have a cumulative aboveground liquid petroleum (not including petroleum gases) storage capacity of greater than 1320 gallons? This includes both product and waste and includes tank and drum storage.	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
Store or handle extremely hazardous substances at a quantity above threshold planning quantity? (See Appendix B of this guide)	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
Is this site subject to EPCRA section 311 & 312 (Emergency Planning and Community Right-to-Know Act)? (See page i for description)	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
Store or handle Regulated Substances (see Appendix C) in excess of threshold quantity?	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
Name(s) of Regulated Substances:		
Does this facility have a laboratory on site	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
If yes, attach a general description of the laboratory and a brief description of the type(s) and quantity of hazardous materials in the lab.		

III. VULNERABLE POPULATIONS

Is there a school, hospital, or extended care facility within 1,000 ft. (straight-line distance) of this facility? YES NO

If yes, provide name and address of each school hospital or extended care facility site:

Date: 1/12/07

EMERGENCY RESPONSE PLANS AND PROCEDURES

State Law requires your business to complete all sections of the Emergency Response Procedure listed below:
 For each of the following, briefly describe your business standard operating procedures relating to the release or threatened release of hazardous materials located at your facility. You may attach additional pages if necessary, but do not include copies of facility manuals unless requested to do so by this Department. You may reference manuals that are used by your facility for these procedures, but you must still give a brief description of policy.

EVACUATION/NOTIFICATION: Indicate location(s) where employees, customers, visitors or others on site are to evacuate in an emergency. Describe how your business will immediately notify people and evacuate the facility in the event of a release or threatened release of hazardous materials. Include the route and meeting place.

IN CASE OF EMERGENCY, ALL EMPLOYEES, CUSTOMERS, AND VISITORS WILL BE ESCORTED TO THE EVACUATION STAGING AREA LOCATED AT THE FRONT OF THE BUILDING NEAREST 3rd ST.

PREVENTION/MITIGATION/ABATEMENT: Describe what policies and procedures your business will follow to prevent, reduce and/or remove the hazard to persons, property or the environment caused by a release or threatened release of hazardous materials and/or hazardous wastes. (✓ Check those items that apply and write additional information in the space provided)

- Reduction of containers on site if not used or needed.
- Containers are properly labeled and closed when not in use.
- Compressed gas cylinders are properly secured.
- Use of monitoring system. Type: _____
- Other:

- All containers are inspected weekly to ensure proper labeling and closure of containers

- USED OIL is removed quarterly AT THE LATEST

EMERGENCY RESPONSE PLANS AND PROCEDURES -- PAGE 2

FACILITY TRAINING PLAN: Describe employee and operator training including local emergency response coordination, use of facility emergency equipment, and provisions for initial and refresher training. In addition, describe training for hazardous materials/waste handling as required by OSHA. (✓ Check those items that apply and write additional information in the space provided)

- New employee training.
- Annual training & periodic refresher courses.
- Familiarization with the Emergency Response Plans and Procedures of this Business Plan.
- On the job training. Describe below.
- Other:

*Owners have between them
 32 years of Experience in the Auto
 Repair Business*

EMERGENCY PROCEDURES: Give duties of the Emergency Coordinator and how implementation of Facility Emergency Response will be accomplished. (e.g. Notification, evacuation, emergency coordination) (✓ Check those items that apply and write additional information in the space provided)

Emergency Coordinator will:

- Identify potential hazards and determine whether a release has occurred.
- Activate local emergency systems (e.g. manual shutoff devices) and take appropriate immediate actions based on level of training and the ability to act safely.
- Coordinate the notification and evacuation of employees and customers from the facility.
- Make required agency notifications and request needed assistance.
- Assist responding agencies by providing access to the facility and information about the facility.
- Other:

Date: *9/2/01*

BUSINESS NAME (Same as FACILITY NAME or DBA) A & F AUTOMOTIVE REPAIR

FACILITY ADDRESS 27114 E. 3rd St CITY Highland

EMERGENCY RESPONSE PLANS AND PROCEDURES – PAGE 3

FACILITY EMERGENCY EQUIPMENT: List facility emergency equipment on site (fire extinguisher, fire alarms, spill control equipment, SCBA, first aid kits, etc.); include test/maintenance plan. (✓ Check those items that apply and write additional information in the space provided)

Equipment	Quantity/Type	Maintenance Schedule/Frequency
<input checked="" type="checkbox"/> Fire extinguisher(s)	<u>2 ABC</u>	<u>Tested Yearly</u>
<input checked="" type="checkbox"/> First aid kit(s)	<u>1</u>	<u>check monthly</u>
<input type="checkbox"/> Fire alarm(s)		
<input checked="" type="checkbox"/> Spill control equipment	<u>absorbent</u>	<u>checked monthly</u>
<input type="checkbox"/> Monitoring system		
<input type="checkbox"/> Personal Protective Equipment		
<input type="checkbox"/> Other		
<input type="checkbox"/> Other		

FACILITY EARTHQUAKE RESPONSE Identify areas of the facility and mechanical or other systems that require immediate inspection because of their vulnerability to earthquake related ground motion. (E.g. Hazardous materials or waste storage locations, vessels, piping, pipe and tank supports, valves, gauges, etc.) (✓ Check those items that apply and write additional information in the space provided)

- Chemical Storage Locations – Product and Waste
- Process vessels
- Above ground storage tanks
- Emergency shutoff systems
- Piping and pipe supports
- Utility connections
- Other: _____
- Other: _____

ARRANGEMENTS/AGREEMENTS: Describe any arrangements or agreements that you have with private emergency response teams, waste haulers, disposal companies, recyclers, local hospitals, police or fire. If you have no arrangements or agreements, state that fact in the space provided. (✓ Check those items that apply and write additional information in the space provided)

- Hazardous waste hauler Hazardous Waste Haulers
- Emergency response team _____
- Local Hospital(s) _____
- Other _____
- No arrangements or agreements at this time

September 25, 2001

A & I Automotive Repair
Attn: Jeff Dunfee
27114 E. 3rd St.
Highland, CA 92346

SUBJECT: BUSINESS PLAN ACCEPTANCE

FACILITY: 27114 E. 3rd St., Highland

The Hazardous Materials Division has reviewed the amended Business Emergency/Contingency plan of A & I Automotive Repair submitted on 9-17-01 and determined that the data submitted meets the requirements of this CUPA, the California Health and Safety Code, Chapter 6.95, and Title 19 of the California Code of Regulations. The contents of this plan are subject to field verification and inspection and a current copy of this plan must be available on site.

This plan contains important information on preventing, responding to, and reporting releases of hazardous materials/wastes and employees are expected to be familiar with its relevant portions. The contents of this plan are also available for public inspection, with the exception of: substantiated trade secrets, the separate confidential emergency contact page, and portions of the plan (e.g. facility map) specifying the precise locations of hazardous materials/wastes. A copy of this plan has also been sent to the local fire jurisdiction.

Within 30 days of any of the following events, the above business must submit to this office an amendment to the appropriate portions of the inventory:

1. A 100 percent or more increase in quantity of a previously disclosed item.
2. Any handling of a previously undisclosed hazardous material (including waste) required to be inventoried or elimination of a previously inventoried item.
3. Change of business address, business ownership, or business name.
4. Change of emergency contact information or other site conditions that may significantly affect emergency response.

The annual deadline for submission of business plan inventory is March 1st. Please note that EPA does not allow EPCRA facilities to file a recertification in place of annual inventory. Also, this Department typically does not send individual notices of this statutory deadline, so please note the date for future action.

For more information please consult the latest version of the San Bernardino County CUPA Business Emergency/Contingency Plan guidelines and forms or call this office at (909) 387-3080.

PERMIT CONDITIONS

In order to maintain the operating permit, the permit holder must comply with the following:

- a. **Hazardous Materials Release Response Plans and Inventories Program (HMRRP):** California Health and Safety Code (CHSC) Division 20, Chapter 6.95, Article 1 and Title 19 California Code of Regulations (CCR).
- b. **California Accidental Release Prevention Program (CalARP):** CHSC Division 20, Chapter 6.95, Article 2 and Title 19 CCR.
- c. **Underground Storage Tanks (USTs):** CHSC Division 20, Chapters 6.5 & 6.7 and Title 23 CCR, Chapters 16 & 18.
 - (1) Monitoring, Response and Plot Plans shall be approved by the San Bernardino County CUPA.
 - (2) The owner and operator are subject to all applicable requirements of Chapter 6.7 and 6.75 of the CHSC and the applicable regulations.
 - (3) This permit and permit conditions including the Monitoring, Response and Plot Plans shall be maintained on site.
 - (4) The UST ID Number (is listed on the front of the permit) for each UST.
- d. **Aboveground Petroleum Storage Act SPCC Plans:** CHSC Division 20, Chapter 6.67 and 40 CFR 112.
- e. **Hazardous Waste Generator and Hazardous Waste Onsite Treatment:** CHSC Division 20, Chapter 6.5 and Title 22 CCR, Division 4.5, Chapters 10, 11, 12, 20 and 31.
- f. **Uniform Fire Code Hazardous Materials Management Plans and Inventories:** CHSC Division 13, Chapter 4 and Title 24 CCR §80.103

SUBJECT: DELINQUENT PERMIT FEES

In order to conduct business in San Bernardino County, all Hazardous Material Handler, Hazardous Waste Generator, and Underground Storage Tank permits must be current. Within this jurisdiction, no person or entity shall handle a Hazardous Material, generate a Hazardous Waste, or own/operate an Underground Storage Tank without holding an unexpired, unsuspended, unrevoked permit from the San Bernardino County Fire Department. This requirement applies to each facility, location and activity.

Presently, your facility permits are delinquent and you are in violation of the San Bernardino County Code, Title 3, Div. 3, Chapter 2, section 33.022. After assessing your file, it has been determined that the amount of **\$406.88** is due. Payment **MUST** be made by **October 31, 1998**, or an additional delinquent fee will be assessed and legal action may be pursued. Please note your Establishment number **92028362** on your check or money order when paying to assure that the proper account is credited. Also, please include a copy of this letter with your remittance.

If you have any questions, please contact me at (909) 387-3080.

**STICK POSTAGE STAMPS TO ARTICLE TO COVER FIRST CLASS POSTAGE,
CERTIFIED MAIL FEE, AND CHARGES FOR ANY SELECTED OPTIONAL SERVICES (see front).**

1. If you want this receipt postmarked, stick the gummed stub to the right of the return address leaving the receipt attached and present the article at a post office service window or hand it to your rural carrier (no extra charge).
2. If you do not want this receipt postmarked, stick the gummed stub to the right of the return address of the article, date, detach and retain the receipt, and mail the article.
3. If you want a return receipt, write the certified mail number and your name and address on a return receipt card, Form 3811, and attach it to the front of the article by means of the gummed end if space permits. Otherwise, affix to back of article. Endorse front of article **RETURN RECEIPT REQUESTED** adjacent to the number.
4. If you want delivery restricted to the addressee, or to an authorized agent of the addressee, endorse **RESTRICTED DELIVERY** on the front of the article.
5. Enter fees for the services requested in the appropriate spaces on the front of this receipt. If return receipt is requested, check the applicable blocks in item 1 of Form 3811.
6. Save this receipt and present it if you make inquiry.

Is your RETURN ADDRESS completed on the reverse side?

SENDER:

- Complete items 1 and/or 2 for additional services.
- Complete items 3, and 4a & b.
- Print your name and address on the reverse of this form so that we can return this card to you.
- Attach this form to the front of the mailpiece, or on the back if space does not permit.
- Write "Return Receipt Requested" on the mailpiece below the article number.
- The Return Receipt will show to whom the article was delivered and the date delivered.

I also wish to receive the following services (for an extra fee):

- 1. Addressee's Address
- 2. Restricted Delivery

Consult postmaster for fee.

HIGHLAND, CA 92346

SUBJECT: DELINQUENT PERMIT FEES OF \$ 422.13

In order to conduct business in San Bernardino County, all Hazardous Materials Handler, Hazardous Waste Generator, and Underground Storage Tank permits must be current. Within this jurisdiction, no person or entity shall produce or generate a hazardous waste, or own/operate an underground storage tank without holding an unexpired, unsuspended, unrevoked permit from the Department of Environmental Health Services. This requirement applies to each facility, location and activity.

Presently, your facility permits are delinquent and you are in violation of the San Bernardino County Code, Title 3, Div. 3, Chapter 2, section 33.022. After final assessment of your file, the amount of \$ 422.13 is due. Payment must be made by 15 NOV 93, or legal action will be pursued. Please note your establishment number 92028362, on your check or money order when paying to assure that the proper account is credited.

If there are any questions, please call Mike Ward at (909) 387-4677.

HAZARDOUS WASTE GENERATOR AND HAZARDOUS MATERIALS HANDLER INSPECTION REPORT

Facility Name: Haywoods Auto / Abandoned waste Date: 4-13-00
Street Address: 27085 5th St. Est. No: 92028362
City: Highland Zip Code: 92346 EPA ID No:
Facility Contact: G.H. Haywood Phone No. Number of Employees:

Refer to Title 19 and Title 22 of the California Code of Regulations (CCR), Chapter 8.6 of the Health and Safety Code (CHSC) and Division 3 of Title 2 of the San Bernardino County Code (CC). The following code sections are either in Violation (V) of, or in Compliance (C) with, the applicable laws and regulations, or compliance is not applicable, not addressed or unknown (N).

Table with columns for GENERAL REQUIREMENTS FOR GENERATORS, STORAGE AND LABELING REQUIREMENTS, HAZARDOUS WASTE RECORDS AND MANIFESTS, MANAGEMENT OF USED OIL AND BATTERIES, and RELEASE AND RESPONSE/BUSINESS PLANS. Includes handwritten notes in the 'INSPECTION NARRATIVE' column.

During a routine inspection at 27085 5th St. in Highland, it was discovered that hazardous wastes were abandoned in the following amounts:
2-55 gallon drums, full appeared to be waste oil
2-1 gallon containers waste oil
1-15 gallon drum, appeared to be solvent (Safety-Kleen label)
1 used oil filter
As the generator of the hazardous waste, you are required to legally dispose

NOTICE OF VIOLATION: THE VIOLATIONS NOTED ABOVE MUST BE CORRECTED WITHIN 15 DAYS. FAILURE TO COMPLY MAY RESULT IN LEGAL ACTION. THE CERTIFICATE OF COMPLIANCE SHALL BE SUBMITTED WITHIN THE TIME PERIOD NOTED ABOVE.

SUBJECT: DELINQUENT PERMIT FEES

In order to conduct business in San Bernardino County, all Hazardous Material Handler, Hazardous Waste Generator, and Underground Storage Tank permits must be current. Within this jurisdiction, no person or entity shall handle a Hazardous Material, generate a Hazardous Waste, or own/operate an Underground Storage Tank without holding an unexpired, unsuspended, unrevoked permit from the San Bernardino County Fire Department. This requirement applies to each facility, location and activity.

Presently, your facility permits are delinquent and you are in violation of the San Bernardino County Code, Title 3, Div. 3, Chapter 2, section 33.022. After assessing your file, it has been determined that the amount of **\$23.13** is due. Payment **MUST** be made by **December 31, 1997**, or an additional delinquent fee will be assessed and legal action may be pursued. Please note your Establishment number **92028362** on your check or money order when paying to assure that the proper account is credited. Also, please include a copy of this letter with your remittance.

If you have any questions, please contact me at (909) 387-3080.

The following violations have been noted and must be corrected as follows:

Category	Item	Count	Description
MATERIALS/WASTE MANAGEMENT	Stored Over 90 Days	1	Need to have all waste removed from the six drums labeled waste oil and need to have all unlabeled drums identified as to their waste content and have it removed. Must use a licensed hauler to test contents of drums and to remove all waste stored in them. Need to show proof of removal by submitting a copy of the manifest identifying the company who removed the waste, the company's E.P.A. #, the total amount of waste removed and the destination to which that waste will be sent. The above must be completed within 30 days of May 6 th or all previous billing with delinquencies will be required as per demand billing or legal action will occur. After removal of waste - no waste greater than 5 gals a month may be collected and stored to qualify as a limited quantity generator

SUPPLEMENTAL INSPECTION REPORT

FACILITY NAME:

FACILITY LOCATION:

MJB Auto Detail

27114 3RD

Highland

An inspection of this facility shows it to be a storage yard for car parts. No business is being carried on at this site. Did observe one (approx) 250 gal above ground tank used for waste oil at one time. Have given notice that tank is to be emptied and contents to be removed by a licensed hauler and a receipt should be available to show where waste material was sent. Tank should be removed and disposed of properly if no longer a use for it.

MJB Detailing has been out of business for over 10 yrs. Property is being leased by Frank Silkwood for storage only.

A 30 day notice of compliance is necessary to be removed from the county permit system. If compliance is not reached in 30 day CURRENT PERMIT FEES plus delinquencies must be paid in full.

LOCATION CODE - OPTIONAL <input type="text" value=""/>	CENSUS TRACT # - OPTIONAL <input type="text" value=""/>	SUPVISOR - DISTRICT CODE - OPTIONAL <input type="text" value=""/>

THIS FORM MUST BE ACCOMPANIED BY AT LEAST (1) OR MORE PERMIT APPLICATION - FORM B, UNLESS THIS IS A CHANGE OF SITE INFORMATION ONLY.
OWNER MUST FILE THIS FORM WITH THE LOCAL AGENCY IMPLEMENTING THE UNDERGROUND STORAGE TANK REGULATIONS

INSTRUCTIONS FOR COMPLETING FORM "A"

GENERAL INSTRUCTIONS:

SECTION 2711 OF TITLE 23, CHAPTER 15, CALIFORNIA CODE OF REGULATIONS AND SECTIONS 25236, 25287, AND 25289 OF CHAPTER 6.7, DIVISION 20, CALIFORNIA HEALTH AND SAFETY CODE REQUIRE OWNERS TO APPLY FOR AN UST OPERATING PERMIT.

1. One FORM "A" shall be submitted for all NEW PERMIT CHANGES or any FACILITY/SITE INFORMATION CHANGES.
2. SUBMIT ONLY ONE (1) FORM "A" for a Facility/Site, regardless of the number of tanks located at the site.
3. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
4. Please type or print clearly all requested information.
5. Use a hard point writing instrument, you are making 3 copies.
6. Tank owner must submit a facility plan to the local agency as part of the application showing the location of the USTs with respect to buildings and landmarks [Section 2711 (a)(8), CCR].
7. Tank owner must submit documentation showing compliance with state financial responsibility requirements to the local agency as part of the application for petroleum USTs [Section 2711 (s)(11), CCR].

TOP OF FORM: "MARK ONLY ONE ITEM"

Mark an (X) in the box next to the item that best describes the reason the form is being completed.

I. FACILITY/SITE INFORMATION & ADDRESS (MUST BE COMPLETED)

1. Record name and address (physical location) of the underground tank(s).
NOTE: Address MUST have a valid physical location including city, state, and zip code.
P.O. BOX NUMBERS ARE NOT ACCEPTABLE.
Include nearest cross street and name of the operator.
2. Phone number must have an area code. If the night number is the same, write "SAME" in proper location.
3. Check the appropriate box for TYPE OF BUSINESS OWNERSHIP (ex. CORPORATION, INDIVIDUAL, etc.).
4. Check the appropriate box for TYPE OF BUSINESS.
5. If Facility/Site is located within an Indian reservation or other Indian trust lands, check the box marked "YES".
6. Indicate the NUMBER OF TANKS at this SITE.
7. Record the E.P.A. ID # or write "NONE" in the space provided.

II. PROPERTY OWNER INFORMATION & ADDRESS (MUST BE COMPLETED)

Complete all items in this section, unless all items are the same as SECTION I. If the same, write "SAME AS SITE" across this section. Be sure to check PROPERTY OWNERSHIP TYPE box.

III. TANK OWNER INFORMATION & ADDRESS (MUST BE COMPLETED)

Complete all items in this section, unless all items are the same as SECTION II. If the same, write "SAME AS SITE" across this section. Be sure to check TANK OWNERS TYPE box.

IV. BOARD OF EQUALIZATION NET STORAGE FEE ACCOUNT NUMBER (MUST BE COMPLETED). SEE ARTICLE 5, CHAPTER 6.75, DIVISION 20, CALIFORNIA HEALTH AND SAFETY CODE.)

Enter your Board of Equalization (BOE) UST storage fee account number which is required before your permit application can be processed. If you do not have this BOE account number, you will receive a quarterly storage fee return in reporting the \$1000 (net) per gallon fee due on the number of gallons placed in your tank. This check will code persons exempt from paying the storage fee since you will not be taxed. If you do not have the account number, or if you have any questions regarding the fee or exemptions, please call the BOE at (916) 227-4700, or write BOE, c/o the following address: Board of Equalization, Fuel Taxes Division, P.O. Box 912,799, Sacramento, CA 95834-0799.

V. PETROLEUM UST FINANCIAL RESPONSIBILITY (MUST BE COMPLETED FOR PETROLEUM USTs ONLY, SEE SECTIONS 2711 (s)(7) OF TITLE 23, CHAPTER 15, CALIFORNIA CODE OF REGULATIONS)

Identify the method(s) used by the owner and/or operator, in meeting the Federal and State financial responsibility requirements. USTs owned by any Federal or State agency, as well as non-petroleum USTs are exempt from this requirement.

VI. LEGAL NOTIFICATION AND BILLING ADDRESS

Check YES or NO for the address that will be used for BOTH LEGAL AND BILLING NOTIFICATIONS. TANK OWNER OR AUTHORIZED REPRESENTATIVE MUST SIGN AND DATE THE FORM AS INDICATED. (SEE SECTIONS 2711 (s)(13) OF TITLE 23, CHAPTER 15, CALIFORNIA CODE OF REGULATIONS.)

INSTRUCTION FOR THE LOCAL AGENCIES

The county jurisdiction number is pre-determined and can be obtained by calling the State Board (916) 227-4700. The facility number may be assigned by the local agency; however, this number must be numerical and cannot contain any alphabetical characters. If the local agency prefers the State Board to assign the facility number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THIS APPLICATION CANNOT BE PROCESSED IF THE BOE ACCOUNT NUMBER IS NOT FILLED IN. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(1) TO THE FOLLOWING ADDRESS. THE LOCAL AGENCY SHOULD RETAIN THE ORIGINALS AND FORWARD THE YELLOW COPIES TO THE FOLLOWING ADDRESS. THE PINK COPY SHOULD BE RETAINED BY THE TANK OWNER.

INSTRUCTIONS FOR COMPLETING FORM "B"

GENERAL INSTRUCTIONS:

1. One FORM "B" shall be completed for each tank for all NEW PERMITS, PERMIT CHANGES, REMOVALS and/or any other TANK INFORMATION CHANGE.
2. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
3. Please type or print clearly all requested information.
4. Use a hard point writing instrument, you are making 3 copies.

TOP OF FORM: "MARK ONLY ONE ITEM"

1. Mark an (X) in the box next to the item that best describes the reason the form is being completed.
2. Indicate the DBA or Facility name where the tank is installed.

I. TANK DESCRIPTION - COMPLETE ALL ITEMS - IF UNKNOWN - SO SPECIFY

- A. Indicate owners tank ID # - If there is a tank number that is used by the owner to identify the tank (ex. AB70789).
- B. Indicate the name of the company that manufactured the tank (ex. ACME TANK MFG.).
- C. Indicate the year the tank was installed (ex. 1987).
- D. Indicate the tank capacity in gallons (ex. 25,000 or 10,000 etc.).

II. TANK CONTENTS

- A. 1. If MOTOR VEHICLE FUEL, check box 1 and complete items B & C.
2. If not MOTOR VEHICLE FUEL, check the appropriate box in section A and complete items B & D.
- B. Check the appropriate box.
- C. Check the type of MOTOR VEHICLE FUEL (if box 1 is checked in A).
- D. Print the chemical name of the hazardous substance stored in the tank and the C.A.S.#. (Chemical Abstract Service number), if box 1 is NOT checked in A.

III. TANK CONSTRUCTION - MARK ONE ITEM ONLY IN BOX A, B, C & D

1. Check only one item in TYPE OF SYSTEM, TANK MATERIAL, INTERIOR LINING and CORROSION PROTECTION.
2. If OTHER, print in the space provided.

IV. PIPING INFORMATION

1. Circle A if above ground; circle U if underground; and circle both if applicable.
2. If UNKNOWN, circle: or if OTHER, print in space provided.
3. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirement for the piping.

V. TANK LEAK DETECTION

1. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirements for the tank.

VI. INFORMATION ON TANK PERMANENTLY CLOSED IN PLACE

1. ESTIMATED DATE LAST USED - MONTH/YEAR (January, 1988 or 01/88).
2. ESTIMATED QUANTITY of HAZARDOUS SUBSTANCE remaining in the tank (in Gallons).
3. WAS TANK FILLED WITH INERT MATERIAL? Check "Yes" or "NO".

APPLICANT MUST SIGN AND DATE THE FORM AS INDICATED.

INSTRUCTION FOR THE LOCAL AGENCIES

The state underground storage tank identification number is composed of the two digit county number, the three digit jurisdiction number, the six digit facility number and the six digit tank number. The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916)739-2421. The facility number must be the same as shown in form "A". The tank number may be assigned by the local agency; however, this number must be numerical and cannot contain an alphabet. If the local agency prefers the State Board to assign the tank number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(s) TO THE FOLLOWING ADDRESS.

**SUBJECT: REMOVAL OF SIX UNDERGROUND STORAGE TANKS AT
26999 5TH STREET, HIGHLAND**

The Department has reviewed the report dated September 26, 1997, submitted by Bradley Environmental for the facility at the subject address. The results indicate that contamination remaining in the excavation is below that which is generally considered a problem and further investigation is not warranted at this time.

It is important to note that this does not constitute a release of liability for contamination remaining on site or contamination not detected. Should site conditions change, the Department may require further investigation and remedial action.

If you have any questions, please call (909) 387-3082.

**SUBJECT: REMOVAL OF SIX UNDERGROUND STORAGE TANKS AT
LAIDLAW TRANSIT INC./MAYFLOWER CONTRACT SERVICE
26999 5TH STREET, HIGHLAND**

The Department has reviewed the report dated September 30, 1997, submitted by Bradley Environmental for the facility at the subject address. The results indicate that contamination remaining in the excavation is below that which is generally considered a problem and further investigation is not warranted at this time. Please note that samples were not collected under the fuel dispensers.

It is important to note that this does not constitute a release of liability for contamination remaining on site or contamination not detected. Should site conditions change, the Department may require further investigation and remedial action.

If you have any questions, please call (909) 387-3082.

A handwritten signature in black ink, appearing to read "Curtis Armstrong".

Dear Mr. Jenkins:

The analytical results for the soil samples, received by our Lab on September 18, 1997, are attached.

Enviro-Chem appreciates the opportunity to provide you and your company this and other services. Please do not hesitate to call Mr. John Ackerman, our Customer Service Specialist, or myself, if you have any questions.

Sincerely,

Curtis Desilets

Project No. 10510.2

Attached herewith is the Phase I Environmental Site Assessment conducted by this firm for the proposed commercial property located on the Northeast Corner of East 3rd Street and Central Avenue in the City of Highland, California.

This Phase I Environmental Site Assessment was planned and executed based upon a scope of services generally outlined in our Proposal dated September 23, 1993, and in other written and verbal communications with your office.

We appreciate the opportunity to provide this Phase I Environmental Site Assessment for this property. If you have any questions or comments regarding this evaluation, please do not hesitate to contact this firm at your convenience.

Respectfully submitted,
LOR GEOTECHNICAL GROUP, INC.

- PHASE I ENVIRONMENTAL SITE ASSESSMENT CHECKLIST

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

EXECUTIVE SUMMARY

The site consists of 1.8± acres, which has been vacant since 1989. Prior to 1989 the site was residential with limited agriculture. Based on the proposed commercial usage, no adverse environmental impact from past agricultural use of the site is expected.

The foundation and slab of a two story residence are present on the east portion of the site (Parcel 42). A water well associated with the past agricultural usage of the site is present northeast of the house foundation. When the site is developed this well should be abandoned in accordance with governing regulatory requirements. No transformers or high voltage power transmission lines are present on the site.

Norton Air Force Base (NAFB) which is located approximately 100 feet south of the site is a Cerclis/NPL site with extensive contamination from past use. This contamination has caused groundwater contamination of the upper aquifer which is moving in a westerly direction in the area of the site. The plume of contamination, based on recent maps, is present southwest of the site. Further investigation of NAFB may indicate the plume of contamination is present under the site, however no adverse environmental or financial impact is anticipated from this groundwater contamination, as no evidence exists that the subject site was contributory to the groundwater contamination. No direct impact to the site is expected from other sites listed as hazardous waste/substance sites in the City of Highland, due to their distance from the site or the direction of groundwater flow which is to the west.

There are no sites listed with the regulatory agencies within one-half mile to one mile of the site which might pose any adverse environmental impact to the site.

Based on our investigative effort, the site does not appear to have been adversely impacted by on-site or off-site sources; therefore, further investigation of the site is not deemed necessary.

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

INTRODUCTION

During October of 1993, a Phase I Environmental Site Assessment was conducted by this firm for the proposed commercial property located on the Northwest Corner of East 3rd Street and Central Avenue, Highland, California. This Phase I Environmental Site Assessment was conducted for Mr. Warren E. Freeman, c/o Lazar Realty Company, Inc. The purpose of this Phase I Environmental Site Assessment was to provide an information base regarding potential environmental impairments due to past or current activities at, or in the immediate vicinity of, the site.

The site consists of Assessor Parcel Nos. 290-154-42,-43, a 1.8± acre site, which is currently in a vacant state. The location of the site, within its regional setting, is presented on the enclosed Index Map, Enclosure A-1, within Appendix A.

The scope of this Phase I Environmental Site Assessment included: 1) An on-site reconnaissance of the site; 2) a compilation, review and interpretation of published reports and data available from various private, public and regulatory agencies; 3) interviews with public and regulatory agencies; and 4) preparation of this report.

The findings of our Phase I Environmental Site Assessment, as well as our conclusions and recommendations, are presented in the following sections of this report.

METHODOLOGY AND PROCEDURES

During our research for this site evaluation various public agencies and individuals were contacted in order to provide insight into the previous and current uses of the site with respect to hazardous and/or toxic waste. Pertinent local agencies, such as the Building, Fire and Environmental Health Departments, were contacted for information regarding permits, underground storage tanks or records of regulatory involvement at the site. In addition, Federal, State and County lists and databases were reviewed to ascertain the presence of known environmentally impaired sites within the immediate area of the property and to determine their impact to the site, if any.

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

Concurrent with our public and governmental agency interviews and literature research, an aerial photograph review and an on-site reconnaissance were conducted. These were conducted in order to determine current and past uses of the site and the potential for soil and/or possible groundwater contamination based on visual observation. Our Phase I Environmental Site Assessment Checklist, which outlines our methodology and procedures, is presented within Appendix B.

SITE RECONNAISSANCE

A site reconnaissance was conducted on October 6, 1993, by a representative of this firm. To orient our site reconnaissance, an Assessors Parcel Map was furnished for our use. A copy of the Assessors Parcel Map is presented as Enclosures A-2, within Appendix A.

The site consists of $1.8 \pm$ acres located in the City of Highland, California. The site is bounded on the south by East 3rd Street followed by NAFB, on the east by vacant land, on the west by Central Avenue, followed by a single family residence and on the north by vacant land and commercial buildings.

Currently the site is vacant land. The remnants of a house (burned) and small garage were present on the east portion of the site (Parcel 42). A water well, as evidenced by two 6 inch diameter steel pipes, was present to the northeast of the previously existing residence along the east property line. A welded cap on one of the pipes was marked "200" and may be indicative of the well depth. The site was covered by a moderate growth of weeds and grasses which appeared to have been recently disced. Debris, such as concrete and wood was noted on-site and appears associated with the previous residence. A few scattered tires were noted across the site.

Power poles are present along East 3rd Street and Central Avenue. One pole mounted transformer was noted immediately northwest of the property on Central Avenue. No high voltage power transmission lines were present on or near the site.

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

No significant amounts of trash or debris were noted. No potential asbestos containing materials such as shingles or siding from the previous residence were present on the site. No stained soils, unusual odors, or distressed vegetation was noted on the site.

Color photographs of the site are presented in Appendix A.

GEOLOGIC AND HYDROLOGIC SETTING

Geologically, the site lies within the San Bernardino Valley which is underlain by alluvial material and river channel deposits. The alluvial materials, which were derived from the San Bernardino Mountains to the north and northwest, are up to 1,100 feet thick. The alluvium and river channel deposits at the site consist of gravel, sand, silt and clay.

Hydrologic data for the site was obtained from the East Valley Water District, which supplies water to the site and the Regional Water Quality Control Board.

Hydrologically, the site lies within the Bunker Hill Groundwater Basin. Groundwater is present under the site in an upper unconfined formation and two deeper confined formations.

The East Valley Water District indicated they have one well in the area of the site. The well is Well No. 40A. The well is located approximately one-half mile east of the site near Palm Avenue. The well was drilled to a depth of 835 feet and had a groundwater level of 145.5 feet deep on 8/3/93. The well is not contaminated. During our site reconnaissance CDM Federal was constructing a monitoring well approximately 500 feet southeast of the site on NAFB. Information provided by the field crew indicated groundwater was first encountered at a depth of $120 \pm$ feet.

The Bunker Hill Groundwater Basin has an extensively documented groundwater contamination plume within the area of the site. The contamination plume originates from NAFB south of the site. NAFB is a CERCLIS/NPL site which is being transitioned

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

from a military to civilian usage. The RWQCB indicated the clean up of the contamination plume should begin in 1994. The contamination is chiefly Volatile Organic Compounds (VOC's). A recent map of the plume of contamination from NAFB shows the site is not present within the contamination plume. Even if groundwater is contaminated at the site there is no evidence to suggest that past or present site usage has been contributory to the contamination and no fiscal or environmental impact is anticipated.

