NOTICE OF INTENT TO ADOPT MITIGATED NEGATIVE DECLARATION  
AND NOTICE OF PUBLIC MEETING

Notice is hereby given that the Lockeford Community Services District (LCSD) has prepared an Initial Study (IS) of environmental effects and intends to adopt a Mitigated Negative Declaration (MND) and Mitigation Monitoring/Reporting Plan (MMRP) for its proposed Wastewater Facilities Master Plan project. The Lockeford Community Services District is the Lead Agency for this project under the California Environmental Quality Act (CEQA).

The proposed Master Plan addresses a range of planned improvements to the CSD's wastewater collection, treatment, and disposal systems that will be needed to serve anticipated new development within the CSD's existing service area and Sphere of Influence. The Master Plan would also provide for beneficial reuse of treated effluent to recharge the underlying groundwater basin through recharge ponds.

The IS/MND analyzes the potential environmental effects of the project in accordance with CEQA and the State CEQA Guidelines. The IS/MND finds that the project will not involve any significant environmental effects, provided that the mitigation measures described in the IS/MND are implemented. The LCSD has agreed to the mitigation measures, and these measures are included in the MMRP to be adopted by the LCSD Board of Directors in conjunction with the IS/MND and approval of the Master Plan. There are no sites identified under Section 65962.5 of the Government Code located on or near the project site.

Copies of the IS/MND are available for public review at the LCSD offices at the address shown below and at the LCSD website:

<https://lockefordcsd.specialdistrict.org/>

The Lockeford CSD will accept public and agency comments on the IS/MND during a 30-day review period that will begin on January 3, 2023 and end on February 1, 2023. Comments may be submitted by mail or e-mail to:
