Project Description:

Goodman (the Applicant) proposes to construct the proposed project on an approximately 18.6-acre site located at 5757 Plaza Drive in the City of Cypress. The proposed project includes demolition of the existing building on the project site and the construction of two new warehouse buildings totaling approximately 390,268 square feet in size. The project site is currently developed with an approximately 336,643-square-foot two-story warehouse and office building. The existing building would be demolished and replaced with two new warehouse buildings: Building 1, which would be located on the eastern half of the project site and would be approximately 204,909 square feet in size, and Building 2, which would be located on the western half of the site and approximately 185,359 square feet in size. Both warehouses would include 10,000 square feet of office space that would be evenly split between the first and second floors. Both buildings would be two stories and a maximum of approximately 47 feet, 6 inches in height. Each building would include 25 loading docks that would face the interior of the project site. The proposed project would also include the installation of a sidewalk along the Plaza Drive frontage.