Groundwater at the site is anticipated to be approximately 120 feet deep and flowing in a westerly direction. The Upper Santa Ana Basin Well Map, which indicates the NAFB and Redlands contamination plumes as well as contaminated wells (darkly colored) in the area of the site, is presented as Appendix A-3, within Appendix A.

HISTORY OF SITE USAGE

To obtain a comprehensive history of previous site usage, a search was conducted for available aerial photographs of the area on file at the San Bernardino County Flood Control and Transportation District by a geologist from this firm. The search reviewed aerial photographs taken of the site and surrounding area in 1938, 1953, 1959, 1968, 1970, 1972, 1978, 1986, and 1991. In addition, the City of Highland Building and Safety Department, and the County of San Bernardino Assessor's office were contacted for information regarding permits for the site.

Aerial Photographic Review

The aerial photograph review was performed utilizing selected available or stereographic vertical aerial photographs of varying scales. These photographs were viewed using stereoscopes with magnifications of 2X, and lupes of magnification power 8X and 10X.

Due to the relatively large photographic scales involved, the analysis and subsequent interpretation of detail from aerial photographs sometimes requires a degree of subjective judgment. The degree of certainty on the interpretation of details depends

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

upon such factors as the scale and the quality of the photograph. However, an analysis of aerial photographs will reveal the general site history as to the relative use of the land, possible ground disturbance, activities, etc.

A summary of the site and surrounding conditions during the various times, as reflected in the photographs is given below.

1. 1938, Photos Nos. M-1-11;12, Scale 1" = 1000'.

These early photographs reveal the site was situated in a rural largely undeveloped area east of the current developed area of the city of San Bernardino. The eastern lot has what appears to be a small single family residential home. The western lot is undeveloped. Third street is noted to generally lie along its current-day route, and Central Avenue is a small dirt lane at this time. North of the site is the City Creek wash. The City Creek wash at this time is an uncontrolled tributary to the Santa Ana River. The closest development is a small house approximately 500 feet east of the site. Another small house lies 550 to 600 feet west of the site.

2. January 15, 1953 AXL-28K-185,6 Scale 1: 20,000'.

The residence on the eastern lot (Parcel 42) has several small shacks behind, or north of, the main house and the back half of the lot appears to be cultivated with low-lying agriculture. The western lot is still undeveloped. A small house has been built west of the site, across Central Avenue. The City Creek wash appears to have some minor drainage controls in place. Fifth Street has been constructed north of the site. NAFB lies just south and southwest of the site. This facility has four large runways and 10 to 15 large buildings and numerous smaller buildings.

3. September 5, 1959 AXL-4W-80,81 Scale 1: 20,000'.

The southern half of the western lot (Parcel 43) contains a small orchard with perhaps as many as 50 trees. On NAFB a large building has been constructed just southwest of the site and the areas south and southeast of the site, appear to have some ground

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

disturbance. Several structures have been built east of the site, just north of Third Street. These appear to be rural residential.

4. August 22, 1968 AXL-11JJ-105,106 Scale 1: 20,000'.

The small orchard on the western lot has been almost completely removed, approximately 10 to 15 trees are remaining on the western lot. The area south and southeast of the site, on NAFB as noted in the previous photographs, has more extensive ground disturbance, and a long trench has been excavated south of Third Street and west of Palm Avenue. This area is coincident with a known landfill area on NAFB. The region north of the City Creek wash is becoming developed with high density residential homes.

5. January 31 1969, Photo No. 69 Scale 1" = 2000'.

No significant changes were noted on the site from the previous photographs. The City Creek wash is now a controlled wash.

6. February 7, 1970 Photo No. 51 Scale 1" = 2000'.

No significant changes were noted on the site from the previous photographs. The NAFB landfill southeast of the site appears to still be in use. The region just east of the landfill, has some ground disturbance noted. This area appears to be lower than the surrounding ground at this time.

7. January 21 1978, Photo Nos. 118, 119 Scale 1" = 2000'.

All of the orchard on the site, appears to be gone at this time. Directly south of the site, across Third Street on the NAFB facility, are two small rectangular evaporation ponds. These ponds lie approximately 125 feet south of the site. Several buildings have been built east of the site on the northwest corner of Palm Avenue and Third Street.

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

8. February 25, 1986 Photo Nos. 120-121 Scale 1" = 2000'.

No significant changes were noted on the site from the previous photographs. Two buildings have been built adjacent the site to the north, south of 5th Street.

9. July 1, 1991, Photo Nos. 137, 137 Scale 1" = 2000'.

The house on the eastern lot is no longer visible, but shows up only as a small blackened area. This may indicate that the foundation of the house is still in place but the house may have burned down. The two small commercial buildings, adjacent the site to the north have a paved parking lot.

Building Department Assessor Records

The City of Highland Building and Safety Departments was contacted for information regarding permits for the site. They had no records of the previous residence at the site. They indicated that since their incorporation in 1988, they have not received any records from the County of San Bernardino, Department of Building and Safety. The County Assessor's Office provided the following information with respect to the site. The site had a single family residence from 1928 (estimated) until it's demolition in 1989. In 1974 leach lines were permitted and in 1975 the house was permitted for remodeling. Their records referenced only Parcel 42 with Parcel 43 showing no site improvements.

Based on our Aerial Photograph Review and research it appears the site has been single family residential since at least 1928. Low lying crops and then orchard were present until 1968. The house was demolished in 1989.

INVESTIGATION OF ENVIRONMENTALLY IMPAIRED SITES

County and State agencies were contacted, and a records search was performed in an effort to identify any known environmentally impaired (hazardous waste/substance) sites or incidents of hazardous waste storage or disposal violations within the

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

immediate area of the subject property.

County and State Regulatory Agencies

For accidental spills of hazardous materials within the County of San Bernardino, the Department of Environmental Health Services (DEHS) generally acts as the lead agency. The Regional Water Quality Control Board (RWQCB), Santa Ana Region, generally becomes the lead agency for groundwater investigations and remediation in the San Bernardino area.

The County of San Bernardino DEHS or the RWQCB indicate they have no record that past or present usage of the site included any disposal, treatment or emissions of hazardous materials/waste.

The CAL-EPA, Department of Toxic Substance Control (DTSC) was contacted to determine if a Preliminary Endangerment Assessment (PEA) would be necessary for the site based on its proximity to NAFB, a Superfund Site. They indicated that if the site was residential with no known history of spillage or disposal on the site then a PEA would not be necessary.

The County of San Bernardino Fire Department, which provides fire service for the City of Highland, was contacted for information regarding underground storage tanks (UST's) at the site. They had no permits for UST's at the site. They indicated the site had been single family residential for as long as they could remember and was owned by the Willburns. The house was used for training and was burned prior to its demolition.

Other regulatory and public agencies were contacted or their databases reviewed as a part of this Phase I Environmental Site Assessment for information regarding landfills, underground storage tanks, hazardous waste sites, contaminated wells or knowledge of hazardous waste on the site and surrounding properties. The List of Agencies contacted for this Phase I Environmental Site Assessment is presented within the Phase I Environmental Site Assessment Checklist, within Appendix B.

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

CERCLIS/NPL Sites

Pursuant to the Comprehensive Environmental Response Conservation and Liability Act of 1980 (CERCLA), the U.S. Environmental Protection Agency (EPA) has developed and maintained lists of contaminated properties under the Federal Superfund Program.

There is one site identified within one mile radius of the subject site which is included on the May 1993 National Priority List (NPL).

This site is also the only site identified within a one-half mile radius of the subject site which is included on the June 1993 EPA Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS).

The site listed is NAFB which is located approximately 100 feet south of the site. NAFB which began operations in 1942 is now in the process of closing and becoming a civilian facility. This transition has accelerated clean-up of the site. Past waste management practices have resulted in the known groundwater contamination by VOC's and vinyl chloride in the area of the site. Based on recent mapping of the plume of contamination coming from NAFB, it appears that the site is not within the groundwater contamination plume. However, even if further investigation at NAFB indicates the plume is north of the base, no fiscal or environmental liability for the subject site is anticipated as there is no past evidence that the site has been contributory to the contamination.

State Expenditure Plan/Annual Workplan Sites

The Bond Expenditure Plan (BEP) contains lists of all verified hazardous waste sites that are or will be targeted for abatement by the California Department of Health Services under the Hazardous Substance Cleanup Bond Act of 1984 and the Hazardous Substance Account. There was two sites identified within a one mile radius of the subject site on the January 1989 Edition of the BEP and the January 1990 update to the 1989 Edition. The sites are NAFB discussed in detail under

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

Cerclis/Npl Sites above and the Crafton-Redlands area of the Bunker Hill Groundwater Basin. The Crafton Redlands area of the Bunker Hill Groundwater Basin is located approximately one mile south of the site and presents no adverse environmental impact to the site.

A review of the List of Active Annual Workplan sites, dated October, 1992 also identified NAFB and the Crafton-Redlands Area as within one mile of the subject site.

Cortese List Sites

The California Environmental Protection Agency, Hazardous Waste and Substances Sites List, dated July 1992, was reviewed to identify the sites within one-half mile of the subject site. Two sites were identified on this list. The sites are on NAFB and Crafton-Redlands Areas of the Bunker Hill Groundwater Basin with is discussed above under Cerclis/NPL sites.

Leaking Underground Storage Tanks

The Regional Water Quality Control Board (RWQCB), Santa Ana Region, maintains a list of all leaking underground storage tanks (LUST) within its region. According to the July 1993 RWQCB database of underground storage tanks, there were three sites which have underground storage tank leaks within one-half mile of the site. One is a UST associated with Building S-290 (SW of the site) and the other is identified as NAFB. Both sites are located on NAFB and are part of the overall base clean-up. The third site is C.L. Pharris Sand & Gravel located approximately one-half mile southeast of the site. No adverse impact to the site is anticipated due to the distance of these UST's from the site or the direction of groundwater flow which is to the west.

AB 1803

The RWQCB, Santa Ana Region AB 1803 database list of contaminated wells dated May 1992 listed one contaminated well within one-half mile of the site. The well, which belongs to the East Valley Water District (EVWD), is Well No. 9A located

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

approximately one mile northwest of the subject site. Conversations with the EVWD indicate the well is slightly contaminated with VOC's. The well water is blended with other sources of water to bring the contaminant level below State Maximum Contaminate Levels.

Landfills

One Federal and one private landfill were identified within a one-half mile radius of the site during a review of the January 1990 RWQCB Solid Waste Assessment Test (SWAT) list and the California Waste management Board's Solid Waste Information System (SWIS) List, dated March 1993. The landfill is the NAFB Landfill, located approximately 500 feet southeast of the site, which was closed in 1980. The landfill has leaked and is now part of the overall base clean-up. The other landfill is a private landfill owned by C.L. Pharris and is located at 8302 Alabama approximately one-half of a mile southeast of the site.

No impact to the site from these landfills is anticipated due to either their distance from the site or the direction of the groundwater flow which is to the west.

Calsites

The California Environmental Protection Agency has formulated a database of potential hazardous waste sites known as the Calsites List. This list is compiled from the Abandoned Site Survey Program and Bond Expenditures Plan databases. The July 1993 Calsites List was reviewed and one site was present within 500 feet of the subject site. The site is NAFB which is discussed in detail under Cerclis/NPL sites above.

Division of Oil and Gas

Map W1-7, from the Division of Oil and Gas, Long Beach office, was reviewed and no abandoned or producing oil wells were located within one-half mile of the site.

INSPECTION OF ADJACENT PARCELS

During our site reconnaissance, observations limited by access of the adjacent properties were conducted. The site is bounded by vacant land to the east followed by a single family residence, to the west by Central Avenue followed by single family residences. Vacant land and commercial buildings to the north including Martins Auto Repair. South of the site is East 3rd Street followed by NAFB with two non-operational sludge ponds. One sludge pond was covered with a tarp as if used for storage. No dumping takes place in the sludge ponds. Observations of these properties did not reveal any sources of potential contamination, such as above ground drums or tanks, which would impact the site.

CONCLUSIONS AND RECOMMENDATIONS

Based on the information provided by the public, regulatory and governmental agencies and information obtained during our records search, site reconnaissance and literature review, the site does not appear to be a hazardous waste property or border zone property as defined in Section 25221 of the State of California's Health and Safety Code.

The site consists of 1.8± acres, which has been vacant since 1989. Prior to 1989 the site was residential with proposed agriculture. Based on the proposed commercial usage, no adverse environmental impact from past agricultural use of the site is expected.

The foundation and slab of a two story residence are present on the east portion of the site (Parcel 42). A water well associated with the past agricultural usage of the site is present northeast of the house foundation. When the site is developed this well should be abandoned in accordance with governing regulatory requirements.

NAFB which is located approximately 100 feet south of the site is a Cerclis/NPL site with extensive contamination from past use. This contamination has caused groundwater contamination which is moving in a westerly direction in the area of the

Mr. Warren E. Freeman
October 11, 1993

Project No. 10510.2

site. The plume of contamination, based on recent maps, is present southwest of the site. Further investigation NAFB may indicate the plume of contamination is present under the site, however no adverse environmental or financial impact is anticipated from this groundwater contamination, as no evidence exists that the subject site was contributory to the groundwater contamination. No direct impact to the site is expected from other sites listed as hazardous waste/substance sites in the City of Highland, due to their distance from the site or the direction of groundwater flow which is to the west.

Based on our investigative effort, the site does not appear to have been adversely impacted by on-site or off-site sources, therefore further investigation of the site is not deemed necessary.

LIMITATIONS

LOR Geotechnical Group, Inc. has performed our services within the limits prescribed by our client, with the usual thoroughness and competence of the Environmental profession. LOR Geotechnical Group, Inc. (LOR) makes no other warranty or representation, either express or implied.

The conclusions in this report are based upon readily available data obtained from interviews with public, regulatory and governmental agencies, literature researched and information provided by consultants. It is assumed and expected that the information provided is accurate. LOR does not guarantee the accuracy or completeness of any information provided, nor shall LOR be responsible for errors, omissions or damages arising out of the use of this information. The information obtained was solely for the project and scope of services described.

This report and the contents resulting from this evaluation are not intended or represented to be suitable for extensions or modifications of the project area, or for use on any other project.

1.0 INTRODUCTION

This Closure Report has been prepared by Bradley Environmental Services (BRADLEY) for The E.J. Meyer Company, 105 Summit, Redlands, California to describe the removal of six (6) underground storage tanks (UST's) located at Laidlaw Transit, Incorporated, 26999 5th Street, Highland, California.

The UST removal was performed under the following permits and licenses:

- (1) - Permit No. 082997-01 (Job Card 5014), obtained from the County of San Bernardino Fire Department on August 29, 1997;
- (2) - BRADLEY State Contractors License No. 661390, General Engineering "A-HAZ" classification;
- (3) - State of California, Department of Industrial Relations, Division of Occupational Safety and Health (Cal-OSHA) Permit No. 97-902578;
- (4) - United States Environmental Protection Agency (EPA) permanent Identification #CAD981972474;
- (5) - Underground Services Alert Ticket Number 718959.

Copies of permits/licenses #1 through #3 above are contained in Appendix A. Permit numbers for items #4 and #5 were obtained verbally via oral communication.

2.0 SITE DESCRIPTION

2.1 Property Location and Layout

The subject property (site) is located at 26999 5th Street, Highland, California. Please see Figure 1 for tank locations. The subject site had two 10,000-gallon diesel fuel tanks; two 7,500-gallon diesel fuel tanks; one 6,000-gallon gasoline tank; and one 4,000-gallon gasoline fuel tank for a total of six (6) tanks. All 6 of these UST's are single wall steel tanks that were installed in 1978.

3.0 UST Removal and Disposal

Concrete above the 6 UST's was broken and removed on September 19, 1997. Surface soil covering the top of the UST's was excavated and stockpiled the same day. Pumping, rinsing, icing (insertion of dry ice to reduce lower explosive limit), and removal of the UST's was conducted between September 17 and September 23, 1997. BRADLEY using procedures outlined in the San Bernardino Fire Department Closure Permit removed the UST's. All associated product piping was removed with the UST's. Soil and concrete above and along the sides of the UST's was excavated and stockpiled using a John Deere 410D backhoe. The stockpiled soil was covered with 10 mil thick visqueen to prevent the emission of any volatile

organic compounds (VOC's) into the atmosphere. VOC emissions from the soil stockpile were monitored using a Photoionization Detector (PID).

All liquid was removed from the UST's using a vacuum truck provided by Nieto and Sons Trucking, Inc. (Brea). The rinsing process continued until the tank atmosphere reached 0% lower explosive limit (LEL) as monitored using an LEL meter. The residual liquid and rinseate (about 700 gallons) was transported to DeMenno Kerdoon (Compton) under hazardous waste manifest # 96764252 (Appendix C).

Dry ice was placed into all UST's prior to removal. Hazardous Materials Specialist Mr. Curtis Armstrong of the San Bernardino Fire Department gave permission to remove the tank after it tested safe with the LEL meter. The UST was removed from the excavation by use of the backhoe supplied by Bradley. Upon visual inspection it was determined that none of the UST's contained holes, dents, or cracks. The UST's were immediately loaded onto a flatbed trailer and transported by Nieto & Sons to American Metal Recycling (AMR), Inc. (Ontario) for demolition (Appendix C). The dispensers were removed from the site and also hauled to AMR.

4.0 SOIL SAMPLING

4.1 SOIL SAMPLE COLLECTION

Soil sampling was conducted between September 17, and September 23, 1997 under the direction of Hazardous Materials Specialist Mr. Curtis Armstrong of the San Bernardino County Fire Department following removal of the 6 UST's. Two soil samples were collected for each of the UST's at the site. The soil samples were labeled on the chain of custody according to the orientation of each tank (north (N), east (E), south (S) or west (W)) and volume. The samples were taken from underneath the UST's at a depth of between approximately 12 to 18 feet below grade at the bottom of each UST excavation. Groundwater was not encountered at the subject site for any of the tank excavations and no diesel or gasoline product was visible in the soil surrounding the tank excavations.

The soil samples were collected from soil brought to the surface in the bucket of the backhoe. The samples were collected by pushing a 1.5-inch diameter brass sleeve into the soil within a pothole cut into the soil of the bucket. Each end of the sleeve was covered with a teflon sheet and plastic cap and sealed with parafilm tape.

The samples were stored in a chilled condition (approximately 4 degrees C) from the time of collection until analyzed. Chain of Custody records were prepared in the field and accompanied the sample to the analytical laboratory. The samples were delivered to the laboratory within 24 hours of collection.

4.2 SOIL SAMPLE ANALYSIS

The soil samples were analyzed by Enviro-Chem, Inc. (Pomona) using the analytical methods specified by the San Bernardino County Fire Department. The soil samples from the 6 tank excavations were analyzed for Benzene, Toluene, Ethylene, and Xylene (BTEX) using EPA Method 8020, MBTE, and for Total Petroleum Hydrocarbons (TPH) using EPA Method 8015 Modified. Total lead (EPA Method 7240) was completed on the sample with the highest BTEX level or a sample taken at random if all samples were non-detect (ND). All soil samples except four (4) were non-detect and these 4 were below 28 mg/kg indicating trace amounts of petroleum hydrocarbons barely above laboratory detection limits. Complete analytical results and Chain of Custody records are contained in Appendix D.

5.0 BACKFILL AND COMPACTION

The UST excavations were back-filled and compacted in order to leave the site in a safe and secure manner. Native soil was reused at the site to backfill the lower portions of the excavation. A sufficient amount of import soil to compensate for the removed UST was placed above the soil. The back-filled soil was compacted to at least 90% certified compaction using a portable vibratory plate. The portable plate was used due to failure of the plate attached to the backhoe arm.

6.0 FINDINGS

No evidence of staining was observed on the sides of the removed tanks or in the tank excavations. Tank backfill material had no staining or hydrocarbon odors. Samples N10DE@14, N7.5DW@14, N7.5DE@14, and N10DE@18, collected from beneath the UST's showed analytical results barely above laboratory detection limits for TPH (between 14 parts/million (ppm) and 28 ppm). All other soil samples were analyzed and were found to be non-detect showing the tank beds to be clean with no remaining petroleum hydrocarbons in the excavations.

7.0 CONCLUSIONS AND RECOMMENDATIONS

Based on soil sample analysis, the trace levels and non-detectable levels of diesel fuel or petroleum hydrocarbons, MBTE or lead have not impacted the soil above regulatory action levels, beneath the former location of the 6 UST's. BRADLEY recommends site closure for all 6 UST's at the subject site.

8.0 CERTIFICATION

This UST Closure Report has been prepared for E.J. Meyer by BRADLEY in accordance with applicable San Bernardino County Fire Department regulations and customary geologic practice. All work was performed under the supervision of the signatories shown on the title page of this report. No other warranty is either expressed or implied.

LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class: 1661340 Lic. No.: A.H.22
Date: 9/13/97 Contractor: Bradley Env. Services

OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractor's License Law for the following reason: (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 Commencing with Section 7000) of Division 3 of the Business and Professions Code), or that he or she is exempt therefrom, and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).

- I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended for sale. (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon and who does such work himself or herself or through his or her employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.)
- I, as owner of the property, am exclusively contracting with licensed contractors to construct the project. (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)
- I am exempt under Sec. _____ B. & P.C. for this reason _____

Date: _____ Owner: _____

WORKER'S COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:

- I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.
- I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

My workers' compensation insurance carrier and policy number are:
Carrier: _____ Policy Number: _____
(This section need not be completed if the permit is for one hundred dollars (\$100) or less.)

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to workers' compensation laws of California, and agree that if I should become subject to workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: _____ Applicant: _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR ON SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued. (Sec. 3097, Civ. C.)

Lender's Name: _____
Lender's Address: _____

This is a building permit when properly filled out, signed and validated, and is subject to expiration if work thereunder is suspended for 180 days.

1.0 INTRODUCTION

This Closure Report has been prepared by Bradley Environmental Services (BRADLEY) for The E.J. Meyer Company, 105 Summit, Redlands, California to describe the removal of six (6) underground storage tanks (UST's) located at Laidlaw Transit, Incorporated, 26999 5th Street, Highland, California.

The UST removal was performed under the following permits and licenses:

- (1) - Permit No. 082997-01 (Job Card 5014), obtained from the County of San Bernardino Fire Department on August 29, 1997;
- (2) - Hazardous Material Permit No. TA9701 (Receipt No. 993022) obtained from the City of San Diego Fire Department on April 24, 1997;
- (3) - BRADLEY State Contractors License No. 661390, General Engineering "A-HAZ" classification;
- (4) - State of California, Department of Industrial Relations, Division of Occupational Safety and Health (Cal-OSHA) Permit No. 97-902578;
- (5) - United States Environmental Protection Agency (EPA) permanent Identification #CAD981972474;
- (6) - Underground Services Alert Ticket Number 718959.

Copies of permits/licenses #1 through #4 above are contained in Appendix A. Permit numbers for items #5 and #6 were obtained verbally via oral communication.

2.0 SITE DESCRIPTION

2.1 Property Location and Layout

The subject property (site) is located at 26999 5th Street, Highland, California. Please see Figure 1 for tank locations. The subject site had two 10,000-gallon diesel fuel tanks; two 7,500-gallon diesel fuel tanks; one 6,000-gallon gasoline tank; and one 4,000-gallon gasoline fuel tank for a total of six (6) tanks. All 6 of these UST's are single wall steel tanks that were installed in 1978.

3.0 UST Removal and Disposal

Concrete above the 6 UST's was broken and removed on September 19, 1997. Surface soil covering the top of the UST's was excavated and stockpiled the same day. Pumping, rinsing, icing (insertion of dry ice to reduce lower explosive limit), and removal of the UST's was conducted between September 17 and September 23, 1997. BRADLEY using procedures outlined in the San Bernardino Fire Department Closure Permit removed the UST's. All associated product piping was removed with the UST's. Soil and concrete above and along the sides of the UST's was excavated and stockpiled using a John Deere 410D backhoe. The stockpiled soil was covered with 10 mil thick visqueen to prevent the emission of any volatile

organic compounds (VOC's) into the atmosphere. VOC emissions from the soil stockpile were monitored using a Photoionization Detector (PID).

All liquid was removed from the UST's using a vacuum truck provided by Nieto and Sons Trucking, Inc. (Brea). The rinsing process continued until the tank atmosphere reached 0% lower explosive limit (LEL) as monitored using an LEL meter. The residual liquid and rinseate (about 700 gallons) was transported to DeMenno Kerdoon (Compton) under hazardous waste manifest # 96764252 (Appendix C).

Dry ice was placed into all UST's prior to removal. Hazardous Materials Specialist Mr. Curtis Armstrong of the San Bernardino Fire Department gave permission to remove the tank after it tested safe with the LEL meter. The UST was removed from the excavation by use of the backhoe supplied by Bradley. Upon visual inspection it was determined that none of the UST's contained holes, dents, or cracks. The UST's were immediately loaded onto a flatbed trailer and transported by Nieto & Sons to American Metal Recycling (AMR), Inc. (Ontario) for demolition (Appendix C). The dispensers were removed from the site and also hauled to AMR.

4.0 SOIL SAMPLING

4.1 SOIL SAMPLE COLLECTION

Soil sampling was conducted between September 17, and September 23, 1997 under the direction of Hazardous Materials Specialist Mr. Curtis Armstrong of the San Bernardino County Fire Department following removal of the 6 UST's. Two soil samples were collected for each of the UST's at the site. The soil samples were labeled on the chain of custody according to the orientation of each tank (north (N), east (E), south (S) or west (W)) and volume. The samples were taken from underneath the UST's at a depth of between approximately 12 to 18 feet below grade at the bottom of each UST excavation. Groundwater was not encountered at the subject site for any of the tank excavations and no diesel or gasoline product was visible in the soil surrounding the tank excavations.

The soil samples were collected from soil brought to the surface in the bucket of the backhoe. The samples were collected by pushing a 1.5-inch diameter brass sleeve into the soil within a pothole cut into the soil of the bucket. Each end of the sleeve was covered with a teflon sheet and plastic cap and sealed with parafilm tape.

The samples were stored in a chilled condition (approximately 4 degrees C) from the time of collection until analyzed. Chain of Custody records were prepared in the field and accompanied the sample to the analytical laboratory. The samples were delivered to the laboratory within 24 hours of collection.

4.2 SOIL SAMPLE ANALYSIS

The soil samples were analyzed by Enviro-Chem, Inc. (Pomona) using the analytical methods specified by the San Bernardino County Fire Department. The soil samples from the 6 tank excavations were analyzed for Benzene, Toluene, Ethylene, and Xylene (BTEX) using EPA Method 8020, MBTE, and for Total Petroleum Hydrocarbons (TPH) using EPA Method 8015 Modified. Total lead (EPA Method 7240) was completed on the sample with the highest BTEX level or a sample taken at random if all samples were non-detect (ND). All soil samples except four (4) were non-detect and these 4 were below 28 mg/kg indicating trace amounts of petroleum hydrocarbons barely above laboratory detection limits. Complete analytical results and Chain of Custody records are contained in Appendix D.

5.0 BACKFILL AND COMPACTION

The UST excavations were back-filled and compacted in order to leave the site in a safe and secure manner. Native soil was reused at the site to backfill the lower portions of the excavation. A sufficient amount of import soil to compensate for the removed UST was placed above the soil. The back-filled soil was compacted to at least 90% certified compaction using a portable vibratory plate. The portable plate was used due to failure of the plate attached to the backhoe arm.

6.0 FINDINGS

No evidence of staining was observed on the sides of the removed tanks or in the tank excavations. Tank backfill material had no staining or hydrocarbon odors. Samples N10DE@14, N7.5DW@14, N7.5DE@14, and N10DE@18, collected from beneath the UST's showed analytical results barely above laboratory detection limits for TPH (between 14 parts/million (ppm) and 28 ppm). All other soil samples were analyzed and were found to be non-detect showing the tank beds to be clean with no remaining petroleum hydrocarbons in the excavations.

7.0 CONCLUSIONS AND RECOMMENDATIONS

Based on soil sample analysis, the trace levels and non-detectable levels of diesel fuel or petroleum hydrocarbons, MBTE or lead have not impacted the soil above regulatory action levels, beneath the former location of the 6 UST's. BRADLEY recommends site closure for all 6 UST's at the subject site.

8.0 CERTIFICATION

This UST Closure Report has been prepared for E.J. Meyer by BRADLEY in accordance with applicable San Bernardino County Fire Department regulations and customary geologic practice. All work was performed under the supervision of the signatories shown on the title page of this report. No other warranty is either expressed or implied.

105 SUMMIT AVE
REDLANDS, CA 92373

**SUBJECT: REMOVAL OF SIX UNDERGROUND STORAGE TANKS AT
26999 5TH STREET, HIGHLAND**

The Department has reviewed the report dated September 26, 1997, submitted by Bradley Environmental for the facility at the subject address. The results indicate that contamination remaining in the excavation is below that which is generally considered a problem and further investigation is not warranted at this time.

It is important to note that this does not constitute a release of liability for contamination remaining on site or contamination not detected. Should site conditions change, the Department may require further investigation and remedial action.

If you have any questions, please call (909) 387-3082.

**SUBJECT: CERTIFIED RECORD SEARCH FINDINGS
26967 AND 26975 5TH STREET, HIGHLAND, CALIFORNIA**

This is to confirm that the San Bernardino County Hazardous Materials Division has identified records that may pertain to the subject site, as described in your request for records search.

The file(s) shown below have been retrieved for review. If you wish to view the original documents, please e-mail this office at hazmatrecords@sbcfire.org to arrange an appointment for a file review.

ACTIVE PERMIT FACILITIES: (Regulatory files for facilities with annual operating permits to maintain underground storage tanks, handle hazardous materials, and/or generate hazardous waste. Files include permits, inspections, reports, test results, correspondence, and related materials. Files will also include any underground tank removal/construction activity records and site remediation/contamination records for facilities still in operation).

PERMITS TO REMOVE/INSTALL/MODIFY TANKS UNDERGROUND:

No record of permits to remove/install/modify tanks underground identified in this search.

HAZ MAT INCIDENT RESPONSE ACTIVITY: (other records of spill notifications and/or complaints not listed below may also exist in facility permit files).

No record of hazmat incident response activity identified in this search.

SITE REMEDIATION: (Underground Storage Tank Clean-Up under Local Oversight Program or Voluntary Hazardous Waste Clean-Up activity under Local Jurisdiction) (documents may be included in regular active or inactive permit files listed above).

No record of site remediation identified in this search.

Records searched include permit database systems for facilities with permits as hazardous waste generators, hazardous materials handlers, and/or underground storage tanks, including inactive and/or out of business records; logs of permits issued for the removal and/or installation of underground storage tanks; records and databases pertaining to illicit dumping and releases; records of non-permitted facilities; sites undergoing remediation for contaminated soil and/or groundwater; and incidents responded to by the hazardous materials emergency response team. Records date back to mid- 1980's.

Records consist of 4 files, approximately 2 3/4" thick. If you'd like to review the files, please contact our office at hazmatrecords@sbcfire.org to schedule an appointment.

Respectfully,

Donna Juday

CERTIFICATE OF COMPLIANCE

Return Certification within 30 days to Inspector Greg Zeigler

In the matter of: Respondent WM. Wayne Krajewski

Violation(s) cited on: 3/31/03

Establishment Name: Elite Lawn & Landscape

Establishment Address: 26975 5th Street Highland, CA 92346

Facility Id. Number: FA002894

RECEIVED
MAY 22 2003

I certify under penalty of law that:

- Respondent has corrected the violations specified in the above entitled action.
- I have personally examined any documentation attached to this certification to establish that the violations have been corrected.
- Based on my examination of the attached documentation and inquiry of the individuals who prepared or obtained them, I believe the information to be true, accurate and complete.
- I am authorized to file this certification on behalf of the Respondent.
- I am aware there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

II. SUBMISSION CHECKLIST

(Complete this Section if submitting an entire business emergency/contingency plan whether new or revised)

[X] This submission is a complete business emergency/contingency plan

- Submission Checklist (✓)
*Business Activities Form and *Business Owner/Operator Identification Form
*Supplemental Emergency Contact Page
Emergency Response Plans and Procedures
*Hazardous Materials Inventory Summary Form for the facility listing materials (including wastes) by item number.
*One Hazardous Materials Inventory Form for each hazardous material (including wastes) which meet reporting criteria
*Material Safety Data Sheets attached to the inventory form of each material not listed in Appendix I.
*Facility map (using grid form provided) consisting of all required features including the location of each inventoried item.
Site map (using grid form provided) consisting of all required features including surrounding facilities and areas.
Area map - photocopied city map with location of site indicated
Owner/Operator has signed and dated the plan and all required individual pages of the plan.
Submit 2 copies to the Hazardous Materials Division. One is for distribution to the local fire jurisdiction.
Retain one copy of the business plan at the facility.

III. UPDATE/CERTIFICATION

(Complete this Section if submitting a partial update or recertifying an existing Plan)

Check the appropriate boxes below and sign the certification statement. Submit 2 copies of all update information.

- [] Please incorporate the following into my business emergency/contingency plan.
[] New Business Owner/Operator Identification Form
[] New Inventory Forms and new Inventory Summary Form (and maps, if affected).
[] New Supplemental Emergency Contact Pages.
[] Other:

Brief Explanation of Changes:

- [] There have been no changes to the inventory. In place of submitting the annual inventory, I hereby attest to all of the following:
• The information contained in the inventory most recently submitted to the CUPA is complete, accurate and up to date.
• There has been no change in the quantity, storage, or handling of hazardous materials (including waste) reported in the most recently submitted inventory.
• No hazardous materials (including waste) subject to inventory requirements are being handled that are not listed on the most recently submitted inventory.
• This certification is not being made to meet annual inventory submission requirements of EPCRA. (EPCRA requires complete annual submission)

IV. SIGNATURE

(Complete this Section for all submissions)

Certification - Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted on this document and believe the information is true, accurate and complete.

