Present Land Use/Zoning/General Plan Designation:

Project Description: (please use a separate page if necessary)

The WWSP is the primary land use, policy, and regulatory document used to guide the overall development of the 201-acre site. The WWSP establishes a development framework for land use, circulation, utilities and services, resource protection, and implementation. All subsequent development projects and related activities are required to be consistent with the WWSP.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
