Project Title: Racine Reinforcement of Failing Retaining Wall (Lakebed Alteration Agreement EPIMS Notification No. LAK-35071-R2)

Project Location: The project is located at Clear Lake, in the County of Lake, State of California; 39.023113°, -122.880341°, WGS 84 datum; 2500 Reeves Lane, Lakeport, CA, 95453; Assessor's Parcel Number 044-551-010-000.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement EPIMS Notification Number LAK-35071 -R2, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Tara Racine.

The project is limited to the reinforcement of an approximately 410-foot-long sheet pile seawall. The seawall reinforcement will be constructed from engineered stacking concrete blocks reinforced with fiberglass rebar and concrete, placed on a foundation comprised of a beam, set on top of concrete footings. Approximately 55, 8-inch by 24-inch footings will be placed along the 410 feet of lakeshore. An approximate 12-inch by 12-inch reinforced concrete beam will be poured on top of the footings. The area around the beam may, in some cases, be excavated so that top of beam is at ground level. The height of the seawall reinforcement will be a minimum of 11.5 ft Rumsey. Wall heights will vary from approximately 4 to 11.5 feet following existing topography.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

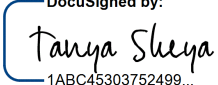

Person or Public Agency Carrying out Project: Tara Racine

Exempt Status:

- Categorical Exemption. Type – Class 1 and 4; California Code of Regulations, title 14, sections (15301 and 15304)

Reasons why project is exempt: Class 1 because the repair and maintenance involves negligible or no expansion of existing or former use. Class 4 because the project is a minor alteration to Clear Lake and does not involve the removal of healthy, mature, or scenic trees.