BUSINESS DESCRIPTION
Cutting Lawns

Number of Underground Storage Tanks located at this facility *0*

Does this facility:

Store liquid petroleum (not petroleum gases) in a single aboveground tank greater than 660 gallons?	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
Have a cumulative aboveground liquid petroleum (not including petroleum gases) storage capacity of greater than 1320 gallons? This includes both product and waste and includes tank and drum storage.	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
Store or handle extremely hazardous substances at a quantity above threshold planning quantity? (See Appendix B of this guide)	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
Is this site subject to EPCRA section 311 & 312 (Emergency Planning and Community Right-to-Know Act)? (See page i for description)	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
Store or handle Regulated Substances (see Appendix C) in excess of threshold quantity?	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
Name(s) of Regulated Substances:		
Does this facility have a laboratory on site	<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO

If yes, attach a general description of the laboratory and a brief description of the type(s) and quantity of hazardous materials in the lab.

III. VULNERABLE POPULATIONS

Is there a school, hospital, or extended care facility within 1,000 ft. (straight-line distance) of this facility? YES NO

If yes, provide name and address of each school hospital or extended care facility site:

EMERGENCY RESPONSE PLANS AND PROCEDURES

State Law requires your business to complete all sections of the Emergency Response Procedure listed below:

For each of the following, briefly describe your business standard operating procedures relating to the release or threatened release of hazardous materials located at your facility. You may attach additional pages if necessary, but do not include copies of facility manuals unless requested to do so by this Department. You may reference manuals that are used by your facility for these procedures, but you must still give a brief description of policy.

EVACUATION/NOTIFICATION: Indicate location(s) where employees, customers, visitors or others on site are to evacuate in an emergency. Describe how your business will immediately notify people and evacuate the facility in the event of a release or threatened release of hazardous materials. Include the route and meeting place.

In case of emergency, all employees, customers, and visitors will be verbally notified. All employees, customers, visitors will be escorted to the evacuation staging area located at the front of the building in the parking lot area nearest 5th St.

PREVENTION/MITIGATION/ABATEMENT: Describe what policies and procedures your business will follow to prevent, reduce and/or remove the hazard to persons, property or the environment caused by a release or threatened release of hazardous materials and/or hazardous wastes. (✓ Check those items that apply and write additional information in the space provided)

- Reduction of containers on site if not used or needed.
- Containers are properly labeled and closed when not in use.
- Compressed gas cylinders are properly secured.
- Use of monitoring system. Type: _____
- Other:

All containers are inspected weekly by owner to ensure proper labeling and closure of containers.

Used oil is removed properly.

EMERGENCY RESPONSE PLANS AND PROCEDURES – PAGE 2

FACILITY TRAINING PLAN: Describe employee and operator training including local emergency response coordination, use of facility emergency equipment, and provisions for initial and refresher training. In addition, describe training for hazardous materials/waste handling as required by OSHA. (✓ Check those items that apply and write additional information in the space provided)

- New employee training.
- Annual training & periodic refresher courses.
- Familiarization with the Emergency Response Plans and Procedures of this Business Plan.
- On the job training. Describe below.
- Other:

Cure has 18 yrs experience in Landscaping

EMERGENCY PROCEDURES: Give duties of the Emergency Coordinator and how implementation of Facility Emergency Response will be accomplished. (e.g. Notification, evacuation, emergency coordination) (✓ Check those items that apply and write additional information in the space provided)

Emergency Coordinator will:

- Identify potential hazards and determine whether a release has occurred.
- Activate local emergency systems (e.g. manual shutoff devices) and take appropriate immediate actions based on level of training and the ability to act safely.
- Coordinate the notification and evacuation of employees and customers from the facility.
- Make required agency notifications and request needed assistance.
- Assist responding agencies by providing access to the facility and information about the facility.
- Other:

CUPA
San Bernardino County Fire Department
HAZARDOUS MATERIALS DIVISION • EMERGENCY RESPONSE AND ENFORCEMENT
355 N. Arrowhead Ave. 2nd Floor, San Bernardino, CA 92419-0153 • PHONE: (909) 387-4691 FAX: (909) 387-4323

SECTION IV: BUSINESS EMERGENCY CONTINGENCY PLAN MAPS

Submit 3 maps:

- Area Map** - location of facility in relation to community
- Site Map** - overview of facility and its immediate surroundings
- Facility Map(s)** - floor plan of facility, locations of hazardous materials, emergency equipment, building details.

AREA MAP - Provide a map showing entire area around the facility and property. The purpose of the area map is to identify primary and alternate routes to the facility and to see where in a community the facility is located. Be sure to identify location of the facility on map. (i.e. Thomas Brother's Guide map page or equivalent may be used). Information provided must be to a legible scale on an 8 1/2 x 11" sheet of paper.

NOTE: The following Sections require that you prepare a map of your facility and site location. A blank grid map has been provided for this purpose. You must use a grid system and use the map symbols provided. If you add additional symbol items on the map, provide an explanation of those symbols on the legend sheet area.

If your facility is very large and you cannot adequately fit the required items on the map forms provided, you may submit a series of maps. For example, enlarge a quadrant area on a main grid map and submit detail maps for a grid group. If you have difficulty with map preparation, contact this office for further assistance. The facility and the site map may be combined into one map only if you can provide all the required items in a legible scale on the sheets provided. These maps provide vital emergency information to emergency responders, and therefore it is important that you take the time to make them readable and accurate.

SITE MAP - The business site map is an aerial overview of your facility. Complete this map on the sheet provided to a legible scale. The purpose of the site map is to provide the geographic context of the buildings, access points, and surrounding properties and streets around a facility. Below is a list of items that must be included on the drawing: -scale of map (i.e. 1" = 100 ft.)

- Site orientation (north, south, etc.)
- the names of all roads on all sides of the facility
- the location of your facility
- Property lines and adjacent property names on all sides of the property.
- Exit/entry routes (i.e. gates, driveways, etc.)
- Schools, hospitals, extended care facilities within 1000 feet of your facility.
- fences or barriers on the site
- location of any rail transportation sites (i.e. railroad tracks or spurs)

FACILITY MAP - The facility map is a drawing of the FLOOR PLAN of your establishment. Complete this map on the sheet provided to a legible scale. The purpose of the facility map is to locate inventoried hazardous materials (by item number), emergency equipment, and facility features that must be considered in responding to a fire or potential release of hazardous materials. Below is a list of items that must be included on the drawing:

- Scale of map (i.e. 1" = 100 ft.)
- Site orientation (north, south, etc.)
- Identify each hazardous material handling, use, or storage area by showing number of the material as identified by item # from your material or waste inventory forms & summary. If the materials are too numerous to indicate on the map grid area, then provide a sequential letter (i.e. A, B, etc.) on the map where the items are located and list item # in the "notes" area provided (i.e. A = #1,2,3,4,7, B, 10, etc.).
- Identify location of emergency response equipment such as fire suppression equipment, protective clothing, etc.
- Identify any hazardous waste treatment units
- Identify exits, evacuation routes, doors, and wall separations
- Identify interior and exterior electrical, gas, water and any other emergency shut off valves.
- Identify emergency alarm locations, and first aid equipment locations
- Identify location of material safety data sheets and business emergency plan
- Identify location of all floor drains
- Identify location of sewer and storm drains on or around facility site
- Identify location of parking and loading areas
- Identify location of evacuation staging areas
- Identify location of above and below ground storage tanks. Identify contents by inventory item # and indicate amount stored in tank (i.e. #10, 500 gallons.)

Use the symbols on the following key to locate features on the site and facility maps. If you add additional symbol items on the map, provide an explanation of those symbols on the legend sheet area.

COUNTY FIRE DEPARTMENT

COUNTY OF SAN BERNARDINO
ECONOMIC DEVELOPMENT
AND PUBLIC SERVICES GROUP

OFFICE OF THE FIRE MARSHAL
HAZARDOUS MATERIALS DIVISION
385 North Arrowhead Avenue, Second Floor • San Bernardino, CA 92415-0183

PETER R. HILLS
Fire Chief
County Fire Warden

23 August 2001

Elite Lawn & Landscape
26975 5th St.
Highland, CA 92346

ATTN: Edward Villanero

SUBJECT: BUSINESS PLAN ACCEPTANCE

ESTABLISHMENT NUMBER: 00048916

The Hazardous Materials Division has reviewed the amended Business Emergency/Contingency plan of Elite Lawn & Landscape submitted on 02-07-01 and determined that the data submitted meets the requirements of this CUPA, the California Health and Safety Code, Chapter 6.95, and Title 19 of the California Code of Regulations. The contents of this plan are subject to field verification and inspection and a current copy of this plan must be available on site.

This plan contains important information on preventing, responding to, and reporting releases of hazardous materials/wastes and employees are expected to be familiar with its relevant portions. The contents of this plan are also available for public inspection, with the exception of: substantiated trade secrets, the separate confidential emergency contact page, and portions of the plan (e.g. facility map) specifying the precise locations of hazardous materials/wastes. A copy of this plan has also been sent to the local fire jurisdiction.

Within 30 days of any of the following events, the above business must submit to this office an amendment to the appropriate portions of the inventory:

1. A 100 percent or more increase in quantity of a previously disclosed item.
2. Any handling of a previously undisclosed hazardous material (including waste) required to be inventoried or elimination of a previously inventoried item.
3. Change of business address, business ownership, or business name.
4. Change of emergency contact information or other site conditions that may significantly affect emergency response.

The annual deadline for submission of business plan inventory is March 1st. Please note that EPA does not allow EPCRA facilities to file a recertification in place of annual inventory. Also, this Department typically does not send individual notices of this statutory deadline, so please note the date for future action.

For more information please consult the latest version of the San Bernardino County CUPA Business Emergency/Contingency Plan guidelines and forms or call this office at (909) 387-4631.

Elite Lawn & Landscape
26975 5th St.
Highland, CA 92346

SUBJECT: NOTICE OF BUSINESS PLAN DEFICIENCIES

FACILITY: 26975 5th St.

ESTABLISHMENT NUMBER: 00048916

The Business Emergency/Contingency Plan submitted to the Hazardous Materials Division on 10-06-00 has been determined to be deficient. California Health & Safety Code, Chapter 6.95, § 25305 (a)(2) states, "If, after review, the administering agency determines that the handler's Business Plan is deficient in any way, the administering agency shall notify the handler of those deficiencies. The handler shall submit a corrected Business Plan within 30 days from the date of the notice."

This letter constitutes formal notice of business plan deficiencies. Please submit 2 copies of the information requested below with a copy of this letter for final review within 30 days from the above date.

The following are the items requiring correction:

Business Owner/Operator Identification page

- Ending date: This Business Plan should be effective until 3-01-02. At that time the Business Plan must be updated.
- SIC/NAICS Code: The NAICS Code for Lawn Maintenance and Landscaping services is 561730.

Please submit a revised Business Owner/Operator Identification page.

Maps

- Area Map: No Area Map was submitted. The Area map is intended to show the location of the facility in relation to the community. *Please submit an Area Map.*
- Site Map: No Site Map was submitted. The Site Map is intended to show the streets and facilities surrounding this facility. *Please submit a Site Map.*
- Facility Map: No Facility Map was submitted. The Facility Map is intended to show the storage location of all materials and wastes, evacuation route, etc. *Please submit a Facility Map.*

Failure to correct the outstanding deficiencies could result in further enforcement actions and additional fees. If the response to this deficiency letter does not result in correction of the deficiencies, a records review fee of \$71/hr will be assessed to recover those costs associated with additional file review.

Page 2 of 2

CA Health and Safety Code, Chapter 6.95, § 25505 (a)(3) states that "If a handler fails, after reasonable notice, to submit a business plan in compliance with this article, the administering agency shall immediately take appropriate action to enforce this article, including the imposition of civil and criminal penalties as specified in this article." Penalties for business plan violations can range from \$2000-\$5000/day.

For more information please consult the enclosed version of the San Bernardino County CUPA Business Emergency/Contingency Plan Guidelines and Forms or call this office at (909) 387-4631 for further assistance. Thank you for your prompt attention to this important matter.

II. SUBMISSION CHECKLIST

(Complete this Section if submitting an entire business emergency/contingency plan whether new or revised)

- This submission is a complete business emergency/contingency plan
- Submission Checklist (✓)** *considered "inventory" under state disclosure laws
- *Business Activities Form and *Business Owner/Operator Identification Form
 - *Supplemental Emergency Contact Page
 - Emergency Response Plans and Procedures
 - *Hazardous Materials Inventory Summary Form for the facility listing materials (including wastes) by item number.
 - *One Hazardous Materials Inventory Form for each hazardous material (including wastes) which meet reporting criteria
 - *Material Safety Data Sheets attached to the inventory form of each material not listed in Appendix 1.
 - *Facility map (using grid form provided) consisting of all required features including the location of each inventoried item.
 - Site map (using grid form provided) consisting of all required features including surrounding facilities and areas.
 - Area map - photocopied city map with location of site indicated
 - Owner/Operator has signed and dated the plan and all required individual pages of the plan.
 - Submit 2 copies to the Hazardous Materials Division. One is for distribution to the local fire jurisdiction.
 - Retain one copy of the business plan at the facility.

III. UPDATE/CERTIFICATION

(Complete this Section if submitting a partial update or recertifying an existing Plan)

Check the appropriate boxes below and sign the certification statement. Submit 2 copies of all update information.

- Please incorporate the following into my business emergency/contingency plan.
- New Business Owner/Operator Identification Form
 - New Inventory Forms and new Inventory Summary Form (and maps, if affected).
 - New Supplemental Emergency Contact Page.
 - Other:

Brief Explanation of Changes:

- There have been no changes to the inventory. In place of submitting the annual inventory, I hereby attest to all of the following:
- The information contained in the inventory most recently submitted to the CUPA is complete, accurate and up to date.
 - There has been no change in the quantity, storage, or handling of hazardous materials (including waste) reported in the most recently submitted inventory.
 - No hazardous materials (including waste) subject to inventory requirements are being handled that are not listed on the most recently submitted inventory.
 - This certification is not being made to meet annual inventory submission requirements of EPCRA. (EPCRA requires complete annual submission)

IV. SIGNATURE

(Complete this Section for all submissions)

Certification - Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted on this document and believe the information is true, accurate and complete.

EMERGENCY RESPONSE PLANS AND PROCEDURES

State Law requires your business to complete all sections of the Emergency Response Procedure listed below.

For each of the following, briefly describe your business standard operating procedures relating to the release or threatened release of hazardous materials located at your facility. You may attach additional pages if necessary, but do not include copies of facility manuals unless requested to do so by this Department. You may reference manuals that are used by your facility for these procedures, but you must still give a brief description of policy.

EVACUATION/NOTIFICATION: Indicate location(s) where employees, customers, visitors or others on site are to evacuate in an emergency. Describe how your business will immediately notify people and evacuate the facility in the event of a release or threatened release of hazardous materials. Include the route and meeting place.

- In case of emergency, all employees, customers, and visitors will be verbally notified. All employees, customers, & visitors will be escorted to the evacuation staging area located at the front of the building nearest 5th St.

PREVENTION/MITIGATION/ABATEMENT: Describe what policies and procedures your business will follow to prevent, reduce and/or remove the hazard to persons, property or the environment caused by a release or threatened release of hazardous materials and/or hazardous wastes. (✓ Check those items that apply and write additional information in the space provided)

- Reduction of containers on site if not used or needed.
- Containers are properly labeled and closed when not in use.
- Compressed gas cylinders are properly secured.
- Use of monitoring system. Type: _____
- Other:

- All containers are inspected weekly by owner to ensure proper labeling and closure of containers

- Used oil is removed quarterly or when 25gal are generated.

EMERGENCY RESPONSE PLANS AND PROCEDURES - PAGE 2

FACILITY TRAINING PLAN: Describe employee and operator training including local emergency response coordination, use of facility emergency equipment, and provisions for initial and refresher training. In addition, describe training for hazardous materials/waste handling as required by OSHA. (✓ Check those items that apply and write additional information in the space provided)

- New employee training.
- Annual training & periodic refresher courses.
- Familiarization with the Emergency Response Plans and Procedures of this Business Plan.
- On the job training. Describe below.
- Other:

Owner has over 25 years' experience in
Automotive Repair.

EMERGENCY PROCEDURES: Give duties of the Emergency Coordinator and how implementation of Facility Emergency Response will be accomplished. (e.g. Notification, evacuation, emergency coordination) (✓ Check those items that apply and write additional information in the space provided)

Emergency Coordinator will:

- Identify potential hazards and determine whether a release has occurred.
- Activate local emergency systems (e.g. manual shutoff devices) and take appropriate immediate actions based on level of training and the ability to act safely.
- Coordinate the notification and evacuation of employees and customers from the facility.
- Make required agency notifications and request needed assistance.
- Assist responding agencies by providing access to the facility and information about the facility.
- Other:

Business Emergency/Contingency Plan Receipt

Mail to: MARTIN'S AUTOMOTIVE
26967 5TH ST
HIGHLAND, CA 92348

Site Address: MARTIN'S AUTOMOTIVE
26967 5TH ST
HIGHLAND, CA 92348

Service Request ID: SR0000775
Facility ID: FA0004600

The Business Emergency/Contingency Plan was received on April 04, 2003 by the Hazardous Materials Division.

For future reference, please note the following Business Emergency/Contingency Plan requirements:

1. The contents of this plan are subject to field verification and a current copy of this plan must be available on site.
2. This plan contains important information on preventing, responding to, and reporting releases of hazardous materials/waste. Employees are expected to be familiar with these portions of the plan.
3. The plan is available for public inspection through this Division, with the exception of substantiated trade secrets, the separate confidential emergency contact page, and maps specifying the precise storage locations of hazardous materials/wastes.
4. Two copies of the plan and/or update is required to be filed with this Division. The second copy will be forwarded to the local fire jurisdiction.
5. The annual deadline for submission of business plan inventory is March 1st. Please note that EPA does not allow EPCRA facilities to file a recertification in place of annual inventory. Also, this Division typically does not send individual notices of this statutory deadline, so please note the March 1st date for future annual submissions.

Within 30 days of any of the following events, an amendment to the Business Emergency/Contingency Plan must be filed:

1. A 100 percent or more increase in quantity of a previously disclosed item.
2. Any handling of a previously undisclosed hazardous material (including waste) required to be inventoried or elimination of a previously inventoried item.
3. Change of business address, business ownership, or business name.
4. Change of emergency contact information or other site conditions that may significantly affect emergency response.

For more information please consult the latest version of the San Bernardino County CUPA Business Emergency/Contingency Plan guidelines and forms, available through our website at www.sbcfire.org or by calling this office at (909) 386-8401.

SUBJECT: COMPLIANCE DEADLINE REMINDER NOTICE

**FACILITY: FA0015635-S&S INLANDSTAR
26967 5TH ST
HIGHLAND, CA 92346**

Mr. Swartz,

A post-inspection compliance review indicates that the following violations cited at the time of inspection on July 02, 2020, remain outstanding.

- Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
- Failure to accurately complete and electronically submit the Business Activities Page and/or Business Owner Operator Identification Page. 19 CCR 4 2652(a)(1)
- Failure to accurately complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities of 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases.

If all compliance documentation has recently been submitted, please disregard this notice.

IMPORTANT: All compliance documentation requested on the inspection report must be received by this Division within 30 days from the date of the violation or as otherwise indicated in the inspection report. This CUPA (Certified Unified Program Agency) is required by the State of California to gain compliance from all facilities subject to hazardous materials and hazardous waste laws and regulations. Complying within 30 days of violation or as indicated in the inspection report, is the most efficient and the least inconvenient way for a facility to resolve outstanding violations. If formal enforcement is necessary to gain compliance after 30 days, the facility will be subject to substantial civil fines, costs and other penalties pursuant to California Health and Safety Code (CHSC) 25404.1.1 & 25187.8.

If I can be of assistance in helping you correct the violations stated above or if you have any other questions, please don't hesitate to contact me at KWENDT@SBCFIRE.ORG or (909) 386-8401.

Violations and Compliance Information		
H201	Failure to obtain and maintain a current CUPA Hazardous Materials Handler permit.	Comply by paying all applicable permit fees upon receipt of invoice and submitting all necessary information.
H202	Failure to adequately establish and implement a Business Plan when storing/handling a hazardous material at or above reportable quantities.	Comply by establishing and implementing the Business Plan.
H203	Failure to complete and electronically submit a Business Plan when storing/handling a hazardous material at or above reportable quantities.	Comply by submitting an accurate and complete Business Plan via the California Environmental Reporting System (CERS) .
H206	Failure to annually review and electronically certify that the Business Plan is complete and accurate on or before the due date.	Comply by reviewing and certifying the Business Plan annually.
H209	Failure to electronically update Business Plan within 30 days of: a 100% or more increase in a reported quantity, any handling of a previously undisclosed, reportable hazardous materials, a change of business address, business ownership, or business name, a substantial change in the handler's operations that requires modification of the business plan.	Comply by submitting the updated Business Plan information via CERS.
H210	Failure to accurately complete and electronically submit the Business Activities Page and/or Business Owner Operator Identification Page.	Comply by submitting the Business Activities Page and/or Business Owner/Operator Identification Page as required.
H211	Failure to accurately complete and electronically submit hazardous materials inventory information for all reportable hazardous materials on site at or above reportable quantities.	Comply by submitting an accurate and complete hazardous materials inventory via CERS.
H212	Failure to accurately complete and electronically submit a site map with all required content.	Comply by submitting an accurate and complete site map via CERS.
H213	Failure to establish and electronically submit an adequate emergency response plan and procedures for a release or threatened release of a hazardous material.	Comply by submitting a complete emergency response plan via CERS.
H214	Failure to establish and electronically submit an adequate training program and safety procedures in the event of a release or threatened release of a hazardous material.	Comply by submitting a complete training program via CERS.
H215	Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material and/or failure to document and maintain training records for a minimum of three years.	Comply by submitting a signed statement indicating that initial and annual training is conducted and training records are maintained for at least three years.
W101	Failure to obtain and maintain a CUPA Hazardous Waste generator permit.	Comply by paying all applicable permit fees upon receipt of invoice and submitting all necessary information.
W103	Failure to make hazardous waste determination.	Comply by submitting a signed statement indicating the waste is non-hazardous based upon generator knowledge, laboratory analysis documentation, or manage the waste as hazardous waste and submit disposal records.
W104	Failure to obtain an EPA ID Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.	Comply by submitting form 1358 to DTSC.
W110	Failure to properly label hazardous waste containers with: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and accumulation start date.	Comply by labeling containers properly and submitting the signed Certificate of Compliance (CoC).
W122	Failure to properly manage reusable soiled textile materials prior to being sent for laundering.	Comply by properly managing reusable textile materials and submitting the signed CoC.
W128	Failure to keep disposal records for three years.	Comply by retaining hazardous waste disposal records and submitting the signed CoC.
W137	Failure to comply with consolidated manifesting procedures and retain records for three years.	Comply by following the consolidated manifesting requirements and submitting the signed CoC.
W138	Failure to properly manage used oil or fuel filters.	Comply by proper management of used oil filters, and by submitting the signed CoC.
W139	Failure to retain for at least 3 years a legible copy of each manifest or bill of lading which identifies spent lead-acid storage batteries shipped to a person who stores the batteries or who uses, reuses, recycles or reclaims the batteries or their components.	Comply by retaining records for 3 years and by submitting the signed CoC.
W145	Failure to dispose of hazardous waste at an authorized facility.	Comply by submitting a signed statement indicating that hazardous waste will be disposed of through a licensed facility.
W159	Failure to provide names, addresses and phone numbers of the business and owner; name and 24-hr phone number of the emergency contact; site address where hazardous waste is generated or produced, if different from the facility address; list of each type of hazardous waste generated; prepare a Contingency Plan.	Comply by meeting all stated requirements by submitting the information via CERS.
W206	Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any release of hazardous waste substances to air, soil, or surface water which could threaten human health or the environment.	Comply by ensuring the above requirements are met and by submitting the CoC.
W207	Failure to post the following information next to the telephone: name and telephone number of the emergency coordinator; location of fire extinguishers and spill control material, and, if present, fire alarm; the telephone number of the fire department, unless the facility has a direct alarm.	Comply by meeting the requirements stated above and by submitting the CoC.
W213	Failure to manage hazardous waste within 180 days (or as otherwise required).	Comply by disposing of hazardous waste within the accumulation time limit, by submitting records and the CoC.
W214	Failure to accumulate hazardous waste in a container that is in good condition.	Comply by using a container that is in good condition and by submitting the CoC.
W216	Failure to keep closed a hazardous waste container unless it is in use.	Comply by closing the containers and by submitting the CoC.
W218	Failure to manage acute/extremely hazardous waste within 90 days after accumulating 1 kilogram.	Comply by managing the waste as required and by submitting disposal records and the CoC.
W231	Failure to train all employees on waste handling and emergency procedures.	Comply by training employees and by submitting the CoC.
W238	Failure to inspect hazardous waste storage areas at least weekly.	Comply by conducting weekly inspections and by submitting the CoC along with any other documentation requested by the inspector.

**FACILITY: FA0015635-S & S INLAND STAR
26967 5TH ST
HIGHLAND, CA 92346**

A recent review of our records indicates that the following violation(s) remain outstanding from the inspection conducted on December 01, 2014:

- Failure to establish a Contingency Plan
- Failure to obtain an EPA ID Number
- Owner/Operator that handles a hazardous material at or above regulated quantities shall establish a Business Plan.
- Owner/Operator shall submit the hazardous materials inventory, emergency contacts, site plan and certification that the existing plan is current and up to date.

Failure to submit the signed and completed certificate of compliance with the previously requested documentation immediately may result in legal action.

If you have any questions, please call me at (909) 386-8401 or email me at ABEZDEK@SBCFIRE.ORG.

REQUEST FOR AN ENVIRONMENTAL AUDIT PHASE I CERTIFIED HAZARDOUS MATERIALS RECORDS SEARCH FINDING REPORT

The main focus of a REQUEST FOR AN ENVIRONMENTAL AUDIT PHASE I CERTIFIED HAZARDOUS MATERIALS RECORDS SEARCH FINDING REPORT is to determine whether there are any in San Bernardino County Fire Protection District (SBCCFD) any record relating to contamination or spills of spills at a particular site. An Environmental Phase I Certified Hazardous Materials Records Search Finding Report should reveal whether there are any facilities at the site that are subject to current or past regulatory activity by SBCCFD, such as underground storage tanks, hazardous material handlers, hazardous waste generators, and CDMRP facilities, as well as any reports of spills, incidents, complaints, or cleanup activity, which can be a useful tool in providing a history of compliance or non-compliance.

Once SBCCFD has completed its search search, an Environmental Phase I Certified Hazardous Materials Records Search Finding Report will be prepared and issued. Each report will detail all SBCCFD records associated with a particular site by type, date, location, and status (where applicable). All files identified in an Environmental Phase I Certified Hazardous Materials Records Search Finding Report can be made available for copies and/or review upon request.

If the completed records search reveals an SBCCFD record of hazardous material activity at the site, an Environmental Phase I Certified Hazardous Materials Records Search Finding Report will be issued, noting that "no records" were identified.

Please provide a specific site address or location description. If a site address does not exist or cannot be found, list another type of location identifier such as Assessor Parcel Number (preferable), cycle streets or intersections (e.g., NWC 3rd Ave. & Main St.), and/or legal description. If possible, please attach a map to this request form.

HAZARDOUS WASTE GENERATOR AND HAZARDOUS MATERIALS HANDLER INSPECTION REPORT

FA #: 0010276 Facility Name: Sanchez Automotive Service Inspection Date: 1/23/14
Site Address: 26967 5th St Phone #: 909-425-0808
City: Highland Zip Code: 92346 EPA ID #: CA1000504636

Consent Granted by: Inspect Photograph Name: Daniel Sanchez Title: Owner # Emp: 0 Packet left on site? Yes/No

Refer to Title 19 and Title 22 of the California Code of Regulations (CCR), Chapter 8.5 and 8.95 of the California Health and Safety Code (CHSC) and Division 3 of Title 2 of the San Bernardino County Code (CC)

THE FOLLOWING SECTIONS ARE IN VIOLATION IF THEY ARE CHECKED

General Requirements:

- 101. Hazardous Waste and/or Materials Permits not current. (CCR 23.0802(a)) Not paid permits for 2010, 2011, 2012, 2013 (partial 2014)
Compliance Requirement: Submit fees within 30 days of billing.
- 104. EPA ID Number not obtained for waste generation. (CCR 66262.12(a)) EPA ID# is inactive
Compliance Requirement: Obtain permanent EPA ID Number by submitting Form 1358 to DTSC. Submit your EPA ID Number to this Division.
- 106. Facility not operated to prevent a spill or release. (CCR 66263.31) no spills observed
Compliance Requirement: Facility must conduct housekeeping & operate to prevent spills. Signature on certification below denotes compliance.
- 107. A Contingency Plan has not been established. (CCR 66295.51(a))
- 202. A Business Plan has not been established. (CHSC 25503.5)
- 203. Business Plan has not been submitted / updated. (CHSC 25505) per supplement
Compliance Requirement: Submit the original and one copy of the Business Emergency/Contingency Plan to this Division. NOTE: You must keep a current copy of your Business Emergency/Contingency Plan onsite and available at all times.
- 131. Training documentation not complete or available. (CCR 66262.34(d)(2)) NO employees
Compliance Requirement: Submit training documentation as required.

INVENTORY: (1) 30 gal drum of waste antifreeze
(1) 30 gal drum of used oil
(1) 55 gal drum of used oil A/HPS

Container Storage and Labeling Requirements:

- 110. Hazardous waste containers are not labeled/marked. (CCR 66262.34(f)(3)) Drums were labeled properly
- 111. Hazardous waste label is incomplete. (CCR 66262.34(f)(3)) Waste label complete
- 112. Accumulation start date is missing from tank/container. (CCR 66262.34(f)(2)) < 27 gal. Accum. dates on drums
Compliance Requirement: Hazardous waste label is to be applied to the tank/container. All fields and lines are to be correctly completed.
- 113. Accumulation time exceeded. (CCR 66262.34) Time not exceeded < 27 gal
Compliance Requirement: Dispose of waste using a licensed waste hauler within 30 days. Submit copies of disposal documents to this Division.
- 114. Hazardous waste container not sound. (CCR 66265.171) Containers in good condition
- 115. Hazardous waste container leaking. (CCR 66265.173(b)) NO leaks observed
- 116. Hazardous waste container open when not in use. (CCR 66265.173(a)) Containers observed closed.
Compliance Requirement: Waste containers must be sound, not leaking and closed when not in use.

Waste Management:

- 119. Hazardous waste managed unlawfully. (CHSC 25154) Waste managed lawfully
Compliance Requirement: Hazardous waste containers and aboveground tanks must be labeled, closed, and inspected weekly or daily, as appropriate. Waste is to be removed by a licensed waste hauler within the allowed time periods.
- 128. Failure to retain manifested waste disposal records for 3 years. (CCR 66262.40(a)) N/A
- 137. Failure to retain consolidated waste disposal records for 3 years. (CHSC 25160.2(b)(3)) Records avail. Waste gen. 2013 - 50 gal.
Compliance Requirement: Submit copies of waste disposal records for the past N/A
- 138. Unlawful management of used oil filters. (CCR 66266.130) Filters labeled w/accum. start date.
Compliance Requirement: Label all used oil filter containers with "DRAINED USED OIL FILTERS" and the accumulation start date.

Certified Mail Provides:

- A mailing receipt
- A unique identifier for your mailpiece
- A record of delivery kept by the Postal Service for two years

Important Reminders:

- Certified Mail may ONLY be combined with First-Class Mail® or Priority Mail®.
- Certified Mail is not available for any class of International mail.
- NO INSURANCE COVERAGE IS PROVIDED with Certified Mail. For valuables, please consider Insured or Registered Mail.
- For an additional fee, a Return Receipt may be requested to provide proof of delivery. To obtain Return Receipt service, please complete and attach a Return Receipt (PS Form 3811) to the article and add applicable postage to cover the fee. Enclose mailpiece "Return Receipt Requested". To receive a fee waiver for a duplicate return receipt, a USPS® postmark on your Certified Mail receipt is required.
- For an additional fee, delivery may be restricted to the addressee or addressee's authorized agent. Advise the clerk or mark the mailpiece with the endorsement "Restricted Delivery".
- If a postmark on the Certified Mail receipt is desired, please present the article at the post office for postmarking. If a postmark on the Certified Mail receipt is not needed, detach and affix label with postage on the mail.

IMPORTANT: Save this receipt and present it when making an inquiry.

PH Form 3810, August 2006 (Reverse), PSN 7530-02-000-0047

SENDER: COMPLETE THIS SECTION

- Complete items 1, 2, and 3. Also complete item 4 if Restricted Delivery is desired.
- Print your name and address on the reverse so that we can return the card to you.
- Attach this card to the back of the mailpiece, or on the front if space permits.

HAZARDOUS WASTE GENERATOR AND HAZARDOUS MATERIALS HANDLER INSPECTION REPORT

FA #: 10276 Facility Name: SANCHEZ AUTOMOTIVE SERVICE Inspection Date: 2.7.2011
Site Address: 26967 5TH ST. Phone #: 909.425.0808
City: HIGHLAND Zip Code: 92346 EPA ID #: CAL000304636
Consent Granted by: [X] Inspect [X] Photograph Name: DANIEL SANCHEZ Title: OWNER # Emp: 1 Packet left on site? YES/No
Refer to Title 19 and Title 22 of the California Code of Regulations (CCR), Chapter 6.5 and 6.95 of the California Health and Safety Code (CHSC) and Division 3 of Title 2 of the San Bernardino County Code (CC)

THE FOLLOWING SECTIONS ARE IN VIOLATION IF THEY ARE CHECKED

General Requirements:

- [X] 101. Hazardous Waste and/or Materials Permits not current. (CC 23.0602(a)) GENERATOR PERMIT CURRENT. Compliance requirement: Submit fees within 30 days of billing.
- [X] 104. EPA ID Number not obtained for waste generation. (CCR 66262.12(a)) EPA ID NUMBER IS INACTIVE/SEE BELOW TO REACTIVATE. Compliance Requirement: Obtain permanent EPA ID Number by submitting Form 1358 to DTSC. Submit your EPA ID Number to this Division.
- [] 106. Facility not operated to prevent a spill or release. (CCR 66265.31) CLEANUP WAS BEING CONDUCTED AT TIME OF INSPECTION. Compliance Requirement: Facility must conduct housekeeping & operate to prevent all spills. Signature on certification below denotes compliance.
- [] 107. A Contingency Plan has not been established. (CCR 66265.51(a))
- [] 202. A Business Plan has not been established. (CHSC 25503.5)
- [] 203. A Business Plan has not been submitted / updated. (CHSC 25505) Submit the original and one copy of the Business Emergency/Contingency Plan to this Division. NOTE: You must keep a current copy of your Business Emergency/Contingency Plan onsite and available at all times.
- [] 131. Training documentation not complete or available. (CCR 66262.34(d)(2)) OWNER/OPERATOR. Compliance Requirement: Submit training documentation as required.

