State of California - Department of Fish and Wildlife
2023 ENVIRONMENTAL DOCUMENT FILING FEE
CASH RECEIPT
 DFW 753.5a (REV. 01/01/23) Previously DFG 753.5a

NOTICE

Each project applicant shall remit to the county clerk the environmental filing fee before or at the time of filing a Notice of Determination (Pub. Resources Code, § 21152; Fish & G. Code, § 711.4, subdivision (d); Cal. Code Regs., tit. 14, § 753.5). Without the appropriate fee, statutory or categorical exemption, or a valid No Effect Determination issued by the California Department of Fish and Wildlife (CDFW), the Notice of Determination is not operative, vested, or final, and shall not be accepted by the county clerk.

COUNTY DOCUMENTARY HANDLING FEE

The county clerk may charge a documentary handling fee of fifty dollars (\$50) per filing in addition to the environmental filing fee (Fish & G. Code, § 711.4, subd. (e); Cal. Code Regs., tit. 14, § 753.5, subd. (g)(1)). A county board of supervisors shall have the authority to increase or decrease the fee or charge, that is otherwise authorized to be levied by another provision of law, in the amount reasonably necessary to recover the cost of providing any product or service or the cost of enforcing any regulation for which the fee or charge is levied (Gov. Code, § 54985, subd. (a)).

COLLECTION PROCEDURES FOR COUNTY GOVERNMENTS

Filing Notice of Determination (NOD):

- Collect environmental filing fee or copy of previously issued cash receipt. *(Do not collect fee if project applicant presents a No Effect Determination signed by CDFW. An additional fee is required for each separate environmental document. An addendum is not considered a separate environmental document. Checks should be made payable to the county.)*
- Issue cash receipt to project applicant.
- Attach copy of cash receipt and, if applicable, previously issued cash receipt, to NOD.
- Mail filing fees for CRP document to CDFW prior to filing the NOD or equivalent final approval (Cal. Code Regs. Tit. 14, § 753.5 (b)(5)). The CRP should request receipt from CDFW to show proof of payment for filing the NOD or equivalent approval. Please mail payment to address below made attention to the Cash Receipts Unit of the Accounting Services Branch.

If the project applicant presents a **No Effect Determination** signed by CDFW, also:

- Attach No Effect Determination to NOD *(no environmental filing fee is due)*.

Filing Notice of Exemption (NOE) *(Statutorily or categorically exempt project (Cal. Code Regs., tit. 14, §§ 15260-15285, 15300-15333))*

- Issue cash receipt to project applicant.
- Attach copy of cash receipt to NOE *(no environmental filing fee is due)*.

Within 30 days after the end of each month in which the environmental filing fees are collected, each county shall summarize and record the amount collected on the monthly State of California Form No. CA25 (TC31) and remit the amount collected to the State Treasurer. Identify the remittance on Form No. CA25 as "Environmental Document Filing Fees" per Fish and Game Code section 711.4.

The county clerk shall mail the following documents to CDFW on a monthly basis:

- ✓ A photocopy of the monthly State of California Form No. CA25 (TC31)
- ✓ CDFW/ASB copies of all cash receipts (including all voided receipts)
- ✓ A copy of all CDFW No Effect Determinations filed in lieu of fee payment
- ✓ A copy of all NODs filed with the county during the preceding month
- ✓ A list of the name, address and telephone number of all project applicants for which an NOD has been filed. If this information is contained on the cash receipt filed with CDFW under California Code of Regulations, title 14, section 753.5, subdivision (e)(6), no additional information is required.

DOCUMENT RETENTION

The county shall retain two copies of the cash receipt (for lead agency and county clerk) and a copy of all documents described above for at least 12 months.

RECEIPT NUMBER

- # The first two digits automatically populate by making the appropriate selection in the County/State Agency of Filing drop down menu.
- # The next eight digits automatically populate when a date is entered.
- # The last three digits correspond with the sequential order of issuance for each calendar year. For example, the first receipt number issued on January 1 should end in 001. If a county issued 252 receipts for the year ending on December 31, the last receipt number should end in 252. CDFW recommends that counties and state agencies 1) save a local copy of this form, and 2) track receipt numbers on a spreadsheet tabbed by month to ensure accuracy.

