(Address)

Project Title: Repeal of Portable Luminaires Regulations

Project Applicant: California Energy Commisison

Project Location - Specific:

Statewide

Project Location - City: _____ Project Location - County: _____

Description of Nature, Purpose and Beneficiaries of Project:

The CEC is proposing to remove portable luminaires as a regulated appliance type from the Title 20 Appliance Efficiency Regulations because the standards for portable luminaires have become redundant and unnecessary.

Name of Public Agency Approving Project: California Energy Commission

Name of Person or Agency Carrying Out Project: California Energy Commission

Exempt Status: **(check one):**

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Categorical Exemption. State type and section number: _____
- Statutory Exemptions. State code number: _____
- Other: CEQA Guidelines, 15061, subd. (b)(3): "Common sense" exemption

Reasons why project is exempt:

The original energy saving goals of the portable luminaires rulemaking are now accomplished through the state-regulated lamp and GSL regulations. This rulemaking will have no impact on the environment because the portable luminaire lighting products are already regulated by other broader and more up-to-date regulations. Under the common sense exemption, it can be seen with certainty that there is no possibility that the repeal of portable luminaire regulations will have a significant effect on the environment. (Cal. Code Regs., tit. 14, § 15061(b)(3).)
