[X] Other: Energy

Present Land Use/Zoning/General Plan Designation: The project site is currently vacant and covered with grasses and weedy vegetation. Sand Creek flows west to east through the northern portion of the project site. The site is designated Regional Commercial (RC), Residential-Low Density (R-LD), Permanent Open Space (P-OS), and Park (P), according to the City's General Plan, and is zoned Planned Development No. 36 (PD-36).

Project Description: The proposed project would require approval of a Vesting Tentative Subdivision Map to develop 286 single-family residences, as well as associated improvements within the project site, including parks, open space, stormwater detention and treatment areas, utility connections, and construction of an internal roadway network on approximately 92.96 acres. The 33.9 acres of land located north of the future Sand Creek Road extension would remain undeveloped. The proposed project would be subject to Design Review approval by the City of Brentwood Planning Commission, and would require a Rezone to amend the PD-36 zoning district.