INVENTORY: (1) 30-GAL WASTE OIL, (1) 30-GAL WASTE ANTIFREEZE, (1) 30-GAL BURNER OIL ANTIFREEZE, NEW OIL LESS THAN 55-GAL.

Container Storage and Labeling Requirements:

- [] 110. Hazardous waste containers are not labeled/marked. (CCR 66262.34(f)(3))
- [] 111. Hazardous waste label is incomplete. (CCR 66262.34(f)(3))
- [] 112. Accumulation start date is missing from tank/container. (CCR 66262.34(f)(2)) THE HAZARDOUS WASTE AREA WAS BEING CLEANED UP AT TIME OF INSPECTION. LABELS WERE AVAILABLE, MAY SWITCH DATES. Compliance Requirement: Hazardous waste label is to be applied to the tank/container. All fields and lines are to be correctly completed.
- [] 113. Accumulation time exceeded. (CCR 66262.34) NOT EXCEEDED. Compliance Requirement: Dispose of waste using a licensed waste hauler within 30 days. Submit copies of disposal documents to this Division.
- [] 114. Hazardous waste container not sound. (CCR 66265.171) CONTAINER WAS BEING INSPECTED AT TIME OF INSP.
- [] 115. Hazardous waste container leaking. (CCR 66265.173(b)) CONTAINER WAS BEING INSPECTED AT TIME OF INSP.
- [] 116. Hazardous waste container open when not in use. (CCR 66265.173(a)) CONTAINER AREA WAS BEING CLEANED UP AT TIME OF INSPECTION. Compliance Requirement: Waste containers must be sound, not leaking and closed when not in use.

Waste Management:

- [] 119. Hazardous waste managed unlawfully. (CHSC 25154) MANAGED LAWFULLY. Compliance Requirement: Hazardous waste containers and aboveground tanks must be labeled, closed, and inspected (weekly or daily, as appropriate). Waste is to be removed by a licensed waste hauler within the allowed time periods.
- [] 128. Failure to retain manifested waste disposal records for 3 years. (CCR 66262.40(a)) N/A
- [] 137. Failure to retain consolidated waste disposal records for 3 years. (CHSC 25160.2(b)(3)) RECORDS AND SAFETY KEYS RECORDS AVAILABLE. Compliance Requirement: Submit copies of waste disposal records for the past N/A
- [] 138. Unlawful management of used oil filters. (CCR 66266.130) LAWFUL MANAGEMENT. Compliance Requirement: Label all used oil filter containers with "DRAINED USED OIL FILTERS" and the accumulation start date.

Business Description: SMITH AND SHOP; OWNER/OPERATOR ONLY. MR. SANCHEZ STORES LESS THAN 5-GAL PER MONTH OF USED OIL AND ANTIFREEZE IS GENERATED.

Number of Underground Storage Tanks located at this facility 0

- Does this facility:
1. Generate, handle or store any Perchlorate-containing substance or waste on site? YES NO
2. Generate, handle or store any PCB ballasts on site? YES NO
3. Generate any amount of Universal Waste (mercury containing devices, non-empty aerosols, electronic devices, fluorescent light tubes, non-automotive batteries)? YES NO
4. Generate more than 220 pounds (100 kg) of RCRA hazardous waste including Universal Waste except CRT materials in a calendar month? YES NO
5. Accumulate more than 11,000 pounds (5,000 kg) of Universal Waste at any time in a calendar year? YES NO
6. Receive Mercury-containing Universal Waste from another Universal Waste Handler? YES NO
7. Process (dismantle, puncture, etc.) any Universal Wastes? YES NO

Provide the name(s) of all Universal Wastes handled or generated on site:
If you need more information, get the Managing Universal Waste fact sheet from the website of DTSC, this CUPA, or by calling our office.

Does this facility have a laboratory on site YES NO
* If yes, attach a general description of the laboratory and a brief description of the type(s) and quantity of hazardous materials in the lab.

III. VULNERABLE POPULATIONS

Is there a school, hospital, or extended care facility within 1,000 ft. (straight-line distance) of this facility? YES NO
If yes, attach page with the name and address of each school hospital or extended care facility site within 1000 ft.

EMERGENCY RESPONSE PLANS AND PROCEDURES

State Law requires your business to complete all sections of the Emergency Response Procedure listed below:
 For each of the following, briefly describe your business's standard operating procedures relating to the release or threatened release of hazardous materials located at your facility. You may attach additional pages if necessary, but do not include copies of facility manuals unless requested to do so by this Department. You may reference manuals that are used by your facility for these procedures, but you must still give a brief description here.

EVACUATION/NOTIFICATION: Indicate location(s) where employees, customers, visitors or others on site are to evacuate in an emergency. Describe how your business will immediately notify people and evacuate the facility in the event of a release or threatened release of hazardous materials. Include the route and meeting place.

All customers will EXIT FRONT DOOR / EMPLOYEE + STAFF OUT BAY DOORS

PREVENTION/MITIGATION/ABATEMENT: Describe what policies and procedures your business will follow to prevent, reduce and/or remove the hazard to persons, property or the environment caused by a release or threatened release of hazardous materials and/or hazardous wastes. (✓ Check those items that apply and write additional information in the space provided).

- Reduction of containers on site if not used or needed.
- Containers are properly labeled and closed when not in use.
- Compressed gas cylinders are properly secured.
- Use of monitoring system. Type: _____
- Other: _____

EMERGENCY RESPONSE PLANS AND PROCEDURES – PAGE 2

FACILITY TRAINING PLAN: Describe employee and operator training including local emergency response coordination, use of facility emergency equipment, and provisions for initial and refresher training. In addition, describe training for hazardous materials/waste handling as required by OSHA. (✓ Check those items that apply and write additional information in the space provided)

- New employee training.
- Annual training & periodic refresher courses.
- Familiarization with the Emergency Response Plans and Procedures of this Business Plan.
- Spill control equipment
- Monitoring system
- Personal Protective Equipment
- On the job training. Describe below.
- Other:

OWNER Sole Employer

EMERGENCY PROCEDURES: Give duties of the Emergency Coordinator and how implementation of Facility Emergency Response will be accomplished. (e.g. Notification, evacuation, emergency coordination) (✓ Check those items that apply and write additional information in the space provided)

Emergency Coordinator will:

- Identify potential hazards and determine whether a release has occurred.
- Activate local emergency systems (e.g. manual shutoff devices) and take appropriate immediate actions based on level of training and the ability to act safely.
- Coordinate the notification and evacuation of employees and customers from the facility.
- Make required agency notifications and request needed assistance.
- Assist responding agencies by providing access to the facility and information about the facility.
- Other:

EMERGENCY RESPONSE PLANS AND PROCEDURES - PAGE 3

FACILITY EMERGENCY EQUIPMENT: List facility emergency equipment on site (fire extinguisher, fire alarms, spill control equipment, SCBA, first aid kits, etc.); include test/maintenance plan. (✓ Check those items that apply and write additional information in the space provided)

Equipment	Quantity/Type	Maintenance Schedule/Frequency
<input checked="" type="checkbox"/> Fire extinguisher(s)	1 ABC TYPE C	1-2 year
<input checked="" type="checkbox"/> First aid kit(s)		
<input type="checkbox"/> Fire alarm(s)		
<input type="checkbox"/> Spill control equipment		
<input type="checkbox"/> Monitoring system		
<input type="checkbox"/> Personal Protective Equipment		

FACILITY EARTHQUAKE RESPONSE: Identify areas of the facility as well as mechanical or other systems that require immediate inspection due to their vulnerability to earthquake related ground motion. (E.g. Hazardous materials or waste storage locations, vessels, piping, pipe and tank supports, valves, gauges, etc.) (✓ Check those items that apply and write additional information in the space provided)

- Chemical Storage Locations - Product and Waste
- Process vessels
- Aboveground storage tanks
- Emergency shut-off systems
- Piping and pipe supports
- Utility connections
-
-
-
-

ARRANGEMENTS/AGREEMENTS: Describe any arrangements or agreements that you have with private emergency response teams, waste haulers, disposal companies, recyclers, local hospitals, police or fire. If you have no arrangements or agreements, state that fact in the space provided. (✓ Check those items that apply and write additional information in the space provided)

- Hazardous waste hauler will be hauled twice a year
- Emergency response team
- Local Hospitals
- Other:
- No arrangements or agreements at this time

Date: 3-6-04

HELPFUL HINTS FOR COMPLETING THE INVENTORY SECTION

Congratulations! You have completed the first half of the plan. The following pages require review of the hazardous materials and hazardous wastes at your facility to determine which items require disclosure.

Here are some helpful hints to assist you in filling out the hazardous materials inventory section:

- 1) This CUPA offers an example business plan that is available on our website or by mail. If you are unfamiliar with the business plan requirement, we recommend that you look at the example before you get started so you can see how inventory summary, chemical description pages, and maps work together.
- 2) Before you start filling out forms, determine how many items require disclosure and make the appropriate number of copies of the Inventory Summary form and the Chemical Description form. Note the following criteria when determining which items require disclosure in the inventory section: hazardous materials with a maximum quantity of greater than 55 gallons, 500 pounds, or 200 cubic feet; extremely hazardous substances at or exceeding threshold quantities (see Appendix B); any amount of hazardous waste, category 1 or 2 pesticides, or explosives.
- 3) Assign a unique item number to each inventoried item (e.g. 1,2,3, etc.) This same item number is used on the Inventory Summary, on the Individual Chemical Description form, and to show the storage location(s) on the facility map.
- 4) Each inventoried item requires a Chemical Description page that gives additional details about each chemical. Material Safety Data Sheets (MSDSs) and container labels are the main sources of chemical information. Wastes do not have MSDSs, but waste analysis, profiles, or manifests may have useful information.
- 5) Review Appendix I to determine which inventoried items require submission of a Material Safety Data Sheet (MSDS). If the substance is not listed in Appendix I, attach the MSDS for that chemical to the corresponding individual Chemical Description page. Anytime you update or refill the Chemical Description Page, make sure to attach the current MSDS. If you do not have a MSDS for a material, you can get one from your chemical vendor and you need them for compliance with the OSHA Hazard Communication Standard. Hazardous wastes do not have MSDSs.
- 6) Materials and wastes of the same chemical (e.g. lubricating oil and used oil) require separate Chemical Description pages.
- 7) Since the Chemical Description Page requires location information, you will have to complete the facility map(s) before you can finalize the Chemical Description pages.
- 8) The Maximum Quantity should reflect the maximum amount that could ever be onsite at any one time. The maximum listed on the Inventory Summary and the maximum listed on the individual Chemical Description form should be the same.
- 9) Typically, liquids are disclosed in gallons, solids in pounds and compressed gases in cubic feet. If you have questions regarding the correct unit type for an item, contact this department for assistance.
- 10) Signatures: The Inventory Summary form requires the Owner/Operator signature. Additionally, EPCRA filers are required to sign all Individual Chemical Description forms.

Note: If you have a large warehouse, trade secrets, or other unique situation, please call our office before you fill out chemical description pages. We can help you develop an inventory that will meet the requirements and accommodate a unique situation.

INVENTORY SUMMARY FORM (REQUIRED)

I. FACILITY IDENTIFICATION

FACILITY ID # **F A** _____

BUSINESS NAME (Same as FACILITY NAME or DBA)

Sanchez Automotive Service

FACILITY ADDRESS _____ 103 CITY _____ 104

26967 576 ST

Highland

II. INVENTORY SUMMARY

Item #	Name of Hazardous Material or Waste	Maximum Quantity	Size of Largest Container	Unit of Measure
3.	Lubricating Oil (Example Only)	55	500	Gallon
1	waste oil	30	30	Gallon
1	waste Antifreeze	30	30	Gallon
1	waste oil filters	30	30	Gallon

Summarize the business plan inventory on this page. Place this summary in front of inventory section of the Business Plan. Make copies of this sheet as necessary. Reminder: You need not report hazardous materials with a maximum quantity of less than 55 gallons, 500 pounds, 200 cubic feet, or the threshold planning quantity of an extremely hazardous substance. However, hazardous wastes, Category 1 and 2 pesticides, and explosives are reportable at any quantity.

III. SIGNATURE- EPCRA Facilities MUST sign the bottom of each individual attached inventory form.

SIGNATURE OF OWNER/OPERATOR 	NAME OF SIGNER (print) Daniel Sanchez	130	DATE 3-6-06	134
---------------------------------	---	-----	-----------------------	-----

Business Plan Inventory Summary Form Instructions

File an Inventory Summary every time you update any or all of the Chemical Description Pages. This makes sure that your copy, the local Fire Agency, and the CLUPA has the most current, complete information.

Purpose: The Inventory Summary is a critical document that acts as a table of contents for the individual chemical description pages, otherwise known as the Chemical Description Pages. It gives an important at-a-glance view of your inventory and acts as a key to the location of inventoried items on your facility map.

Inventory: Only items meeting the criteria and quantities of 55 gallons, 500 pounds, 200 cubic feet of a hazardous substance; extremely hazardous substances at or exceeding threshold quantities (see Appendix B); any amount of hazardous waste, category 1 or 2 pesticides, or explosives must be included in the Inventory Section of the Business Plan.

Item Numbers: Assign a unique number to each inventoried item. Place the item number on each individual Chemical Description Form, and then use the same item number to list the item in order of the attached Chemical Description Pages on the Inventory Summary Form. This item number is also used to locate the storage location of the inventoried items on the Facility Map(s).

Name of Hazardous Material or Waste: Provide the name of the Hazardous Material or Waste being inventoried. The same name should be used on the Chemical Description Form.

Maximum Quantity: Maximum quantities are a not-to-exceed amount for the reporting year.

Largest Container Size: Enter the total capacity of the largest container in which the material is stored. If hazardous materials are stored in various containers, use the largest container size to complete this section.

Unit of Measure: Describe how the hazardous material is being stored. Typically, liquids are listed in gallons; solids are listed as pounds; and gases are listed as cubic feet. Extremely Hazardous Substances (EHS) must be reported in pounds, regardless if the EHS is in a liquid, solid, or gas phase.

Signature: The owner/operator must sign the Inventory Summary Form, print their name, and date this page.

EPCRA: EPCRA filers must also sign and date all Chemical Description Pages.

HAZARDOUS MATERIALS INVENTORY FORM - Chemical Description MATERIAL WASTE
One page per item. Indicate if material OR waste (Do not combine material and waste on one form) **WASTE**
 MAKE COPIES OF THIS FORM AS NEEDED.
 ATTACH A MATERIAL SAFETY DATA SHEET (MSDS) IF THE MATERIAL IS NOT LISTED IN APPENDIX I OF THIS GUIDE.

Hazardous Materials Inventory Form – Chemical Description Form

For each item listed on the Inventory Summary Form, complete a separate Chemical Description Form. Attach a Material Safety Data Sheet (MSDS) to corresponding Chemical Description Form, unless the material is not listed in Appendix I.

Purpose: The Hazardous Materials Inventory Form – Chemical Description Form is a more detailed inventory form which provides additional chemical information that can be used by the Local Fire Jurisdiction, as well as the CUPA.

Chemical Description Form: For each hazardous material or hazardous waste listed on the Inventory Summary Form, a separate Chemical Description Form must be completed. Do not combine materials and wastes on one form. For example, if your facility stores or uses new oil exceeding 55 gallons, and also generates waste oil waste, two separate Chemical Description Forms must be completed. One form will be completed for the new oil; one form will be completed for the waste oil. At the top of the form, check one of the two boxes (Material or Waste). Do not check both boxes.

Item Number: Use the same item number assigned on the Inventory Summary Form to list inventoried items.

Chemical Location Information: This section is used to identify the storage location of the specific hazardous material. Provide the Grid Coordinate(s) from the facility map to identify the storage location of each chemical. The Hazardous Materials Inventory Form – Chemical Description Form is provided to public requestors; however, maps showing storage locations are not. Do not include confidential storage location information on this page.

Chemical Information:

- **Chemical Name** – provide the name of the chemical being inventoried. The Chemical Name can be found on the Material Safety Data Sheet (MSDS), container, or your purchase invoice. For example, petroleum hydrocarbon is the chemical name for gasoline.
- **Common Name** – provide the common name of the chemical being inventoried. For example, gasoline is the common name for petroleum hydrocarbon.
- **CAS # - Chemical Abstract Service number.** Provide the CAS number for the chemical being inventoried. The CAS number can be obtained from the MSDS.
- **Trade Secret** - check the "NO" box. If your facility has a trade secret, contact this CUPA for specific filing instructions.
- **EHS – Extremely Hazardous Substance.** Check the "YES" box if the chemical being inventoried is listed in Appendix B. Remember, if the "YES" box is checked, the chemical amount must be listed using pounds, regardless if the EHS is a liquid, solid, or gas. If the chemical being inventoried is not in Appendix B, then check the "NO" box.
- **Hazardous Material Type** – check only one box to indicate if the chemical being inventoried is a pure chemical, a mixture or a waste.
- **Radioactive** – check the "YES" box if the chemical being inventoried is radioactive. In the next box, provide the Curies. Check the "NO" box if the chemical being inventoried is not radioactive.
- **Physical State** – check only one box to indicate the physical state of the chemical.
- **Size of Largest Container** – Enter the total capacity of the largest container in which the material is stored. If hazardous materials are stored in various containers, use the largest container size to complete this section.
- **Federal Hazard Categories** – check all categories that describe the physical and health hazards associated with the hazardous material. **PHYSICAL HAZARDS** - Fire: Flammable Liquids and Solids, Combustible Liquids, Pyrophorics, Oxidizers; **Reactive:** Unstable Reactive, Organic Peroxides, Water Reactive, Radioactive; **Pressure Release:** Explosives, Compressed Gases, Blasting Agents; **HEALTH HAZARDS** - **Acute Health (Immediate):** Highly Toxic, Toxic, Irritants, Sensitizers, Corrosives, other hazardous chemicals with an adverse effect with short term exposure; **Chronic Health (Delayed):** Carcinogens, other hazardous chemicals with an adverse effect with long term exposure.
- **Average Amount** – this is the average amount of the chemical being stored at your facility on a given day.
- **Maximum Amount** – this is the maximum amount of each hazardous material or mixture containing a hazardous material that is on site at any one time over the course of the year. This number represents a not to exceed quantity.
- **Annual Waste Amount** – this is the annual amount of waste generated during the year.
- **State Waste Code** – this 3-digit number identifies the type of hazardous waste that is generated. The number can be found on the Hazardous Waste Manifest or in Appendix F – Common Waste Codes.
- **Units** – check the appropriate box to describe how the hazardous material is being stored. Typically, liquids are listed in gallons; solids are listed as pounds; and gases are listed as cubic feet. Remember, Extremely Hazardous Substances (EHS) must be reported in pounds, regardless if the EHS is in a liquid, solid, or gas phase.
- **Storage Container** – check all boxes that describe what type of container(s) are used to store the chemical.
- **Storage Pressure** – check the one box that describes the pressure that the chemical is stored at.
- **Storage Temperature** – check the one box that describes the temperature that the chemical is stored at.
- **% WT** - enter the percent by weight of the chemical components. If a range of percentages is available, report the highest percentage in that range.
- **Composition** – list all components of the chemical. If the chemical is a mixture list the hazardous components first, followed by the non-hazardous components.
- **EHS** - check "Yes" if the component is considered an Extremely Hazardous Substance or "No" if it is not.
- **CAS# - Chemical Abstract Service number.** Provide the CAS number for the chemical being inventoried. The CAS number can be obtained from the MSDS.
- **Notes** – this field can be used to provide additional information about the chemical. This CUPA does not require the fire code hazard class. If your local fire agency specifically requests this information, provide the fire code hazard class in this section.

Business Emergency/Contingency Plan Receipt

Mail to: SANCHEZ AUTOMOTIVE SERVICE
26967 5TH STREET
HIGHLAND, CA 92346

Site Address: SANCHEZ AUTOMOTIVE SERVICE
26967 5TH ST
HIGHLAND, CA 92346

Service Request ID: SR0009058

Facility ID: FA0010276

The Business Emergency/Contingency Plan was received on March 07, 2006 by the Hazardous Materials Division.

For future reference, please note the following Business Emergency/Contingency Plan requirements:

1. The contents of this plan are subject to field verification and a current copy of this plan must be available on site.
2. This plan contains important information on preventing, responding to, and reporting releases of hazardous materials/waste. Employees are expected to be familiar with these portions of the plan.
3. The plan is available for public inspection through this Division, with the exception of substantiated trade secrets, the separate confidential emergency contact page, and maps specifying the precise storage locations of hazardous materials/wastes.
4. Two copies of the plan and/or update is required to be filed with this Division. The second copy will be forwarded to the local fire jurisdiction.
5. The annual deadline for submission of business plan inventory is March 1st. Please note that EPA does not allow EPCRA facilities to file a recertification in place of annual inventory. Also, this Division typically does not send individual notices of this statutory deadline, so please note the March 1st date for future annual submissions.

Within 30 days of any of the following events, an amendment to the Business Emergency/Contingency Plan must be filed:

1. A 100 percent or more increase in quantity of a previously disclosed item.
2. Any handling of a previously undisclosed hazardous material (including waste) required to be inventoried or elimination of a previously inventoried item.
3. Change of business address, business ownership, or business name.
4. Change of emergency contact information or other site conditions that may significantly affect emergency response.

For more information please consult the latest version of the San Bernardino County CUPA Business Emergency/Contingency Plan guidelines and forms, available through our website at www.sbcfire.org or by calling this office at (909) 386-8401.

NEW FA 200 per DP

BUSINESS EMERGENCY/CONTINGENCY PLAN COVER SHEET

I. IDENTIFICATION

For Dept Use Only - Log In/Date Stamp

FACILITY ID # **F A 1 0276**

REC'D
3/7/06

BUSINESS NAME (Same as FACILITY NAME or DBA) **Sanchez Automotive**

BUSINESS SITE ADDRESS **26967 5th ST** CITY **Highland** ZIP CODE **92346**

II. SUBMISSION CHECKLIST

(Complete this Section if submitting an entire business emergency/contingency plan whether new or revised)

Submission Checklist

Items with an "*" are considered "Inventory" under State disclosure laws

- * Business Activities Form
- * Business Owner/Operator Identification Form
- * Supplemental Emergency Contact Page
- Emergency Response Plans and Procedures
- * Hazardous Materials Inventory Summary Form for the facility listing materials (including wastes) by item number.
- * One Hazardous Materials Inventory Form for each hazardous material (including wastes) which meet reporting criteria
- * Material Safety Data Sheets attached to the Inventory form of each material not listed in Appendix I.
- * Facility map (using grid form provided) consisting of all required features including the location of each inventoried item.
- Site map (using grid form provided) consisting of all required features including surrounding facilities and areas.
- Area map - photocopied city map with location of site indicated
- Owner/Operator has signed and dated the plan and all required individual pages of the plan. →
- Submit 2 copies to the Hazardous Materials Division. One is for distribution to the local fire jurisdiction.
- Retain one copy of the business emergency/contingency plan at the facility.

III. UPDATE/CERTIFICATION

(Complete this Section if submitting a partial update or re-certifying an existing Plan)

Check the appropriate boxes below and sign the certification statement. Submit 2 copies of all update information.

- Please incorporate the following into my business emergency/contingency plan.
 - New Business Owner/Operator Identification Form
 - New Inventory Forms and new Inventory Summary Form (and maps, if affected).
 - New Supplemental Emergency Contact Page.

Other: _____

Brief explanation of changes: _____

- There have been no changes to the inventory. In place of submitting the annual inventory, I hereby attest to all of the following:
 - The information contained in the inventory most recently submitted to the CUPA is complete, accurate and up to date.
 - There has been no change in the quantity, storage, or handling of hazardous materials (including waste) reported in the most recently submitted inventory.
 - No hazardous materials (including waste) subject to inventory requirements are being handled that are not listed on the most recently submitted inventory.
 - This certification is not being made to meet annual inventory submission requirements of EPCRA. (EPCRA requires complete annual submission)

IV. SIGNATURE

(Complete this Section for all submissions)

Certification - Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted on this document and believe the information is true, accurate and complete.

SIGNATURE OF OWNER/OPERATOR <i>Daniel Sanchez</i>	DATE 3/2/06	NAME OF DOCUMENT PREPARER 135

BUSINESS EMERGENCY/CONTINGENCY PLAN COVER SHEET INSTRUCTIONS

Submit the Business Emergency/Contingency Plan Cover Sheet each time you update the Business Emergency/Contingency Plan.

Purpose: This form helps you determine which pages of the Business Emergency/Contingency Plan are required for full submissions and updates/changes. If completed correctly, this form can also alert staff to changes that affect permitting such as ownership or business name changes. Finally, this form serves as documented certification that the plan contents have been reviewed by the Owner/Operator and are accurate to the best of that individual's knowledge.

Facility ID: The Facility ID # is unique to an operation at a specific location under the control of a single employer. This CUPA issues the number. If this is your first application with our CUPA for this site, you will not have a Facility ID # yet and should simply leave this field blank on all forms. You can expect to receive your facility ID # with the invoice for your permits within 60 days of initial filing. Facility ID #'s are not transferable from one location to another. If you have questions regarding your Facility ID #, please contact this Department.

Submission Checklist: Complete this section if you are submitting an entire business plan. Checking off the boxes helps you to make sure that you have completed all the required pages and made the necessary copies.

Update/Certification: This section should be completed to notify this Department of significant changes such as an ownership change, changes to the inventory and changes relating to the emergency contact information. For more information about updates, see the instructions on page III or call this office. Note that EPCRA facilities must provide a complete submission every year.

Signature: This section must be completed as the plan will not be accepted as complete unless the plan has been certified and signed by the Owner/Operator.

FACILITY ID #	F	A					
BUSINESS NAME (Same as FACILITY NAME or DBA) Sanchez Automotive							EPA ID # (Hazardous Waste Only)
BUSINESS ADDRESS 26967 575 ST						CITY Highland	ZIP CODE 92346

II. ACTIVITIES DECLARATION

Does your facility...	If YES, please complete these portions of the application...	
A. HAZARDOUS MATERIALS		
1. Have onsite (for any purpose) hazardous materials at or above 55 gallons for liquids, 500 pounds for solids or 200 cubic feet for compressed gases; or the applicable Federal threshold quantity for an extremely hazardous substance; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70; or handle ANY amount of Class 1 or 2 explosives; or ANY amount Category I or II pesticides.	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	BUSINESS EMERGENCY/CONTINGENCY PLAN (Used in place of OES Form 2730 and 2731)
2. Have extremely hazardous substances above threshold planning quantities or hazardous substances in quantities greater than 10,000 lbs (except retail gas stations up to 75,000 gallons of gasoline or 100,000 gallons of diesel fuel in upgraded USTs) or otherwise subject to EPCRA 311-312 reporting requirements.	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	BUSINESS EMERGENCY/CONTINGENCY PLAN (Must file annually according to EPCRA instructions to meet EPCRA SARA Title III Tier 2 reporting requirements - see instructions, pg 1)
B. REGULATED SUBSTANCES		
Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release Prevention Program (CalARP)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	BUSINESS EMERGENCY/CONTINGENCY PLAN (Used in place of OES Form 2730 and 2731) CalARP REGISTRATION FORM (See Section V of BP guidelines and forms)
C. UNDERGROUND STORAGE TANKS (USTs)		
1. Own or operate underground storage tanks?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	UST FACILITY UST TANK (Pages 1 and 2) (One set per tank)
2. Intend to upgrade existing or install new USTs?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	UST FACILITY UST TANK (Pages 1 and 2) (One set per tank) UST INSTALLATION - CERTIFICATE OF COMPLIANCE (one page per tank)
3. Need to report closing a UST?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	UST FACILITY UST TANK (Pages 1 and 2) (One set per tank) HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
D. ABOVE GROUND PETROLEUM STORAGE TANKS (ASTs)		
Store greater than 1320 gallons of petroleum products (new or used) in aboveground tanks or containers?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	IF YES, PREPARE AND MAINTAIN A SPILL PREVENTION CONTROL & COUNTERMEASURES PLAN (SPCC) TO ADDRESS RELEASES FROM ABOVEGROUND STORAGE OF PETROLEUM AT YOUR FACILITY.
E. HAZARDOUS WASTE		
1. Generate ANY amount of hazardous waste?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO	EPA ID NUMBER—provide at the top of this page BUSINESS EMERGENCY/CONTINGENCY PLAN (Used in place of OES Form 2730 and 2731)
2. Recycle more than 100 kg/month of excluded or exempted recyclable materials (per CHSC §25143.2)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	RECYCLABLE MATERIALS REPORT (Pages 1 and 2)
3. Treat hazardous waste on site?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	ONSITE HAZARDOUS WASTE TRT - FACILITY ONSITE HAZARDOUS WASTE TRT - UNIT (one per unit)
4. Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	CERTIFICATION OF FINANCIAL ASSURANCE
5. Consolidated hazardous waste generated at a remote site?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	REMOTE WASTE/CONSOLIDATED SITE ANNUAL NOTIFICATION
6. Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste; or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	IF YES, OBTAIN FEDERAL EPA ID NUMBER, FILE BIENNIAL REPORT (EPA FORM 8700-134/6) WITH USEPA, AND SATISFY REQUIREMENTS FOR RCRA LARGE QUANTITY GENERATOR.

Business Activities Page Instructions

Submit the Business Activities page each time you update the Business Emergency/Contingency Plan.

Purpose: This form helps you obtain a CUPA permit and file the appropriate forms for the different types of regulated activities for this specific facility. Specific forms and program explanations are available from our website, www.sbcfire.org. Click on Hazmat.

Facility ID: The Facility ID # is unique to an operation at a specific location under the control of a single employer. This CUPA issues the number. If this is your first application with our CUPA for this site, you will not have a Facility ID # yet and should simply leave this field blank on all forms. You can expect to receive your facility ID # with the Invoice for your permits within 60 days of initial filing.

EPA ID #: If you generate, recycle, or treat hazardous waste, enter your facility's 12-character U.S. Environmental Protection Agency (U.S. EPA) or California Identification number. All hazardous waste generators are now required to have an ID number. This number is obtained by filing form DTSC 1358 by mail, email, or fax. This form is available from our website or from the DTSC web site at www.dtsc.ca.gov under Frequently Requested Information. There is no cost for an EPA ID #.

Business Name & Address: Enter the full legal name of the business at this location. This is the same as the terms "Facility Name" or "DBA-Doing Business As" that might have been used in the past. Business Address should be the location address of the actual operation, not a mailing address, post office box, or separate central office.

A. HAZARDOUS MATERIALS

1. Answer "YES" to this question if you handle the indicated quantities of hazardous materials. Note that hazardous materials include oils, paints, solvents, cleaners, and all hazardous wastes. For definition, see the instructions, page ii. If "YES", complete and submit the Business Emergency/Contingency Plan.

2. Answer "YES" to this question if you handle the quantities indicated related to Sections 311-312 of the Federal Emergency Planning and Community Right to Know Act (EPCRA). See page I of these instructions or www.epa.gov/ceppo. If "YES", submit the Business Emergency/Contingency Plan following the EPCRA instructions, with annual complete submission and signatures.

B. REGULATED SUBSTANCES

Answer "YES" to this question if you handle in a process greater than the threshold quantities of a regulated substance listed in the 3 tables in Appendix C. If "YES", submit the San Bernardino County CUPA CalARP Registration Form (also in Appendix C) and coordinate with this CUPA the submission of the Risk Management Plan (RMP) and the implementation of the Prevention Program.

C. UNDERGROUND STORAGE TANKS (USTs)

1. Answer "YES" to this question if you own or operate USTs containing hazardous substances as defined in Health and Safety Code (HSC) §25318 or San Bernardino County Code. If "YES", then you must complete one UST Facility page and UST Tank pages for each tank. Other forms for upgrading or closing a UST may be obtained from our website.

D. ABOVE GROUND PETROLEUM STORAGE TANKS (ASTs)

Answer "YES" to this question if you store greater than 1320 gallons of petroleum products either new or used, in aboveground tanks or containers. Note that "tank" in this law is defined to include all aboveground containers including drums, but does not include pressurized liquefied petroleum gases. If "YES", you must prepare a Spill Prevention Control and Countermeasures Plan (SPCC).

E. HAZARDOUS WASTE

1. Answer "YES" if you generate ANY amount of hazardous waste (HW). A generator is the person or business whose acts or processes produce a HW or who causes a hazardous substance or waste to become subject to state HW law. Hazardous Waste includes waste oil, waste antifreeze, and many other common wastes. You are the generator even if the waste is ultimately recycled or if another company hauls it for you. If "YES", obtain an EPA ID number and use the Business Emergency/Contingency Plan Forms to meet Contingency Plan requirements.

2. Answer "No" to the recycling question if you only send materials to an offsite recycler (eg oil, antifreeze, parts washer solutions). Answer "YES" if this site recycles any amount of recyclable materials under a claim that the material is excluded or exempt per HSC § 25143.2. If "YES", complete the Recyclable Materials Reporting Form (Page 1 & 2).

