

NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION January 20, 2023

CITY OF CALISTOGA

Dunaweal Pump Station Replacement Project

In accordance with the California Environmental Quality Act (CEQA), the City of Calistoga has prepared an Initial Study/CEQA Checklist for the above referenced project. The City of Calistoga has determined that the proposed project as amended by the included mitigation measures will not have a significant adverse effect on the environment. The City of Calistoga intends to adopt the Mitigated Negative Declaration for the project.

Project Title: Dunaweal Pump Station Replacement Project

Project Location: Silverado Trail at Rutherford Hill Road and within the boundaries of City of Calistoga wastewater treatment plant

Project Description: The City is proposing the Dunaweal Pump Station Replacement project. The Project will demolish and replace the existing Dunaweal Pump Station located near Dunaweal Lane and construct an additional new pump station southeast of St. Helena called the Rutherford Hill Road Pump Station (Rutherford Pump Station). This pump station would replace the existing Pope Street Pump Station. The project will also involve the replacement of an existing valve with an automated valve near the primary metering location south of Silverado Trail.

Applicant: City of Calistoga, Public Works Department, 414 Washington Street, Calistoga, CA 94515

Lead Agency Contact Person: Hamid Heidary, P.E., Senior Civil Engineer, City of Calistoga, Public Works Department, (707) 942-2828

Address where the Initial Study/Mitigated Negative Declaration and reference materials may be viewed: <https://www.ci.calistoga.ca.us/city-hall/departments-services/public-works-department/capital-projects/ceqa-california-environmental-quality-act>

Public Review Period: Written comments on the proposed Mitigated Negative Declaration must be received between January 20, 2023 and February 20, 2023. Please submit comments to Hamid Heidary, P.E., Senior Civil Engineer, City of Calistoga, Public Works Department, 414 Washington Street, Calistoga, CA 94515; or hheidary@ci.calistoga.ca.us.

Mitigation Measures: The potential adverse impacts have been found to be mitigated to less than significant, as discussed under the following topical areas in the Initial Study:

Aesthetics

Agriculture and Forestry
Resources

Air Quality

Biological Resources

Cultural Resources

Energy
