RE: State Clearinghouse (SCH) No. 2023020710

To whom it concerns,

It has been brought to our attention that the Air Quality, Greenhouse Gas, and Health Risk Assessment Technical Study (Appendix A) that was submitted for the LBA Redlands Warehouse project ([SCH No. 2023020710](#)) was a previous draft version and must be updated.

We need to remove the report dated May 2022 and replace that upload with the January 2023 version of the Air Quality, Greenhouse Gas, and Health Risk Assessment Technical Study report for public viewing.

If you have any questions, please do not hesitate to contact the lead agency, the City of Redlands Planning Division, at (909) 798 – 7562 or email 'bfoote@cityofredlands.org'.

Sincerely,

Brian Foote, AICP
City Planner/Planning Manager