3. Answer "YES" if your facility engages in onsite treatment of hazardous waste. "Treatment" means any method, technique, or process which is designed to change the physical, chemical, or biological character or composition of any hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose. "Treatment" does not include the removal of residues from manufacturing process equipment for the purposes of cleaning that equipment. There are exemptions from the definition of "treatment" for certain processes under specific, limited conditions described in CHSC section 25123.6(b). If "YES", complete the Onsite Hazardous Waste Treatment Notification- Facility page and one set of Onsite Hazardous Waste Treatment Notification-Unit pages with waste and treatment process information for each unit.

4. Answer "YES" if your facility is subject to Financial Assurance requirements for closure of an onsite treatment unit (for Permit by Rule and Conditional Authorization). Unless they are exempt, Permit by Rule (PBR) and Conditionally Authorized (CA) operations are required to provide financial assurance for closure costs (per 22 CCR §87450.13(b) and HSC §25245.4). If "YES", then complete the Certificate of Financial Assurance page.

5. Answer "YES" if you are a hazardous waste generator that collects hazardous waste initially at remote sites and subsequently transports the hazardous waste to a consolidation site you also operate. You must be eligible pursuant to the conditions in HSC §25110.10. If "YES", complete the Remote Waste Consolidation Site Annual Notification page.

6. Answer "YES" to this question if you generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste. If "YES", obtain a Federal EPA ID number, file a biennial report, and satisfy other requirements for RCRA Large Quantity Generators.

COMMENTS:

Hello! Yes, it's me. How were your holidays? Good, I hope. I know you are extremely busy, especially after the holidays, but I was wondering, if you have received information on the following property:

27111 E. 5th Street

APN: 290-154-44

(Property was owned by Julius and Margaret Bertell from 1958 to 1978.) Building was constructed in 1973.

There should be a closed file on the site as three underground storage tanks were removed in early 1997 (owner of the site at that time was Hoham Estate).

I would appreciate any information you can find on this site. Thank you,

Natalie

27111 E. 5th Street
Highland, CA 92346

Attn: Dan Ferris

The Department of Environmental Health Services Emergency Management Program has determined that the Business Plan of

Foothill Tool & Equip. Rentals

as amended

as submitted

meets the requirements mandated in the State Health and Safety Code, Chapter 6.95. The entire contents of this approved Business Plan, with exception of "Trade Secrets" and portions of the plan specifying the precise location where hazardous materials are stored and handled on site including the maps, will be available for public inspection.

Within 30 days of any one of the following events, this business must submit to this department an amendment to the inventory form detailing the handling and the following appropriate information.

- (1) A 100 percent or more increase in quantity of a previously disclosed material
- (2) Any handling of a previously undisclosed hazardous materials subject to the inventory requirements of this chapter
- (3) Change of business address
- (4) Change of business ownership
- (5) Change of business name.

A copy of this Business Plan has been sent to the local enforcement agency and fire jurisdiction.

9. INVENTORY OF HAZARDOUS MATERIALS ON SITE (INDICATE UNITS USED).

A. HAZARDOUS MATERIALS

1. Chemical Name Gasoline, Regular
CAS # (if known) _____
Composition _____
Hazard Code/s (See Page 9) / / / /
Common Name Gasoline UN103
Solid _____ Liquid X Gas _____ Mix _____ Pure _____
Maximum amount at one time on site _____
Average daily amount on site _____
Number of days on site/year Year Round
Container type Tank
Storage Pressure _____ Storage Temp (F) _____

2. Chemical Name Diesel Fuel
CAS # (if known) _____
Composition _____
Hazard Code/s (See Page 9) / / / /
Common Name Diesel Fuel NA1993
Solid _____ Liquid X Gas _____ Mix _____ Pure _____
Maximum amount at one time on site _____
Average daily amount on site _____
Number of days on site/year Year Round
Container type Tank
Storage Pressure _____ Storage Temp (F) _____

3. Chemical Name Solvent
CAS # (if known) _____
Composition _____
Hazard Code/s (See Page 9) / / / /
Common Name Solvent UN2155
Solid _____ Liquid X Gas _____ Mix _____ Pure _____
Maximum amount at one time on site 55 Gallon
Average daily amount on site 55 Gallon
Number of days on site/year Year Round
Container type 55 Gallon Drum
Storage Pressure 0 Storage Temp (F) Air Temp.

4. Chemical Name Engine Oil
CAS # (if known) _____
Composition _____
Hazard Code/s (See Page 9) _____
Common Name Engine Oil
Solid _____ Liquid X Gas _____ Mix _____ Pure _____
Maximum amount at one time on site 110 Gallon
Average daily amount on site 55 Gallon
Number of days on site/year Year Round
Container type 55 Gallon Drum
Storage Pressure 0 Storage Temp (F) Air Temp.

Tank Testing - Tait Petroleum Services 714/634-4800

Preventative Measures

We have had a recent Environmental Survey of our facilities by Meredith/Ball and Associates. We are following their recommendations in areas such as:

- Container Labeling
- Reduction of Containers on Site
- Fuel Tank Integrity Tests
- Soil Examination
- Employee Training

Employee Notification and Evacuation Plans

Each facility has a PA system and practices announcing Emergency Evacuations. When announced on P.A., each person terminates what he is currently doing, turns off machines, motors, etc. and moves to a predetermined assembly point where the on duty manager accounts for everyone.

This is an ongoing practice.

CORPORATE OFFICE 4460 E. La Palma Ave. • Anaheim, CA 92807 **714-779-2161**

Employee Training

We have an on going training program in which monthly meetings are held with various suppliers representatives who discusses his or her line of equipment or product.

The company has District Managers who, on visits to a branch location, discusses procedures and product meetings with employees on a regular basis.

New employees are given an extensive tour of the facility, shown safety measures in force and instructed on evacuation details.

MATERIAL SAFETY DATA SHEET

SECTION I

GENERAL INFORMATION

C.O. THOMPSON PETROLEUM COMPANY
 11512 S. ANAHEIM BLVD.
 ORANGE, CALIF. 92668
 (800) 624-7073
 CHEMTREC 1-800-424-9300

TRADE NAME: TRANSMISSION FLUID
 DEXRON II, FORD

CHEMICAL NAME: Petroleum hydrocarbon

SECTION II
COMPONENTSHAZARDOUS INGREDIENTS
PERCENT CAS THRESHOLD LIMIT VALUE

PERCENT	CAS	THRESHOLD LIMIT VALUE
Petroleum hydrocarbons [solvent refined, hydrotreated]	90-99 64742-54-7	5mg/m ³ as oil mist

SECTION III

PHYSICAL DATA

APPEARANCE: Red light oil
 ODOR: Slight odor; motor oil
 SPECIFIC GRAVITY: .86-.92
 WATER SOLUBILITY: nil

VAPOR PRESSURE [mm. Hg]: nil
 VAPOR [air=1]: not volatile
 BOILING POINT: >.620° F

SECTION IV

FIRE AND EXPLOSION

FLASHPOINT: >350°F_{cc}

EXTINGUISHING MEDIA: Use water only as fog. Foam, dry chemical, or CO₂.

SPECIAL FIREFIGHTING PROCEDURES: Do not use a direct stream of water. Product may float and can be reignited on surface of water.

UNUSUAL FIRE & EXPLOSIVE HAZARDS: None unusual

SECTION V

HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE: 5mg/m³ as oil mist PEL OSHA

SYMPTOMS OF OVEREXPOSURE: EYES: Causes irritation

SKIN: Can cause irritation. Extended exposure can cause dermatitis

LUNGS: Vapors or mist may cause pulmonary irritation, nausea.

STOMACH: May cause nausea and vomiting.

FIRST AID

IF IN EYES: Flush with water for 15 minutes holding eyelids open.

IF ON SKIN: Wipe excess off. Wash with soap and water. Do not reuse clothing until cleaned.

IF INGESTED: Do NOT induce vomiting. Get medical advice. [In general, no treatment is necessary unless large quantities of product are ingested.]

IF BREATHED: Remove to fresh air. Provide O₂ if breathing is difficult.

SECTION VI

REACTIVITY DATA

STABILITY: Stable

INCOMPATIBILITY: Strong oxidizers

THERMAL DECOMPOSITION: CO, CO₂, Possible S,P

POLYMERIZATION:

SECTION VII

SPILL OR LEAK PROCEDURES

SPILL PROCEDURE: Dike to contain large spills. Use absorbent material such as sand, earth, clay etc. Sweep up and place in containers.

WASTE DISPOSAL: Conform to local, state, and federal regulations.

SECTION VIII

SPECIAL PROTECTION

SKIN PROTECTION: Apron

RESPIRATORY PROTECTION:

OTHER:

EYE PROTECTION: Goggles

VENTILATION:

SECTION IX

SPECIAL PRECAUTIONS

Product may be slippery when walked on.

SECTION IV FIRE AND EXPLOSION

FLASHPOINT: > 320'F (COC) EXTINGUISHING MEDIA: DRY CHEMICAL, CO2, FOAM
UPPER FLAMMABLE: NOT AVAILABLE SPECIAL FIREFIGHTING PROCEDURES: DO NOT USE WATER STREAM
LOWER FLAMMABLE: NOT AVAILABLE UNUSUAL FIRE & EXPLOSIVE HAZARDS: CO, DENSE SMOKE

SECTION V HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE (OSHA): 5 mg/M^3 AS MIST IN AIR
SYMPTOMS OF EXPOSURE: PROLONGED CONTACT WITH SKIN MAY CAUSE DERMATITIS
CHEMICAL LISTED AS CARCINOGEN NTP YES X NO OSHA YES X NO IARC YES X NO

FIRST AID

IF IN EYES: FLUSH WITH LARGE AMOUNTS OF WATER.
IF ON SKIN: WASH AFFECTED AREA WITH SOAP & WATER. REMOVE CONTAMINATED CLOTHING.
IF SWALLOWED: CALL A PHYSICIAN IMMEDIATELY. DO NOT INDUCE VOMITING.
IF BREATHED: REMOVE PERSON TO FRESH AIR.

SECTION VI REACTIVITY DATA

STABILITY: STABLE THERMAL DECOMPOSITION: CO, CO₂, SMOKE
 INCOMPATIBILITY: STRONG OXIDIZING AGENTS POLYMERIZATION: WILL NOT OCCUR

SECTION VII SPILL OR LEAK PROCEDURES

SPILL PROCEDURE: ABSORB PRODUCT WITH INERT MATERIAL AND PLACE IN PROPER D.O.T. CONTAINER.
 CONTACT LOCAL AUTHORITIES IF NECESSARY.
 WASTE DISPOSAL: IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REGULATIONS

SECTION VIII SPECIAL PROTECTION

SKIN PROTECTION: GLOVES IF DESIRED EYE PROTECTION: GOGGLES, FACE SHIELD
 RESPIRATORY PROTECTION: NONE REQUIRED IF USED HOT
 VENTILATION: EXHAUST FAN IF EXCESSIVE MIST IS GENERATED OTHER: NONE

SECTION IX SPECIAL PRECAUTIONS

MINIMIZE BREATHING OF MIST. AVOID PROLONGED AND REPEATED SKIN CONTACT. WASH CONTAMINATED CLOTHING BEFORE RE-USE. ELIMINATE ALL SOURCES OF IGNITION SUCH AS SPARKS OR FLAME.

MATERIAL SAFETY DATA SHEET

SECTION I

REPORT/REVISION DATE October 28, 1985	PRODUCT NAME Carburetor Cleaner & Parts Dip
CHEMICAL FAMILY Chlorinated Hydrocarbons	FORMULA Chlorinated/aromatics in alkaline emulsion
FED. STD. 313/NATIONAL FIRE PROTECTION ASSOC. STD. 404M SIGNAL	
FLAMMABILITY *see note	HEALTH 2-3 REACTIVITY 1 SPECIFIC HAZARD Eye & skin corrosion

SECTION II - HAZARDOUS INGREDIENTS

INGREDIENT	PERCENT	TLV	COMMENTS
Methylene chloride	50	100	CAS 75-09-2
Cresylic acid	15	5	CAS 1319-77-3
Orthodichlorobenzene	10	50	CAS 95-50-1

The materials listed in this Data Sheet are classified as ~~extremely~~ hazardous according to definition set forth by the Occupational Safety & Health Administration in 29 CFR 1915.4 which states:

- "A hazardous material has one or more of the following characteristics:**
- (1) has a flashpoint below 140° F., closed cup, or subject to spontaneous heating;
 - (2) has a threshold limit value below 500 ppm for gases and vapors, below 500 Mg/M³ for fumes, and below 25 mppcf for dusts;
 - (3) a single dose oral LD₅₀ below 500 mg/kg;
 - (4) is subject to polymerization with the release of large amounts of energy;
 - (5) is a strong oxidizing or reducing agent;
 - (6) causes first degree burns to skin in short time exposure, or is systemically toxic by skin contact; or
 - (7) in the course of normal operations, may produce dusts, gases, fumes, vapors, mists, or smokes which have one or more of the above characteristics."

OR, the material appears on OSHA (29 CFR 1910.1000) or California Director's list of hazardous substances, OR is defined by 29 CFR 1910.1200 as carcinogen, corrosive, toxic, irritant, or sensitizer.

SECTION III - PHYSICAL DATA

BOILING POINT (°F.)	100°F	SPECIFIC GRAVITY (H ₂ O=1)	1.2
VAPOR PRESSURE (mm Hg.)		PERCENT VOLATILE BY VOLUME (%)	75
VAPOR DENSITY (AIR=1)	Greater than 1	EVAPORATION RATE (WATER = 1)	Depends upon integrity of water seal.
SOLUBILITY IN WATER	Partial emulsion	pH	10.2

APPEARANCE AND ODOR
Yellow emulsion; chlorinated odor

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

FLASH POINT (Method used) None - *See note	FLAMMABLE LIMITS	LOWER EXPLOSIVE LIMIT 15	UPPER EXPLOSIVE LIMIT 22
EXTINGUISHING MEDIA Water fog, dry chemical, foam (should not be necessary)			
SPECIAL FIRE FIGHTING PROCEDURES Pressure demand self-contained respiratory equipment			
UNUSUAL FIRE AND EXPLOSIVE HAZARDS *NOTE: Normally this material is non-flammable; under certain conditions, it will flash.			

SECTION V HEALTH HAZARD DATA	THRESHOLD LIMIT VALUE Not determined; assume 50 ppm		
	EFFECTS OF OVEREXPOSURE Signs or anesthesia if breathed. Possible liver & kidney damage.		
	Corrosive action on skin & eyes.		
SECTION VI REACTIVITY DATA	EMERGENCY AND FIRST AID PROCEDURES Inhalation: remove to fresh air. Skin & eyes: flush with water 15 minutes. Ingestion do NOT induce vomiting. In all cases: CALL A PHYSICIAN IMMEDIATELY.		
	STABILITY	UNSTABLE	CONDITIONS TO AVOID Can emit toxic vapors at high temps. Avoid open flame.
		STABLE	X
SECTION VII SPILL OR LEAK PROCEDURES	INCOMPATIBILITY (Materials to avoid)		
	HAZARDOUS DECOMPOSITION PRODUCTS Hydrogen chloride, phosgene, chlorine		
	HAZARDOUS POLYMERIZATION	MAY OCCUR WILL NOT OCCUR	CONDITIONS TO AVOID X
SECTION VIII - SPECIAL PROTECTION INFORMATION	STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED Soak up spill.		
	WASTE DISPOSAL METHOD Chemical waste disposal is governed by the Resource Conservation and Recovery Act as well as by other local, state and federal laws and regulations. Treat as hazardous waste.		
	RESPIRATORY PROTECTION (Specify type)	Industrial canister mask; use self-contained mask for concentrated vapor.	
SECTION IX SPECIAL PRECAUTIONS	VENTILATION	LOCAL EXHAUST Cross ventilation	SPECIAL
		MECHANICAL (General) Fan	OTHER
	PROTECTIVE GLOVES Neoprene	EYE PROTECTION Safety goggles	
SECTION X TRANS. DATA	OTHER PROTECTIVE EQUIPMENT		
	PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING Avoid excessive heat. Cool before opening. Can generate in the pail.		
	OTHER PRECAUTIONS		
SECTION X TRANS. DATA	PROPER SHIPPING (Article) NAME Corrosive Liquid NOS		DOT CLASSIFICATION UN 1760
	DOT LABEL	DOT MARKING	EMERGENCY ACCIDENT PRECAUTIONS AND PROCEDURES
	DOT PLACARD	PRECAUTIONS TO BE TAKEN IN TRANSPORTATION Avoid excessive heat (over 90°F)

SECTION II		INGREDIENTS	TOXICITY DATA
COMPOSITION	%		
Shell DIESELINE- a complex combination of C ₁₁ to C ₁₈ hydrocarbons.	100	Not Determined	

SECTION III: HEALTH INFORMATION

The acute toxicity of this product has not been tested. However, test results from a similar product show that it may be irritating to the skin. Prolonged or repeated skin contact may produce severe irritation.

Inhalation: High vapor concentrations may produce giddiness, vertigo, headache, and anesthetic stupor.

Skin Contact: Prolonged and repeated liquid contact can cause defatting and drying of the skin which may result in skin irritation and dermatitis.

Eye Contact: Short-term liquid or vapor contact may result in slight eye irritation. Prolonged and repeated contact may be more irritating.

Ingestion: Liquid ingestion may result in vomiting; aspiration (breathing) of vomitus into the lungs must be avoided as even small quantities in the lungs may result in chemical pneumonitis and pulmonary edema/hemorrhage.

Studies in animals on similar materials suggest that products of this type might be weak carcinogens following prolonged and repeated exposure to the skin.

SECTION IV: OCCUPATIONAL EXPOSURE LIMITS

None established.

SECTION V

EMER. ICY AND FIRST AID PROCEDURES

- INHALATION:** Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get medical attention.
- SKIN CONTACT:** Flush with water while removing contaminated clothing and shoes. Follow by washing with soap and water. Do not reuse clothing or shoes until cleaned. If irritation persists, get medical attention.
- EYE CONTACT:** Flush with water for 15 minutes while holding eyelids open. Get medical attention.
- INGESTION:** Do not induce vomiting. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into the lungs. Get medical attention.

***NOTE TO THE PHYSICIAN:** If more than 2.0 ml per kg has been ingested and vomiting has not occurred, emesis should be induced with supervision. Keep victim's head below hips to prevent aspiration. If symptoms such as loss of gag reflex, convulsions or unconsciousness occur before emesis, gastric lavage using a cuffed endotracheal tube should be considered.

SECTION VI PHYSICAL DATA

BOILING POINT (°F) ▶ 375-675	MELTING POINT (°F) ▶ N.A.	VAPOR PRESSURE (mmHg) ▶ N.A.
SPECIFIC GRAVITY (H ₂ O=1) ▶ 0.88 (minimum)	% VOLATILE BY VOLUME ▶ N.A.	VAPOR DENSITY (AIR=1) ▶ N.A.
SOLUBILITY IN WATER ▶ Negligible	EVAPORATION RATE (BUTYL ACETATE=1) ▶ N.A.	N.A. - Not Available

APPEARANCE AND ODOR

Clear to light straw colored liquid.

SECTION VII FIRE AND EXPLOSION HAZARDS

FLASH POINT AND METHOD USED 125°F PMCC (minimum)	FLAMMABLE LIMITS/% VOLUME IN AIR LOWER N.A.	UPPER N.A.
---	---	---------------

EXTINGUISHING MEDIA

Use water fog, foam, dry chemical or CO₂. Do not use a direct stream of water. Product will float and can be reignited on surface of water.

SPECIAL FIRE FIGHTING PROCEDURES AND PRECAUTIONS

Do not enter confined fire space without proper protective equipment including a NIOSH approved self-contained breathing apparatus. Cool fire-exposed containers, surrounding equipment and structures with water.

UNUSUAL FIRE AND EXPLOSION HAZARDS

Handle as a combustible liquid.

SECTION VIII

REACTIVITY

STABILITY UNSTABLE STABLE HAZARDOUS POLYMERIZATION MAY OCCUR WILL NOT OCCUR

CONDITIONS AND MATERIALS TO AVOID

Avoid heat, open flames and oxidizing materials

HAZARDOUS DECOMPOSITION PRODUCTS

Carbon monoxide and unidentified organic compounds may be formed during combustion.

SECTION IX

EMPLOYEE PROTECTION

RESPIRATORY PROTECTION

Use a NIOSH-approved respirator as required to prevent overexposure. In accord with 29 CFR 1910.134, use either an atmosphere-supplying respirator or an air-purifying respirator for organic vapors.

PROTECTIVE CLOTHING

Wear gloves and other protective clothing as required to minimize skin contact. Wear safety glasses or goggles to prevent eye contact.

ADDITIONAL PROTECTIVE MEASURES

Use explosion-proof ventilation as required to control vapor concentrations.

SECTION X

ENVIRONMENTAL PROTECTION

SPILL OR LEAK PROCEDURES

Caution. Combustible.

Large spills: Eliminate potential sources of ignition. Wear appropriate respirator and other protective clothing. Shut off source of leak only if safe to do so. Dike and contain. Remove with vacuum trucks or pump to storage/salvage vessels. Soak up residue with a noncombustible absorbent such as clay or vermiculite; place in drums for proper disposal. Flush area with water to remove trace residue; dispose of flush solutions in drums.

Small spills: Soak up with a noncombustible absorbent and place in drums for disposal. Flush area with water to remove trace residue; collect flush solutions for disposal.

WASTE DISPOSAL

Dispose of in a facility approved under RCRA regulations for hazardous waste (See Sec. XIII). Containers must be leak-proof and tightly sealed.

ENVIRONMENTAL HAZARDS

This product is considered an oil under the Clean Water Act. **KEEP OUT OF SURFACE WATERS AND ANY WATERCOURSES OR SEWERS ENTERING OR LEADING TO SURFACE WATERS.** See Section XIII.

97005 REV. 7-821

SECTION XI SPECIAL PRECAUTIONS

Caution. Combustible.

Keep away from oxidizing materials in a cool, dry place with adequate ventilation. Keep away from heat and open flames. Keep containers tightly sealed.

Wash up with soap and water before eating, drinking, smoking or using toilet facilities. Launder contaminated clothing before reuse.

Do NOT weld, heat or drill on or near container; even emptied containers can contain explosive vapors.

D.O.T. PROPER SHIPPING NAME

Fuel Oil
OTHER REQUIREMENTS

D.O.T. ID. No. = NA 1993; Guide Sheet No. 26.

Containers of 110 gallons or less are exempt from D.O.T. regulations.

SECTION XIII OTHER REGULATORY CONTROLS

PA, FDA, DSHA, USOA, CPSC, etc.

EPA - Resource Conservation and Recovery Act (RCRA)
 As produced, this material is a product and not a waste. If discarded or intended to be discarded as is, it is an ignitable hazardous waste as defined in RCRA (40 CFR 261.21). The EPA hazardous waste number is 1001.

EPA - Clean Water Act (CWA)
 This product contains hydrocarbons classified as an oil under Section 111 of the CWA. Spills entering (a) surface waters or (b) any water-courses or sewers entering or leading to surface waters that cause a sheen MUST be reported immediately to the National Response Center, 100-424-8802.

The information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from its use thereof.

Shell assumes no responsibility for injury to vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Additionally, vendor assumes no responsibility for injury to vendee or third persons proximately caused by abnormal use of the material even if reasonable safety procedures are followed. Furthermore, vendee assumes the risk in his use of the material.

SECTION II		INGREDIENTS	
COMPOSITION		%	HAZARD DATA
Shell Super Unleaded Gasoline		100	Not Determined
<p>A complex combination of hydrocarbons largely C-4 through C-12. Benzene content typically from 0.5% to 2.5%. May contain up to 10% of various oxygenated hydrocarbons, such as aliphatic alcohols and ethers. Also contains small amounts of other additives which are not considered to be hazardous at the concentrations used.</p>			

SHELL / SAFETY DATA

SECTION III HEALTH INFORMATION

Inhalation: WARNING. Minimize breathing vapors. Repeated or prolonged exposures to high concentration of vapor may cause pulmonary irritation, headache, dizziness, nausea, incoordination, loss of consciousness or even death.

Ingestion: Harmful or fatal if swallowed resulting in nausea, vomiting, diarrhea and restlessness. Aspiration of vomitus and/or gasoline may lead to severe lung damage and even death.

Skin Contact: Prolonged and repeated liquid contact can cause defatting and drying of the skin resulting in skin irritation and dermatitis. Some components of gasoline may be absorbed through the skin.

NOTE: (1) It has been reported that chronic inhalation exposure to vapor of an unleaded motor gasoline has produced kidney and liver cancers in some laboratory rodents. The studies were sponsored by the American Petroleum Institute. The API test material used was blended to represent a typical unleaded motor gasoline. Shell unleaded gasoline has not been evaluated in this type of animal test. (2) Repeated high level benzene exposure may produce injury of the blood-forming tissues causing blood abnormalities and possibly leukemia; however, exposures to such high levels are not likely to be encountered in gasoline vapor due to the low benzene content.

SECTION IV OCCUPATIONAL EXPOSURE LIMITS

No OSHA limits have been established.

ACGIH/TLV = 300 ppm (8-hours TWA); TLV-STEL = 500 ppm

NOTE: THE ACGIH/TLV limit of 300 ppm is under review. In the interim, minimize exposure to a level which is practical and attainable.

EMERGENCY AND FIRST AID PROCEDURES

- ATTENTION:** Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get medical attention.
- SKIN CONTACT:** Flush with water while removing contaminated clothing and shoes. Follow by washing with soap and water. Do not reuse clothing or shoes until cleaned. If irritation persists, get medical attention.
- EYE CONTACT:** Flush with water for 15 minutes while holding eyelids open. Get medical attention.
- INGESTION:** Do not induce vomiting. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into the lungs. Get medical attention.*

*NOTE TO THE PHYSICIAN: If more than 2.0 ml / kg has been ingested and vomiting has not occurred, emesis should be induced with medical supervision. Keep victim's head below hips to prevent aspiration. If symptoms such as loss of gag reflex, convulsions or unconsciousness occur before emesis, gastric lavage using a cuffed endotracheal tube should be considered.

SECTION VI		PHYSICAL DATA

SPECIFIC GRAVITY (H ₂ O = 1)	▶ 0.72-0.76	EVAPORATED BY VOLUME	▶ 100 (at 415°F)	VAPOR DENSITY (AIR = 1)	▶ 3.5
SOLUBILITY IN WATER	▶ Negligible	EVAPORATION RATE (BUTYL ACETATE = 1)	▶ N.A.		
APPEARANCE AND ODOR					
Red color; clear and bright liquid. Characteristic petroleum-hydrocarbon odor.					

SECTION VII		FIRE AND EXPLOSION HAZARDS		
FLASH POINT AND METHOD USED	-40°F Tag Closed Tester	FLAMMABLE LIMITS (% VOLUME IN AIR)	LOWER	UPPER
			▶ 1.3	7.6
EXTINGUISHING MEDIA				
Use water fog, foam, dry chemical or CO ₂ . Do not use a direct stream of water. Product will float and can be reignited on surface of water.				
SPECIAL FIRE FIGHTING PROCEDURES AND PRECAUTIONS				
Danger. Extremely Flammable. Clear fire area of unprotected personnel and isolate. Do not enter confined fire space without full bunker gear including a positive pressure NIOSH approved self-contained breathing apparatus. Cool fire exposed containers with water.				
UNUSUAL FIRE AND EXPLOSION HAZARDS				
Vapors are heavier than air accumulating in low areas and traveling along the ground away from the handling site.				
Do NOT weld, heat or drill on or near container. However, if emergency situations require drilling, only trained emergency personnel should drill.				

VIII

REACTIVITY

STABILITY UNSTABLE STABLE

HAZARDOUS POLYMERIZATION MAY OCCUR WILL NOT OCCUR

CONDITIONS AND MATERIALS TO AVOID

Avoid heat, sparks, open flames and strong oxidizing agents. Prevent vapor accumulation.

HAZARDOUS DECOMPOSITION PRODUCTS

Carbon monoxide and other unidentified organic compounds can be formed upon combustion.

SECTION IX

EMPLOYEE PROTECTION

RESPIRATORY PROTECTION

Under conditions of potential high exposure, the use of a NIOSH-approved respirator is recommended (see Section X). Per 29 CFR 1910.134 use either an atmosphere-supplying respirator or an air-purifying respirator for organic vapors. For service station personnel protection, see Section XI.

PROTECTIVE CLOTHING

As required to minimize skin and eye contact, wear impervious gloves, eye protection, and other protective clothing.

ADDITIONAL PROTECTIVE MEASURES

Use explosion-proof ventilation as required to control vapor concentrations.

SECTION X

ENVIRONMENTAL PROTECTION

SPILL OR LEAK PROCEDURES

DANGER! EXTREMELY FLAMMABLE. Eliminate all ignition sources. Handling equipment must be grounded to prevent sparking.
Large spills: Isolate hazard area; deny entry to unnecessary personnel. Wear appropriate respirator and protective clothing. Shut off source of leak if safe to do so; dike and contain. Water fog may be useful in suppressing vapor cloud; contain run-off. Remove with vacuum trucks or pump to storage/salvage vessels. Soak up residue with an absorbent such as clay, sand or other suitable material; place in D.O.T. authorized non-leaking containers for proper disposal. Flush area with water only if flush solutions can be contained and gasoline is recoverable.
Small spills: Take up with an absorbent material such as sand or clay and dispose as above.

WASTE DISPOSAL

Recovered product should be recycled. Waste generated during cleanup which is discarded as a solid waste should be disposed of at a facility approved under RCRA regulations for hazardous waste (See Sec. XIII).

ENVIRONMENTAL HAZARDS

This product is an "oil" under the Clean Water Act. KEEP OUT OF SURFACE WATERS AND ANY WATER COURSES OR SEWERS ENTERING OR LEADING TO SURFACE WATERS. See Section XIII.

Material Safety Data Sheet

MSDS NUMBER ▶ 051,161-01

PAGE 4 OF 4

XI

SPECIAL PRECAUTIONS

DANGER! EXTREMELY FLAMMABLE. Avoid heat, sparks, open flames, including pilot lights, and strong oxidizing agents. Use explosion-proof ventilation to prevent vapor accumulation. All handling equipment must be grounded to prevent sparking. Harmful or fatal if swallowed. Do not siphon gasoline by mouth.

FOR USE AS A MOTOR FUEL ONLY. Do not use as a cleaning solvent or for other non-motor fuel uses.

Wash with soap and water before eating, drinking, smoking or using toilet facilities. Launder contaminated clothing before reuse. Under normal working conditions at service stations, a respirator is not warranted. If a major spill occurs, get upwind and notify local emergency personnel. Remember explosion and fire is the most immediate danger.

SECTION XII

TRANSPORTATION REQUIREMENTS

D.O.T. PROPER SHIPPING NAME

Gasoline

OTHER REQUIREMENTS

D.O.T. I.D. # UN1203, Guide No. 27

SECTION XIII

OTHER REGULATORY CONTROLS

EPA, FOA, OSHA, USDA, CPSC, ETC.

EPA - Resource Conservation and Recovery Act (RCRA) Regulations
As produced, this material is a product and not a waste. If discarded or intended to be discarded as is, it is a liquid ignitable hazardous waste as defined in RCRA (40 CFR 261.21). The EPA hazardous waste number is D001. Free liquid ignitable wastes are banned from disposal by landfilling bulk or in containers. Product recovery and recycling are recommended where possible.

EPA - Clean Water Act (CWA)

This product is classified as an oil under Section 311 of the Clean Water Act. Spills entering (a) surface waters or (b) any watercourses or sewers entering/leading to surface waters that cause a sheen MUST be reported to the National Response Center, 800-424-9802.

The information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof.

Vendor assumes no responsibility for injury to vendor or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Additionally, vendor assumes no responsibility for injury to vendee or third persons proximately caused by abnormal use of the material even if reasonable safety procedures are followed. Furthermore, vendee assumes the risk of use of the material.

MATERIAL SAFETY DATA SHEET

P.O. Drawer 1410 - 1600 E. Hill St., Long Beach, CA 90801

Contact: Safety Department - Telephone: (213) 427-5471

WARNING STATEMENT

DANGER: Extremely Flammable.

Vapor reduces oxygen available for breathing and may cause suffocation in confined spaces.
Liquid may cause freeze burn similar to frostbite.

I. Product Identification

Product Name: Petrolane Propane
Chemical Name: Propane
Synonyms: LP-Gas, Bottled Gas
Chemical Family: Paraffinic Hydrocarbon
Chemical Formula: C₃H₈
DOT Proper Shipping Name: Liquefied Petroleum Gas
DOT Hazard Class: Flammable Gas
DOT I.D. Number: UN1075

Transportation Emergency Telephone:
800-424-9300 (CHEMTREC)

NFPA Classification:

Health 1 Slightly Toxic
Fire 4 Extremely Flammable
Reactivity 0 Stable

II. Hazardous Ingredients

Component	CAS Number	%	OSHA PEL	ACGIH TLV
Ethane	74-84-0	0-6	None established	Simple asphyxiant
Propane	74-98-6	67-97	1000 ppm (8hr)	Simple asphyxiant
Propylene	115-07-1	0-5	None established	Simple asphyxiant
Butane	106-97-8	0-2.5	None established	800 ppm (8 hr)

III. Physical Data

Boiling Point: -44°F
Melting Point: -309°F
Vapor Pressure: 208 psig (max) @ 100°F
Vapor Density (Air=1): 1.5
Specific Gravity (H₂O=1): 0.504

% Volatile by Volume: 100%
Solubility in Water: Insoluble
Evaporation Rate(Bu Ac=1): N/A
Gas Volume @ Atm. Pressure & 60°F
(Cu. ft. gas/gal. liquid): 35.4

Appearance and Odor: Colorless liquefied petroleum gas. Odorless in pure form.
Propane sold for fuel contains a foul smelling, skunk-like warning agent (odorant). The odorant is effective, but the ability of people to detect odors varies widely. Also, certain chemical reactions in the propane system can reduce the propane odor level. No odorant can be 100% effective in all circumstances. If odor level appears to be weak, notify your propane supplier immediately.

