Project Location: The proposed project site is located within the City of Dinuba. The project would affect approximately 5 acres within City ROW and temporary construction easement areas along Kamm Avenue and Alta Avenue.

Project Description: The purpose and need of the project is to improve safety, congestion and air quality by implementing congestion reduction and traffic flow improvements consistent with the CMAQ (Congestion Mitigation and Air Quality Improvement) program. The project includes the conversion of a four-way signalized intersection into a two-lane roundabout, installation of pedestrian/cyclist facilities (sidewalks, crosswalks, bicycle ramps, and related improvements (signage/stripping, etc.)). The project also includes ROW acquisitions to accommodate intersection widening associated with the installation of the roundabout.

Determination of Impacts: The project is not anticipated to have any long-term negative environmental impacts. Short-term construction related potential impacts will be mitigated to a less than significant level by use of proper construction methods and timing.
