Project Description (Proposed actions, location, and/or consequences).

A Site Approval application for the filling-in and grading of a reclaimed and closed rock quarry in two phases over five years for future agriculture use. Total fill quantity at the conclusion of the project will be approximately 5,538,000 cubic yards of fill dirt. Estimated daily truck trips for the project is 50 to 100 depending on availability of fill material. Fill material will consist of clean, imported material meeting the requirements of the State of California Department of Toxic Substances Control and complying with the California Environmental Screening Levels for excavated materials.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

SJCOG responded to this project referral that the project is subject to the SJMSCP. The applicant has confirmed that he will participate in SJMSCP. With the applicant's participation, the proposed project is consistent with the SJMSCP and any impacts to biological resources resulting from the proposed project will be reduced to a level of less-than-significant.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
