**Project Description:** *(please use a separate page if necessary)*

The Ventura Yacht Club Dock Replacement Project would demolish and replace the existing main walkway of docks B and D, and their associated fingers, slips, and pilings with new docks and associated features that are compliant with the intent of the Guidelines for Marina Berthing Facilities published by the California Department of Boating and Waterways. The proposed dock replacement Project would be outfitted with upgraded electrical and potable utility lines, and a Class II fire suppression system would be installed within the Ventura Yacht Club property and along the new docks. In addition, the Project would include a new abutment gangway that would be ADA-compliant.

*Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.*