IV. Fire and Explosion Data

Flash Point (Method Used): -156°F (estimated)
Flammable Limits (% Volume in Air): Lower 2.1% Upper 9.5%

Extinguishing Media: Dry chemical, foam or CO₂ for small fires. Stop flow of gas first.

Special Fire Fighting Procedures and Precautions: Evacuate area. Notify fire department. Allow only properly protected personnel in area. Shut off source of gas, if possible. Allow fire to burn until gas flow is shut off. Adequate water stream can be used to cool exposed equipment and vapor space of containers. Approach a flame enveloped container from the side, never the head ends. For massive, uncontrollable fires and when flame is impinging on vapor space of containers, withdraw all personnel and evacuate surrounding vicinity immediately.

Unusual Fire and Explosion Hazards: Products of combustion may yield carbon monoxide. Uncontrolled vapors spread rapidly, are heavier than air and are extremely flammable.

V. Reactivity Data

Stability: Stable
Materials to Avoid: Strong oxidizing agents
Hazardous Decomposition Products: Incomplete combustion can cause carbon monoxide.
Hazardous Polymerization: Will not occur

VI. Health Hazard Data

Product is not listed as carcinogenic by NTP, IARC or OSHA. Product may contain a trace, but detectable amount of benzene, a chemical listed by the State of California and known to cause cancer or reproductive toxicity.

Routes of Entry / Acute Effects of Overexposure:

Inhalation: Exposure to high concentrations of the vapor causes dizziness, drowsiness, nausea or unconsciousness due to anesthetic properties.

Skin Contact: Liquid can cause freeze burns similar to frostbite if contact with skin occurs. No skin absorption is expected.

Eye Contact: Liquid can cause freeze burns if contact with eyes occurs.

Ingestion: Ingestion is not expected to occur in normal use.

Chronic Effects of Overexposure: No abnormal reactions reported following exposure to 1000 ppm for 8 hours per day, 5 days per week, for 2 weeks.

VII. Emergency and First Aid Procedures

Eye Contact: Flush with water. Obtain medical assistance if contact with liquid has occurred.

Skin Contact: If freeze burn occurs, remove contaminated clothes, shoes and jewelry. Immerse burned area in warm (not hot) water. Keep immersed. Call for medical assistance.

Inhalation: Remove victim from further exposure and into fresh air. Provide oxygen if breathing is labored. If victim is unconscious, seek immediate medical attention. If breathing has stopped, give artificial respiration.

Ingestion: Not expected to occur in normal use.

VIII. Spill or Leak Procedures

Product is extremely flammable. If there is a leak but no fire, do not ignite the gas. Eliminate all ignition sources. Evacuate the area. If possible, remove leaking container to safe area. Stop flow of gas or allow vapor to disperse in a safe area. Use water spray to help dilute vapor concentration in the air.

Dispose of gas only by controlled burning in compliance with local laws and regulations.

IX. Handling and Storage Precautions

Store in an authorized location (outside, detached storage is preferred) with adequate ventilation. Keep away from heat and ignition sources. Inspect cylinders frequently for leaks, dents, gouges and corrosion with emphasis on bottom of cylinder. Store cylinders in upright position or with pressure relief valves in vapor space. Do not drop or abuse cylinders. Keep container valve closed and plugged when not in use. Install protective caps when cylinders are not connected for use.

X. Personal Protection Information

Ventilation: Use adequate ventilation to maintain exposures below recommended limits.

Respiratory Protection: Use a NIOSH-approved respirator if area is thought to contain unknown concentration of gas.

Eye Protection: Use safety goggles or safety glasses with side shields.

Protective Clothing: No special garments are necessary, but avoid skin contact with liquid because of possibility of freeze burn. Propane resistant gloves are recommended.

XI. Communication with Employees and Purchasers

This Material Safety Data Sheet (MSDS) alerts the reader to the potential safety and health hazards of propane. It also contains valuable reference material relating to the safe use and handling of the product. Make sure that this information is shared with all employees and purchasers who use or handle the product. It is an important part of the OSHA hazard communication program.

This information is believed to be accurate as of the date of issue, but is offered without guarantee. Conditions of use and suitability for use are beyond Company control, therefore, all risks of use of the product are assumed by the user. Company expressly disclaims all warranties of every kind including warranties of merchantability and fitness for any particular purpose. Company assumes no responsibility for any injuries or damages caused by the product even if safety procedures are followed as outlined herein. Nothing herein is intended to be construed as permission or recommendation for use of the product in any manner which might infringe existing patents.

SECOND NOTICE

Foothill Tool and Equipment Rentals
27111 E. 5th Street
Highland, CA 92346

Attention: Rick Webb, V.P., Dan Farris, John C. Hoham, Pres.

In further review of your Business Plan submissions, I must inform you that you have still failed to supply us with the necessary information that will allow us to approve your plans. As an administering agency, we are only able to pass on to the city in which your business is located, your plans after they have fulfilled the federal and state laws.

I do appreciate the frustration the paperwork must be causing, however, if you can hold the thought that this Business Plan is an emergency document that both the fire and/or the police will be using to effectively control an emergency at your business, you can understand our insistence that this plan be correctly put together. That is why I am returning your recently submitted Business Plans. You have the beginning of a correct format. However, after Item No. 7, you appear to have some difficulty in ascertaining inventory qualifications and format. We cannot accept our printed handbook. You may follow its ideas, however, please establish what you do as a company to cover these items 8 through 15. Your inventory page should be set up as follows:

Chemical Name and CAS No.	Common Name	Maximum Quantity in Storage	How Stored
------------------------------	----------------	--------------------------------	---------------

You need to report all chemicals of 55 gallons or more whether liquid or fuel. If you do any repair of your rentals by welding, painting, etc., please include those products in your inventory also. Waste should also be categorized as well, and please include amount generated per month.

Your notification plan is mandatory for state and county, so please remember this when compiling your information.

Page 2

June 10, 1988

To: Foothill Tool and Equipment Rentals

If you can remember that the responder is going to pull your plan in an emergency, have the dispatcher contact the emergency contacts listed, turn to the inventory, page and scan it for chemicals, quantity and how stored, and then turn to your maps to see where you are located, what or whom may need to be evacuated on adjacent properties, and where your chemicals and emergency equipment are located. The rest of the plan is for us to see how and what preparedness you have taken to ensure the safety of your personnel and the public that uses your facility.

I am hoping we can expedite this plan to approval within the next 30-days. Should you need any further clarifications, please call.

Thank you for your cooperation and prompt attention.

To: Foothill Tool and Equipment Rentals

If you can remember that the responder is going to pull your plan in an emergency, have the dispatcher contact the emergency contacts listed, turn to the inventory, page and scan it for chemicals, quantity and how stored, and then turn to your maps to see where you are located, what or whom may need to be evacuated on adjacent properties, and where your chemicals and emergency equipment are located. The rest of the plan is for us to see how and what preparedness you have taken to ensure the safety of your personnel and the public that uses your facility.

I am hoping we can expedite this plan to approval within the next 30-days. Should you need any further clarifications, please call.

Thank you for your cooperation and prompt attention.

Claudia Lynn Clark

Thank you for your cooperation and prompt attention to this matter.

RICHARD L. ROBERTS, R.S., MPH
Director

LAURA WALLACE, R.S.
Emergency Response/Enforcement
(714) 387-3044

RLR:LW:Vr

Dear Customer,

In November of 1986, the California voters approved Proposition 65 "The Safe Drinking Water & Toxic Enforcement Act". This act requires businesses employing more than 10 persons to provide to those employees and users, notification of any products used in California which are identified on the Proposition 65 list dated January 1, 1988.

Foothill Tool & Equipment Rentals, Inc., whose product is equipment and tool rental and sales, generates none of the hazardous chemicals identified on the referenced Proposition 65 list.

Very truly yours,

FOOTHILL TOOL & EQUIPMENT RENTALS, INC.

MATERIAL SAFETY DATA SHEET

An explanation of the terms used herein may be found in OSHA 29 CFR 1910.1200,
available from OSHA regional or area offices.
(Similar to U.S. Department of Labor Form OMB No. 1218-0072
and generally accepted in Canada for information purposes)
Do Not Duplicate This Form. Request an Original.

**I. PRODUCT IDENTIFICATION**

PRODUCT	Acetylene		
CHEMICAL NAME	Acetylene	SYNONYMS	Acetylen, Ethine, Ethyne, Narcylene
FORMULA	C ₂ H ₂	CHEMICAL FAMILY	Alkyne
		MOLECULAR WEIGHT	26.038
TRADE NAME	Acetylene (This product is intended for welding and cutting use.)		

II. HAZARDOUS INGREDIENTS

This section covers the materials from which this product is manufactured. The fumes and gases produced during welding and cutting with the normal use of this product are covered by Section VI. The term "hazardous" should be interpreted as a term required and defined in OSHA 29 CFR 1910.1200 and does not necessarily imply the existence of any hazard.

MATERIAL (CAS NO.)	Vol (%)	1986-1987 ACGIH TLV-TWA (OSHA-PEL)
Acetylene (74-86-2)	100	Simple asphyxiant (None currently established) Acetylene cylinders are filled with a porous material containing acetone into which the acetylene is dissolved. ACGIH has established a TLV-TWA of 750 ppm for acetone and a STEL of 1000 ppm.

III. PHYSICAL DATA

BOILING POINT, 760 mm. Hg	Not Applicable	SUBLIMATION POINT	-84°C (-119.2°F) @ 760mm Hg
SPECIFIC GRAVITY (H₂O = 1)	Not Applicable	VAPOR PRESSURE AT 21°C.	635 psig
VAPOR DENSITY (air = 1)	0.91	SOLUBILITY IN WATER, % by wt.	Slight
PERCENT VOLATILES BY VOLUME	100	EVAPORATION RATE (Butyl Acetate = 1)	Not Applicable

APPEARANCE AND ODOR Colorless gas at normal temperature and pressure; garlic-like odor.

EMERGENCY PHONE NUMBER

IN CASE OF EMERGENCIES involving this material, further information is available at all times:
In the USA 1-800-UCC-HELP (1-800-822-4357) In Canada 514-645-5311
For routine information contact your local supplier

Union Carbide requests the users of this product to study this Material Safety Data Sheet (MSDS) and become aware of product hazards and safety information. To promote safe use of this product a user should (1) notify its employees, agents and contractors of the information on this MSDS and any product hazards and safety information, (2) furnish this same information to each of its customers for the product, and (3) request such customers to notify their employees and customers for the product of the same product hazards and safety information.

IV HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE: Acetylene - Simple asphyxiant ACGIH 1986-87; Acetone, 750ppm ACGIH 1986-87

EFFECTS OF SINGLE (ACUTE) OVEREXPOSURE

SWALLOWING — An unlikely route of exposure, but frostbite of the lips and mouth may result from contact with the liquid. If the liquid is swallowed, may cause nausea.

SKIN ABSORPTION — No evidence of adverse effects from available information.

INHALATION — Asphyxiant. Moderate concentrations of vapor may cause headache, drowsiness, dizziness, nausea, vomiting, excitation, excess salivation, and unconsciousness.

SKIN CONTACT — No harmful effects expected from vapor. Liquid may cause frostbite.

EYE CONTACT — Vapor may cause irritation. Liquid may cause irritation and frostbite.

EFFECTS OF REPEATED (CHRONIC) OVEREXPOSURE: No evidence of adverse effects from available information.

OTHER EFFECTS OF OVEREXPOSURE: None currently known.

MEDICAL CONDITIONS AGGRAVATED BY OVEREXPOSURE: A knowledge of the available toxicology information and of the physical and chemical properties of the material suggest that overexposure is unlikely to aggravate existing medical conditions.

EMERGENCY AND FIRST AID PROCEDURES:

SWALLOWING — If liquid is swallowed, do not induce vomiting. Call a physician.

SKIN — For exposure to liquid, flush with water and warm frostbite area with warm water (not to exceed 105°F). In case of massive exposure, remove clothing while showering with warm water. Call a physician.

INHALATION — Remove to fresh air. If breathing has stopped, give artificial respiration; if breathing is difficult, oxygen may be given; call a physician.

EYES — In case of splash contamination, immediately flush eyes thoroughly with water for at least 15 minutes. Seek the advice of a physician, preferably an ophthalmologist, urgently.

NOTES TO PHYSICIAN: Aspirated acetone may cause severe lung damage. If a large quantity of material has been swallowed, stomach contents should be evacuated quickly in a manner which avoids aspiration. Otherwise, treatment should be directed at the control of symptoms and the clinical condition. No specific antidote is known.

WORKING WITH WELDING AND CUTTING MAY CREATE ADDITIONAL HEALTH HAZARDS.

FUMES AND GASES can be dangerous to your health and may cause serious lung disease.*

Keep your head out of the fumes. Do not breathe fumes and gases caused by the process. Use enough ventilation, local exhaust, or both to keep fumes and gases from your breathing zone and the general area. The type and amount of fumes and gases depend on the equipment and supplies used. Possibly dangerous materials may be found in fluxes, coatings, gases, metals etc. Get a Material Safety Data Sheet (MSDS) for every material used. Air samples can be used to find out what respiratory protection is needed.

Short term overexposure to fumes may result in discomfort such as dizziness, nausea, or dryness or irritation of nose, throat, or eyes.

***NOTES TO PHYSICIAN:**

Acute — Gases, fumes, and dusts may cause irritation to the eyes, lungs, nose, and throat. Some toxic gases associated with welding and related processes may cause pulmonary edema, asphyxiation, and death. Acute overexposure may include signs and symptoms such as watery eyes, nose and throat irritation, headache, dizziness, difficulty breathing, frequent coughing, or chest pains.

Chronic — Prolonged inhalation of air contaminants may lead to their accumulation in the lungs, a condition which may be seen as dense areas on chest x-rays. The severity of change is proportional to the length of exposure. The changes seen are not necessarily associated with symptoms or signs of reduced lung function or disease. In addition, the changes on x-rays may be caused by non-work related factors such as smoking, etc.

A detailed description of the Health Hazards and their consequences may be found in Linde's free publication "Precautions and Safe Practices for Electric Welding and Cutting," L52-529. You may obtain copies from your local supplier, or by writing to Union Carbide Corporation, Linde Division, Communications Department, 38 Old Ridgebury Road, Danbury, Connecticut, 06817-0001.

MIXTURES: When two or more gases, or liquefied gases are mixed, their hazardous properties may combine to create additional, unexpected hazards. Obtain and evaluate the safety information for each component before you produce the mixture. Consult an Industrial Hygienist, or other trained person when you make your safety evaluation of the end product. Remember, gases and liquids have properties which can cause serious injury or death.

VII SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION (specify type) — Use respirable fume respirator or air supplied respirator when working in confined space or where local exhaust or ventilation does not keep exposure below TLV. Select as per OSHA29 CFR1910.134.

VENTILATION	LOCAL EXHAUST — Use enough ventilation, local exhaust or both, to keep the fumes and gases below TLV's in the worker's breathing zone and the general area. Train the worker to keep his head out of the fumes.
	MECHANICAL (general) ALWAYS WORK WITH ENOUGH VENTILATION
	SPECIAL Not applicable
	OTHER Depends on specific use conditions, and location. Use adequate ventilation or personal respiratory protection. See Section IX and OSHA29 CFR1910.252.

PROTECTIVE GLOVES Welding gloves recommended

EYE PROTECTION — Wear goggles with filter lens selected as per ANSI Z49.1. Provide protective screens and goggles, if necessary, to protect others. Select as per OSHA29 CFR1910.133.

OTHER PROTECTIVE EQUIPMENT — As needed, wear hand, head, and body protection which help to prevent injury from radiation and sparks. See ANSI Z49.1. At a minimum this includes welder's gloves and protective goggles, and may include arm protectors, aprons, hats, shoulder protection, as well as substantial clothing. Train the worker not to touch live electrical parts.

IX SPECIAL PRECAUTIONS

Fumes and gases cannot be classified simply. The composition and quantity of both are dependent upon the metal being worked, the process, procedure and electrodes used. Other conditions which also influence the composition and quantity of the fumes and gases to which workers may be exposed include: coatings on the metal being worked (such as paint, plating, or galvanizing), the number of workers and the volume of the work area, the quality and amount of ventilation, the position of the worker's head with respect to the fume plume, as well as the presence of contaminants in the atmosphere (such as chlorinated hydrocarbon vapors from cleaning and degreasing activities).

One recommended way to determine the composition and quantity of fumes and gases to which workers are exposed is to take an air sample from inside the worker's helmet if worn or in the worker's breathing zone. See ANSI/AWS F1.1, available from the American Welding Society, 550 N.W. La Jeune Rd., Miami, FL 33126.

Read and understand the manufacturer's instructions and the precautionary label on the product. See American National Standard Z49.1, "Safety in Welding And Cutting" published by the American Welding Society and OSHA Publication 2206 (29CFR1910), U.S. Government Printing Office, Washington, D.C. 20402 for more details. For further safety and health information refer to Linde's free safety booklet L-2035.

OTHER HANDLING AND STORAGE CONDITIONS

Heat and sparks during use could be the source of ignition of combustible materials. Prevent fires. Refer to NFPA 51B "Cutting and Welding Processes" and NFPA 50 "Oxygen-Fuel Gas Systems." Use piping and equipment adequately designed to withstand pressures to be encountered. Gas can cause rapid suffocation due to oxygen deficiency. Store and use with adequate ventilation. Close valve when not in use and when empty. Never work on a pressurized system. Do not strike arc on cylinder. The defect produced by an arc burn could lead to cylinder rupture. Do not ground cylinder. Store in cool, dry, well ventilated area. Do not store near open flames. Electrical equipment should be explosion proof. Do not store with oxygen or other oxidizers. Protect cylinders from physical damage. Store cylinders in upright position secured to prevent falling over. Refer to CGA Pamphlets P-1 and G-1 for recommendations.

The opinions expressed herein are those of qualified experts within Union Carbide. We believe that the information contained herein is current as of the date of this Material Safety Data Sheet. Since the use of this information and these opinions and the conditions of use of the product are not within the control of Union Carbide, it is the user's obligation to determine the conditions of safe use of the product.

V. FIRE AND EXPLOSION HAZARD DATA

FLASH POINT (test method)	-17.8°C (0°F) T.C.C.	AUTOIGNITION TEMPERATURE	299°C (571°F)
FLAMMABLE LIMITS IN AIR, % by volume	LOWER 2.3%	UPPER	100%

EXTINGUISHING MEDIA

See paragraphs below.

SPECIAL FIRE FIGHTING PROCEDURES

Refer to CGA pamphlet SB-4, "Handling Acetylene Cylinders in Fire Situations."

Evacuate all personnel from danger area. Immediately cool containers with water spray from maximum distance taking care not to extinguish flames. Remove ignition sources if without risk. If flames are accidentally extinguished, explosive re-ignition may occur. Use self-contained breathing apparatus. Stop flow of gas if without risk while continuing cooling water spray. Remove all containers from area of fire if without risk. Allow fire to burn out. On-site fire brigades must comply with OSHA 29 CFR 1910.158.

UNUSUAL FIRE AND EXPLOSION HAZARDS

Extremely flammable gas. Forms explosive mixtures with air and oxidizing agents. Container may rupture due to heat of fire. Do not extinguish flames due to possibility of explosive re-ignition. Flammable vapors may spread from leak. Explosive atmospheres may linger. Before entering area, especially confined areas, check atmosphere with approved explosion meter. No part of a container should be subjected to a temperature higher than 52°C (approximately 125°F). All containers are provided with a pressure relief device designed to vent contents when they are exposed to elevated temperature. Contact with copper, silver, or mercury or their alloys or halogens can cause explosion and be ignited by pilot lights, other flames, smoking, sparks, heaters, electrical equipment, static discharge or other ignition sources at locations distant from product handling point.

VI. REACTIVITY DATA

STABILITY		CONDITIONS TO AVOID
UNSTABLE	STABLE	
X		Stable as shipped. Avoid use at pressures above 15 psig.

INCOMPATIBILITY (materials to avoid)

Copper, silver, mercury or their alloys, oxidizing agents, acids, halogens, moisture.

HAZARDOUS DECOMPOSITION PRODUCTS

Thermal decomposition or burning may produce CO/CO₂/H₂. The welding and cutting process may form reaction products such as carbon monoxide and carbon dioxide. Other decomposition products of normal operation originate from the volatilization, reaction or oxidation of the material being worked.

HAZARDOUS POLYMERIZATION		CONDITIONS TO AVOID
May Occur	Will not Occur	
X		Elevated temperature and pressure and/or the presence of a catalyst.

VII. SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED

Forms explosive mixtures with air (See Section V). Immediately evacuate all personnel from danger area. Use self-contained breathing apparatus where needed. Remove all sources of ignition if without risk. Reduce vapors with fog or fine water spray. Shut off leak if without risk. Ventilate area of leak or move leaking container to well-ventilated area. Flammable gas may spread from leak. Before entering area, especially confined areas, check atmosphere with appropriate device.

WASTE DISPOSAL METHOD: Prevent waste from contaminating surrounding environment. Keep personnel away. Discard any product, residue, disposable container or liner in an environmentally acceptable manner, in full compliance with Federal, State and local regulations.

MATERIAL SAFETY DATA SHEET

L-4638-A
September 1985

An explanation of the terms used herein may be found in OSHA 29 CFR 1910.1200, available from OSHA regional or area offices.
(Essentially similar to U.S. Department of Labor Form OSHA-20 and generally accepted in Canada for information purposes)
Do Not Duplicate This Form. Request an Original.

I. PRODUCT IDENTIFICATION

PRODUCT	Oxygen		
CHEMICAL NAME	Oxygen	SYNONYMS	Not applicable
FORMULA	O ₂	CHEMICAL FAMILY	Not applicable
		MOLECULAR WEIGHT	32.00
TRADE NAME	Oxygen		

II. HAZARDOUS INGREDIENTS

For mixtures of this product request the respective component Material Safety Data Sheets. See Section IX.

MATERIAL (CAS NO.)	Wt (%)	1984-1985 ACGIH TLV-TWA (OSHA-PEL)
Oxygen (7782-44-7)	100	None currently established (None currently established)

III. PHYSICAL DATA

BOILING POINT, 760 mm. Hg	-183°C (-297.4°F)	FREEZING POINT	-218.4°C (-361.1°F)
SPECIFIC GRAVITY (H ₂ O = 1)	Gas	VAPOR PRESSURE AT 20°C.	Gas
VAPOR DENSITY (air = 1)	1.105 @ 25°C	SOLUBILITY IN WATER, % by wt.	Negligible
PERCENT VOLATILES BY VOLUME	100	EVAPORATION RATE (Butyl Acetate = 1)	Not applicable

APPEARANCE AND ODOR: Colorless, odorless gas at normal temperature and pressure.

EMERGENCY PHONE NUMBER

IN CASE OF EMERGENCIES involving this material, further information is available at all times:

For routine information contact your local supplier

Union Carbide requests the users of this product to study this Material Safety Data Sheet (MSDS) and become aware of product hazards and safety information. To promote safe use of this product a user should (1) notify its employees, agents and contractors of the information on this MSDS and any product hazards and safety information, (2) furnish this same information to each of its customers for the product, and (3) request such customers to notify their employees and customers for the product of the same product hazards and safety information.

UNION CARBIDE CORPORATION LINDE DIVISION
UNION CARBIDE CANADA LIMITED LINDE DIVISION

IV. HEALTH HAZARD DATA**THRESHOLD LIMIT VALUE:** None currently established.**EFFECTS OF SINGLE (ACUTE) OVEREXPOSURE:****SWALLOWING** — No evidence of adverse effects from available information.**SKIN ABSORPTION** — No evidence of adverse effects from available information.**INHALATION** — Breathing 80% or more oxygen at atmospheric pressure for more than a few hours may cause nasal stuffiness, cough, sore throat, chest pain and breathing difficulty. Breathing oxygen at higher pressure increases the likelihood of adverse effects within a shorter time period. Breathing pure oxygen under pressure may cause lung damage and also central nervous system effects resulting in dizziness, poor coordination, tingling sensation, visual and hearing disturbances, muscular twitching, unconsciousness and convulsions. Breathing oxygen under pressure may cause prolongation of adaptation to darkness and reduced peripheral vision.**SKIN CONTACT** — No evidence of adverse effects from available information.**EYE CONTACT** — No evidence of adverse effects from available information.**EFFECTS OF REPEATED (CHRONIC) OVEREXPOSURE:** No evidence of adverse effects from available information.**OTHER EFFECTS OF OVEREXPOSURE:** See "Notes to Physician."**MEDICAL CONDITIONS AGGRAVATED BY OVEREXPOSURE:** See "Notes to Physician."**SIGNIFICANT LABORATORY DATA WITH POSSIBLE RELEVANCE TO HUMAN HEALTH HAZARD EVALUATION:** None currently known.**EMERGENCY AND FIRST AID PROCEDURES:****SWALLOWING** — This product is a gas at normal temperature and pressure.**SKIN** — No emergency care anticipated.**INHALATION** — Remove to fresh air. Give artificial respiration if not breathing. Keep victim warm and at rest. Call a physician.**EYES** — No emergency care anticipated.

NOTES TO PHYSICIAN: Supportive treatment should include immediate sedation, anti-convulsive therapy if needed, and rest. Animal studies suggest that the administration of certain drugs, including phenothiazine drugs and chloroquine, increases the susceptibility to toxicity from oxygen at high concentrations or pressures. Animal studies also indicate that vitamin E deficiency may increase susceptibility to oxygen toxicity.

Airway obstruction during high oxygen tension may cause alveolar collapse following absorption of the oxygen. Similarly, occlusion of the eustachian tubes may cause retraction of the eardrum and obstruction of the paranasal sinuses may produce "vacuum-type" headache.

Newborn premature infants exposed to high oxygen concentrations may suffer delayed retinal damage which can progress to retinal detachment and blindness (retrolental fibroplasia). Retinal damage can also occur in adults exposed to 100% oxygen under greater than atmospheric pressure, particularly in individuals whose retinal circulation has been previously compromised.

All individuals exposed for long periods to oxygen at high pressure and all who exhibit overt oxygen toxicity should have ophthalmologic examinations.

WHEN USED IN WELDING AND CUTTING: Read and understand the manufacturer's instructions and the precautionary label on the product. See American Standard Z49.1 "Safety in Welding and Cutting" published by the American Welding Society, P.O. Box 351040, Miami, Florida 33135 and OSHA Publication 2208 (29CFR1910), U.S. Government Printing Office, Washington, D.C. 20402 for more detail. For further SAFETY AND HEALTH information, refer to Linde's free publication, L-52-529, "Precautions and Safe Practices for Electric Welding and Cutting", as well as L-2035, "Precautions and Safe Practices for Gas Welding, Cutting, and Heating." You may obtain copies from your local supplier, or by writing to Union Carbide Corporation, Linde Division, Communications Department, 39 Old Ridgebury Road, Danbury, Connecticut, 06817-0001.

NOTE: Suitability for use as a component in underwater breathing gas mixtures is to be determined by or under the supervision of personnel experienced in the use of underwater breathing gas mixtures and familiar with the effects, methods, frequency and duration of use, hazards, side effects and precautions to be taken.

FIRE AND EXPLOSION HAZARD DATA

FLASH POINT (test method)	Not applicable	AUTOIGNITION TEMPERATURE	Not applicable
FLAMMABLE LIMITS IN AIR, % by volume	LOWER Not applicable	UPPER	Not applicable

EXTINGUISHING MEDIA: Vigorously accelerates combustion. Use media appropriate for surrounding fire. Water (i.e. safety shower) is the preferred extinguishing media for clothing fires.

SPECIAL FIRE FIGHTING PROCEDURES: Evacuate all personnel from danger area. Immediately cool containers with water spray from maximum distance until cool, then move containers away from fire area if without risk.

UNUSUAL FIRE AND EXPLOSION HAZARDS: Oxidizing agent, vigorously accelerates combustion. Contact with flammable materials may cause fire or explosion. Container may rupture due to heat of fire. No part of a container should be subjected to a temperature higher than 52°C (approximately 125°F). Most containers are provided with a pressure relief device designed to vent contents when they are exposed to elevated temperature. Smoking, flames and electric sparks in the presence of enriched oxygen atmospheres are potential explosion hazards.

INCOMPATIBILITY (materials to avoid): Combustible materials, asphalt, flammable materials, especially oils and greases.

HAZARDOUS DECOMPOSITION PRODUCTS: None.

HAZARDOUS POLYMERIZATION		CONDITIONS TO AVOID: None currently known.
May Occur	Will not Occur	
	X	

WASTE DISPOSAL PROCEDURES

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED: Shut off leak if without risk. Ventilate area of leak or move leaking container to well-ventilated area. Remove all flammable materials from vicinity. Oxygen must never be permitted to strike an oily surface, greasy clothes, or other combustible material.

WASTE DISPOSAL METHOD: Slowly release into atmosphere, in an open, outdoor area. Remove all flammable materials from vicinity.

WORKING WITH OXYGEN: SPECIAL PRECAUTIONS

RESPIRATORY PROTECTION (specify type): Not required.

VENTILATION	LOCAL EXHAUST — Not applicable.
	MECHANICAL (general) — Acceptable.
	SPECIAL — Not applicable.
	OTHER — Not applicable.

PROTECTIVE GLOVES: Preferred for cylinder handling.

EYE PROTECTION: Select in accordance with OSHA 29 CFR 1910.133.

OTHER PROTECTIVE EQUIPMENT: Metatarsal shoes for cylinder handling. Select in accordance with OSHA 29 CFR 1910.132 and 1910.133.

WORKING WITH OXYGEN: SPECIAL PRECAUTIONS

WARNING: High pressure gas. Vigorously accelerates combustion. Avoid contact with oils, greases and other flammable materials. Never use manifolds for oxygen cylinders unless specifically designed for such use. Use only with equipment conditioned for oxygen service. Use piping and equipment adequately designed to withstand pressures to be encountered. Protect container against physical damage. Isolate from combustible gas installations and combustible materials by adequate distance or by gas-tight, fire-resistant barriers. Protect against over-heating. Never use an oxygen jet for cleaning purposes of any sort, especially clothing, as it increases the likelihood of an engulfing fire. Note: Reverse flow into cylinder may cause rupture. Use a check valve or other protective apparatus in any line or piping from the cylinder to prevent reverse flow.

MIXTURES: When two or more gases, or liquefied gases are mixed, their hazardous properties may combine to create additional, unexpected hazards. Obtain and evaluate the safety information for each component before you produce the mixture. Consult an Industrial Hygienist, or other trained person when you make your safety evaluation of the end product. Remember, gases and liquids have properties which can cause serious injury or death. Be sure to read and understand all labels and other instructions supplied with all containers of this product.

NOTE: Compatibility with plastics should be confirmed prior to use. For safety information on general handling of compressed gas cylinders, obtain a copy of pamphlet P-1, "Safe Handling of Compressed Gases in Containers" from the Compressed Gas Association, Inc., 1235 Jefferson Davis Highway, Arlington, VA 22202.

OTHER HANDLING AND STORAGE CONDITIONS: Never work on a pressurized system. If there is a leak, close the cylinder valve, blow down the system by venting to a safe place, then repair the leak. Never lubricate oxygen valves, regulators, etc., with any combustible substance.

The opinions expressed herein are those of qualified experts within Union Carbide. We believe that the information contained herein is current as of the date of this Material Safety Data Sheet. Since the use of this information and these opinions and the conditions of use of the product are not within the control of Union Carbide, it is the user's obligation to determine the conditions of safe use of the product.

LOCAL AGENCY USE ONLY THE STATE I.D. NUMBER IS COMPOSED OF THE FOUR NUMBERS BELOW

STATE I.D.#	COUNTY #	JURISDICTION #	FACILITY #	TANK #
PERMIT NUMBER	PERMIT APPROVED BY/DATE	PERMIT EXPIRATION DATE		

THIS FORM MUST BE ACCOMPANIED BY A PERMIT APPLICATION - FORM A, UNLESS A CURRENT FORM A HAS BEEN FILED.
FILE THIS FORM WITH THE LOCAL AGENCY IMPLEMENTING THE UNDERGROUND STORAGE TANK REGULATIONS

INSTRUCTIONS FOR COMPLETING FORM "B"

GENERAL INSTRUCTIONS:

1. One FORM "B" shall be completed for each tank for all NEW PERMITS, PERMIT CHANGES, REMOVALS and/or any other TANK INFORMATION CHANGE.
2. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
3. Please type or print clearly all requested information.
4. Use a hard point writing instrument, you are making 3 copies.

TOP OF FORM: "MARK ONLY ONE ITEM"

1. Mark an (X) in the box next to the item that best describes the reason the form is being completed.
2. Indicate the DBA or Facility name where the tank is installed.

I. TANK DESCRIPTION - COMPLETE ALL ITEMS - IF UNKNOWN - SO SPECIFY

- A. Indicate owners tank ID # - If there is a tank number that is used by the owner to identify the tank (ex. AB70789).
- B. Indicate the name of the company that manufactured the tank (ex. ACME TANK MFG.).
- C. Indicate the year the tank was installed (ex. 1987).
- D. Indicate the tank capacity in gallons (ex. 25,000 or 10,000 etc).

II. TANK CONTENTS

- A. 1. If MOTOR VEHICLE FUEL, check box 1 and complete items B & C.
2. If not MOTOR VEHICLE FUEL, check the appropriate box in section A and complete items B & D.
- B. Check the appropriate box.
- C. Check the type of MOTOR VEHICLE FUEL (if box 1 is checked in A).
- D. Print the chemical name of the hazardous substance stored in the tank and the C.A.S.#. (Chemical Abstract Service number), if box 1 is NOT checked in A.

III. TANK CONSTRUCTION - MARK ONE ITEM ONLY IN BOX A, B, C & D

1. Check only one item in TYPE OF SYSTEM, TANK MATERIAL, INTERIOR LINING and CORROSION PROTECTION.
2. If OTHER, print in the space provided.

