**Project Description:** The purpose of the project is to implement the MCOSD Road and Trail Management Plan (RTMP) to provide the public with a safe multi-use trail system to enhance the visitor experience, reduce the environmental impacts on sensitive resources by reducing sedimentation and erosion, and establish a sustainable system of roads and trails that meet design and management standards and would provide year-round access along the trail alignment. The project includes ecological and hydrologic restoration, trail improvements, parking and entryway improvements, social trail decommissioning, and visitor education.

The Initial Study/Mitigated Negative Declaration (IS/MND) identified potentially significant environmental impacts in the areas of Biological Resources and Transportation. Mitigation measures to reduce the significance of these impacts to a less-than-significant level are included in the IS/MND. A Mitigation Monitoring and Reporting Plan was adopted by the Marin County Open Space District Board of Directors with adoption of the IS/MND.
