Subject: 9600 Wilshire Blvd Specific Plan (SCH #2023030273) - CGS comments

Hello Andre Sahakian,

The California Geological Survey (CGS) has received a Notice of Preparation of an Environmental Impact Report (EIR) for the 9600 Wilshire Boulevard Specific Plan. This email conveys the following recommendations from CGS concerning geologic issues related to the planning area:

1. Fault Hazards

The planning area appears to be located with a zone of required investigation for surface fault rupture. The EIR should address this hazard as it relates to the proposed project. Additional information is available at the links below:

<https://maps.conservation.ca.gov/cgs/EQZApp/app/>

<https://maps.conservation.ca.gov/cgs/informationwarehouse/index.html?map=regulatorymaps>

If you have any questions or comments, please feel free to call or email.

Erik