IV. PIPING INFORMATION

1. Circle A if above ground; circle U if underground; and circle both if applicable.
2. If UNKNOWN, circle; or if OTHER, print in space provided.
3. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirement for the piping.

V. TANK LEAK DETECTION

1. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirements for the tank.

VI. INFORMATION ON TANK PERMANENTLY CLOSED IN PLACE

1. ESTIMATED DATE LAST USED - MONTH/YEAR (January, 1988 or 01/88).
2. ESTIMATED QUANTITY of HAZARDOUS SUBSTANCE remaining in the tank (in Gallons).
3. WAS TANK FILLED WITH INERT MATERIAL? Check "Yes" or "NO".

APPLICANT MUST SIGN AND DATE THE FORM AS INDICATED.

INSTRUCTION FOR THE LOCAL AGENCIES

The state underground storage tank identification number is composed of the two digit county number, the three digit jurisdiction number, the six digit facility number and the six digit tank number. The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916)739-2421. The facility number must be the same as shown in form "A". The tank number may be assigned by the local agency; however, this number must be numerical and cannot contain an alphabet. If the local agency prefers the State Board to assign the tank number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THIS INFORMATION. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(c) TO THE FOLLOWING ADDRESS.

INSTRUCTIONS FOR COMPLETING FORM "A"

GENERAL INSTRUCTIONS:

SECTION 2711 OF TITLE 23, CHAPTER 16, CALIFORNIA CODE OF REGULATIONS AND SECTIONS 25286, 25287, AND 25289 OF CHAPTER 6.7, DIVISION 20, CALIFORNIA HEALTH AND SAFETY CODE REQUIRE OWNERS TO APPLY FOR AN UST OPERATING PERMIT.

1. One FORM "A" shall be completed for all NEW PERMIT CHANGES or any FACILITY/SITE INFORMATION CHANGES.
2. SUBMIT ONLY ONE (1) FORM "A" for a Facility/Site, regardless of the number of tanks located at the site.
3. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
4. Please type or print clearly all requested information.
5. Use a hard point writing instrument, you are making 3 copies.
6. Tank owner must submit a facility plot plan to the local agency as part of the application showing the location of the USTs with respect to buildings and landmarks [Section 2711 (a)(8), CCR].
7. Tank owner must submit documentation showing compliance with state financial responsibility requirements to the local agency as part of the application for petroleum USTs [Section 2711 (a)(11), CCR].

TOP OF FORM: "MARK ONLY ONE ITEM"

Mark an (X) in the box next to the item that best describes the reason the form is being completed.

I. FACILITY/SITE INFORMATION & ADDRESS (MUST BE COMPLETED)

1. Record name and address (physical location) of the underground tank(s).
NOTE: Address MUST have a valid physical location including city, state, and zip code.
P.O. BOX NUMBERS ARE NOT ACCEPTABLE.
Include nearest cross street and name of the operator.
2. Phone number must have an area code. If the night number is the same, write "SAME" in proper location.
3. Check the appropriate box for TYPE OF BUSINESS OWNERSHIP (ex. CORPORATION, INDIVIDUAL, etc.).
4. Check the appropriate box for TYPE OF BUSINESS.
5. If Facility/Site is located within an Indian reservation or other Indian trust lands, check the box marked "YES".
6. Indicate the NUMBER OF TANKS at this SITE.
7. Record the E.P.A. ID # or write "NONE" in the space provided.

II. PROPERTY OWNER INFORMATION & ADDRESS (MUST BE COMPLETED)

Complete all items in this section, unless all items are the same as SECTION I; If the same, write "SAME AS SITE" across this section. Be sure to check PROPERTY OWNERSHIP TYPE box.

III. TANK OWNER INFORMATION & ADDRESS (MUST BE COMPLETED)

Complete all items in this section, unless all items are the same as SECTION I; If the same, write "SAME AS SITE" across this section. Be sure to check TANK OWNERS TYPE box.

IV. BOARD OF EQUALIZATION UST STORAGE FEE ACCOUNT NUMBER (MUST BE COMPLETED. SEE ARTICLE 5, CHAPTER 6.75, DIVISION 20, CALIFORNIA HEALTH AND SAFETY CODE.)

Enter your Board of Equalization (BOE) UST storage fee account number which is required before your permit application can be processed. Registration with the BOE will ensure that you will receive a quarterly storage fee return in reporting the \$0.0215 (cents) per gallon fee due on the number of gallons placed in your USTs. The BOE will code persons exempt from paying the storage fee so returns will not be sent. If you do not have an account number with the BOE or if you have any questions regarding the fee or exemptions, please call the BOE at 916-322-9669 or write to the BOE at the following address: Board of Equalization, Fuel Taxes Division, P.O. Box 942579, Sacramento, CA 94279-0001.

V. PETROLEUM UST FINANCIAL RESPONSIBILITY (MUST BE COMPLETED FOR PETROLEUM USTs ONLY, SEE SECTIONS 2711 (a)(8) OF TITLE 23, CHAPTER 16, CALIFORNIA CODE OF REGULATIONS.)

Identify the method(s) used by the owner and/or operator, in meeting the Federal and State financial responsibility requirements. USTs owned by any Federal or State agency as well as non-petroleum USTs are exempt from this requirement.

VI. LEGAL NOTIFICATION AND BILLING ADDRESS

Check ONE BOX for the address that will be used for BOTH LEGAL AND BILLING NOTIFICATIONS. TANK OWNER OR AUTHORIZED REPRESENTATIVE MUST SIGN AND DATE THE FORM AS INDICATED. [SEE SECTIONS 2711 (a)(13) OF TITLE 23 CHAPTER 16, CALIFORNIA CODE OF REGULATIONS.]

INSTRUCTION FOR THE LOCAL AGENCIES

The county of jurisdiction numbers are predetermined and can be obtained by calling the State Board (916) 227-4303. The facility number may be assigned by the local agency; however, this number must be numerical and cannot contain any alphabetical characters. If the local agency prefers, the State Board to assign the facility number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THIS APPLICATION CANNOT BE PROCESSED IF THE BOE ACCOUNT NUMBER IS NOT FILLED IN. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B" (6) TO THE FOLLOWING ADDRESS. THE LOCAL AGENCY SHOULD RETAIN THE ORIGINALS AND FORWARD THE YELLOW COPIES TO THE FOLLOWING ADDRESS. THE PINK COPY SHOULD BE RETAINED BY THE TANK OWNER.

Justification Code(s) for Disapproval/Deletion

- Code 1: Public interest served by non-disclosure clearly outweighs the public interest served by disclosure (also includes all preliminary drafts, notes, and memoranda).
- Code 2: Record(s) pertain to pending litigation.
- Code 3: Record(s) pertain to personnel, medical, epidemiological investigation(s) and similar information, disclosure of which would constitute an unwarranted invasion of personal privacy.
- Code 4: Record(s) pertain to information received in confidence, such as complainant identification, trade secrets, financial data, or otherwise where disclosure would violate such confidence or result in unfair competitive disadvantages to the person supplying the information.

Re: 27111 E. 5th St. Highland, CA 92346

Dear Sir or Madam:

On January 1, 1990, we changed the name on all of our rental centers to GKN Rentals. I have indicated this change on the enclosed remittance forms.

If additional paperwork is necessary to process this change in name, please forward same to my attention. This change is a name change only. There has been no change in ownership.

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Stevens'.

REQUEST FOR RESEARCH AND REVIEW OF RECORDS

FILE/RECORD REQUESTED:

FACILITY AND/OR OWNER NAME: Repel Rent (maybe)

SITUS ADDRESS: 27111 E. 5th Street
Street # Street Name

CITY/TOWN: Highland, CA 92346

Note: Records are searched by site. A search cannot be performed without a situs address. If no situs address exists, an attempt will be made to search records using other location identifiers, such as an address range within a block, street corners, or Assessor's Parcel Numbers and/or legal descriptions. Be advised that your request may take longer if no situs address is provided.

REQUESTED BY:

Individual Name Natalie P. Patty

Title Project Coordinator

Company Name EMCON

Mailing Address 732 E. Carnegie Dr., Suite 125

City, State, Zip San Bernardino, CA 92408

Telephone (909) 383 8286 Fax (909) 384-9894

PURPOSE (check the box most closely related to your interest in site):

- Environmental consultant or engineer performing Phase I site assessments or due diligence at or near site
- Environmental consultant or engineer involved with remediation at or near the site
- Owner or operator of the above facility or property.
- Other: _____
- General interest/Community awareness
- Potential buyer
- Real Estate Agent, Lender, Appraiser
- Legal issue
- Market development

I have read the Procedures for Requesting Research and Review of Records. I understand that I must remit the initial fee of \$52.00 per site record requested and agree to reimburse the Department at a rate of \$52.00 per hour for any record request requiring extended research. I will be notified in writing or by telephone to schedule an appointment if records are available. I may select a maximum of 20 pages to be copied for me at the time the records are examined, and I will be charged an additional amount of 25 cents per page. If I select more than 20 pages to be copied at any one visit, I will contact a private copy service or bring my own copier.

Signature Natalie P. Patty Date 12-5-97

IMPORTANT: This application must be accompanied by the initial fee of \$52.00. If you are transmitting this application via fax, submit the fee with the original application form to the Hazardous Materials Division as soon as possible, and indicate your intent to do so on the fax. Requests received without payment WILL NOT BE PROCESSED.

**SUBJECT: REMOVAL THREE OF UNDERGROUND STORAGE TANK AT
27111 E 5TH STREET, HIGHLAND**

The Department has received the sample results and/or closure report submitted by JIMCO dated April 7, 1997.

After review of the reports prepared by you or your agent, it has been determined that the extent of contamination or lack thereof would indicate that no further investigation is warranted at this time.

It is important to note that this can not be construed as a release of liability for the site or declaration that the site is free from contamination. Should further projects or environmental investigations reveal additional contaminants on site you will be responsible and held liable for the investigation and remedial actions. If you have any questions, please call (909) 387-3082.

LEAK DETECTION & MONITORING PROGRAM

Existing Underground Storage Tanks

(Installed before January 1984)

Send completed proposal to: County of San Bernardino
 Department of Environmental Health Services
 385 North Arrowhead Avenue, 2nd Floor
 San Bernardino, CA 92415-0160

I. General Information

Facility Name: GKN Rentals
 Facility Owner: ~~John Hobam~~ GKN Rentals
 Site Address: 27111 E 5th Street Highland, CA 92346
 Mailing Address: PO Box 68018 Anaheim, CA 92817-8018
 Telephone: (909) 864-3130 (714) 283-2161
 Property Owner: John Hobam
 Mailing Address: 7172 La Puebla St.
Las Vegas, Nv. 89120

Note: If the operator of the UST is not the owner, then the owner shall enter into a written contract with the operator requiring the operator to monitor the UST; to maintain appropriate records; and to implement reporting procedures as required by any applicable permit. Both the owner and the operator are responsible for assuring the UST system is repaired, upgraded or closed as appropriate.

Attach a copy of the signed agreement to this proposal when it is submitted.

Underground Storage Tank Information

UST #	Manufacturer	Tank Material (Steel/Fiberglass)	Size	Install Date	Product
<u>1</u>	<u>UNK</u>	<u>Steel</u>	<u>4,000</u>	<u>Prior to '84</u>	<u>Diesel</u>
<u>2</u>	<u>UNK</u>	<u>Steel</u>	<u>3,000</u>	<u>Prior to '84</u>	<u>Gas</u>
<u>3</u>	<u>UNK</u>	<u>Steel</u>	<u>250</u>	<u>Prior to '84</u>	<u>Waste Oil</u>

Depth to groundwater: 146 feet*

Is there any known soil contamination at this site? yes no

If yes, describe on a separate page and attach to this proposal.

Location of nearest surface water: Approximately 1/4 mile to the South, Santa Anna River

Location of nearest well(s): 1 well approximately 1/4 mile to the North and 1 well approximately 1/2 mile to the west

*Contact DEHS Water Section or the local water agency for determination of groundwater depth.

II. Underground Storage Tank Monitoring (Single-wall tanks)

Owners of existing UST's shall implement a monitoring program that is capable of detecting any unauthorized release at the earliest possible time.

Indicate which of the following methods of leak detection are to be used for the monitoring of UST's:

- Electronic Inventory Reconciliation
- Manual Inventory Reconciliation
- Manual Tank Gauging (for UST's of 2000 gallons or less)

See corresponding explanation of monitoring methods. Fill in information as needed.

Electronic Inventory Reconciliation

Monitoring shall be conducted at least monthly and capable of detecting a release of 0.2 gallons per hour (i.e., a tank-level monitor or tank integrity test).

Note: If a tank-level monitor is used, it must print out a hard copy of all data reported, including: time, date, tank ID, fuel depth, water depth, temperature, liquid volume, the time automatic tank gauging is performed and hourly temperature-corrected volume data during the automatic tank test.

If you have a tank-level monitor, fill in the following information:

Manufacturer: _____

Model Number: _____

If you are using monthly tank integrity testing, fill in the following information:

Contractor: _____

Test Method: _____

All motor vehicle fuel UST's will require electronic inventory reconciliation after 1998.

Manual Inventory Reconciliation

Manual inventory reconciliation shall only be used as part of a monitoring program for existing USTs which contain motor vehicle fuel.

Note: This option is not available after January 1, 1993 for UST's in groundwater at a depth between 0 - 30 feet. This option is not available for any UST after 1998. This option also includes other electronic devices which do not meet the above requirements of Electronic Inventory Reconciliation.

✓ The following steps shall be used:

- Daily stick readings of inventory including all delivery/inputs and withdrawals. Daily variations shall be the difference between physically measured inventory and calculated inventory.

- Allowable monthly variations are 1% of throughput plus one hundred thirty (130) gallons.
- If inventory reconciliation measurements exceed allowable monthly variations, the owner and/or operator shall notify DEHS within twenty-four (24) hours. In addition the owner/operator shall conduct an investigation to determine the cause of the excessive variation. This investigation shall include a research of the calculations and inspection of all dispensers and other accessible equipment. If a second monthly-inventory reconciliation record confirms the initial results, the UST is to be considered leaking and unauthorized release procedures shall be followed. All records of investigations made shall be in writing and retained on site for three (3) years.
- All meters used for input/withdrawal measurements shall be inspected by San Bernardino County Weights and Measures or a certified serviceman annually.
- Annually the owner/operator shall submit a statement certifying under penalty of perjury that variations are within allowable tolerances, or include a list detailing occurrences when UST tolerances were exceeded.

✓ Annual Tank Integrity Test

Manual Tank Gauging

This option can only be used for existing underground storage tanks which have a total capacity of 2000 gallons or less.

Note: This option will not be available for UST(s) greater than 1000 gallons after 1998.

- ✓ The system shall be capable of being taken out of service for forty-eight (48) continuous hour per week.
- ✓ Weekly tank gauging shall be conducted. The following steps shall be used:
 - The UST(s) shall not have any inputs for twelve (12) hours before the gauging period begins.
 - Measurements shall be taken at the beginning and ending of the gauging period. The gauging period shall last for thirty-six (36) continuous hours.
 - The UST(s) shall be secured to prevent any inputs or withdrawals during the gauging period.
 - The average of the two stick readings, to the nearest one-eighth (1/8) inch, at the beginning and ending of the gauging period shall be taken.
 - If the variation between the beginning and the ending measurements exceeds the allowable limit given below, then a second gauging period shall be conducted. If the second gauging period confirms variation limits have been exceeded, a tank integrity test shall be conducted within seventy-two (72) hours.

UST Gauging Limits for Variations

UST Size	One Test/Gallons	Average Four Tests/Gallons
550 or less	10	5
551-1000	13	7
1001-2000	26	13

- If the integrity test confirms a leak, then the UST(s) shall be replaced, repaired or closed.
- All stick readings shall be kept on a written log sheet and retained at the site for three (3) years.
- An annual report shall be submitted to DEHS stating all UST gauging data are within the allowable variations. The statement shall be submitted under penalty of perjury.

✓ Annual Tank Integrity Test

Additional Requirements

The following are additional requirements to your monitoring program and are dependent upon depth to groundwater. Please check the groundwater depth that applies.

- Groundwater depth 0 - 30 feet**
 - Groundwater monitoring wells*
 - Overfill protection
 - Spill-proof fill boxes
 - Electronic tank-level monitor required by January 1, 1993

- Groundwater depth 30 - 100 feet**
 - Vadose monitoring wells*
 - Overfill protection
 - Spill-proof fill boxes
 - Electronic tank-level monitoring required by 1998

- Groundwater depth greater than 100 feet**
 - No monitoring wells required
 - Overfill protection by December 1998
 - Spill-proof fill boxes by December 1998
 - Electronic tank-level monitor by December 1998

*Contact DEHS Water Section for well standards at (909) 387-4666

III. Piping Monitoring *(Please check appropriate boxes)*

Piping Material

- Fiberglass-reinforced plastic
- Steel
- Other _____

The piping is constructed of steel.
Single wall Double wall _____

The piping is constructed of fiberglass-reinforced plastic.
Single wall _____ Double wall _____

Piping System

- Pressurized (below)
 Suction operated (page 6)

Monitoring Methods for Pressurized Piping

One of the following shall be used:

Install an Automatic Line-Leak Detector which shall be capable of detecting a leak of 3 gallons per hour at 10 psi within one hour and an Electronic Line-Leak Detector which tests monthly at 0.2 gallons per hour at normal operating pressure; or

Install an Automatic Line-Leak Detector which shall be capable of detecting a leak of 3 gallons per hour at 10 psi within one hour and an Electronic Line-Leak Detector which tests annually at 0.1 gallons per hour at 1.5 times the operating pressure; or

Install an Automatic Line-Leak Detector which shall be capable of detecting a leak of 3 gallons per hour at 10 psi within one hour and an Annual Line-Tightness Testing.

Provide the following:

Automatic Line-Leak Detector Model: _____
Name of Manufacturer: _____

Electronic Line-Leak Detector Model: _____
Name of Manufacturer: _____

The Line-Leak Detector will:

- Slow down dispenser or turbine
 Shut off turbine (required by 1998)

All pressurized piping containing motor vehicle fuel shall be retrofitted with secondary containment unless it is constructed of fiberglass-reinforced plastic or cathodically-protected steel. Retrofitting must be completed by December 22, 1998.

Monitoring Methods for Single-Phase On-Operated Piping

- ✓ Suction pipelines shall be integrity tested once every three (3) years.

Suction pipelines shall be monitored **daily** for the presence of air in the pipeline by observing the suction pumping system for the following indicators:

- ✓ The cost/quantity display wheels on the meter suction pump skip or jump during operation;
- ✓ The suction pump is operating, but no motor vehicle fuel is being pumped;
- ✓ The suction pump seems to over-speed when first turned on and then slows down as it begins to pump liquid; and
- ✓ A rattling sound in the suction pump and erratic flow indicating an air and liquid mixture.

If any of the above indicators are observed during testing of the suction piping system, the pipeline check valve should be inspected to determine if it is seated tightly. If there is any doubt following the inspection that the valve seats tightly, it should be repaired, replaced or sealed off. Then the suction pumping test should be repeated and, if air is still entering the suction line, it is assumed the pipe is leaking underground.

Monitoring Methods for Piping Containing Other Hazardous Substances

Piping containing hazardous substances, **other than** motor vehicle fuel, shall be retrofitted with secondary containment by December 22, 1998 or be removed. If your piping falls into this category, please check one of the following:

- The piping at this facility is single wall and shall be retrofitted or replaced by December 22, 1998.
- The piping at this facility is double-walled and does not require replacement.

Describe: _____

IV. Unauthorized Release Reporting

Contact DEHS at 1-800-33-TOXIC within 24 hours of an unauthorized release.

Within five days of the release, the operator shall submit a written report to DEHS detailing the cause and a description of the actions taken to control and remediate the release.

Name, title and phone number of person(s) responsible for authorizing any work necessary:

Name/Title: Mike Stevens / Risk Manager

Phone number: (714) 283-2161

Name/Title: David Blanchard / VP Finance

Phone number: (714) 283-2161

List the name and phone number of an emergency-response contractor who you could contact after a release.

Contractor: Advanced Environmental - 24 Hour Emergency

Phone number: (714) 590-4229

V. Summary of UST System Upgrade Regulation Requirements

- ✓ All UST's containing hazardous substances, other than motor vehicle fuel (i.e., oil, waste oil and solvents), shall be retrofitted with secondary containment or be removed by December 28, 1998.

- ✓ Motor vehicle fuel UST's made of steel shall, on or before December 22, 1998, be retrofitted with secondary containment or an interior lining and exterior cathodic protection or be removed.

Tank Systems Monitoring

Please check or fill in the appropriate boxes.

UST Monitoring

- Electronic Inventory
- Manual Inventory
- Tank Gauging
- Overfill Protection
- Spill-Proof Fill Boxes

Pipe Monitoring

- Steel (ST) / Fiberglass (FG)

RE: GKN Rentals - Highland

Dear Ms. Alvarez,

GKN Rentals has decided to cease business operations at our Highland facility due to continued recessionary conditions in the local economy. We have removed all hazardous materials and wastes from the site as per our discussions and we request the elimination of any unnecessary permits.

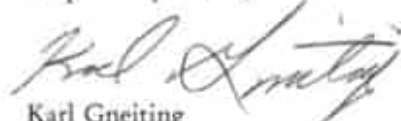

During your recent inspection of the facility, we discussed various options for handling our UST's. Upon further discussion with the executive management of the company, GKN has decided to leave the tanks open and continue with our normal monitoring procedures. This decision was based on the economic factors and timing of a forced UST removal or upgrade prior to 1998 if we decided to re-open the Highland location. Additionally, since we will continue to leave these tanks open, the annual integrity test has been re-scheduled for its anniversary date in July 1994.

Also included in this package:

- State forms "A" and "B" for the UST's at Highland
- S.B. County Leak Detection and Monitoring Program
- A copy of the results of the July 1993 Annual Integrity Test
- Manifests for the removal of the Safety Kleen parts washers, waste oil, and miscellaneous hazardous waste barrels.
- A complete copy of GKN's UST program

Thank you for your time and assistance in this matter. GKN Rentals strives to be a clean and efficient operation and your patience and assistance with compliance issues is appreciated. Please contact me if you require any further information.

Respectfully Yours,

Karl Gneiting
Safety Coordinator

P.O. Box 68018
Anaheim, CA 92817-8018

RE: 27111 East 5th Street
Highland, Ca.

Attention: Mr. Carl Gneiting

RE: Our Job #GKN HIG

Gentlemen:

On Thursday, July 22, 1993, we tested the 3,000 gallon Unleaded tank, the 4,000 gallon Diesel tank, and the 300 gallon Waste Oil tank using the "Petro-Tite II" systems method.

The Unleaded tank had a leak rate of +.004 gallons per hour, the Diesel tank had a leak rate of -.044 gallons per hour, and the Waste Oil tank had a leak rate of -.003 gallons per hour. These leak rates are within the NFPA criteria of 0.05 gallons per hour; therefore, these tanks can be considered liquid tight at this time.

We also tested the two (2) product lines using the "Petro-Tite" line tester method.

The Unleaded line had a leak rate of +.0000 gallons per hour, the Diesel line had a leak rate of +.0000 gallons per hour. These leak rates are within the NFPA criteria of 0.01 gallons per hour; therefore, these product lines can be considered liquid tight at this time.

The test results are attached. Please call if you have any questions.

Very truly yours,

TAIT ENVIRONMENTAL SYSTEMS

GKN Rentals

UST Program

(Underground Storage Tanks)

GKN RENTALS

GKN Rentals UST Program

Management Commitment and Responsibility

GKN Rentals has created an Underground Storage Tank (UST) Program to help assist the Branch Managers with the proper monitoring and operations of their UST's. Proper operations and monitoring of UST's is critical to the safety of all GKN Rentals employees, our environment and our communities. GKN Rentals is aware of the potential risks our operations pose to the environment and the communities in which we do business and we have a responsibility to minimize as many of these risks as possible. *All GKN Rentals' management and staff must be committed to the prevention of any and all activities that will lead to the detriment of our associates and/or our environment.*

The UST Program is designed to help the Branch Managers comply with applicable laws and regulations and to help mitigate the environmental risks of operating an UST by closely monitoring and controlling the flow of products through the tank. Through an effective program and a committed staff, we can identify and correct any hazardous situation before it reaches a disastrous condition.

This UST Program is for:

Branch Name: _____
Address: _____

UST I.D. #'s and Tank Sizes: ♦

Tank 1:	<u>ID#:</u>	<u>Size:</u>	<u>Product:</u>
Tank 2:	<u>ID#:</u>	<u>Size:</u>	<u>Product:</u>
Tank 3:	<u>ID#:</u>	<u>Size:</u>	<u>Product:</u>
Tank 4:	<u>ID#:</u>	<u>Size:</u>	<u>Product:</u>

♦ UST I.D. numbers for your facility can be found in the appendix to this section. I.D. numbers are coded: D-diesel, G-Gas, WO-Waste Oil. Please assign I.D.'s accordingly.

Water table level for facility:♣

Water Table _____
Agency Reporting _____
Contact _____
Well Location _____
Date of reading _____

♣Information on the water table in your area can be obtained from the attached appendix to this section. To update the water table data, contact your local water control agency and request the necessary information. If the water table at your location ever drops to 35 feet or less, immediately notify the Risk Management Department. Inventory reconciliation cannot be used if the water table is within 20 feet of the bottom of your tanks.

RESPONSIBLE INDIVIDUAL:

In order to have a UST Program function smoothly and efficiently one individual in the branch must have sole responsibility for all actions and interactions and all monitoring of the UST(s). The Branch Manager can assume this role or may assign this role to a single individual within the branch operational structure.

The chosen individual must be the one who sticks the UST's, logs the readings, completes the necessary forms, and reports any variations. The chosen individual must be able to read and interpret regulations and company communications and successfully communicate verbally as well as through written reports. Furthermore, the chosen individual must be trained on all procedures and operations involving UST's.

Additionally, the Branch Manager must identify an alternate responsible individual who will perform these functions in the event of scheduled days off, vacations, sick days, or termination of the employment relationship with the primary responsible individual.

GKN Rentals UST Program

Non-Visual Monitoring Program

All owners or operators of UST's must ensure, on a daily basis, that their UST's are liquid tight. To ensure that our tanks meet this criteria, GKN Rentals has elected to use Manual Inventory Reconciliation as its approved form of UST, non-visual monitoring. (This form of reconciliation is valid until December 22, 1998 at which time all single walled UST's must be removed, upgraded or replaced.) Non-visual monitoring of the UST(s) is a critical component of a successful UST program. *The Branch Manager is responsible for ensuring that all monitoring and operations are conducted and completed according to all applicable laws and regulations.*

MANUAL INVENTORY RECONCILIATION (Product Tanks):

Manual inventory reconciliation must be conducted on a daily basis according to the following guidelines:

- All dip stick readings, measurements, logs and recordings must be conducted and maintained by the assigned individual noted on the UST Responsibility page.
- All dip stick readings for the monitoring program must be taken at approximately the same time of the morning or evening each day.
- Dip stick readings must be taken every day the branch is open for business or any day an input or output is recorded.
- Separate the daily underground tank quantity measurements for both the tank product and water. (Use water finding paste on the bottom of the dip stick to record an accurate measurement of water depth, convert to gallons. This must be done on a daily basis.)
- Confirm all product deliveries by sticking the tanks before and after the delivery. Note any discrepancies on the billing receipt and the reconciliation form. (Again, use the water finding paste to determine if the delivery inadvertently had water in the fuel.)
- All readings which are logged on the inventory reconciliation form must be the average of two (2) consecutive stick readings.
- All dip stick readings must be made to the nearest 1/8th of an inch.
- All dip stick readings must be converted to gallons by an appropriate conversion chart.

COMPLETING THE INVENTORY RECONCILIATION SHEET:

- Column 1 The previous days dip stick reading (in gallons).
- Column 2 Any deliveries of new product (inputs) into the tank since the last dip stick reading.
- Column 3 Any withdrawals from the tank (outputs) since the last dip stick reading. Use fuel log forms to compute outputs and compare to the *actual meter reading on the pump*.
- Column 4 Calculate the predicted inventory; columns 1 + 2 - 3.
- Column 5 Conduct your daily stick reading and record the proper amount (in gallons). Remember, stick readings should be conducted at approximately the same time each day and you must take the average of two (2) consecutive stick readings.
- Water Measure the water in the UST and log the amount in this column. Note any significant changes in the water content. If water is cleaned from the tank by a tank cleaning company, make the appropriate adjustment in column 5.
- Column 6 Subtract column 4 from column 5 (column 5 - column 4). This is the actual variation for that day.

- Repeat the above steps on a daily basis for the entire month.

- End of month - Total all columns and compute the allowable variation and the actual variation for this month. Transfer the total variation to the annual summary report and immediately notify the Risk Management Department if the actual variation exceeds the allowable variation.

MANUAL INVENTORY RECONCILIATION (Waste Oils):

- All dip stick readings, measurements, logs and recordings must be conducted and maintained by the assigned individual noted on the UST Responsibility page.
- Dip stick readings must be taken every Friday morning and the following Monday morning.
- All dip stick readings must be taken at approximately the same time of the morning each week.
- No Inputs shall occur 12 hours before the Friday measurement continuing until after the Monday measurement. (Waste oil may only be placed in the tank between Monday afternoon and Thursday night.)
- Separate the tank quantity measurements for both the waste oil and water. (Use water finding paste on the bottom of the dip stick to record an accurate measurement of water depth, record measurement in inches.)

- All readings which are logged on the inventory reconciliation form must be the average of two (2) consecutive stick readings.
- All dip stick readings must be made to the nearest 1/8th of an inch.
- All dip stick readings must be converted to gallons by an appropriate conversion chart.

COMPLETING THE INVENTORY RECONCILIATION SHEET, Waste Oil:

- Column 1 Date of dip stick reading.
- Column 2 Time of dip stick reading.
- Column 3 Inches of water in the tank. (Note any fluctuations.)
- Column 4 Waste oil stick reading.
- Column 5 Waste oil gallons, convert reading in column 4 to gallons.
- Column 6 Subtract the top row (Friday's measurement) from the bottom row (Monday's measurement) to receive the weekly variation.

- Repeat the above steps on a weekly basis for the entire month.

- End of month - Total column 6 and divide by the number of weeks to compute the actual monthly average variation. Compare the allowable average variation and the actual variation for this month. Transfer the actual variation to the annual summary report and immediately notify the Risk Management Department if the actual variation exceeds the allowable variation.

COMPLETING THE ANNUAL SUMMARY FORM:

- Repeat the above steps for the entire year for each tank at your site.
- Complete the annual summary report by signing and dating the form.
- Circle any variations that were beyond the allowable variation amount.
- Submit your annual report to The Risk Management Department and file a copy in your UST program book.

ELECTRONIC MONITORING:

Branches that have secondary containment and electronic monitoring of their UST(s) must follow additional guidelines:

- Check the electronic monitoring system at least weekly. Either run a test or confirm that no leak has occurred.
- Perform monthly maintenance checks on monitoring system to ensure proper functioning.

- Immediately notify The Risk Management Department if any leak occurs or any alarm sounds.
- If a leak occurs, remove any and all product from the secondary containment area within 30 days. Perform repairs as necessary.
- Perform annual service checks by a qualified technician to ensure monitoring system is performing to manufacturers specifications.

This section contains:

1. All current (and past) monthly, inventory reconciliation sheets with any variations beyond the approved limit noted and remedied.
2. All current (and past) annual summary reports for all UST's at this location.
3. A copy of CCR Title 23, Division 3, Chapter 16, Article 4, Section 2646.

**CALIFORNIA CODE OF REGULATIONS
TITLE 23 WATERS
DIVISION 3 STATE WATER RESOURCES CONTROL BOARD
CHAPTER 16 UNDERGROUND TANK REGULATIONS**

ARTICLE 4, SECTION 2646. INVENTORY RECONCILIATION

- (a) Inventory reconciliation shall only be used as part of non-visual monitoring for existing underground storage tanks which contain motor vehicle fuels.
- (b) After January 1, 1993, inventory reconciliation, and any other leak detection method that utilizes manual stick readings, shall not be used as part of non-visual monitoring for existing underground storage tanks containing a hazardous substance including motor vehicle fuel, where the existing ground water level or the highest anticipated ground water level is less than 20 feet below the bottom of the tank. These ground water levels shall be determined according to the requirements of section 2649(c) of this article.
- (c) Inventory reconciliation that utilizes manual stick readings shall not be used after December 22, 1998.
- (d) Owners or operators of existing underground storage tanks who utilize inventory reconciliation as part of non-visual monitoring shall comply with the requirements of this section.
- (e) Each underground storage tank shall be individually monitored utilizing an inventory reconciliation system that takes into account:
 - (1) Separate daily underground storage tank quantity measurements for both the stored hazardous substance and any water layer;
 - (2) Daily readings for underground storage tank input and withdrawals; and
 - (3) Checking of product inputs indicated by delivery receipt by measurement of the tank inventory volume before and after delivery. Underground storage tanks that are connected by a manifold may require time for the level to stabilize before a measurement is taken.
- (f) Meters used for determining inputs and withdrawals shall comply with California Code of Regulations, Title 4, Chapter 9, Subchapter 1, "Tolerances and specifications for commercial weighing and measuring devices." Meters shall be inspected by the County Department of Weights and Measures or a device repairman as defined in the California Business and professions Code, Division 5, Chapter 5.5.
- (g) For the purpose of this section, "daily" means at least 5 days per week. The number of days involved may be reduced by the number of public holidays that occur during any such week. This Agency may reduce the frequency of monitoring to no less than once every 3 days at facilities that are not staffed on a regular basis, provided that the monitoring is performed on every day the facility is staffed or when inputs or withdrawals are made from the underground storage tank.
- (h) Underground storage tank quantity measurements shall be based on liquid level measurements which are:
 - (1) Performed during periods when no additions or withdrawals are being made to the underground storage tank;

- (2) Performed by the underground storage tank owner, operator, or other designated persons who have had appropriate training;
 - (3) Based on the average of two readings if stick or tape measurements are used;
 - (4) Determined by equipment capable of measuring the level of the product over the full range of the tank's height to the nearest one-eighth of an inch;
 - (5) Determined by equipment capable of measuring, to the nearest one-eighth of an inch, water present in the bottom of the underground storage tank. If the underground storage tank is not level, and the measurements are taken manually, then the measurement should occur at the lowest end of the underground storage tank;
 - (6) Measured at the center of the longitudinal axis of the underground storage tank if access is available or measured at the lowest end of the underground storage tank with a calibration measurement at both ends, if possible, to determine if any underground storage tank tilt exists and, if so, its magnitude; and
 - (7) Converted to volume measurements based on a calibration chart for the underground storage tank. This chart shall, where feasible, take into account the actual tilt of the underground storage tank.
- (i) The daily variation in inventory reconciliation shall be the difference between physically measured inventory in storage and the calculated inventory in storage. The physically measured inventory shall be determined at approximately the same time each day by taking liquid level measurement and converting it to gallons using the calibration chart. The calculated inventory shall be determined at approximately the same time of day for each business day by adding inputs and subtracting the withdrawals from the physically measured inventory determined the day before. These variations shall be summed for a period of one month. Monthly variations exceeding a variation of 1.0 percent of the monthly tank delivery plus 130 gallons must be investigated in accordance with this section.
- (j) The owner or operator shall, on an annual basis, submit a statement to this Agency which states that all inventory reconciliation data are within allowable variations or which includes a list of the period of times and the corresponding variations which exceed the allowable variations. Said statement shall be executed under penalty of perjury.
- (k) If the monthly inventory reconciliation, conducted under subsection(i) of this section, exceeds the allowable variation, the owner or operator as appropriate shall:
- (1) Notify this Agency of a suspected unauthorized release within 24 hours of completing any inventory reconciliation which exceeds the allowable variation;
 - (2) Within 24 hours of discovering a variation which exceeds the allowable variation, review the inventory records for the preceding 30 days and determine if a calculation error exists that caused the apparent excessive variation.
 - (3) Within 24 hours of discovering a variation which exceeds the allowable variation, have all readily accessible facilities carefully inspected for leakage by appropriately trained persons;
 - (4) Have all dispenser meters associated with hazardous substance withdrawal checked for calibration within 24 hours of completing the procedure required in subsection (3) immediately above.