DO NOT COMBINE THE ENVIRONMENTAL FEES WITH THE STATE SHARE OF FISH AND WILDLIFE FEES.

Mail to:

California Department of Fish and Wildlife
 Accounting Services Branch
 P.O. Box 944209
 Sacramento, California 94244-2090

Project Title

Mariposa Creek Parkway Phase III and Trailhead Project

Project Location

The Project is located in within the unincorporated community of Mariposa in Mariposa County, California, approximately 110 miles southeast of Sacramento and 150 miles northwest of Bakersfield. The centroid of the Project site is 37° 29' 14.40" N, 119° 58' 11.91" W.

General Plan Land Use and Zoning Designation

The Project is located within Mariposa County. The General Plan Land Use Designation is: Planning Area, Mariposa – Town Planning Area Specific Plan. **Table 1** below describes the Project APNs, their zoning designation, and the owner and ownership type.

Table 1: Description of Project Parcels

Description of Project

Project Description

Mariposa County proposes to carry out Phase III of the Mariposa Creek Parkway Master Plan. The Project includes the development of a multi-use (bicycle and pedestrian) creek parkway trail and secondary (pedestrian only) trails and associated improvements that will interconnect existing segments of the Mariposa Creek Parkway with 8th Street, State Route (SR) 140/49 and the Joe Howard Bridge. Locally, it will extend the existing trail from the Mariposa County Arts Park to local businesses and a future transit center. Regionally, it will become part of several bicycle routes extending into the national forests and Yosemite National Park.

The Project will implement critical components of the Mariposa Creek Parkway Master Plan, 11th Street Paseo Graphic Enhancement Project, and the Trailhead Project. Specifically, it will construct Phase III of the

Mariposa Creek Parkway, an approximately 0.5-mile-long parkway segment between 8th Street and Joe Howard Street; the 11th Street Paseo, an approximately 100-foot-long strategic active transportation linkage between SR 140/49 and Jessie Street; new pedestrian and bicycle facilities along Jessie Street to connect the aforementioned mobility resources and establish a safe bicycle and pedestrian network in this area of Mariposa; and the trailhead area and its associated amenities near Jessie Street and 8th Street.

Easements

The Project could require public access easements at the upstream end of the parkway near the Joe Howard Street bridge. The intent is to acquire public access easements from associated property owners over the parcels that are coincident with the existing dirt access road and MPUD sewer easement. If these rights of way are not acquired, the Project would not progress beyond the upstream limit of the county-owned right of way, and a new creek crossing and connection to Joe Howard Street would occur at this location. All project impacts associated with these scenarios have been evaluated in this document.

Zone Amendment

The Project would also require a zone amendment for the Project parcels that are currently not zoned Public Quasi-Public.

Construction Schedule

Construction of the Phase III parkway elements is anticipated to generally occur between June 2025 and September 2026. The time frame for the trailhead and destination park elements is unknown at this time. Generally, work along the creek and within riparian areas will be limited to late spring to early fall with considerations for critical periods of sensitive species. The work along Jesse Street and connections to SR 140/49 and local streets has less restrictions and will generally occur outside of the colder fall and winter months.

Operation and Maintenance

Operation and Maintenance (O&M) of the Project would be handled by the Mariposa County Public Works Department, Road and/or Parks and Recreation Divisions. O&M would include the following:

- Mowing – Mowing each side of trail where applicable.
- Pruning - Prune woody limbs and shrubs near sides of trail.
- Removal of Trees/Limbs - Evaluation/removal of unhealthy or dead trees and limbs. Fallen trees may remain as access control and to minimize disturbance.
- Signage - Maintain directional and informational signs.
- Trail Surface – Restore, regrade, clean and/or resurface when necessary.
- Drainage Structures - Clean inlets, keep swales clear of debris.
- Litter Pick Up - Trailside-litter pickup. Access area litter pickup. Encourage continued user "carry-in, carry-out" policy.
- Trash Collection - Removal of trash from receptacles at access areas.
- Bridge and structure Inspection - Maintenance of bridge, overlook and trailhead structures to ensure structural integrity and public safety.
- Lighting – maintain functional safety lighting (replace luminaires, repair outages)
- Restriping and Bollard Repairs – as necessary when pavement markings have faded or bollards are damaged.

