Present Land Use/Zoning/General Plan Designation:

Commercial Retail, Medium Density Residential, Medium High Density Residential, Very High Density Residential

Project Description: (please use a separate page if necessary)

The Project would include the conversion of about 750 existing septic customers to sewer by installing about 40,000 linear feet of sewer main and lateral pipelines within roadways. The laterals would connect to existing sewer mains in Mission Trail, Malaga Road, or Lemon Street. If further analysis determines that the existing 21-inch diameter sewer main in Mission Trail requires capacity increases, a new 48-inch diameter sewer line would be installed in Mission Trail over a length of 3,200 linear feet. The Project is anticipated to generate 130,000 gallons per day of wastewater, which would be transported to the EVMWD Regional Water Reclamation Facility. Existing septic tanks serving the residents would be abandoned per Riverside County Health Department requirements.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
