Project Description (Proposed actions, location, and/or consequences).

The project includes the conversion of a four-way signalized intersection into a two-lane roundabout, installation of pedestrian/cyclist facilities (sidewalks, crosswalks, bicycle ramps, and related improvements (signage/stripping, etc.). The project also includes ROW acquisitions to accommodate intersection widening associated with the installation of the roundabout.  
Equipment staging will be provided within the temporary construction easement areas. No specific disposal or borrow sites have been identified. These facilities will be established in accordance with the Standard Specifications.  
Construction activities will include demo of existing asphalt, sidewalk, and curb within project limits, placement of aggregate base and pavement, piping existing irrigation ditch underground, extension of sewer and stormwater lines through intersection, and street light installation. Roadway detours and/or lane closures may be used to control traffic during construction.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Cultural Resources/Tribal Cultural Resources: Mitigation Measures CUL-1 & CUL-2 (cultural resources, human remains)  
Hydrology/Water Quality: Mitigation Measure HYD-1 (stormwater management during construction)