Table 5-1: Mitigation, Monitoring, and Reporting Program

Mitigation, Monitoring, and Reporting Program						
Item	Mitigation Measure	When Monitoring is to Occur	Frequency of Monitoring	Agency Responsible for Monitoring	Method to Verify Compliance	Verification of Compliance
AES-1	All outdoor lighting shall adhere to International Dark Sky Association standards, including the requirement that all outdoor lighting shall be hooded or screened as to direct the source of light downward and focus onto the property from which it originates and shall not negatively impact adjacent properties or directly reflect upon any adjacent properties.	Aesthetics During construction activities	Once, near project completion	Mariposa County Public Works		
Biological Resources						
BIO-1A	(Pre-construction Survey): A pre-construction survey for western pond turtles will be conducted no more than 24 hours prior to the start of work in Mariposa Creek and the adjoining mixed riparian woodland habitat.	Prior to the start of construction activities	Once, prior to the start of construction	Mariposa County Public Works		
BIO-1B	(Relocation): A qualified biologist will capture and relocate any turtles found within areas planned for direct impact. Turtles will be relocated to suitable alternative habitat within the Mariposa Creek corridor, outside of project boundaries.	During construction activities, if western pond turtles are identified	Daily during construction activities	Mariposa County Public Works		
BIO-1C	(Avoidance): If any turtles are observed on site while work is occurring, work in the immediate area will cease and turtles will be allowed to leave the construction zone of their own volition, if feasible. If necessary, a qualified biologist will capture and relocate such turtles as described above under Mitigation Measure BIO-2B .	During construction activities, if western pond turtles are identified	Daily during construction activities	Mariposa County Public Works		
BIO-2A	(Avoidance): To avoid impacts to nesting birds and raptors, construction will occur, where possible, outside the February 1-August 31 nesting season.	Prior to the start of construction activities	Once, prior to the start of construction	Mariposa County Public Works		
BIO-2B	(Pre-construction Survey): If construction must occur during the February 1-August 31 nesting season, a qualified biologist will conduct pre-construction surveys for active bird and raptor nests within 10 days of the onset of these activities. Nest surveys will encompass the work area and	10 days prior to construction if construction activities that fall between February 1 to August 31	One time survey, 10 days prior to construction	Mariposa County Public Works

Mitigation, Monitoring, and Reporting Program						
Item	Mitigation Measure	When Monitoring is to Occur	Frequency of Monitoring	Agency Responsible for Monitoring	Method to Verify Compliance	Verification of Compliance
CUL-1	(Archaeological Remains): Should archaeological remains or artifacts be unearthed during any stage of project activities, work in the area of discovery shall cease until the area is evaluated by a qualified archaeologist. If mitigation is warranted, the project proponent shall abide by recommendations of the archaeologist.	During construction activities upon discovery of archaeological remains in the work areas.	Daily, upon discovery of archaeological remains in the work areas	Mariposa County Public Works		
CUL-2	(Human Remains): In the event human remains, artifacts, or potentially significant cultural resources are discovered during ground disturbance on the project site, a Native American monitor shall be on-site for the duration of ground disturbance. During any construction activity that involves ground disturbance, if any signs of prehistoric, historic, archaeological, paleontological resources are evident, all work activity within fifty feet of the find shall stop and the Mariposa County Planning Department shall be notified immediately. No work shall be done within fifty feet of the find until Planning has identified appropriate measures to protect the find and those measures have been implemented by the project proponent. Protection measures for the site may include, but not be limited to, requiring the project proponent to hire a qualified archaeologist who shall conduct necessary inspections and research, and who may supervise all further ground disturbance activities and make any such recommendations as necessary to ensure compliance with applicable regulations. In addition to the Planning Department, the Mariposa County Coroner and the Native American Heritage Commission shall be notified should human remains be discovered. If the remains are determined by the Native American Heritage Commission to be Native American, the NAHC guidelines shall be adhered to in treatment and disposition of the remains. Representatives of the Most Likely Descendant shall	During construction activities upon discovery of human remains in the work areas.	Daily, upon discovery of human remains in the work areas.