- (5) Continue to conduct inventory reconciliation according to the requirements of this section. If a second 30 day period of data confirms the initial results, the owner or operator shall comply with the requirements of Article 5 of this chapter, and
- (6) Conduct such additional tests or investigations as may be required by this Agency.
- (l) Whenever any of the steps in subsection (k) of this section are performed, the results shall be documented in the monitoring record required under section 2712 of Article 10 of this chapter. If completion of any one of these steps indicates an inventory reconciliation error that, when corrected, indicates that allowable variations have not been exceeded, then the remainder of the steps need not be completed. If completion of any of these steps indicates that the apparent excessive variation is not due to a release or tank failure, then the remainder of the steps need not be completed.
- (m) The transfer of hazardous substances into and out of the underground storage tank may continue while the steps indicated in subsection (k) are being implemented provided the steps indicated are completed within the specified periods. Daily inventory readings and monthly reconciliation shall continue while the steps are being implemented.

GKN Rentals UST Program

Permits

This section is reserved for all permits related to the existence and operation of an UST. The Branch Manager is responsible for securing all the appropriate permits for his/her facility. The permits must be forwarded to the corporate office in a timely manner for proper payment.

This section contains:

1. All required permits for operating an UST at this location. Permits in this section can include:
 - SCAQMD
 - State and Local Implementing Agency
 - County
 - Hazardous material storage
 - Weights and Measures

GKN Rentals UST Program

Tank and System Tightness Testing

All UST's and line dispensing systems must be pressure tested and certified by a State licensed testing company. This testing must occur annually for all single walled tanks and every five years for double walled, electric monitored tanks. All test records and results must be maintained on-site.

The GKN Risk Management Department is responsible for scheduling the annual integrity tests for all facilities. However, it is the responsibility of the Branch Manager to ensure that the integrity test is conducted on or before the anniversary date of the previous test.

This section contains:

1. The current (and past) System Tightness and UST Integrity tests results.
2. The current (and past) Integrity test worksheets and data charts.

GKN Rentals UST Program

Financial Assurance

All UST owners or operators are responsible for cleaning contamination, remediating soil, and reimbursing third parties in the event of an unauthorized leak from an UST in their control. Therefore, the State has required that UST owners or operators provide proof of financial responsibility in the amount of \$500,000 per occurrence and \$1,000,000 annual aggregate coverage. The coverage can be obtained through a vast number of financial instruments acceptable to the EPA and State.

The proof of financial responsibility must be on file with the local implementing agency and on file at the UST site location. The financial responsibility form must be updated annually. GKN Rentals' Risk Management Department is responsible for updating and distributing the Financial Responsibility Form.

This section contains:

1. The current (and past) Certification of Financial Responsibility Form.
2. The current (and past) Financial mechanism(s) which GKN Rentals has chosen to use as proof of financial responsibility.

RE: GKN Rentals - Highland and Alta Loma

Dear Ms. Alvarez,

Included with this letter are the annual underground storage tank integrity test results for GKN Rentals' branch locations in Highland and Alta Loma. The test results were satisfactory on all tanks in Highland and all tanks in Alta Loma except the 100 gallon waste oil tank. The test results on the waste oil tank were inconclusive and as such GKN Rentals is researching the feasibility of repair or removal of the tank.

If you have any questions, please feel free to contact me. Thank you for your assistance with this matter.

Respectfully Yours,

CPC Job# 146185
P.O.#

To whom it may concern:

On Wednesday July 6, 1994, CPC tested the 4000 gallon diesel, 3000 gallon unleaded and the 300 gallon waste oil tanks using the Petro-Tite 2 systems test. The diesel tank had a leak rate of -.017 gallons per hour. The unleaded tank had a leak rate of +.047 gallons per hour. The waste oil had a leak rate of -.011 gallons per hour.

The product lines were also tested using the Petro-Tite line tester. The Unleaded product line had a leak rate of +.0000 gallons per hour. The Diesel product line could not hold pressure due to the defective foot valve in the tank.

The leak rates are within (State Water Resources Control Board) criteria of -.050 gallons per hour, therefore, the tank can considered liquid tight at this time.
Please call if you have any questions.

REQUEST FOR ENVIRONMENTAL ASSESSMENT REVIEW

REQUESTED BY:

Company Name MEREDITH / BOY & ASSOC.
Mail Address 6701 CENTER DR. W #900
LA, CA 90403
Contact Person: NANCY NEULANDER Phone: (213) 670-9221

A request is hereby made for review of San Bernardino County Environmental Health records to determine whether there is any record of release, spill, dumping, contamination, clean-up action, underground tank or above ground storage of hazardous materials, substances, or wastes at the property listed below that adversely affects public health or the environment.

N. Neulander INDUSTRIAL HYGIENIST 12/13/88

Highland

Dear Requestor:

On August 6th, 2021, the Department of Toxic Substances Control (DTSC) received your email of August 6th, 2021, requesting records under the Public Records Act. After a thorough review of our files, no site records were found pertaining to the sites/facilities referenced above.

DTSC Generator information: DTSC Cypress Office does not house Generator/**HWTS** Records.

DTSC's Hazardous Waste Tracking System (**HWTS**) may have records that pertain to this request. This unit tracks toxic waste generators, transporters (manifests), and disposal facilities. If you are interested in this type of information, it can be identified by accessing the HWTS database at <http://hwts.dtsc.ca.gov>. If you are interested in retrieving detailed reports, additional charges may apply. Please contact the HWTS unit by email at hwtsreports@dtsc.ca.gov or by phone at (800) 618-6942 for further information. For copies of manifests, please send an email to mcr@dtsc.ca.gov.

A large number of our records are available on EnviroStor, an online database that provides non-confidential, public access to DTSC's data management system. It tracks our cleanup, permitting, enforcement, and investigation efforts at hazardous waste facilities and sites with known or suspected contamination issues. EnviroStor is available 24/7, 365 days a year. The data reflects the latest updates as they are entered in the system. Access it from your computer or smartphone, the local library – anywhere Internet access is available. Just go to www.envirostor.dtsc.ca.gov. You'll find a step-by-step tour of EnviroStor under the "How to Use EnviroStor" menu on the website.

If you have any questions, would like further information regarding your request, please contact me at (714) 484-5336 or via email at Cypressfileroom@dtsc.ca.gov

Sincerely,

Jone Barrio

MAP PANELS	
	Digital Data Available
	No Digital Data Available
	Unmapped

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 8/10/2021 at 5:14 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

First American

Commitment

ALTA Commitment for Title Insurance

ISSUED BY

First American Title Insurance Company

File No: NCS-1099325-SA1

COMMITMENT FOR TITLE INSURANCE

Issued By

FIRST AMERICAN TITLE INSURANCE COMPANY

NOTICE

IMPORTANT-READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACTIONAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, ***First American Title Insurance Company***, a Nebraska Corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within six months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

First American Title Insurance Company

COMMITMENT CONDITIONS

1. DEFINITIONS

- (a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
- (b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
- (c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
- (d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
- (e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
- (f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
- (g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
- (h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:

- (a) the Notice;
- (b) the Commitment to Issue Policy;
- (c) the Commitment Conditions;
- (d) Schedule A;
- (e) Schedule B, Part I—Requirements; and
- (f) Schedule B, Part II—Exceptions.

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

- (a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
 - (i) comply with the Schedule B, Part I—Requirements;
 - (ii) eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
 - (iii) acquire the Title or create the Mortgage covered by this Commitment.
- (b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
- (c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
- (d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
- (e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
- (f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I—Requirements have been met to the satisfaction of the Company.
- (g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT

- (a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.
- (b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
- (c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
- (d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
- (e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
- (f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION

Arbitration provision intentionally removed.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. ISSUED BY

First American Title Insurance Company

File No: NCS-1099325-SA1

Commitment No.: NCS-1099325-SA1

SCHEDULE B, PART I

Requirements

All of the following Requirements must be met:

- A. The Proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.
- B. Pay the agreed amount for the estate or interest to be insured.
- C. Pay the premiums, fees, and charges for the Policy to the Company.
- D. Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records.
- E. Releases(s) or Reconveyance(s) of Item(s): None
- F. Other: None
- G. You must give us the following information:
 - a. Any off record leases, surveys, etc.
 - b. Statement(s) of Identity, all parties.
 - c. Other:

With respect to the trust referred to in the vesting:

- a. A certification pursuant to Section 18100.5 of the California Probate Code in a form satisfactory to the Company.
- b. Copies of those excerpts from the original trust documents and amendments thereto which designate the trustee and confer upon the trustee the power to act in the pending transaction.
- c. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require.

The following additional requirements, as indicated by "X", must be met:

- H. Provide information regarding any off-record matters, which may include, but are not limited to: leases, recent works of improvement, or commitment statements in effect under the Environmental Responsibility Acceptance Act, Civil Code Section 850, et seq.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

The Company's Owner's Affidavit form (as provided by the company) must be completed and submitted prior to close in order to satisfy this requirement. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

- I. An ALTA/NSPS survey of recent date, which complies with the current minimum standard detail requirements for ALTA/NSPS land title surveys, must be submitted to the Company for review. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

- J. The following LLC documentation is required from:
 - (i) a copy of the Articles of Organization
 - (ii) a copy of the Operating Agreement, if applicable
 - (iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
 - (iv) express Company Consent to the current transaction

- K. The following partnership documentation is required :
 - (i) a copy of the partnership agreement, including all applicable amendments thereto
 - (ii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
 - (iii) express Partnership Consent to the current transaction

- L. The following corporation documentation is required:
 - (i) a copy of the Articles of Incorporation
 - (ii) a copy of the Bylaws, including all applicable Amendments thereto
 - (iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
 - (iv) express Corporate Resolution consenting to the current transaction

- M. Based upon the Company's review of that certain partnership/operating agreement dated **Not disclosed** for the proposed insured herein, the following requirements must be met: Any further amendments to said agreement must be submitted to the Company, together with an affidavit from one of the general partners or members stating that it is a true copy, that said partnership or limited liability company is in full force and effect, and that there have been no further amendments to the agreement. This Commitment will then be subject to such further requirements as may be deemed necessary.

- N. A copy of the complete lease, as referenced in Schedule A, #3 herein, together with any amendments and/or assignments thereto, must be submitted to the Company for review, along with an affidavit executed by the present lessee stating that it is a true copy, that the lease is in full force and effect, and that there have been no further amendments to the lease. This Commitment will then be subject to such further requirements as may be deemed necessary.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

- O. Approval from the Company's Underwriting Department must be obtained for issuance of the policy contemplated herein and any endorsements requested thereunder. This Commitment will then be subject to such further requirements as may be required to obtain such approval.
- P. Potential additional requirements, if ALTA Extended coverage is contemplated hereunder, and work on the land has commenced prior to close, some or all of the following requirements, and any other requirements which may be deemed necessary, may need to be met:
- Q. The Company's "Indemnity Agreement I" must be executed by the appropriate parties.
- R. Financial statements from the appropriate parties must be submitted to the Company for review.
- S. A copy of the construction contract must be submitted to the Company for review.
- T. An inspection of the Land must be performed by the Company for verification of the phase of construction.
- U. The Company's "Mechanic's Lien Risk Addendum" form must be completed by a Company employee, based upon information furnished by the appropriate parties involved.

Schedule BI & BII (Cont.)

ALTA Commitment for Title Insurance

ISSUED BY

First American Title Insurance Company

File No: NCS-1099325-SA1

Commitment No.: NCS-1099325-SA1

SCHEDULE B, PART II

Exceptions

THIS COMMITMENT DOES NOT REPUBLISH ANY COVENANT, CONDITION, RESTRICTION, OR LIMITATION CONTAINED IN ANY DOCUMENT REFERRED TO IN THIS COMMITMENT TO THE EXTENT THAT THE SPECIFIC COVENANT, CONDITION, RESTRICTION, OR LIMITATION VIOLATES STATE OR FEDERAL LAW BASED ON RACE, COLOR, RELIGION, SEX, SEXUAL ORIENTATION, GENDER IDENTITY, HANDICAP, FAMILIAL STATUS, OR NATIONAL ORIGIN.

The Policy will not insure against loss or damage resulting from the terms and provisions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

1. Any defect, lien, encumbrance, adverse claim, or other matter that appears for the first time in the Public Records or is created, attaches, or is disclosed between the Commitment Date and the date on which all of the Schedule B, Part I-Requirements are met.
2. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
3. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
4. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
5. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
6. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. 14. An easement for highway and road and incidental purposes, recorded September 28, 1983 as Instrument No. [83-226645](#) of Official Records.

In Favor of: The County of San Bernardino
Affects: as described therein

(Affects Lot 42)

15. The effect of a map purporting to show the land and other property, filed June 1, 1989 in [Book 79, Page 13](#) of Record of Surveys.

(Affects Both Lots)

16. Any defects, liens, encumbrances or other matters which name parties with the same or similar names as Gerald T. Martin. The name search necessary to ascertain the existence of such matters has not been completed. In order to complete this preliminary report or commitment, we will require a statement of information.

17. We find no outstanding voluntary liens of record affecting subject property. An inquiry should be made concerning the existence of any unrecorded lien or other indebtedness which could give rise to any security interest in the subject property.

18. Water rights, claims or title to water, whether or not shown by the Public Records.

19. Rights of parties in possession.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

ALERT - CA Senate Bill 2 imposes an additional fee of \$75 up to \$225 at the time of recording on certain transactions effective January 1, 2018. Please contact your First American Title representative for more information on how this may affect your closing.

1. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Commercial Structure known as 26975 5th Street and 26967 East 5th Street, Highland, CA.

(Affects Both Lots)

2. According to the public records, there has been no conveyance of the land within a period of twenty-four months prior to the date of this report, except as follows:

None

3. This preliminary report/commitment was prepared based upon an application for a policy of title insurance that identified land by street address or assessor's parcel number only. It is the responsibility of the applicant to determine whether the land referred to herein is in fact the land that is to be described in the policy or policies to be issued.

The map attached, if any, may or may not be a survey of the land depicted thereon. First American Title Insurance Company expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of this Commitment or the Policy, if any, to which the map is attached.

ALTA Commitment for Title Insurance

ISSUED BY

First American Title Insurance Company

File No: NCS-1102320-SA1

COMMITMENT FOR TITLE INSURANCE

Issued By

FIRST AMERICAN TITLE INSURANCE COMPANY

NOTICE

IMPORTANT-READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, ***First American Title Insurance Company***, a Nebraska Corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within six months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

First American Title Insurance Company

COMMITMENT CONDITIONS

1. DEFINITIONS

- (a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
- (b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
- (c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
- (d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
- (e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
- (f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
- (g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
- (h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:

- (a) the Notice;
- (b) the Commitment to Issue Policy;
- (c) the Commitment Conditions;
- (d) Schedule A;
- (e) Schedule B, Part I—Requirements; and
- (f) Schedule B, Part II—Exceptions.

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

- (a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
 - (i) comply with the Schedule B, Part I—Requirements;
 - (ii) eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
 - (iii) acquire the Title or create the Mortgage covered by this Commitment.
- (b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
- (c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
- (d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
- (e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
- (f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I—Requirements have been met to the satisfaction of the Company.
- (g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT

- (a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.
- (b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
- (c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
- (d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
- (e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
- (f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION

Arbitration provision intentionally removed.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. - O. Approval from the Company's Underwriting Department must be obtained for issuance of the policy contemplated herein and any endorsements requested thereunder. This Commitment will then be subject to such further requirements as may be required to obtain such approval.
- P. Potential additional requirements, if ALTA Extended coverage is contemplated hereunder, and work on the land has commenced prior to close, some or all of the following requirements, and any other requirements which may be deemed necessary, may need to be met:
- Q. The Company's "Indemnity Agreement I" must be executed by the appropriate parties.
- R. Financial statements from the appropriate parties must be submitted to the Company for review.
- S. A copy of the construction contract must be submitted to the Company for review.
- T. An inspection of the Land must be performed by the Company for verification of the phase of construction.
- U. The Company's "Mechanic's Lien Risk Addendum" form must be completed by a Company employee, based upon information furnished by the appropriate parties involved.

Schedule BI & BII (Cont.)

ALTA Commitment for Title Insurance

ISSUED BY

First American Title Insurance Company

File No: NCS-1102320-SA1

Commitment No.: NCS-1102320-SA1

SCHEDULE B, PART II

Exceptions

THIS COMMITMENT DOES NOT REPUBLISH ANY COVENANT, CONDITION, RESTRICTION, OR LIMITATION CONTAINED IN ANY DOCUMENT REFERRED TO IN THIS COMMITMENT TO THE EXTENT THAT THE SPECIFIC COVENANT, CONDITION, RESTRICTION, OR LIMITATION VIOLATES STATE OR FEDERAL LAW BASED ON RACE, COLOR, RELIGION, SEX, SEXUAL ORIENTATION, GENDER IDENTITY, HANDICAP, FAMILIAL STATUS, OR NATIONAL ORIGIN.

The Policy will not insure against loss or damage resulting from the terms and provisions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

1. Any defect, lien, encumbrance, adverse claim, or other matter that appears for the first time in the Public Records or is created, attaches, or is disclosed between the Commitment Date and the date on which all of the Schedule B, Part I-Requirements are met.
2. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
3. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
4. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
5. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
6. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

First American Title Insurance Company

File No: NCS-1077694-SA1

COMMITMENT FOR TITLE INSURANCE

Issued By

FIRST AMERICAN TITLE INSURANCE COMPANY

NOTICE

IMPORTANT-READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACTIONAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, ***First American Title Insurance Company***, a Nebraska Corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within six months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

First American Title Insurance Company

COMMITMENT CONDITIONS

1. DEFINITIONS

- (a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
- (b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
- (c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
- (d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
- (e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
- (f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
- (g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
- (h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:

- (a) the Notice;
- (b) the Commitment to Issue Policy;
- (c) the Commitment Conditions;
- (d) Schedule A;
- (e) Schedule B, Part I—Requirements; and
- (f) Schedule B, Part II—Exceptions.

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

- (a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
 - (i) comply with the Schedule B, Part I—Requirements;
 - (ii) eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
 - (iii) acquire the Title or create the Mortgage covered by this Commitment.
- (b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
- (c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
- (d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
- (e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
- (f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I—Requirements have been met to the satisfaction of the Company.
- (g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT

- (a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.
- (b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
- (c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
- (d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
- (e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
- (f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION

Arbitration provision intentionally removed.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. Requirements

All of the following Requirements must be met:

- A. The Proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.
- B. Pay the agreed amount for the estate or interest to be insured.
- C. Pay the premiums, fees, and charges for the Policy to the Company.
- D. Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records.
- E. Releases(s) or Reconveyance(s) of Item(s): 17 through 19
- F. Other: None
- G. You must give us the following information:
 - a. Any off record leases, surveys, etc.
 - b. Statement(s) of Identity, all parties.
 - c. Other: None

The following additional requirements, as indicated by "X", must be met:

- H. Provide information regarding any off-record matters, which may include, but are not limited to: leases, recent works of improvement, or commitment statements in effect under the Environmental Responsibility Acceptance Act, Civil Code Section 850, et seq.

The Company's Owner's Affidavit form (as provided by the company) must be completed and submitted prior to close in order to satisfy this requirement. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

- I. An ALTA/NSPS survey of recent date, which complies with the current minimum standard detail requirements for ALTA/NSPS land title surveys, must be submitted to the Company for review. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

- J. The following LLC documentation is required from:
- (i) a copy of the Articles of Organization
 - (ii) a copy of the Operating Agreement, if applicable
 - (iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
 - (iv) express Company Consent to the current transaction
- K. The following partnership documentation is required :
- (i) a copy of the partnership agreement, including all applicable amendments thereto
 - (ii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
 - (iii) express Partnership Consent to the current transaction
- L. The following corporation documentation is required:
- (i) a copy of the Articles of Incorporation
 - (ii) a copy of the Bylaws, including all applicable Amendments thereto
 - (iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
 - (iv) express Corporate Resolution consenting to the current transaction
- M. Based upon the Company's review of that certain partnership/operating agreement dated **Not disclosed** for the proposed insured herein, the following requirements must be met: Any further amendments to said agreement must be submitted to the Company, together with an affidavit from one of the general partners or members stating that it is a true copy, that said partnership or limited liability company is in full force and effect, and that there have been no further amendments to the agreement. This Commitment will then be subject to such further requirements as may be deemed necessary.
- N. A copy of the complete lease, as referenced in Schedule A, #3 herein, together with any amendments and/or assignments thereto, must be submitted to the Company for review, along with an affidavit executed by the present lessee stating that it is a true copy, that the lease is in full force and effect, and that there have been no further amendments to the lease. This Commitment will then be subject to such further requirements as may be deemed necessary.
- O. Approval from the Company's Underwriting Department must be obtained for issuance of the policy contemplated herein and any endorsements requested thereunder. This Commitment will then be subject to such further requirements as may be required to obtain such approval.
- P. Potential additional requirements, if ALTA Extended coverage is contemplated hereunder, and work on the land has commenced prior to close, some or all of the following requirements, and any other requirements which may be deemed necessary, may need to be met:
- Q. The Company's "Indemnity Agreement I" must be executed by the appropriate parties.

Schedule BI & BII (Cont.)

ALTA Commitment for Title Insurance

ISSUED BY

First American Title Insurance Company

File No: NCS-1077694-SA1

Commitment No.: NCS-1077694-SA1

SCHEDULE B, PART II

Exceptions

THIS COMMITMENT DOES NOT REPUBLISH ANY COVENANT, CONDITION, RESTRICTION, OR LIMITATION CONTAINED IN ANY DOCUMENT REFERRED TO IN THIS COMMITMENT TO THE EXTENT THAT THE SPECIFIC COVENANT, CONDITION, RESTRICTION, OR LIMITATION VIOLATES STATE OR FEDERAL LAW BASED ON RACE, COLOR, RELIGION, SEX, SEXUAL ORIENTATION, GENDER IDENTITY, HANDICAP, FAMILIAL STATUS, OR NATIONAL ORIGIN.

The Policy will not insure against loss or damage resulting from the terms and provisions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

1. Any defect, lien, encumbrance, adverse claim, or other matter that appears for the first time in the Public Records or is created, attaches, or is disclosed between the Commitment Date and the date on which all of the Schedule B, Part I-Requirements are met.
2. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
3. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
4. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
5. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
6. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
7. General and special taxes and assessments for the fiscal year 2021-2022, a lien not yet due or payable.
8. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. 9. An easement for telephone line sand cables and incidental purposes, recorded June 19, 1945 as [Book 1795, Page 72](#) of Official Records.
- In Favor of: Southern California Edison Company, a corporation
Affects: as described therein
10. An easement for Water right and incidental purposes, recorded April 15, 1964 as [Book 6129, Page 63](#) and recorded April 17, 1964, in [Book 6130, Page 889](#) of Official Records.
- In Favor of: San Bernardino County Water District
Affects: as described therein
11. An easement for Highway and road purposes and incidental purposes, recorded July 20, 1981 as Instrument No. [1981-159333](#) of Official Records.
- In Favor of: County of San Bernardino
Affects: as described therein
12. Covenants, conditions, restrictions and easements in the document recorded April 26, 1985 as Instrument No. [1985-98324](#) of Official Records, which provide that a violation thereof shall not defeat or render invalid the lien of any first mortgage or deed of trust made in good faith and for value, but deleting any covenant, condition, or restriction, if any, indicating a preference, limitation, or discrimination based on race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, familial status, marital status, disability, handicap, veteran or military status, genetic information, national origin, source of income as defined in subdivision (p) of Section 12955, or ancestry, to the extent that such covenants, conditions or restrictions violate applicable state or federal laws. Lawful restrictions under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status.
13. The terms and provisions contained in the document entitled "Resolution No. 85-352" recorded August 01, 1985 as Instrument No. [1985-186001](#) of Official Records.
14. The terms and provisions contained in the document entitled "Resolution No. 94-99" recorded July 20, 1994 as Instrument No. [1994-310745](#) of Official Records.
15. An easement for Public utilities and incidental purposes, recorded August 13, 1999 as Instrument No. [1999-345315](#) of Official Records.
- In Favor of: Southern California Edison Company, a corporation
Affects: as described therein
16. The fact that the land lies within the boundaries of the Highland Redevelopment Project Area No. 1, as disclosed by the document recorded December 19, 2007 as Instrument No. [2007-704476](#) of Official Records.
17. Lien for Delinquent Water and Sewer Charges in favor of East Valley Water District
Against: Diana Kay Faulkner
Amount: \$169.33, and any other amounts due thereunder
Recorded: January 10, 2020 as Instrument No. [2020-11822](#) of Official Records.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. ALERT - CA Senate Bill 2 imposes an additional fee of \$75 up to \$225 at the time of recording on certain transactions effective January 1, 2018. Please contact your First American Title representative for more information on how this may affect your closing.

1. Taxes for proration purposes only for the fiscal year 2020-2021.

First Installment: \$475.17, PAID
Second Installment: \$475.17, PAID
Tax Rate Area: 018042
APN: 1192-641-08-0-000

2. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Commercial Structure known as 27107 East 5th Street, Highland, CA.
3. According to the public records, there has been no conveyance of the land within a period of twenty four months prior to the date of this report, except as follows:

A document recorded December 22, 2020 as Instrument No. 2020-523526 of Official Records.
From: Diana Kay Faulkner
To: Steve Schmidt and Trish Schmidt, husband and wife as joint tenants

4. This preliminary report/commitment was prepared based upon an application for a policy of title insurance that identified land by street address or assessor's parcel number only. It is the responsibility of the applicant to determine whether the land referred to herein is in fact the land that is to be described in the policy or policies to be issued.

The map attached, if any, may or may not be a survey of the land depicted thereon. First American Title Insurance Company expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of this Commitment or the Policy, if any, to which the map is attached.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. ALTA Commitment for Title Insurance

ISSUED BY

First American Title Insurance Company

File No: NCS-1102320-SA1

COMMITMENT FOR TITLE INSURANCE

Issued By

FIRST AMERICAN TITLE INSURANCE COMPANY

NOTICE

IMPORTANT-READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, ***First American Title Insurance Company***, a Nebraska Corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within six months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

First American Title Insurance Company

COMMITMENT CONDITIONS

1. DEFINITIONS

- (a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
- (b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
- (c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
- (d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
- (e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
- (f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
- (g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
- (h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:

- (a) the Notice;
- (b) the Commitment to Issue Policy;
- (c) the Commitment Conditions;
- (d) Schedule A;
- (e) Schedule B, Part I—Requirements; and
- (f) Schedule B, Part II—Exceptions.

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

- (a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
 - (i) comply with the Schedule B, Part I—Requirements;
 - (ii) eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
 - (iii) acquire the Title or create the Mortgage covered by this Commitment.
- (b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
- (c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
- (d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
- (e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
- (f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I—Requirements have been met to the satisfaction of the Company.
- (g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT

- (a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.
- (b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
- (c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
- (d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
- (e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
- (f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION

Arbitration provision intentionally removed.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

The Company's Owner's Affidavit form (as provided by the company) must be completed and submitted prior to close in order to satisfy this requirement. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

- I. An ALTA/NSPS survey of recent date, which complies with the current minimum standard detail requirements for ALTA/NSPS land title surveys, must be submitted to the Company for review. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

- J. The following LLC documentation is required from:
 - (i) a copy of the Articles of Organization
 - (ii) a copy of the Operating Agreement, if applicable
 - (iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
 - (iv) express Company Consent to the current transaction

- K. The following partnership documentation is required :
 - (i) a copy of the partnership agreement, including all applicable amendments thereto
 - (ii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
 - (iii) express Partnership Consent to the current transaction

- L. The following corporation documentation is required:
 - (i) a copy of the Articles of Incorporation
 - (ii) a copy of the Bylaws, including all applicable Amendments thereto
 - (iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
 - (iv) express Corporate Resolution consenting to the current transaction

- M. Based upon the Company's review of that certain partnership/operating agreement dated **Not disclosed** for the proposed insured herein, the following requirements must be met: Any further amendments to said agreement must be submitted to the Company, together with an affidavit from one of the general partners or members stating that it is a true copy, that said partnership or limited liability company is in full force and effect, and that there have been no further amendments to the agreement. This Commitment will then be subject to such further requirements as may be deemed necessary.

- N. A copy of the complete lease, as referenced in Schedule A, #3 herein, together with any amendments and/or assignments thereto, must be submitted to the Company for review, along with an affidavit executed by the present lessee stating that it is a true copy, that the lease is in full force and effect, and that there have been no further amendments to the lease. This Commitment will then be subject to such further requirements as may be deemed necessary.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

- O. Approval from the Company's Underwriting Department must be obtained for issuance of the policy contemplated herein and any endorsements requested thereunder. This Commitment will then be subject to such further requirements as may be required to obtain such approval.
- P. Potential additional requirements, if ALTA Extended coverage is contemplated hereunder, and work on the land has commenced prior to close, some or all of the following requirements, and any other requirements which may be deemed necessary, may need to be met:
- Q. The Company's "Indemnity Agreement I" must be executed by the appropriate parties.
- R. Financial statements from the appropriate parties must be submitted to the Company for review.
- S. A copy of the construction contract must be submitted to the Company for review.
- T. An inspection of the Land must be performed by the Company for verification of the phase of construction.
- U. The Company's "Mechanic's Lien Risk Addendum" form must be completed by a Company employee, based upon information furnished by the appropriate parties involved.

Schedule BI & BII (Cont.)

ALTA Commitment for Title Insurance

ISSUED BY

First American Title Insurance Company

File No: NCS-1102320-SA1

Commitment No.: NCS-1102320-SA1

SCHEDULE B, PART II

Exceptions

THIS COMMITMENT DOES NOT REPUBLISH ANY COVENANT, CONDITION, RESTRICTION, OR LIMITATION CONTAINED IN ANY DOCUMENT REFERRED TO IN THIS COMMITMENT TO THE EXTENT THAT THE SPECIFIC COVENANT, CONDITION, RESTRICTION, OR LIMITATION VIOLATES STATE OR FEDERAL LAW BASED ON RACE, COLOR, RELIGION, SEX, SEXUAL ORIENTATION, GENDER IDENTITY, HANDICAP, FAMILIAL STATUS, OR NATIONAL ORIGIN.

The Policy will not insure against loss or damage resulting from the terms and provisions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

1. Any defect, lien, encumbrance, adverse claim, or other matter that appears for the first time in the Public Records or is created, attaches, or is disclosed between the Commitment Date and the date on which all of the Schedule B, Part I-Requirements are met.
2. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
3. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
4. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
5. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
6. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. ALTA Commitment for Title Insurance

ISSUED BY

First American Title Insurance Company

File No: NCS-1077694-SA1

COMMITMENT FOR TITLE INSURANCE

Issued By

FIRST AMERICAN TITLE INSURANCE COMPANY

NOTICE

IMPORTANT-READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, ***First American Title Insurance Company***, a Nebraska Corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within six months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

First American Title Insurance Company

COMMITMENT CONDITIONS

1. DEFINITIONS

- (a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
- (b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
- (c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
- (d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
- (e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
- (f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
- (g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
- (h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:

- (a) the Notice;
- (b) the Commitment to Issue Policy;
- (c) the Commitment Conditions;
- (d) Schedule A;
- (e) Schedule B, Part I—Requirements; and
- (f) Schedule B, Part II—Exceptions.

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

- (a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
 - (i) comply with the Schedule B, Part I—Requirements;
 - (ii) eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
 - (iii) acquire the Title or create the Mortgage covered by this Commitment.
- (b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
- (c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
- (d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
- (e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
- (f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I—Requirements have been met to the satisfaction of the Company.
- (g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT

- (a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.
- (b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
- (c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
- (d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
- (e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
- (f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION

Arbitration provision intentionally removed.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.
