Project Title: 139 Susanville Paving

Project Applicant: California Department of Transportation

Project Location - Specific:  
Lassen County State Route 139 Postmile (PM) 0.74 to 11.0

Project Location - City: Susanville Project Location - County: Lassen

Description of Nature, Purpose and Beneficiaries of Project:  
Caltrans proposes a state and federally funded Capital Preventative maintenance project on SR 139 in Lassen county from PM 0.74 to PM 11.0. The project will overlay from edge of pavement to edge of pavement with a 0.20-ft of hot mix asphalt. The project is needed because throughout the project limits there is extensive pavement and cracking and by 2024 the pavement will be in fair to poor condition. Routine maintenance will no longer be sufficient to maintain reasonable ride quality. The purpose is to restore the facility to a state of good repair so that the roadway will be in a condition requiring minimal maintenance that includes complete streets measures.
