

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: City of Santee Multiple Species Conservation Program (MSCP) Subarea Plan

Lead Agency: City of Santee

Contact Name: Michael Coyne

Email: mcoyne@cityofsanteeca.gov

Phone Number: 619-258-4100 ext. 160

Project Location: Santee

City

San Diego

County

Project Description (Proposed actions, location, and/or consequences).

The City of Santee is preparing a Program Environmental Impact Report (EIR) for the adoption and implementation of the City of Santee Multiple Species Conservation Program (MSCP) Subarea Plan (Subarea Plan). The MSCP Subregional Plan is a comprehensive long-term program designed to create, manage, and monitor an ecosystem preserve that will support viable populations of native plant and animal species and their habitats in perpetuity in accordance with the State Natural Community Conservation Planning Act (NCCPA) and the Federal Endangered Species Act (ESA). The MSCP Subregional Plan is implemented through local Subarea Plans. The City of Santee has prepared a draft Subarea Plan to address the implementation of the MSCP Subregional Plan within the jurisdictional boundary of the City of Santee. The Santee Subarea Plan is a subregional, comprehensive program that would provide a framework to protect, enhance, and restore the habitat for specifically identified plant and animal species (Covered Species), while also streamlining permitting for Covered Activities. The overarching goal of the Subarea Plan is to support the MSCP Subregional ecosystem preserve. To meet this goal, the draft Santee Subarea Plan includes a Conservation Strategy that provides for the conservation and management of Covered Species within the City of Santee. The term proposed project, is the adoption and implementation of the Santee Subarea Plan and associated Take Permits for the Permittee (the City). Evaluation of the proposed project in the Program EIR will be focused on the potential direct and indirect impacts that could result from the implementation of conservation actions and the issuance of Take Permits for Covered Activities.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The action is adoption of a habitat conservation plan and associated General Plan and Municipal Code Amendments. The EIR will assess environmental impacts and whether mitigation is required.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
